The report of the attempted assassination is the talk of Paris and has caused considerable indignation. Some people think this attempt at- tempt upon the president's life has some connection with the recent de- feat of the French government in the chambers of deputies, with the Bonapartist agitation, with Albe- rois's recent regulations, de- bate and other similar matters, but it would not be surprising if the whole matter turned out to be the work of a dangerous lunatic.

RAILROAD ACCIDENT.
DAYTON, Ohio, July 27.—A wreck occurred on the Cincinnati, Hamilton and Dayton railroad at Middleton station, near here Saturday night. At least five, and perhaps seven were killed, while the number of wounded is estimated at twenty. The employees of the National Cash Register company were given a picnic at Woodlake park by the company. They were returning on a special of fourteen cars, and the train was being run onto the side track at Middleton, when a freight train crashed into the next to rear car. This car was full of people, and with- out others also similarly loaded was totally wrecked. Some passengers who were on the train reached here at midnight on the "Big 4" express, but give only meager details of the disaster. A boy named Patterson was cut into three pieces. A woman named Fryer was killed, and a little girl, name unknown, died shortly after being taken from the debris. Nearly all the people in the two cars were injured, some being frightfully mangled.

UNCONSTITUTIONAL.
St. Louis, July 27.—The law which prohibits the selling of pool or horse races and baseball was this morning declared unconstitutional by Judge Claiborne of the court of original jurisdiction. The state will appeal.

FIRE AT VANCOUVER.
VANCOUVER, Wash., July 26.—Fire broke out at 7 p. m. last night in W. A. Mill's sash and door factory, spreading among a large amount of dry lumber with inconceivable rapidity the building being enveloped in flames within a few minutes. Owing to the fact that the city owns no horses to take the steamers to the conflagration, pre- cious minutes were lost, and when finally the engine was in position, the hose burst and other minutes were lost. The fire spread to ad- joining buildings on the block be- tween H and C, 4th street. Only a small brick cottage on the corner of the block was saved. Losses: A. W. Mills, sash and door factory, stock and machinery, \$6,000; Abrahams and Knox's building \$2,000; no insurance; Anton Young, build- ing used as a boarding house, \$1,500; and a small cottage, \$500. The horse kept in the sash and door factory was burned.

A PLAN OF ROBBERY.
DES MOINES, July 27.—A well- laid plan to kill the cashier of the American Savings bank and rob the vault of \$500,000 was discovered here Saturday. The robbery was arranged to take place Monday morning at 8:30, the hour at which the vault is regularly opened by Cashier Elliot. The scheme was for one man to engage the cashier in conversation, another to enter by the side door, slip up behind the cashier, and snatching or stab if necessary, while a third would follow to take rolls of money from the vault. Two of the men, James Dimmitt, a colored tinsmith, and Sam Cooper, real estate swindler, were from Des Moines, and the third was a professional tough from Kansas City. Cooper and Dimmitt are under ar- rest. A local newspaper man got wind of the scheme by pretending to be a tough from Missouri.

RUN ON BANK.
SAN FRANCISCO, July 27.—A run has begun on the People's Home Savings bank this morning and several thousand dollars was paid back to depositors. The bank commis- sioners have begun an investigation of the bank. According to its report on July 1st the People's bank has a capital stock of \$1,000,000 of which one third is paid up. There is due depositors who number about 30,000, the sum of \$100,000. Banks officers state the institution perfectly sol- vent. Two of the San Francisco's morning papers have directed at- tention at the bank for the past two days contending that the state bank examiners had not made proper examination of the bank affairs.

THE STATE FAIR.
September 14th the Oregon state fair opens at Salem, and great preparations have been made to make it superior in every respect to any previous fair held by the association under the present management. The agricultural classes especially, look forward with pleasurable anxiety to each annual exhibit, and they will be more than pleased to learn that extraordinary prepara- tions have been made for the fair of 1891. This fair affords a pleasurable week of recreation to the farmer, horticulturist and stock raiser, gives them new ideas, and an opportunity to revive old acquaintances and form new ones. The managers have endeavored to make the attractions for the present year greater than ever, and the attendance from every portion of the state will be greater than ever before.

RAILROAD ACCIDENT.
PORTLAND, Or., July 27.—A special to the Evening Telegram from Seattle says intense excitement was caused there this morning upon receiving the news of the killing of Deputy Sheriff George W. Poor, at Waukey, last night, and the wound- ing of Comber, Terry, Customs In- spector Baird and Deputy Inspector Holden. The shooting is said to have been over the capture of a band of Chinamen who were being smuggled into the United States from Victoria. Terry, Holden, and Poor were together, and the story is that Deputy Inspector Buchanan and Baird were jealous of the other party, and that they laid in ambush for them. Thirty shots were ex- changed between the two parties. The assassin's jury charged Baird and Buchanan with the death of Poor.

FROM EUROPE.
ECOWNE, Or., July 27.—The re- port of the government engineers, charged with the matter of formu- lating a plan for the improvement of the Siuslaw harbor, is the subject of much indignation. The people of Florence are, without doubt, the most disgusted citizens that can be found anywhere. They have not yet heard the full report, but have an idea what it is, and as soon as the full report is published it is their in- tention to make a public demon- stration of their feelings.

REMARKABLE ESCAPE.
Mrs. Michael Corbett, Plainfield, Ill., makes the statement that she might cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hope- less victim of consumption, and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first use. She continued its use as di- rected after taking ten bottles, found herself sound and well, now does her own housework and is as well as ever was.—Free trial bottles of this Great Discovery at Fry's D. THE ST. MAUDE ACCIDENT.
PARIS, July 27.—Le Paris states that an investigation into the St. Maude accident discloses the fact that the disaster was caused by an unknown miscreant who delib- erately altered the signals so as to bring the trains into collision. He will be lynched if caught.

DISGUSTING EXECUTION.
PARIS, July 27.—The execution of young Berland and Dore, the two accomplices of Mere Berland in the Courbeveres murder, took place this morning on the Place de la Requette. Berland walked calmly to the guil- lotine, but a desperate struggle took place on the scaffold. Dore made no resistance. No sooner had the heads of the murderers rolled into the basket than the crowd surged forward and with a mighty rush broke through the cordon of soldiers and policemen and began a disgust- ing scramble for an opportunity to view the work of the guillotine.

RAILROAD ACCIDENT.
PARIS, July 27.—Two hundred people were killed or injured as the result of the St. Maude collision yesterday. Many of the unfor- tunate people were impressed be- neath the wreck and drowned by firemen who poured torrents of water on the wreck and seemed to be utterly unaware that they were drowning the people they were at- tempting to rescue. Today the town hall at St. Maude presents a fearful spectacle of blackened bodies in rows upon the floor and tables. In some cases the remains are little more than a heap of cinders inter- mixed with portions of limbs. One pile of charred limbs and human cinders is especially conspicuous, consisting of a mass of unidentified and unconnected bodies placed in a heap.

NOT THE PRESIDENT'S WIFE.
PARIS, July 27.—The report which prevailed in this city Saturday to the effect that an attempt had been made to assassinate Madame Carnot, wife of the president, by means of an infernal machine, was utterly in- correct, in that the attempt was not made on the life of Mme. Car- not, but on the wife of M. Constant, minister of the interior. An analysis of the powder which was found in the hollowed part of the prayer book received by Mme. Constant, proves it is a fulminate of mercury, a highly explosive compound.

Gardner, hardware merchant, same place, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies, he found new strength good appetite and felt just like he had a new lease on life.
