CYCLONE IN THE SOUTH.

It Caused Great Destruction at Baton Rouge.

BIG CONVENTION AT ARKANSAS CITY.

The Itata, Rail Road Accident, Hanibal Hamlin Dead, Steamer Sunk, From Portland, State and Foreign News, Etc.

CYCLONE IN LOUISANA.

BATON ROUGE, July 6.—A cyclone from a southwesterly direction, passed through the residence part of the city at 6:30 p. m., destroying many houses. The penitentiary is all blown in and many of the inmates killed and wounded. Eight killed and twenty-eight wounded have been taken from the debris of the penitentiary thus far. A later report says ten persons were killed and thirty wounded. The factory building was demolished and the hospital and penitentiary are a mass of ruins. The steamship, Smoky City was blown to pieces, there being nothing left but her hull. Several of the crew were badly injured.

CYCLONE IN MISSISSIPPI.

MEMPHIS, July 6.—A telegram received in this city this afternoon, reports a cyclone that passed through Madison, Mississippi, this morning. Several buildings were demolished and considerable damage done. Further information is unattainable, as all wires are down.

SETTLERS WANT THE STRIP.

ARKANSAS CITY, Kans., July 6.—Preparations are now complete for a gigantic convention of home seekers in this city next Saturday. The presence of over 100,000 cattle on the Cherokee strip has aroused the people and they feel if they are ever to get homes in that land they must act. Jerry Simpson, Senator Pfeffer, Charles Mansur, P. P. Elden, W. M. Springer, Chief Mayes and other prominent men have promised to be present and make addresses.

THE ITATA.

SAN DIEGO, July 6.—Nothing new has developed as regards the Itata. Though she has been here two days nothing had been heard from United States Marshal Gard or District Attorney Cole, who are at Los Angeles. The vessel at present is in charge of Collector Berry, who holds her for violating the navigation laws in leaving port without clearance papers. The Itata will plead guilty to this charge and pay the fine. As to the charge of violating neutrality laws, under which the Itata was first arrested and for which she was brought back by the Charleston, the delay in taking action exhibited by the government officials at Los Angeles is occasioning considerable comment. Not a word has been received from them. The opinion expressed by many lawyers of this city is that the delay is caused by a realization of the fact by the authorities at Washington that the charge went hold.

RAILROAD ACCIDENT.

CHARLESTON, W. Va., July 5.—The worst wreck ever known in this part of the of the state occurred about 8 o'clock yesterday morning, on the Kanawha and Michigan railway, eight miles west of here. A passenger train for Columbus pulled out from here with two carloads of excursionists, and the wreck occurred on a high trestle. The cross ties had caught fire during the night, and burned so that the rails spread under the train. The engine and baggage and mail cars passed over safely, but two cars were thrown from the track. After running about forty feet on the ties, the forward car toppled to the left, and the rear one to the right. The forward car turned completely over and landed right side up. The other fell twenty feet, turning upside down, and one set of trucks fell on top of it, crushing the car to splinters. Under this place most of the dead were found. Eleven persons were killed; fifty-eight were counted who are injured, and a number walked away before they could be seen. Of the entire number of passengers, but one escaped without a scratch.

HANNIBAL HAMLIN DEAD.

BANGOR, Me., July 5.—Hannibal Hamlin is dead.

[Hannibal Hamlin was born in Paris, Oxford county, Maine, August 27, 1809, and was consequently in the 82d year of his age. He was elected U. S. senator in 1848, and governor of Maine in 1857. He resigned the governorship a month afterwards and was again elected U. S. senator, when he again resigned, having been elected vice president on the ticket with Abraham Lincoln. He afterwards served in the senate from 1869 to 1881. He died at 8:15 o'clock, July 4.]

NOT ELECTROCUTED.

SING SING, N. Y, July 6.—It is semi-officially anounced that the four murderers will not be electrocuted today. Execution will probably occur at day break tomorrow.

CITY OF PORTLAND.

PORTLAND, Or., July 6.—At noon today the consolidation of Portland, East Portland and Albina was consummated by the recently elected city officials assuming their respective offices.

MOSES BROS. SUSPEND.

MONTGOMERY, Ala., July 6.—Moses Bros.' bank suspended payment this morning. They say their assets will amount to more than their liabilities. The failure is due to stringency of money. Liabilities are said to be about $500,000. They did a saving bank business and had scores of depositors among the poorer people. There was a great throng of them around the doors of the bank this morning. A local bank last Saturday offered Moses Bros. $100,000 to tide over the crisis but they refused to take it. The firm stands very high for integrity and few believe there is anything dishonest about the suspension.

UNION PACIFIC.

