

league, our free trade system does not appear to be greatly endangered. But we must be on our guard as these proposals are now strongly urged by the colonists, as well as by the league. Protectionism in the protectionist country has not attained the height at which it stood at the time of the goldrush. The interests of employers and landowners are powerful and the governments find it comparatively easy to raise enormous revenues by collision with interests which profit by protection. The report also predicts composition and kindred trades will not suffer on account of the American copyright act.

THE CROPS OF THE WORLD.
Mrs. Maybrick Wanted Life Insurance.
TO PROTECT OUR FISHERMEN.
The Airship no Good, Complicated Case, Spurgeon May Recover, Several Bank Failures and Assignments, State and Foreign News, Etc.

FAMOUS M'COY.
CANTON, Ky., July 20.—A bloody fight took place on Black creek, Logan county, W. Va., Saturday between two of the famous Met by crowd and George Roberts. They, in connection with several others, were drinking, and a row was started, which resulted in Roberts receiving sixty-seven buckshot and a fall from a Winchester rifle in his body. His slayer, Tom McCoy, gave himself up. He claims to have acted in self-defense.

MURDER AND SUICIDE.
CARTHAGE, Mo., July 20.—Saturday night at 11 o'clock cries were heard issuing from a house occupied by Mrs. Smith. An investigation disclosed the dead bodies of the woman and J. H. Gilbert, a farmer, lying side by side on the bed. In the head of each was a bullet hole, telling the story of death. Who caused the deaths has not been ascertained, but it is supposed that Gilbert first shot the woman and then himself.

BLOODY ENCOUNTER.
LITTLE ROCK, July 20.—Particulars of a bloody encounter near the Creek nation have been received here. The partisans of Chief Pipeche, and Wesley Smith, the candidate for chief, came together at a barbecue near Fisher. Guns, pistols and knives were used. Four persons were fatally hurt. The opposing candidates, who united efforts, pacified the factions, preventing further trouble.

FIRE ONE WAY.
CHICAGO, July 20.—The Transcontinental association has notified the world's fair people that the lines west of the Missouri river will carry free returning all goods exhibited at the exposition that had been paid for at full tariff rates going to Chicago. All other traffic associations have agreed to the same plan.

CAPT. RENTON DEAD.
SEATTLE, July 20.—Captain William Renton, the blind millionaire, owner of Port Blakely and other mills, chief owner of the Port Blakely railroad, and member of the firm of Renton, Holmes & Co., San Francisco, died at his home in Port Blakely Saturday night.

DESTRUCTIVE FIRE.
SEATTLE, July 20.—At 6 o'clock Saturday evening fire broke out in the supply house of the Seattle, Lake Shore & Eastern railroad at Boulevard, and consumed the entire building and contents. The loss is estimated at \$6000. No one was about the building at the time the fire broke out. It must have caught from sparks of an engine. The favorable wind is all that saved the car shops adjoining from the flames.

GODDARD THE WINNER.
MELBOURNE, July 20.—Joe Goddard, the Australian pugilist, today defeated Joe Choyinski, of California, in four rounds for a purse of \$10,000 and the championship of Australia. Goddard had the advantage throughout the fight which was a hard battle.

VILLAGE DESTROYED.
LIMA, O., July 20.—The village of Round head, in Hardin county, was nearly destroyed Saturday by fire. A large wheel factory was struck by lightning and the flames rapidly spread. No particulars have as yet been received. The loss is estimated at \$50,000.

MILITIA ORDERED OUT.
NASHVILLE, Tenn., July 20.—Governor Buchanan has ordered out all the state militia to Briceville, Tenn., to protect convicts at work in the mines at that place. It is stated two thousand miners are marching to the seat of war.

FOREIGN.
FRENCH MINISTER TO RESIGN HIS OFFICE.
PARIS, July 20.—The chamber of deputies just an entire new tariff measure. The chamber rejected the proposal made by DeFreycinet, president of the council and minister of war, to grant \$120,000 to L'Ecole Polytechnique. As a result the session of the chamber was suspended and a cabinet council summoned to consider the situation. The cabinet of ministers having represented to DeFreycinet that the rejection by the chamber of deputies of the credit asked by him for the L'Ecole Polytechnique did not imply want of confidence in the government, he decided not to resign.

AMERICAN PORK.
PARIS, July 20.—The decree regarding the prohibition of American pork, which takes immediate effect, simply enacts that the duty on American salt pork, hams and bacon, which paid 81 francs before the prohibition, will now be 20 francs per kilos C. In accordance with the new tariff, all prohibitions will be abolished. The immediate application is due to persistent pressure brought to bear by United States Minister Reid, especially during the last few weeks.

CONGREGATIONAL COUNCIL.
LONDON, July 20.—The feature of the Congregational council Saturday was the speech of Rev. Walker, of Melbourne, condemning Unitarianism, which, he said, was making tremendous headway among the Congregationalists. The speaker said he would rather look toward the church of Rome or Episcopalianism than Unitarianism. The council decided the Congregational ministers should not exchange with Unitarians.

