ing into the desert. The correspondent states that while the water seemed to be falling and was from one to five feet deep in Salton lake, there is a volume of water, which must apparently come in from various lakes along the route, and that the streams themselves are carrying much water. He believes a channel is permanently cut, and that it will always contain water except in the lowest stages of the Colorado river.

STRUCK BY LIGHTNING.

LIVERMORE FALLS, Me., July 16.—A heavy thunderstorm visited North Bay Wednesday. Buildings owned by R. E. Bryant, valued at $40,000, were struck by lightning. Bryant perished in the flames.

EDUCATIONAL ASSOCIATION.

TORONTO, Ont., July 16.—The international association elected the following officers this morning: President, E. H. Cook, New York; secretary, R. W. Stevenson, Kansas; treasurer, J. M. Greenwood, Missouri; first vice-president, W. R. Garrett, Tennessee. E. B. McElroy, of Oregon, was elected vice-president at large.

LIVELY EXPLOSION.

ROCHESTER, N. Y., July 16.—At exactly midnight a sharp concussion, resembling an earthquake, was felt all over the city. Later it was learned that the gasometer of the Rochester Gaslight Company, situated on Litchfield street, had exploded. The gasometer was 100 feet in diameter and forty-five feet high, with a capacity of 300,000 cubic feet. The tank was hurled in fragments in several different directions. One piece struck a canalboat, injuring the captain, who name is unknown, so badly that it is reported he will die. The watchman of the gas works is supposed to have been killed, as he has not been seen since the explosion. The company has been preparing to clean the tank, and it lacked three inches of being full of water, with all the vent holes in the top open, consequently there is a mystery as to the cause of the explosion. Glass was broken all over the west side of the city. The tank was valued at $60,000.

FIRE AT TENINO.

TENINO, Wash., July 15.—At 6:30 yesterday fire was discovered in the upper part of Allison & Allinger's general merchandise store. The fire spread to Gilmore's barber shop on one side of the store, and on the other to George Sumption's boot and shoe store, then to Gilmore's confectionery and ice cream parlor, then to Johnson's business building, which was vacant.

Thompson's meat market was pulled down to stop the fire from other buildings. The loss is estimated at $3100, fully insured, except one building, valued at $200.

The loss on goods and stock is small, as the contents of the buildings were carried out in the street and saved. The fire is supposed to be the work of an incendiary, as there had not been any fire in any shape in the building for many weeks.

UNION PACIFIC.

BOSTON, July 16.—The May statement of the Union Pacific shows the gross earnings of the system, $3,419,000, a decrease of $748,000.

BRADSHAW'S CASES.

WASHINGTON, D. C., July 16.—The cases against Collector Bradshaw, of Port Townsend, Washington, recently investigated by the treasury department, have been tranferred to the president at Cape May for action.

DENIES THE STATEMENT.

HARRISBURG, Penna., July 16.—Auditor McCamman, in speaking of the statement that he shared with the Philadelphia defaulting treasurer, Beardsley, denies with emphasis that he ever received any money.

HAD NO AUTHORITY.

SAN DIEGO, Cal., July 16.—An inquest was begun yesterday afternoon on the remains of the sailor of the Charleston who was killed on Tuesday. The evidence developes that the officers who claimed to be U. S. deputy marshals were not deputized by Marshal Gard and therefore had no authority to arrest the sailors.

At the inquest this morning the evidence was even stronger than yesterday that the attacks of the officers were criminally brutal. It develops this morning that a well arranged plan to lynch the deputy marshals hung fire last night. Sixty citizens, fully armed were up until 2 o'clock this morning debating whether or not the prisoners should be lynched. Better counsels prevailed and it was at last concluded to await the result of the inquest. There is an apparent determination on all sides to see justice done.

CONNECTICUT AND ELECTROCUTION.

HARTFORD, July 16.—One of the matters which may engage the attention of the present Connecticut legislature is the question of substituting electricity for hanging in the infliction of the death penalty in this state. The report of the recent electrocution of four murderers at Sing Sing has led different parts of the state to the consideration of the subject. Representative Stevens, of Bridgeport, will probably introduce the bill. He will be careful, however, to omit the clause regarding secrecy, as he regards that very un-American idea prejudicial to the interest of society and a direct violation of the constitution of the United States, so far as it relates to the liberty of the press. He cannot see where the slightest good is derived therefrom.

A VICTIM OF REMORSE.

The Editorial Convention at St. Paul.

OHIO CONVENTION ADJOURNS.

The Great Howell Failure, The Manitoba Crops, Late From Chili, A Lion Loose, Safe Cracking, State and Foreign News, Etc.

VICTIM OF REMORSE.

