

any intended insult or injury to the Kaiser, nevertheless it is known to the police that the German colony in London includes a number of individuals who are wholly anarchical in their tendencies and it is believed, capable of abusing the hospitality of England to their hatred of existing institutions. The German anarchists are said to have a secret club in the east of London, in which the most dangerous doctrines are discussed and actions against other governments urged, if not determined upon; no overt act has, however, yet been proved against these people. The Russian nihilists also have headquarters in London, where conspiracies are hatched and the means provided to carry them out. There is a strong undercurrent of sympathy with nihilism which does not exist for the German anarchists, and the latter would do well if they value their ease not to provoke public attention during the imperial visit.

THE MINER'S RIOT.
SEATTLE, June 30.—Matters at Franklin have assumed a still more threatening form, and Col. J. C. Haines yesterday wired to this city for another company of militia to report at once and to bring more ammunition, camp equipage, and rations for four weeks' service. Porter Robinson, one of the mine bosses, was brought to this city by a military guard, charged with killing Tom Morris and Ed J. Williams, the leader of yesterday's riot. At least one thousand shots were fired in the riot Sunday, which lasted about thirty minutes, and resulted in the death of Tom Morris, a white striker, who was killed instantly, Ed J. Williams who was shot through the abdomen and died six hours later, and the wounding of two strikers, two women, and one of the colored guards. The trouble commenced with the return of the train at 7:40 p. m. from New Castle, which contained a number of Sullivan men who had escorted the load of negroes to the latter mining camp. Two companies, B and D of the First regiment, have arrived there, and about forty other men, this afternoon, to reinforce the companies, bringing with them ammunition and camp equipage. In the morning a strong guard took Porter Robinson, who had given himself up to the deputy sheriff, to Seattle. Yesterday the excitement was very high, but the militia is encamped between the opposing forces, and will keep them from coming together.

The swindlers after securing his money told the farmer that if he said anything about it before Sunday they would kill him. Trice was so overcome with fright that he never mentioned the affair even to his wife until Sunday evening.

STAFF OFFICERS.
WASHINGTON, June 30.—A quotation of interest to army officers has been presented to Acting Secretary Grant for settlement, involving the rights and duties of staff officers. General Howard, commanding the division of the Atlantic, recently called a court-martial and detailed for duty as a member of one of the commissary officer's stations within his division. This officer protested against this detail, and claimed exemption from such under a regulation which placed him under the direct orders of the secretary of war. No decision is yet given in this, and it is awaited with great interest by engineers, commissary and other staff officers.

A LUNATIC.
PROVIDENCE, R. I., June 30.—Before the arrival of ex-President Cleveland to attend the dinner of the Commercial club, F. M. Puritan was wandering about the streets here announcing it was his intention to visit Mr. Cleveland and demand \$100,000 as the price of his re-election to the presidency. Puritan, however, made no attempt to go to Narragansett hotel, and his talk was evidently only the result of his delusions. He was formerly a very bright young man. He is a graduate of Brown university, had served in the navy and had traveled extensively, but his mind became deranged some years ago, and he was only recently released from the lunatic asylum in Cranston. His delusions speedily returned, however, and for some weeks past he has been regarded as dangerous. He came to Providence from Canada Thursday, and Sunday was again imprisoned in the Cranston asylum.

WORK OF FLAMES.
SAN FRANCISCO, June 30.—Fire was discovered at 3 o'clock yesterday afternoon in a three story brick tenement building in Chinatown, occupied by about 300 Chinese. STATE.
FROM CAMP GRANT.
EUGENE, June 30.—Ten companies, numbering in all five hundred men, are in camp near this city. Regular army discipline prevails. About the only bad feature is the poor quality of food served. All who can obtain permission to go to town for their meals are doing so at their own expense, rather than eat that provided by the state, and the hotels and restaurants are consequently making money. Eugene is lively, there being many visitors in town. Lieutenant Holley, of the regular army, has the supervision of the camp.

Men were shot down by a company of sharpshooters. The dead sailors and officers were in charge of the steamer torpedo launch Guada in Valparaiso bay. One night the commander proposed to his crew to desert and go over to the constitutional party. All acquiesced except one. He notified the authorities at once, and the men were captured and taken to Valparaiso, and thrown into prison. Wanted—A New Work on Botany.
It is very difficult for persons who have had no special training to learn the names of the flowers from the botany. The botany is a sealed book to them. The descriptions of the flowers are in a language which they do not understand at all, and the key is no help to them. It is as much a puzzle as the botany itself. They need a key to unlock the key.
One of these days some one will give us a handbook of our wild flowers, by the aid of which we shall all be able to name those we gather in our walks without the trouble of analyzing them. In this book we shall have a list of all our flowers arranged according to color, as white flowers, blue flowers, yellow flowers, pink flowers, etc., with place of growth and time of blooming.
Also lists or sub-lists of fragrant flowers, climbing flowers, marsh flowers, meadow flowers, wood flowers, etc., so that, with flower in hand, by running over these lists we shall be pretty sure to find its name. Having got its name we can turn to Gray or Wood and find a more technical description of it if we choose. Indeed, I have heard that a work with some such features has actually been undertaken by a lover of birds and flowers.—John Burroughs in St. Nicholas.

A Snow Storm Indoors.
On a very cold, clear night an evoking party was given in a salon in Stockholm, Sweden. Many people were gathered together in a single room, and it became so warm in the course of the evening that several ladies complained of feeling ill.
An attempt was made to raise a window, but the sashes had been frozen in their place and it was impossible to move them.
In this situation, as it was absolutely necessary that air should be admitted, a pane of glass was smashed out. A cold current at once rushed in, and at the same instant flakes of snow were seen to fall to the floor in all parts of the room.
The entrance of a frosty current into an atmosphere which was saturated with moisture had produced a snow fall indoors.—La Nature.

Beats His Town.
He had been making several inquiries of a policeman at the Erie depot in Jersey City and all had been satisfactorily explained, when he said:
"There's an awful difference between this town and ours, I tell you!"
"How?" asked the officer.
"Why, all the police force we've got is old Jerry Thomas, who couldn't arrest an old lame hen. If I should go up to Jersey and ask him if he knew whether Jim Peterson had got back from Syracuse, do you know what he'd say?"
"I do not."
"Well, he'd pull out two revolvers, three pairs of handcuffs and a club and yell at me, 'No, no, I don't care, and you nogalong or I'll run you in on that old warrant for stealing two jugs of cider vinegar!'"—New York World.
