### OREGON AND THE WORLD'S FAIR

Between the millstones of back-number mossbackism and hungry spoils-seeking adventurers, Oregon is making but small progress towards an exhibit at the world's fair in Chicago. Another meeting with endless talk and aimless motions and shoe-tring resolutions has been held and the State Chamber of Commerce has again swallowed the unborn and even unexecuted fetus of this enterprise. It has already several times died "a boring" and has only been swallowed again to escape premature death.

The last effort to resuscitate the lost cause was conducted by the officials of the State Board of Agriculture. A "world's fair convention" was held at Portland Wednesday. It was attended by about a dozen, who "resolved and specified" as usual and with the usual result. Of course Mr. Allen and Mr. Osborn were there. The latter favored turning the whole thing over to the State Board of Trade, which is virtually Mr. Osborn.

Mr. Osborn said this meeting was "not an organization, and had no executive committee. But the State Board is. We could assume that there are 1000 men who will give \$100 each," said he.

Then the Telegram report says the cat jumps out!

Captain Gray, of Astoria, said Clatsop county had selected no official delegate because Astoria regarded the movement as a scheme to enrich a certain set of men by giving them fat offices at the expense of the people. He said Astoria had paid her immigration assessments, and had been sent six immigrants. He favored putting the matter in the hands of the State Board. Hon. H. W. Scott also declared that the Board of Agriculture should run it, but was ruled out of order.

Then the State Chamber of Commerce got it. If that body has no more life than its branches at Salem and Albany the subject will never be heard of again. E. W. Allen and Mr. Osborn can not run the Oregon exhibit at the world's fair. The money will not be paid by the people for them to run it, either by taxes or by voluntary subscription. They are as dead in the shell and devoid of influence with the people of the state at large so far as this matter is concerned, as the Oregon commissioners proved to be in getting the legislature to pass a world's fair bill. The quartet are exactly matched in point of influence. They command equally the respect of the people, the press, the legislature and that is not all. They do command each other's respect and admiration; but that is the end of it. The gentlemen will be fully equal to the task for no one will impose a task on them to perform. They know better than the State Press Association how to get up steam for an Oregon exhibit at Chicago. Now they know better than the State Board of Agriculture. Great is their knowledge of Oregon! No state needs an exhibit at Chicago so much as Oregon. No state stands so poor a show today as Oregon of having any. Oregon's mineral wealth, if fully represented at Chicago, could set up a house out of bricks of silver and gold, and light it with rubies and fire-opals from her own mines. Oregon woods, wools, fruits, grains and fish are capable of rich results in a display as would set the world agog with wonder and fill our cities, towns, hills and valleys with people and prosperity.

But these gentlemen who have just wrested to themselves again control of the Oregon exhibit at Chicago can not see that they are not wanted. They cannot realize that an exhibit from Oregon must be the voluntary offering of a free and enthusiastic people, instead of a matter of taxation. Taxpayers resent the idea of being taxed to support an exhibit managed by gentlemen who are not producers. The enthusiasm of Oregon people for the greatness and resources of their state is unsurpassed by any state in the Union. That enthusiasm properly appealed to would respond with carloads of exhibits from each county and raising money to get it there and set it up would be a secondary matter that would easily follow. But Oregon can not get up an exhibit by placing the cart before the horse, and proposing salaried officials to handle \$100,000 in place of arousing the enthusiasm of the masses and appealing to the local pride of the state.

Portland is great but Multnomah is not the state. These Portland convention managers may be immense factors in regenerating corrupt city politics, but there is a suspicion that a city is hard-up to have to fall back upon light-weight gentlemen for salvation of any kind.

### SALEM MENTION.

Albany Democrat: Salem will have a states picnic on the 4th of July. People from the same state will eat together. The idea is a good one.

Albany Herald: Salem is to have another church edifice. The German Baptist, of whom there are quite a number in that city, have recently purchased two slightly lots on Cottage street, and will shortly erect thereon a substantial house of worship.

Albany Herald: Prof. Anderson, of the First Salem public schools, was in the city yesterday, en route to Yaquina bay.

Characteristics of the Cowboy. Where the cowboy comes from is a mystery. He is often of Mexican origin, and more than half Indian. He is a democrat always; he lives under the flag of a republic, and knows it. He recognizes no social superior in any man; but, on the other hand, to those he considers his inferiors, as the Indian or negro, no aristocrat or aristocrats could be haughtier. He is brave to foolhardiness, and will take chances of his life that it would seem none but a crazy man would. He takes no manner of care of his health. When a long way from the camp or ranch, he sleeps where night finds him on the open prairie, with only the stars for light. He bathes when he has time, and eats and drinks anything he can get, and all he can get. He can be depended upon to do his work well, be it at camp or when driving in a big bunch of horses from the range to the ranch. He is strong as an ox, has an unbounded love for gay trappings, and is generally gay and free from care. His chief characteristic is a profound contempt for the denizen of the East, whom he calls a tenderfoot. The cowboy might not shine on Fifth Avenue, but he is found just the proper person for the ranch, and he is withal a very picturesque, very useful and very natural man. The wages paid him are small, and are usually expended as the first opportunity presents itself. He thinks not of the morrow. He is a creature of today. He is the same cowboy that Mark Twain knew, and he is no different when driving the herds in Kansas or the bunch of horses on the prairies of Dakota and the Northwest.—Ex.

