doctor had fallen into the trap completely. Miss Hanley, he said was living at Denver with the family of a client of Judge Furman, Dr. Graves' attorney, and was kept under surveillance by Dr. Graves' friends. The poison remaining in the bottle is in Chicago at the Rush Medical college, and Stevens said he believed it would be found the bottle never contained whisky at all. The case of the state, he said, was undoubtedly a strong one.

NEGRO LYNCHED.

SHELBYVILLE, Ky., July 22—Sam Pullman, a negro, was lynched near Lawrenceburg yesterday, for assaulting Mrs. Thomas Glenn Sunday.

JAY GOULD.

NEW YORK, July 22.—Jay Gould has started to Arizona, and will visit the Hot Springs for the benefit of his health.

SMUGGLED CIGARS.

SAN FRANCISCO, July 22.—Customs officers yesterday seized 1000 cigars on the steamer Newbern, from Mexico.

CHOLERA SPREADING.

CAIRO, July 22.—The cholera is spreading alarmingly among the Turkish pilgrims to Mecca.

SETTLED THE CASE.

PORTLAND, July 22.—Some time ago A. E. Anderson, travelling agent for the Baldwin hotel of San Francisco, came here and registered at the Gilman. Among others with whom he soon became acquainted were Samuel Neville and Gus Chapman.

One evening one of the trio proposed dice. Anderson accepted the invitation to try his luck, and, by working a patent combination, Anderson was soon relieved of $60 in cash. Having no more money, the innocent knew enough to quit. Hearing that Neville and Chapman were professional sure thing men, he swore out a complaint for their arrest.

Both of them left the city to avoid trouble, but as business demanded their return, they agreed to repay the sum of $60 provided all prosecution was dropped, and having paid the costs, the case was dismissed in the police court on motion of the district attorney.

COL. COMPTON'S TRIAL.

WALLA WALLA, July 22.—At the Compton court-martial yesterday a number of witnesses were examined in behalf of Compton. The evidence did not bear at all upon the action of Compton in preparing to prevent the attack on the county jail the night of April 24, but upon the fact that rumor of such an attack was not regarded seriously. Superior Judge Upton was the main witness and testified that he had heard rumors on April 24, but thought them of no importance. Blandford whom he thought paid no heed to the rumors. Upton denied having approved of sending by Blandford of a telegram to the secretary of war asking for releif from danger by troops, but stated it was against his wishes. Witness called at the post and on Compton after the shooting of Hunt he says to find out if the military had discoved any clues. He thought that the officer must have heard the bell ring when Hunt was shot and must have had an opportunity to apprehend some of the men.

F. D. Boyer and William Jones, citizens, testified to hearing and not be'eiving rumors of an attack,

City Marshal Robinson testified to hearing rumors of the attack on the jail, but stated that he did not tell Blandford what he had heard till Saturday, April 25.

Colonel S. S. Sumner was the last witness of the day, and testified in behalf of the accused. Witness was asked as an expert if they was any law in the articles of war making it imperative in a case like that of Compton, to take specific steeps. He testified that he knew of no such a law. He thought the commanding officer should exercise his own judgment. The introduction of this evidence was objected to and objection overruled. The prosecution then asked him if the commanding officer in such a case would be guilty of neglect of duty if he did nothing. This was objected to and the objection sustained. The attorney for the accused, at the close of the court, stated he had but three witnesses to examine in the morning, when he would put Colonel Compton on the stand and hoped to finish the examination in the afternoon.

MINERAL ENTRIES.

WASHINGTON, July 22.—Commissioner Carter, of the general land office has directed the register and receiver of public lands at Lewiston, Mont., to receive mineral applications and allow mineral entries in the abandoned fort at McGinnis military reservation, Montana, under the same conditions as when made for other public lands. The same rule will apply to abandoned Fort McDermott military reservation in Nevada.

MISSING DRAYEUR.

HEALDSBURG, Cal., July 22.—August Drayeur, the Tacoma restaurant keeper who has been missing three weeks, has a brother living here, a partner in Drayeur's winery, who received a letter from August's wife on Sunday last, in which she says her husband went to Portland, Oregon, on business. He had four thousand dollars with him. Nic. Drayeur, of this place, sent one thousand dollars to August the first of the month. The latter owns property here, where he formerly resided. Nicholas Drayeur says his brother has been worried for his money, and did not commit suicide.

HALL-FITZSIMMONS FIGHT.

The Governor put his Foot Down---Indefinitely Postponed.