BOSTON, July 6.—Union Pacific statement (preliminary) shows net earnining $1,029,000, a decrease of $274,000 for the five months ending May 31. Net earnings show an increase of $257,000.

BURIAL OF PAYMASTER ARMES.

ANNAPOLIS, July 6.—The remains of Paymaster Armes, U. S. Navy, who with others was drowned in the terrible hurricane at Samoa, two years ago, was interred in the naval cemetery here today.

A FRIGHTENED ELEPHANT.

DENVER, Colo., July 6.—Yesterday afternoon there was an immense crowd on Manhattan beach to witness a balloon ascension. It was advertised that the children would be given a ride on the back of an elephant there. The elephant made two trips and was returning to the animal house with eight children on his back, when the balloon started up. The animal became terrified, and began trumpeting and running about, making frantic efforts to upset the children. All fell. All but one escaped uninjured. Little Johnnie Eaton was the victim. He was caught under the elephant's feet and crushed out of all semblence to humanity. The keeper of the elephant stuck a pitchfork in the animal's trunk and was thrown high in the air by the enraged beast. He was not, however, seriously hurt. By this time other attendants managed to secure the elephant with a chain. The parents of the child are frantic with grief.

FOREIGN.

STEAMER REPORTED SUNK.

LONDON, July 6.—Intelligence has been received that a large steamer was sunk off Dover, some time during last night. Dispatches say that one mast of the vessel is visible above water. No details of the disaster is yet obtained.

INFLUENZA.

LONDON, July 6.—The government's report upon the recent influenza epidemic and the origin of that epidemic and kindred matters have presented parliament a report containing a mass of interesting evidence, but it does not solve the problem as to the origin of influenza, nor does it provide any sure preventative of that disease, on the other hand the report dispels the common idea that influenza is spread by atmospheric conditions and prove it is propogated by personal contact.

GUN BURSTS.

SYDNEY, N. S. W., July 6.—The British war ship Cordelia has just returned to this port after a disastrous trip at sea, for practice with her big guns. Captain reports while firing one of the six inch breach loading guns it exploded, killing Lieut. Nillyar, Lieut. Gordon and four seamen and wounding three midshipmen and ten seamen.

PRINCESS LOUISE AND PRINCE AUBERT.

LONDON, July 6.—The Emperor of Germany today visited Eton school. The great event of the day at Windsor is the marriage of Princess Louise of Schlesswig Holstein, to Prince Aubert of Anholt. In view of the crush expected, a force of about 1500 policemen was sent from this city to Windsor, and in addition the entire constabulary force of Windsor and its neighborhood are on duty. Flags, flowers and bunting are everywhere displayed.

HIPPOLYTE NOT DEAD.

NEW YORK, July 6.—The steam ship Allena from Jeremie, Hayti, arrived this morning. She left Hayti June 25th, and just before sailing her officers report 200 persons were put to death at Port au Prince, by order of Hippolyte. Hippolyte is not dead, as rumored.

LA GRIPPE.

OTTAWA Ont., June 6.—It is reported the grippe is working havoc among the inhabitants in the vicinity of Belle Island and that a great many are reported starving.

CRAMPED FOR FUNDS.

HALIFAX, July 6.—Orders have been given to cease work on most of the contracts on Chignecto ship railway. The company has already spent $3,000,000 upon its construction, and it is understood to be cramped for funds.

WEATHER REPORT.

SAN FRANCISCO, July 3.—Forecast for Oregon and Washington: Light rains at Fort Canby and Olympia.

MARKETS.

WHEAT.

CHICAGO, July 6.—At close wheat week. cash .91¼@.95; Sept., .87¼; Dec. .91.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price, 25 cents per box.

ODDS AND ENDS.

Fruit stains will usually yield to hot water when persistently poured upon them.

Teachers' salaries in the United States annually amount to more than $60,000,000.

There is a difference of only twenty-two square miles between the areas of England and Iowa.

The first word spoken through the London-Paris telephone was the good old English word "Hallo."

A billion dollars would give 100,000 young men enough capital to start in a profitable business for themselves.

The Duke of Portland is said to possess, in addition to mines and lands, an interest in house property to the extent of $20,000,000.

The man who sneers most sarcastically at the ability of medical men is usually the quickest to send for a doctor whenever he has a pain.

Phosphorus is now being made by decomposing a mixture of acid phosphates and carbon by the heat of an electric arc within the mass.

Strychnine has been found to increase the amount of gastric juice secreted in the stomach, the general acidity and the quantity of free acid in the secretion.

Proverbs have been called the condensed wisdom of experience, so it may be well to heed this one, likewise of Arabian origin, "To succeed in love or at law, you need the devil for your friend."

Manufacture of Thimbles.