Passengers destined to the prominent cities east of the Missouri river should patronize the Chicago, Union Pacific & Northwestern line. Magnificent Pullman and Wagner sleeping cars, elegant Pullman and Northwestern dining cars, free reclining chair cars, handsome day coaches and comfortable Pullman colonial sleepers. cod-aug

All Oregon is not yet in that fix.

Who shall say self-seeking, incapacity, rapacity and inveterate moss-backism shall not triumph? Oregon is in a fair way to make a world-famous display of these luscious qualities. Our Portland Snug the former and Bottom the weaver shall continue to parody her greatness before an astonished world and Columbia, represented in name only by our greatest stream shall cry out, "Behold! I was enamored of an ass."

### SUGGESTED COMMENT.

They will next try to make out that McGlutny was a German.

The JOURNAL want column is a popular advertising medium.

Salem should have a republican club in good marching order for 1892.

Spring chicken, salmon trout and cucumber salad are on the well-to-do Oregonian's bill of fare.

The editorial page of the average democratic paper now a days looks as tho' it didn't know where to catch on.

What has become of the democratic party of Portland, Albina and East Portland anyhow? Hereafter the consolidated Portland is to be run on good business principles.

The Forum for July will contain a review of the policy and an estimate of the character of the young emperor of Germany, by F. Heinrich Geffcken, imperial privy councillor, who explains in detail the dismissal of Bismarck and the relations between the emperor and the ex-chancellor. The article is one of the most important ever contributed to an American review.

The American girl generally gets there in what she sets out to do. Baccarat didn't stop Miss Garner. She married Sir William all the same. Lady Gordon Cumming is the eldest daughter of the late Commodore William Garner of New York, who, with his wife was drowned in 1876 by the capsizing of his yacht. His immense drygoods business in New York is carried on by trustees and his two daughters were his sole heirs. They are both very rich as well as handsome. The younger daughter recently married the Marquis de Breteuil, of a noble French family, and the couple are now on the way to America.

### ALBANY MENTION.

James Muggley fatally shot his wife at Milwaukee, Wednesday. Muggley married the woman in a house of ill-repute at Minneapolis and brought her here. She went back to her old associations, however, and Muggley, in a fit of desperation killed her.

Mrs. Priscilla Randolph returned to the Randolph homestead at Mount Horeb, New Jersey, recently, from a visit to Washington, bringing with her a five pound box of candy, which she had bought at a Pennsylvania avenue candy store. She passed the candy around among the children and was eating some herself when her teeth struck a hard substance. In a second there was an explosion which shattered her teeth, tore away a part of her cheek and otherwise disfigured her face. The force of the explosion carried bits of fulminate, with minute particles of copper, into the flesh. Mrs. Randolph is now lying in a critical condition, and if all the particles of copper are not removed blood poisoning or lockjaw may set in.

Shippers, consign your time freight via the Chicago, Union Pacific & Northwestern line. cod-aug

### GENERAL NEWS NOTES.

Ex-Governor Harrison Luddington, of Milwaukee, died Wednesday night, aged 78.

The artist Farrer, who was highly esteemed in America, is dead, at London.

Ex-Senator Joseph E. McDonald, of Indiana, is steadily failing, and physicians have abandoned all hope of his recovery.

The number killed in the Basle, Switzerland, accident foots up to 150 and the injured 300.

Monday's hurricane in Germany did great damage at all the coast cities. Scores of persons lost their lives at Hamburg, Kiel, Stettin and Danzig.

The steamer City of Richmond is lying at the dock in London with a fire raging in her hold.

John Duly, a prominent farmer of Benton, Ill., killed his mother-in-law and attempted to murder his young wife. The murderer, if captured, will undoubtedly swing.

The cause of the wreck at Coon Rapids is now charged to a discharged railroad employe, a large piece of wood having been found on the track. The matter will be investigated.

In a foundry near Berlin yesterday, while workmen were swinging a huge pot of molten iron, the chain broke and three workmen were burned to death and five others severely injured.

The skeleton of Benjamin Zeigler, who disappeared from Forest Grove two years ago, was found yesterday near Greenville. There was a bullet hole through his skull and a revolver was found near the remains, showing he had committed suicide.

E. Dwyer Gray has been invited by Parnell to contest the seat in the English parliament made vacant by the death of O'Gorman Mahon.

La Presse (Boulangist) says: It is rumored that the French government has determined to request the ex-empress to shorten her stay at Paris.

N. J. Schultes, of the District of Columbia, has been appointed an additional member of the immigration commission which is to visit Europe to investigate immigration affairs. He was appointed as a representative of the Federation of Labor.