SHIPPERS WANT REBATE MONEY.

Mutiny in English Army, Strike at Steel Works, Secretary Blaine, The Sheriff, Foreign and State News, Etc.

HALL-FITZSIMMONS.

ST. PAUL, July 22.—The city is full of people interested in the big fight between Fitzsimmmons and Jim Hall, the two Australians, and from the best informed persons the fight will surely take place. Sheriff Bean met Governor Merriman this morning and received instructions that the law must be enforced and he says he can do nothing but stop it. It seems probable that both principals will be arrested, give bonds for their appearance and the fight will proceed to a finish.

ST. PAUL, July 22.—The Hall-Fitzsimmons fight will not take place tonight. In view of the positive stand taken by Governor Merriam, the management this afternoon formally decided to postpone the fight indefinitely, fearing a riot should an effort be made to carry out the program.

WILL NOT TAKE PLACE.

ST. PAUN, July 22.—This afternoon Governor Merriam ordered the state militia to be held in readiness to assist the sheriff in enforcing the law. He declares he will prevent the Hall-Fitzsimmons figh at all hazard.

WITH NON-UNION MEN.

HARRISBURG, Pa., July 22.—The great Pennsylvania Steel Works at Steelton, except the machine shop, boiler shop, foundry and frog departments, shut down this morning, on account of disagreement on the wage scale. There has been no trouble so far. It is understood that the company will attempt to resume with non-union men.

WANT REBATE.

SIOUX CITY, Ia., July 22.—Shippers of grain and cattle at a meeting held here last night ordered suits to be filed to recover the money paid to railroads as discriminating rates for a series of years. The federal courts have decided they can recover. It is estimated the rebate will amount to over one million dollars.

THE TENNESSEE STRIKERS.

Buchanan and Attorney General Pickle arrived here this morning. They were at once waited upon by a deputation of the miners, seeking a compromise. The governor is determined to establish law and order All sorts of rumors regarding resistance to be offered the troops are afloat. The Knokville people encourage the strikers.

ALL QUIET IN TENNESSEE.

COAL CITY, July 22.—All quiet at noon. The miners are putting a guard around the company's property.

SECRETARY BLAINE.

NEW YORK, July 22.—The Commercial Advertiser has learned through semi-official sources here that Blaine is gradually preparing to resume the charge of state department affairs. He now has a private secretary with him, and is getting together the loose ends of the work which he let drop so suddenly when he was first taken sick. It can hardly be said that he is actually doing work yet, but he is beginning to inform himself about the affairs of the administration and to test his capacity for working. Awakening of interest in his work has not, it is said, retarded his recovery, but on the contrary, seems to be beneficial to him. It is believed that he will be able to resume his former position in the administration in the fall.

HORSES STOLEN.

SPOKANE, July 22.—Five carloads of horses, valued at ten thousand dollars, were stolen from the ranch of A. L. Davis in the vicinity of Ritzville, on or about July 4th. The horses are shipped from Pampa, a small station on the Union Pacific, to Chicago, by way of Chicago and Northwestern railway. Davis did not learn of his loss until Saturday. He reported it yesterday to W. D. Campbell, general agent of the Northwestern in this city. J. Campbell, of the Union Pacific. Today Campbell, of the Northwestern, wired Council Bluffs to ascertain whether the horses had passed there. A reply was received that five carloads of horses consigned to Chicago passed there on the 18th. The man in charge of the ranch was last with the horses, and his absence made it an easy matter for the thieves to drive a horse from the ranch without detection.

LETTER FROM CHINA.

SAN FRANCISCO, July 22.—Lieut. Commander Marthon, of the U. S. steamship Palos, writing to his wife in this city from Kiankiang, China, under date of June 8th says the Palos reached there June 6th. Learning that a riot had taken place the night before at Wusick, he immediately visited the scene and found the body of Missionary Argent lying where he fell in the gateway at the door of the church, which had been pillaged by the rioters. The body of Customs House Officer Green was found lying in the street several squares distant. The cause of the riot, he states, was the fact that Missionary Argent had picked up four little orphans in the country and was conveying them to Hankow in the usual fashion, in baskets borne on the shoulders of coolies. A street-lounger asked one of the coolies what was in the basket the latter refusing to answer the fellow raised the lid of the basket disclosing the children. The crowd which had gathered raised the cry that the missionaries were taking the children away to dig their eyes out and forthwith attacked the church killing Argent and plundering the place. Customs Officer Green was met by the mob and killed while on the way to assist the wives of the missionaries. In closing his letter, he says the Chinese do not want religion.

