THE STATES PICNIC.—A meeting of the committee of arrangements was held last evening to push ahead the work, and among other things mapped out a program for the day and partly completed a list of the sub-committees to represent the respective states. Increased interest was manifested on all hands. An effort will be made to secure a band or two, good vocal music will be had, a brief address of welcome, with short responses from each state represented, and various other features. A mass meeting will be held at the council chamber Saturday evening of this week, when further particulars will be developed and the list of committees completed. All are invited to attend.

ST. PAUL.—Like other churches, this one is in a very satisfactory condition. To increase its work, Rev. Wm. Lund, the newly appointed rector to St. Paul's Episcopal church in Salem, arrived Tuesday, accompanied by his family. He will enter upon a field of work that has been well sustained by the laity, who have torn the church out of the deadly embrace of debt and restored it to fine working condition. Great credit is due the ladies of this society for the hopeful condition of affairs.

WEATHER SERVICE.—Capt. Pague of Portland came over from Eola this morning, where he put in a fine barometer for Mr. Pearce, in charge of the WEATHER SERVICE. This city will hereafter be represented in the official reports of the government weather service. Self-registering thermographs, rain-gauges, and other scientific paraphernalia have been ordered for a station in this city which for the present will be in charge of the JOURNAL.

WHEEL OFF.—Clell. Nash had a mishap Tuesday evening that resulted in a single buggy being torn to ribbands. As he drove away from a repair shop, the right fore wheel dropped off at the Capital Engine corner, and in a trice the spirited animal had smashed the vehicle against a telegraph pole. The horse ran nearly to the pen before he was caught.

ELECTRIC ROAD.—In relation to the Electric road extension, the superintendent says that he thinks by hard work night and day they will be able to have the road in working order by July 4th. He is straining every nerve so as to be ready for the immense crowds that will attend the States' Picnic.

BETTER.—Last reports from Supt. McElroy indicate that his condition is improving. The nurse who sat up with him last night confirms this. None but the family are yet allowed to see him. He took some nourishment this morning and excellent hopes are entertained.

LOOK HERE.—Any person who buys a lot from me this week, I will make a present of a new suit of clothes, or to any lady I will give a $10 dress. Monroe Nye, the real estate agent, over Boothby & Co.'s clothing store. 6 8 tf

ALWAYS LOADED.—Brewster & White, the Court street feed men, always keep everything in their line, and have just put in a heavy stock of bran and shorts.

FOR JULY 4TH.—We will celebrate, not with a hoodoo, but by quietly interesting our friends in those low priced suits and clothing which are proving a boon to people of limited means, at the Woolen Mill store.

The most novel event of the evening was the photographing by flash light, of the audience with the class upon the rostrum.

A timely presentation speech was made by Rev. M. C. Wire.

ORATORICAL CONTEST.

Tuesday afternoon occurred the Dr. Bushong prize contest in oratory. It is not known to whom the prize will be awarded. The decision will be announced Thursday, at the college commencement. The contest was very close. Everywhere the remark is heard, "I'm glad I'm not a judge. I wouldn't know which was best." There ought to be six prizes so people say.

Report of Closing Exercises of the Convent at St. Paul.

The closing exercises at the Convent of St. Paul were private. From the fatherly hand of the worthy pastor Rev. F. X. Blanchet the pupils recived the gold medals destined for the most deserving. Before the prizes were given, Miss Florence Pelland gave a beautiful rendition of Leybach's Sommambular, and Miss Myrtle Powell of Portland, Oregon, read an address in a manner that would have done credit to any of our most pretentious institutions. Gold medals were awarded to Miss Florence Pelland of St Paul, for excellence in music; to Miss Maggie Feely of Portland, for highest examination average; to Miss Phœbe Lemery of Gervais, for excellence in order and neatness; to Miss Elizabeth Merten of St. Paul, for highest average in quarterly reports. Father Blanchet congratulated the recipients, and in a few well chosen words encouraged all to be faithful and watchful in little things, for the attainment of the great. By September the 1st the fine new convent now in course of erection will be open for the reception of pupils, with attractive buildings, ample grounds, healthful country air, quiet surroundings and the well known thorough training of its pupils, St. Paul commends itself to those seeking a desirable place for the education of young girls.