SPURGEON MAY RECOVER.
LONDON, July 20.—Rev. Charles H. Spurgeon, whose death has been hourly expected by his physicians for days past, is apparently recovering from his severe illness. Now that an improvement in his condition is so apparent the exaltation of his faithful flock, over what they consider a direct answer to their prayers, is very pronounced. Not one-half of the people who thronged to the City Temple yesterday to unite in thanksgiving service for the lifting of the shadow of death, from the eloquent preacher were able to succeed in gaining entrance, although the structure has a seating capacity of 6900.

THE AMERICAN HOG.
PARIS, July 20.—Senate must ratify the bill removing restriction upon importation of American pork before it can become a law. It is feared it can not be accomplished without difficulty.

FROM CHILI.
COQUIMBO, July 20.—Four insurgent vessels, the Esmeralda, Cochran, Amazonas and Aconcagua have arrived off this bay from Huasco and an attack on the town is hourly expected. It is supposed the land attack will be made by troops from Huasco while Balbuena's troops are repelling the warships. Many persons are seeking safety in flight.

MARKETS.
SAN FRANCISCO, Cal., July 20.—Wheat: buyer 1801 after August first 155 1/2; Season 1600.
CHICAGO, Ill., July 20.—At close wheat was steady, cash .85 1/2, Sept. 85 1/2.

WEATHER REPORT.
SAN FRANCISCO, July 18.—Forecast for Oregon and Washington: Light rains at Fort Canby.

WHY IT IS POPULAR.
Because it has proven its absolute merit over and over again, because it has an unbroken record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Does One Dollar" is true—these are the points which have made Hood's Sassafras the most successful medicine of the day.

Who Was the Fool?
"Talking about April Fools' Day jokes," said one of a group of bystanders, "reminds me of an incident that happened to me some years since on the 1st of April. I was walking along the street when I noticed directly in front of me a large, much worn pocket-book. The minute I saw it I came to the conclusion that it was some mischievous boy's trick to catch an unsuspecting passer by, so I hung round near it for several minutes, hoping to share in the enjoyment of the joke. Several persons saw it, but passed by without paying any attention to it. At length one man came along, saw it and stooped to pick it up, but remembering himself suddenly, gave the pocket-book a kick which sent it flying into the gutter. Then it was seized with a great desire to pick up the old wallet and open it, even if I should be the victim of the joke; so, walking up to where it lay, I picked it up and put it in my pocket to carry home."
"Well, gentlemen," he continued, "what do you suppose that old wallet contained?"
"A roll of bills," said one.
"Five hundred dollars," ventured another.
"What was in it?" asked a third listener.
"Not a blamed thing but paper," said the story teller, and he turned on his heel and walked off.—Boston Herald.

Blasting Rocks in the Metropolis.
The operations of the blaster on the upper west side of the city were never so extensive as now, and the explosion of dynamite, accompanied by showers of dislodged rock, reverberates from block to block throughout that whole section.

Food Prejudices.
The climate of Hindoostan explains the religious scruple which would make millions of Brahmins prefer starvation to meat eats, but a less intelligible prejudice is that of the Japanese peasants, who could as soon be persuaded to drink blood as cows' milk. The Abyssinian highlanders would shrink from neither alternative, but would promptly cut the acquaintance of a neighbor who should delude himself by broiling a rabbit.

Old California Settlers.
There are men in California who have not been to their eastern homes since they left them as boys to seek their fortunes in the unknown west. They have grown so accustomed to one line of life that it seems like breaking up housekeeping to start out on a visit to the scenes of their childhood. The road by which they came, weeks and with some, months long, appals them, and the idea of crossing the dread plains of '49 in four days, as it is done now, never becomes a part of their belief. Yet it is the ambition and intention of each and every one of them to see the old home again before they die and make one last survey of the old haunts, now but fading memories. If all these good intentions are realized and hopes are not dashed to pieces at least half California will be scattered over the Union during the progress of the World's fair.—San Francisco Letter.

Palmy Days of Counterfeiting.
Counterfeiters now have at their disposal every facility which the government has. Their engravers are as skillful as the government engravers. The only defense has been in the use of special paper containing hair lines, but now this defense has gone, for the special paper used by the counterfeiters in the bills just brought to light is as good as that turned out by the two mills in Massachusetts under government control. The counterfeit has the same delicate thread running lengthwise, which is discernible only by the aid of the microscope.—Chicago News.

Overheard in the Nursery.
"I'm glad I'm not a little Chinese boy," said Willie.
"Why so?" asked his uncle.
"Because it must be terrible to have to learn Chinese so young," replied the youngster.—Harper's Young People.

Love Proved by Hate.
Amy—"I'm sure that Charley loves me."
Ethel—"What makes you so sure?"
Amy—"Although he doesn't say so, I can see that he hates all my relatives."
—Munsey's Weekly.