A blacksmith named Roeder and his wife were burned to death Tuesday night at Neuwedel, Germany. Their house caught fire and they were overcome by smoke and were unable to escape from the burning building.

The useless body of William Butcher, a painter, was found lying in the front room of his house at Wilmington, Del., Wednesday with his throat cut. Edward Butcher, a brother of the dead man, was found lying near the corpse in a drunken state.

Two schoolboys at Usingen, Nassau, playing brigand, shot and killed their teacher, Schultes, and having robbed him of his money and watch, etc., fled. They have so far baffled the police, and a detachment of soldiers are searching for them.

The jury in the case of McCrystal and Cooney, charged with attempting to bribe Juror Gormley, returned a verdict of guilty at New Orleans Wednesday night. The jury had been out since Tuesday night.

James Muggley fatally shot his wife at Milwaukee, Wednesday. Muggley married the woman in a house of ill-repute at Minneapolis and brought her here. She went back to her old associations, however, and Muggley, in a fit of desperation killed her.

Mrs. Priscilla Randolph returned to the Randolph homestead at Mount Horeb, New Jersey, recently, from a visit to Washington, bringing with her a five pound box of candy, which she had bought at a Pennsylvania avenue candy store. She passed the candy around among the children and was eating some herself when her teeth struck a hard substance. In a second there was an explosion which shattered her teeth, tore away a part of her cheek and otherwise disfigured her face. The force of the explosion carried bits of fulminate, with minute particles of copper, into the flesh. Mrs. Randolph is now lying in a critical condition, and if all the particles of copper are not removed blood poisoning or lockjaw may set in.

### TELEGRAPHIC DISPATCHES.

Associated Press Report and Digests of all Important News of To-Day.

### MISCELLANY.

#### THE HEBREWS.

BERLIN, June 19.—Herr Isaac, who has charge of the Berlin committee for the reception of the Jewish refugees from Russia, is in favor of sending the larger portion of them to one of the new western states of America where there is still a great deal of unoccupied land. He believes that it is a mistake to dump them all in New York, and that many more would follow agriculture if they were not, under this system, too easily led to take up some petty city business, already, perhaps, overcrowded. Herr Isaac says that the committee have not failed, in any meritorious instance, to extend needed relief, the money for the purpose coming from Vienna and London, as well as from Berlin. There is some complaint of the severity with which the fugitives are treated by the German police, who will not suffer them to remain in Charlottenburg beyond the interval between the two trains. Families in this way are being hurried on to Hamburg or Bremen for embarkation before they are in a condition to stand examination by the steamship authorities. The result is that some are rejected who, with a day or two of rest upon their first arrival, would have proved entirely acceptable.

#### WILL NOT HAVE BLAIR.

WASHINGTON, June 19.—Acting Secretary Wharton and the Chinese minister held a lengthy interview regarding the case of Blair, appointed minister to the Celestial empire shortly after the adjournment of the last congress. After the interview Wharton said the Chinese government had not receded from its position regarding Blair, and would prefer that some one else should be appointed United States minister to that country. "It is clearly evident," continued Wharton, "the Chinese do not want Mr. Blair, and the United States cannot force a minister upon a friendly power in the face of unmistakable opposition."

#### A CLOUDBURST.

NEW YORK, June 19.—A dispatch from the City of Mexico says: "A cloudburst killed at least twenty-five people and many mules, besides doing great damage to property at the Concepcion mine, at San Luis Potosi, today. The mine was working full blast at the time, and there was no indication of the impending disaster early in the morning. As the day advanced, however, heavy clouds began to bank up in the south, and shortly before noon it began to blow and rain. Then it looked as if the floodgates of the heavens had been unloosed. The water came in almost a solid mass, and when the clouds had passed away it was found that houses had been washed away; the mountain streams were raging torrents, the mines were flooded so that they could not be worked, and the men and mules were swept away by the deluge. The latest telegrams place the number of bodies recovered at twenty-three so far. Thirty more persons are known to have been hurt. Work at the Concepcion mine is entirely suspended."

#### THE ALASKA RAILROAD.

CINCINNATI, June 19.—Hon Charles Francis Adams, of Boston, ex-president of the Union Pacific, has written a letter to E. H. Wells, the Alaskan explorer, concerning the latter's published scheme for building a railroad to Alaska. Adams says: "When I was last in the Dominion and also in Alaska, it seemed to me not impossible the time might come when a railroad would be needed and would be surveyed for from Winnipeg northwesterly into the mining country of Alaska; but I was equally persuaded of the fact that this time had not come, neither do I believe it will come within the next ten or fifteen years."

This significant letter is construed as a conservative admission from Adams that an Alaska railway may actually be built within the next twenty years, thus forming a link of the chain that is to connect the coast's Siberian railways with America.

#### FROM CENTRAL AMERICA.

ST. LOUIS, June 19.—A dispatch from the City of Mexico says a treaty of peace between Salvador and

## DOUBLED!