CHATANOOGA, Tenn., July 16.—Judge James A. Warder who shot and killed his son-in-law, S. M. Fuggette, and dangerously wounded his daughter, Mrs. Fuggette, while she was trying to save her husbrnd's life, January 1 last, shot himself in the right ear yesterday morning, at Stone Cottage, Lookout mountain. He survived until 1:45 o'clock. Judge Warder was district attorney of this city at the time of the murder, which was the most appalling tragedy known in this state. Intense grief gradually unsettled his mind, until be became a shadow of his former self.

DO NOT WANT DETAILS.

ST. PAUL, July 16.—At the meeting of the editorial association this morning W. E. Pabor, of Denver, read a communication from the women Friends of Maryland, Pennsylvania and Virginia urging that action be taken on the omission of the details in reports of crimes, including suicides, scandals and breaches of faith and honor.

Member Food and Dairy Commission—H. S. Quimbo, of Lawrence county.

After passing the usual vote of thanks to the officers of the convention. At 5 p. m. the convention was adjourned sine die.

THE HOWELL FAILURE.

ATCHISON, Kansas, July 16.—The attorney for Geo. W. Howell of Howell Lumber Co. which failed yesterday says the failure is caused by the failure of the Jeffersonville Lumber Co. which was a debtor to Howell for $400,000 and the sale of the Omaha plant by Herbert Jewell which was wholly unexpected. Liabilities of the Atchison concern $250,000 of which the National Bank of Chicago is creditor for $200,000. Asserts of all the Howell concerns are placed at $3,000,000 liabilities are unknown. It is stated the outstanding "Accommodation Papers" will reach from one to one and half million dollars.

WILL GET MONEY.

CHICAGO, July 16.—It is stated at the First National bank that as Howell's affairs are straightened out it will advance them money to begin business again.

A LION LOOSE.

ROCK ISLAND, July 16.—Forepaugh's show exhibited at Rock Island yesterday and gave a scene not down on the bills. The afternoon performance was attended by some 6000 people. Just as the great crowd started to leave the big tent there was a cry heard at the entrance "The lion is loose." The passageway out of the tent was packed with people, and back of them were some pushing to get out. The alarming cry was repeated and the circus employes rushed in to force the crowd back into the tent. Women shrieked and children cried, while men lost their heads in the confusion. Pickpockets took advantage of the opportunity to do their work, and succeeded in several instances. One woman was carried to the nearest house and a docter summoned. Others got off with bruises. That so few were hurt in such a stampede is a wonder. The cause of the warning was not imaginary. An employe went to the cage containing the lions with a piece of meat. Opening the door to throw the meat into the cage, he fell and the bloody bone dropped to the ground. One of the lions made a dive after it and jumped out of the cage, but the beast was soon driven under the wagon, where it was held by loose pieces of iron fence until the crowd could depart, but it was some seconds before the people could be made to feel that the danger was over, and during this interval the wildest confusion ruled. Men, women and children rolled under the canvas, while others climbed upon benches, many of them shrieking.

SAFE-CRACKERS.

LOS ANGELES, July 16.—The safe of the Union Lime Company was blown by crackers and robbed of valuable papers and $1900. It is supposed it was done by the same gang of safe-crackers who blew open the safes of Stoll & Co. and the Santa Fe office.

IMPROVED HER CHANCES.

CINCINNATI, July 16.—John Roberts passed as a single man. He was rich and courted, but to all appearance lived a bachelor life. A year ago he died. Then came forward Miss Alice Nickert, who claimed possession of the estate, worth something like $100,000, setting up the claim that she had for years lived with Roberts as his wife under an assumed name. The Roberts family started in to fight the case and it has dragged some months through the courts. Yesterday Miss Nickert accepted $14,000 cash to drop the suit. She has secured about $20,000 from Roberts during his life, which had been judiciously invested in realty, and she has a lot of valuable jewelry.

MURDERED HIS WIFE.

CLIFTON, Ariz., July 16.—Lonjino Jinso murdered his wife this morning at San Jose. She left him five months ago and was living with another man. Jinso stabbed her with a dagger driving it to the hilt through her breast and afterwards laughed over the deed.

LOVE WAS STRONG.

LITTLE ROCK, Ark., July 16.—Miss Adelaide Mansfield, daughter of Justice Mansfield, of the state supreme court, attempted to commit suicide. The cause of the attempt is withheld, but it is admitted that she ran away from school, and was prevented by relatives from eloping with her lover. Miss Mansfield took a large dose of morphine, and her life was saved with the greatest diffulty.

How His E[illegible] ...ren.

A funny story is told at the expense of Dr. Wekerle, Hungarian minister of finance. His excellency has a country seat at Pills, near Buda-Pesth, where he is in the habit of spending his Sundays. His only piece of luggage on these occasions consists of a small handbag, which never contains anything else but the regulation bottle, four handkerchiefs and a traveling cap. Returning on Monday to the capital, the minister met a friend, a gentleman named Von Fischer, who was carrying a bag exactly the counterpart of his excellency's valise. Herr von Fischer smiled a thoughtful smile as he noticed the similarity of the bags, and then he winked at the minister.

