

STAGE ROBBERY. REDDING, Cal., Aug. 7.—Tuesday evening, when the outgoing Redding and Big Valley stage was about three miles from town, it was stopped by two highwaymen. The robbers demanded the express box, from which they secured about \$50. The one passenger aboard was robbed of \$15 and a silver watch. The stage then proceeded, and no news was brought to town until next morning by the incoming stage. The express box was smashed, but the mail bags were not touched, showing the robbers were now at the business. Nothing has been heard of them yet.

**TITLE TO VALUABLE LAND.**  
SAN DIEGO, Aug. 7.—Senora M. A. Ruiz Burton has received notice that the supreme court of Mexico had decided her suit against the International Company, of Baja, Cal., in her favor. The case has been pending for a long time through the courts. It appears that Pedro Gastelion, Senora Burton's agent at Ensenada, was somewhat misled up in a transaction whereby the International Company got possession of half a million acres of land of the Burton estate. Senora Burton immediately commenced suit to recover possession in the Ensenada court, but lost. An appeal was taken to the federal court of the City of Mexico, resulting in her favor. The company then appealed to the Mexico supreme court, which affirmed the decision in her favor for the two leagues of land involved. Senora Burton derives her right to the property from her grandfather, Senor Ruiz, to whom the original colonial grant was made in 1804. The land is very valuable.

**THE PEOPLE'S PARTY.**  
SPRINGFIELD, Aug. 7.—The people's party convention, which closed last evening, was a remarkable gathering. It was composed of dissatisfied elements of all parties. Every delegate had his own idea of how existing troubles could be remedied and was disposed to insist upon it being adopted. The total representation was 1250 delegates, about 400 of whom were present. The platform went through with a rush, but after the delegates read it carefully in the papers they gathered in knots about town and discussed it freely. Many have already declared their intention to vote on account of the liquor plank, which they say they did not want to adopt as a part of the platform. The leaders are confident of forming a coalition with prohibitionists not later than '92 and going into the national campaign very strong. Their plan is to extend the plank demanding government ownership of railroads and telegraph, or liquor traffic, and have agents in charge who will conduct the business much as postoffices are now run. The bolting element's strength cannot be estimated until the delegates report to their constituents. Hon. John Selig, of Seneca, was nominated for governor. He had in years past been candidate for the same office on the greenback ticket. The other nominations were: Lieutenant governor, Frank Rist, of Cincinnati, a compositor; state auditor, N. M. Cooper, of Athens; attorney general, Rial M. Smith, of Summit; state treasurer, Henry Wolf, of Cleveland.

**DESTROYED BY FIRE.**  
TACOMA, Aug. 7.—Van Slyke's mill, situated at Vaughn bay, in this county, was burned on Thursday night. The fire broke out at 12 o'clock from some unknown cause, and as there was no water supply it was totally destroyed. Mr. Van Slyke had passed through the mill at 10 o'clock and is positive that there were no signs of fire, but two hours later, the whole structure was in flames. The mill was insured for \$1500, but cost \$4500. About \$500 worth of lumber was also destroyed.

**TO LOOK FOR THE BODIES.**  
PORTLAND, Aug. 7.—Captain A. M. Betrand left Portland for Long Beach this morning to make an attempt to recover the bodies of Mr. Steel and Miss Boise. He is an expert at the business and has hope of success.

**THE BARRI TRIAL.**  
SEATTLE, Wash., Aug. 7.—The trial of J. C. Baird, charged with unlawfully arresting Custom Inspector Z. T. Holden on the night of the shooting at Wooley, ten days ago, was continued before Commissioner Kiefer all day today. Several additional witnesses were examined for the prosecution. Conductor McGee, who runs a freight train from Sedro to Seattle, testified that Baird had told him the night before the shooting that there was going to be trouble and he wanted to borrow McGee's gun. Baird also told him that there would be some Chinamen to take down the next morning and they would be his. The attorney for the defendant took several hours arguing for a dismissal of the case. If the court refuses to grant the motion, the trial will last all of tomorrow at least, as Baird has eight witnesses, Customs Inspector Buchanan is in the city as a witness to Baird.

**NOT FOUND YET.**  
SEA VIEW, Aug. 7.—I. P. M. Bodies of Miss Boise and Will Steel have not been found as yet.

**PREACHER TAKES POISON.**  
TULARE, Cal., Aug. 7.—H. H. Frank Tandy, pastor and founder of the Christian church at Tulare, committed suicide Wednesday evening by taking poison. The body was discovered near the railroad at Tagus siding today. The cause of the act was a suit for divorce brought by his wife on July 8th, last. The complaint in full alleges cruel and inhuman treatment. He left letters to his wife, son, parents and friends, and in all of them the charges against him were denied.

**RATHER FISHY.**  
WASHINGTON, D. C., Aug. 7.—The secretary treasury has been advised of a bold attempt to be made to rob the treasury by a strong and determined band of men organized for that purpose. The plan is to start fires in various parts of the city for the purpose of diverting the attention of the police and then overpower the treasury watchman and loot the money vaults. Information was given in a letter formed by the king of tramps who is said to be the leader of the band. The letter was referred to the captain of the watch with instructions to give the visitors a proper reception.

**BIG SYNDICATE.**

**GOOD CROPS IN KANSAS.**  
NEW YORK, Aug. 7.—"Give the Kansas farmers two more crops as good as their present one and they will be out of debt," said Martin Mohler, of Topeka, secretary of the Kansas board of agriculture, to a reporter. "On the farms of Kansas are products now growing worth \$90,000,000 over and above the amount the farmers require for their own use. If the owners of those farms pay, say, \$25,000,000 for their farms and clothing, they will have \$65,000,000 with which to pay their debts, and the largest estimate ever made of farm indebtedness was \$100,000,000." Mohler said the figures he named were not guesses, but based on reports received from his agents in the several counties of Kansas.

**COURT OF CLAIMS.**

**OF LANDING NETS.**  
A Saracenic Isaac Waiton Describes His Experience with Them.  
Anglers will hear with tempered enthusiasm that a new landing net has been invented. The impossibility of doing either with or without a landing net reminds the learned of what the Roman sage remarked about wives. With no landing net how are you to secure a fish, either where the banks are steep and grassy or where you have to wade far out from the beach? The first problem occurs in the best and most southern streams; the second in large waters like the Tweed and Eden. In the former case you bring your trout by sublimation, but how are you to lay hands on him! The moral victory is yours. You have beguiled and dominated a subtle and spirited opponent. But the base word refuses to credit the triumph unless you bring him to the edge of the bank and then try, very gingerly, to lift him by the gills. Then he gives a plunge, the hook leaves its hold and off he goes. The plan of leading him into a ditch and walking half a mile to the head of the ditch, where he may be stranded, is tedious and undignified.