ADJUDGED INSNE.

PORT ANGELES, Wash., July 22.—Henry Bennett, who confessed to robbing the First National bank of this city, was yesterday adjudged insane. He was committed to the care of the sheriff, and will be taken to the Steilacoom asylum tomorrow No doubt exists that he robbed the bank. A warrant holding him on charge of robbery has been issued, so he can be held if he recovers his mind. Other criminal disclosures are expected from him.

STATE.

SHERIFFS OF THE STATE.

PORTLAND, July 22.—The Sheriff's Association of the State of Oregon resumed their session in the grand jury room of the county courthouse at 9:30 yesterday with President Penumbra Kelly, of Multnomah county, in the chair, and W. J. Furnish, of Umatilla county, secretary.

Upon calling the roll the following members answered to their names:

Sheriff Penumbra Kelly, of Multnomah; D. L. Cates, of Wasco; J. E. Noland, of Lane; William Mackey, of Benton; H. A. Smith, of Clatsop; J. C. Moss, of Josephine; W. J. Furnish, of Umatilla; J. G. Birdsey, of Jackson; W. L. Wilcox, of Gilliam; Matt Scott, of Linn; George Noble, of Morrow; J. T. Bollis, of Union; P. A. Conde, of Baker, and Z. T. Siglin, of Coos, the last three having arrived in the city this mornmorning.

It was announced that Sheriff Croisan, of Marion, had been called to his home in Salem suddenly, and that Sheriff Sampson, of Clackamas, had been taken violently ill during the night, and was also compelled to return home this morning.

BUSINESS TRANSACTED.

On motion it was ordered that the association levy an assessment upon the members for the purpose of refor expenses incurred in forcing the collection of legal fees in cases of tax collection.

After desultory discussion upon the subject, on motion of Sheriff H. A. Smith, the following resolution was adopted:

Resolved, By the Sheriff's Association of the state of Oregon that all grievances of an official nature which any sheriff of this association may have, be referred by said sheriff to the chairman of the executive committee, who shall immediately notify the remainder of said committee of the nature of said grievance; and after due consideration said executive committee shall be empowered to take such action concerning said grievance as in their judgement may seem just and be it further

Resolved, That in case said executive committee authorize any expense connected with the sentiment of any such grievance, they be empowered to levy an equal assessment upon each and every sheriff of this association to defray such expense.

A motion that Sheriff Croisan, chairman of the executive committee, be furnished with a copy of the above resolution was adopted.

Announcement was made that Mr. F. K. Lovell, assistant secretary of state, was in the city, and on motion he was invited to a seat in the convention, and a vote of thanks was unanimously tendered him for his uniform kindness and courtesy to the sheriffs throughout the state.

FOREIGN.

ANOTHER MUTINY.

LONDON, July 22.—The "Truth" today prints another startling story of mutiny in the British army which it claims occurred in the Second battalion, Coldstream Guard, quartered at Wellington barracks near Buckingham palace, where incidentally it furnished the guard of honor during the recent visit of Emperor William. After the departure of the emperor, instead of receiving a day of freedom the guards were ordered on parade duty. The first and third companies refused. The commands were ordered to be confined three days as punishment. Ten senior privates were also placed under arrest.

TROUBLES OF LABOR.

BERLIN, July 22.—A Brussels telegram says that the signs of a renewal of the strike at Charleroi, Mons'ei'ge and other congested labor centers in Belgium are numerous and alarming. As every one of the previous strikes in these places has been accompanied by every species of disorder, resulting in bloodshed and great destruction of property, and as the workmen are egged on by the large number of socialist agitators that infest the manufacturing and mining towns of Belgium, the law abiding population and local authorities are not alarmed without cause at the return of discontent of the over-worked and under-paid laborers. The basis of the trouble between the employes and the masters has been and still is that the workmen blindly follow the lead of a number of irresponsible agitators. Whenever the men have grievances that might be remedied without trouble, that are just, and would at once appeal to the sense of justice of the employers, they are induced by these self-appointed advisers to make such extravagant claims as prelude the possibility of compliance, with the invariable result that the men are hopelessly beaten at the outset of the strike which follows. Even now the iron workers and miners are making demands which are certain to be rejected, because of their injustice, and for inevitable defeat in the strike which cannot long be deferred, they will, as on previous occasions, have nobody to blame but themselves.

REVOLT SUPPRESSED.

BUENOS AYRES, July 22.—Intelligence has been received that troops at Corrientes have revolted. The revolt was suppressed after severe fighting. The leaders were arrested and four killed.