"Why, my dear baron, what's up?" queried the minister.

The baron leaned forward and whispered: "Why, my bag is filled with smuggled Turkish tobacco. You will be good enough to shield me against the custom house spies, I hope."

The minister looked serious. "I will do nothing of the kind," he said, and when the two gentlemen arrived at the Pesth depot the minister beckoned to a custom house official and said, "My friend desires to pay duty on a lot of Turkish tobacco he has in his bag."

"His excellency is joking," cried the baron, who meanwhile had changed bags with the minister. "See, I have no contraband articles about me," and he opened the bag in proof of what he said. The minister looked perplexed for a moment, then he resolutely grabbed his friend's bag and said to the official: "Well, assess me for the tobacco, but be quick about it. I have no time to lose."

The official quickly acted on the suggestion, and the minister paid three florins and fifty pfennigs into the treasury of his own department. Then he jumped into the carriage and drove off, shouting out his thanks to the baron for his present of twenty pounds of excellent tobacco.—Berlin Cor. Philadelphia Times.

His Pencil Spoke for Him.

An artist of convivial tendencies sat in a down town cafe. He had probably risen long before his wonted hour to observe the beauties of the dawn, and had attired himself in the dark, for he nodded in his chair, and between the backward and forward motion of his thickly covered head his bared throat showed a lack of either collar or necktie.

By and by he shook himself together, and becoming aware of his deshabille called over a waiter and said a few words to him. But the garcon was a recent importation, and knew naught of early morn English, and so informed the artist by gesture. The artist, however, knew a language which is understood by every one who can see. He produced a pad and rapidly sketched in a collar of the latest pattern, around which he next drew a necktie of the newest kind. Underneath he wrote the name of a furnishing house, and placing a dollar bill on top of the sketch exhibited it to the waiter.

"Ah! mois, oui, monsieur, je comprends," and before many minutes had elapsed he returned with a collar and necktie strictly after the fashion of the sketch. And then the artist imbibed a punch and felt better.—Pittsburg Dispatch.

Von Moltke's Last Game of Whist.

It is interesting to note that Count von Moltke, who was always a great whist player, should have had special luck in his last rubber. His partner, who usually held bad cards, was also more fortunate on that fatal Friday evening, while the field marshal himself was in high spirits.

"Now we have them!" he said smilingly, as he played his last hand; and, indeed, he won the rubber by scoring what is called grand schlem—that is, he and his partner took all the thirteen tricks.

It is true that he complained a little during the course of the game of asthmatic uneasiness; but as he was subject periodically to this complaint in later years he neither paid much attention to it himself nor were his relations influenced by any apprehension of sickness or danger. He spoke of pains in the region of the stomach, which he attributed jokingly to having taken too much cake with his tea.—Exchange.

Swallows Instead of Carrier Pigeons.

An interesting account has appeared of an experiment made in the north of France in the training of swallows as carriers, and in testing the swallows so trained by competition with carrier pigeons. A brood of young swallows having been taken from their nest in the eaves of a house, were first trained to fly from the ground to the nest; then, by gradually increasing stages, from Roubaix to Lille, and finally from Paris to Roubaix, a distance of 140 miles.

When this had been successfully accomplished a race was arranged over the latter course between the swallows and some trained carrier pigeons, with the result that the swallows came in winners by three-quarters of an hour. The success of the experiment seems to reveal great possibilites for the future of this method of rapid communication.—Land and Water.

DO YOU FAVOR

Building up a Strong, Independent Paper for the People in Oregon?

A PAPER THAT WILL NOT SELL OUT—
Printed at the Seat of Government

LOOK AT THE RECORD OF THE CAPITAL JOURNAL.

During the recent session of the legislature it was the only paper in the state that attacked successfully the Portland dictatorship in Oregon politics. It successfully opposed all doctoring the Australian ballot law in the interests of political bosses. It advocated the law (that passed) giving the Oregon railroad commission power to fix just and reasonable rates of freights and power to enforce its decisions. It successfully advocated retention of the old railroad commission as best qualified to enforce the law. It labored for all measures to open rivers and thus secure to the people the right to free and unrestricted use of the waterways.

ITS PLATFORM.

THE CAPITAL JOURNAL favors a reform in national finances, to the end that the present expensive monopoly system of supplying an inadequate currency may be supplanted by the government issuing direct to the people an adequate supply of legal tender money, with a coin basis sufficient to conform to sound banking principles. It favors election of all officials who legislate for, or are directly responsible to the people, by direct vote of the people. It favors raising all state revenues by a tax on the gross earnings of corporations, both foreign and state. It favors opening all waterways to the sea and a control of all common carriers to the end that the producer shall secure for his labor the largest net returns.

If you favor retaining all powers possible in the hands of the people and government in the interests of the people, circulate this paper. For terms, see elsewhere.