Dies of different sizes are used, into which the metal, whether gold, silver or steel, is pressed. The hole punching, finishing, polishing and tempering are done afterward. Celluloid and rubber are molded. The best thimbles are made in France, where the process is more thorough.

The first step in the making of a Paris gold thimble is the cutting into a disk of the desired size a thin piece of sheet iron. This is brought to a red heat, placed over a graduated hole in an iron bench and hammered down into it with a punch. This hole is the form of the thimble. The iron takes its shape and is removed from the hole. The little indentations to keep the needle from slipping are made in it, and all the other finishing strokes of the perfect thimble put on it. The iron is then made into steel by a process peculiar to the French thimble maker, and is tempered, polished and brought to a deep blue color. A thin sheet of gold is then pressed into the interior of the thimble and fastened there by a mandril.

Gold leaf is attached to the outside by great pressure, the edges of the leaf being fitted in and held by small grooves at the base of the thimble. The article is then ready for use. The gold will last for years. The steel never wears out, and the gold can be readily replaced at any time.—New York Telegram.

A Tennis Costume.

Buy ten yards of outing cloth at twelve cents a yard. If you like stripes, choose one of the pretty combinations of soft blues, pinks, grays and creams; but if you prefer you can get the cloth this season in a solid color. If you have a supply of silk shirts and a good blazer you will not need more than seven yards. Have a full round short skirt, the draperies being as plain and straight as possible. If you cannot afford silk shirts make a shirt of the outing cloth on the model of the silk shirts sold in the stores, with turnover collar and lacings in front of bright cord.

Get a leather belt, if you have a slim figure, to match in color your tennis shoes; or get a silk waist scarf or sash, knotting it in convenient position at one side without passing about the waist, if you are not slim. Get two or three silk scarfs to knot into pretty ties at your throat, and then you will be fixed, except as to shoes.

Your tennis shoes, if they are good ones, will cost about three dollars, and you can tie them up with cords of the color of your sash and the bright stripe of your gown.

Then there is the hat—it was nearly forgotten. A little sailor hat answers fairly well, simply trimmed with ribbons like your sash and shoe lacings, or, if it becomes you, a big bright Tam o' Shanter is a patch of color in the tennis field.—New York Recorder.

White Neckties.

Within the past two or three years there has been a marked increase in the number of people wearing white neckties of silk, satin, linen or cotton, in the public streets, wearing them not in preparation for dinner, but as a part of the regular daily garb. A reporter who walked along Broadway the other afternoon saw over a score of them around the necks of well dressed men. In some cases they were becoming; in others, they were not. The bowknot white necktie looked seemly upon some wearers; the white scarf looked well on others.—New York Sun.

London Electric Lighting System.

London was slow to accept the electric light, but is now making up for lost time. At the general meeting of the Metropolitan company the chairman reported that within a year the number of the lamps supplied by them had increased from 6,000 to 60,000. As to their system of underground mains, he said that the length of conduit at present laid was forty miles, and into those conduits there had been laid ninety miles of mains, and not one fault or leakage had occurred.—New York Telegram.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time, and the better it is known the more popular it becomes.

NOT ROD-WIELDERS!

But Intelligent School Ma'ams and School Masters.

Supt. Yoder, of Marion county, opened the third annual county teachers' institute at 9 a. m. The enrollment the first day is 60 against 42 for first day in 1890.

The first county superintendent in Oregon to hold an institute Prof. Yoder takes a pardonable pride in the growth of his pet idea. His assistants in the work of administering normal training to young men and women are Profs. Peebles, Ackerman and Wetzell, accomplished teachers of good standing. The institute opens at 9 a. m, and closes at 5 p. m. There is great interest manifested and the institute promises to have a larger attendance.

G. H. Wilkes, of Lebanon, R. E. Mitchner, of Halsey, and K. Barnard, of Tillamook, are undergoing examination at the State Superintendent's office, for state diplomas.

A Wonder Worker.

Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds, and at that time he was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better, he continued to use it and is today enjoying good health. If you have any Throat, Lung and Chest Trouble try it. We gaurantee satisfaction. Trial bottle free at Fry's Drugstore.

Marion Co. Normal Institute.

The third annual session of the Marion county Normal Institute, will be held in the East Salem school house, commencing Monday, July 6, 1891, and will continue three weeks.

Regular class work will be done, under the management of able instructors, in the branches taught in our schools, and, if a sufficient number desire it, classes will be organized in Physical Geography, Composition, and Bookkeeping.

The objects of the Normal Institute are to review the subjects taught in the common schools, and to discuss the best methods of presenting them to pupils. The Institute is not held for teachers only, but also for those who intend to teach.

Bring text books on all branches. Try to be present at the beginning of the Institute.

A Fee of one dollar will be charged to help defray the expenses of the Institute.

For further information address D. W. YODER.