BIG WHEAT CROP.

OTTAWA, July 22.—The government has received information that owing to the bright crop outlook in Manitoba and the Northwest, the Canadian Pacific has ordered fifty new locomotives and fifteen hundred box cars to transport this season's harvest to the seaboard. On the basis of this estimate the yield will require ten trains daily for seven months to move the crop.

MARKETS.

CHICAGO, Ills., July 22.—At close wheat was steady, cash .87¾. Sept. 87¾@⅞.

The Coming Line.

The Chicago, Union Pacific & Northwestern Line offers the best accommodations to the traveling public en route from San Francisco and Portland, Chicago. Through trains, fast time, magnificent sleeping cars, elegant dining cars, colonist sleepers, reclining chair cars and handsome day coaches. eod—Aug.

THE NATION'S LIBRARY.

Something About Its Thousands and Thousands of Books of Every Kind.

Our national library is a huge triple room in the west front of the Capitol building, and holds more than 600,000 volumes in its capacious shelves.

Imagine an immense chamber, along each side of which run large alcoves of ironwork. Within these alcoves, which are large enough to contain two people, are four walls of books. Above these small chambers are iron galleries, one rising above the other until the roof is reached. And each one is loaded down with thousands upon thousands of volumes.

Every available space is occupied by dusty tomes, yet in this seeming confusion there is admirable order. The location of every book is kept, and a visitor calling for a certain author is kept waiting only a few moments.

Children under sixteen are not allowed in the library, yet part of it is devoted solely to children's literature and fairy tales.

Many are the quaint and curious books preserved on these shelves. One can see the Bibles of all nations—the Zend-Avesta and the Khoran side by side with the text book of the Mormons and the Scriptures of the Christians. Then there are volumes in the quaint old English type, books published three or four hundred years ago; "Pilgrim's Progress" in Chinese, huge dictionaries, an old Bible printed in the Sixteenth century, and the first newspaper that ever appeared.

The largest book in existence is in this library, a huge volume nearly two yards long and containing life size colored illustrations of birds of all nations. This book is called "The Audubon Book on Birds," and is worth a fabulous sum. Audubon, remember, is the man for whom is named the society for the prevention of cruely to birds. Its aim is to do away with the useless slaughter of birds for millinery purposes.

Many are the cranks that visit this great library. Some come day after day to search out some pet hobby, and never weary of their useless efforts. One old lady is said to haunt the place and search volume after volume to discover something about herself which she imagines to have been written. She declares her intention of destroying the page as soon as found. Another crank is reading all the Bibles and from them compiling one of his own. He will probably end in the lunatic asylum or the poorhouse.

Hypnotism is a subject that is much investigated, and palmistry comes next. There is no subject upon which some book cannot be found. Science, art, medicine, law, literature, poetry, religion—everything known to the human mind that has been written upon by the human pen can here be had.—Philadelphia Times.

Well Satisfied.

When the late Archbishop Tait was passing some time in a little village of Perthshire he received an unexpected and no doubt a pleasing expression of appreciation. As far as it went the sincere. He had given instructions for his letters to be sent to the local post-office to be called for.

The day that he arrived in the village he walked down to the general shop, which also did duty for the post-office, and asked, "Are there any letters for the Archbishop of Canterbury?"

The storekeeper had something to say before he answered the question. "Maybe you'll be that purrsen yersel'?"

"Well," said the archbishop, "as a matter of fact, I am."

"Well," the postmaster continued earnestly, "I have a son and he is in a shop in London, and he told me that he aince gaed to St. Paul's cathedral to hear ye preach, and he was verra weel satisfied wi' ye."—Youth's Companion.

Lincoln's Humor.

In an article on the "Humor of Abraham Lincoln" we are told that his humor was often unconscious, and that his wit was illustrative. He used it because at times he could say more in this way and better illustrate an idea. He never cared how he made a point so that he made it, and he never told a story for the mere sake of telling it. "In one interview," says the writer of the article, "the name came up of a deceased politician of Illinois whose merit was blemished by an overweening vanity. His funeral was largely attended. 'If,' said Mr. Lincoln, 'General —— had known how big a funeral he would have had he would have died years ago.'"

Ladies' Figure Forms.

Ladies who can afford it now purchase wooden models, built exactly upon the measurements of their own bodies to save themselves from the weariness of "trying dresses on." The dresses are successfully draped upon the "figure forms," as they are called. —Dry Goods Chronicle.