TO MY FRIENDS IN POLK COUNTY OREGON: I wish to help every good cause, and in compliance with the wishes of Mr. E. H. Rice and others concerned I can most cheerfully recommend Mr. Rice's fencing as a perfect and durable fence and also will say he has proved reliable so far as his dealing with me is concerned, and I sincerely believe his fencing is the coming fence for the Willamette valley and will give satisfaction wherever placed. It is simple and easy to build and easy to put up. Try some of it as I did and see for yourselves.

That the University girls average better (looking) than the boys.

That the JOURNAL makes a clean clean sweep of all news items.

The offers of free gifts of lots may be a good thing for other business, but they do not help Salem real estate any.

Escape of Prisoners.

The report that prisoners have been and are escaping from that malignant gaoler, liver complaint, is fully corroborated by the self liberated captives. Hostetter's Stomach Bitters are, they say, the means by which they get rid of their fetters. Few altogether avoid the bondage of this ailment, and few are acquainted with its signs, viz: pain through the right side and shoulder blade, furred tongue, yellowness of the eyeballs and skin, sour breath, sick headache, dyspepsia and constipation. Hostetter's Stomach Bitters puts a prompt period to these, brings them to a full stop in short order. Whether the trouble is chronic or temporary, this medicine is equally effective, regulating the liver and bowels.

Bernhardt's Dogs.

The lovers of dramatic art in Australia who are anxiously anticipating Sara Bernhardt's visit thither do not know how narrowly they missed being wofully disappointed, and all because of Sara's dogs and the Australian laws against the same. That is to say, the colonies are not warring against the divine Sara's pets in particular, but they have stringent dog laws down there, and everything of canine kind that is imported has to go into quarantine for three months. They take no chances on hydrophobia in Australia.

Mme. Bernhardt had not anticipated this, and when she was told a day or two ago it was all her managers could do to prevent her packing up instantly and bolting back to Paris, dogs and all, a most indignant woman.

"Keep my dogs for three months?" she exclaimed tragically. "Nevaire!"

Finally it was suggested that the case was not hopeless, if she were willing to be at a little extra expense.

"Money!" she cried. "How can you mention it? Anything! Everything! But save my dogs."

So a cablegram has been sent to Auckland, New Zealand, and a physician secured who will board the steamer on which Sara travels on her arrival there, and thence to Sydney continue in constant attendance on her pets. He will then make out and sign a certificate of their being in perfect health, and by means of this it is believed that the Sydney authorities may be placated and a landing gained for the dogs.

And these little precautions will cost Sara the Divine just about $1,000.

A Woman Attacked by Hogs.

Mrs. Edward Tracey, the wife of a small farmer, living near Columbus, Ohio, had a terrible adventure some weeks past with a drove of infuriated hogs which attacked her, and but for the lady's activity would have torn her to pieces. The hogs, or most of them, had on that day been bought by her husband from a drover who had brought them from an adjacent county, and it was supposed that the animals were half starved and rendered desperate. Mrs. Tracey entered the pen where they were confined with a bucket of corn in one hand and carrying a pail of water in the other, when the hogs rushed upon her, knocking the vessels from her hands and nearly throwing her down.

She ran to a small oak a few feet from her, and being an active woman swung herself by a branch up into the tree, but not until her dress had been torn to shreds and her limbs and feet badly bitten by the bristling, furious herd. She remained in the oak for a couple of hours, when she was discovered by a laborer employed on the farm, who with much difficulty succeeded in driving the still angry hogs away, and assisted her to the house. She had lost a great deal of blood and was unable to use her limbs for some weeks.—Philadelphia Times.

Danger in Setting Watches.

A great many watches are spoiled by the large clocks and chronometers which pretend to give correct time. A man going along the street sees a chronometer in a jeweler's show window, and as "chronometer" is a very big word, he feels certain that the machine must keep the best of time, so he sets his watch. A day or two later he sees a bigger chronometer in another place, and as his watch is not in accordance with it, he regulates his timepiece by the newly discovered instrument. Then he sets it again by one of the large street clocks, and in trying to keep with all the public timepieces in the city he soon finds his watch will not go at all. A watch should not, when in proper condition, be set more than once in six months or a year, and then by a watchmaker who knows how to handle it.—Interview in St. Louis Globe-Democrat.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time, and the better it is known the more popular it becomes.
