portant commercial interests of Germany in Chili were adverse to Balmaceda. Both in London and on the continent, therefore, there is rejoicing over the result. Aside from national or financial prejudice there is a feeling of satisfaction that the contest has been settled one way or another. There was a raise in Chilian securities and nitrate stock. There is an uneasy feeling over the probable result of the action of the British man of war Espiegle, in carrying treasure away from Chili at the request of Balmaceda, and The Globe advises the government to admit the violation of neutrality and offer compensation to the new Chilian government.

A PATHETIC INCIDENT.

HEMPSTEAD, L. I., Aug. 31.—A dwelling house at the corner of Main and Jackson streets in this village, occupied by Mrs. M. E. Bedell, was badly damaged by fire Saturday night. While the fire was at its height Edward Jennings made a determined effort to secure a tin box, containing money of Mrs Bedell's and other valuables which were in the room where the fire was the hottest. Jennings finally succeeded, and was rewarded with a $50 bill. Georgie Bedell, the eldest daughter of Mrs Bedell, was seriously ill. She occupied a room on the ground floor. Only a few moments before the alarm of fire had startled the inmates of the house, Dr. C. H. Ludlam was hastily summoned to the bedside of the child as she was believed to be dying. After the fire started it was deemed best not to remove her until forced to do so. Consequently, with loving watches about her, the spark of life in that little frame fluttered while the fireman worked with a double energy to stay the flames. The fire was confined to the second floor of the house, but the water dripped through and finally began to moisten the child's bed. Then the friends were forced to act. The mattress was borne out tenderly, and as it passed out of the house and down the line of fireman, every man removed his hat and stood with bowed head until the child was safe beyond the fire line and resting in a neighboring cottage; but the death angel found the child in its new home, and its life went out with the coming of the dawn.

CAPTURED SANTIAGO.

NEW YORK, Aug. 31.—The Herald's cable advices from Valparaiso, dated August 30, says the Chanaral regiment of the congressional army took formal possession of Santiago.

The capitol city was in the hands of a bloodthirsty mob last night, and while it was unable to satisfy its murderous insticts, it destroyed a vast amount of property. As soon as the news reached Santiago yesterday of the overwhelming defeat of the government troops on the heights of Pacilla, and the fall of Valparlaso, and people knew that Balmacedia's power had gone, the enmity to his government broke forth. The cry was raised that the president should be killed, and the mob started for his house. It grew in numbers and fury as it went through the streets, and by the time it reached the executive mansion it was ripe for any bloody deed. Short shrift would have been allowed the president had he been caught, but the blood-thirsty fury of the mob was balked. Their desire for revenge found vent in the application of the torch.

Soon Balmaceda's house was a mass of flames. Before it had been destroyed the mob marched off to the house of Senor Gray, ex-minister of the interior and an ardent Balmacedist, and set fire to his house. The the residences of Balmaceda's general, Barbosa, Senors McKenna and Eastman, the government newspaper offices and the houses of several prominent officials were burned to the ground. The city was panic stricken, business, was suspended and people, outside of the mob, kept close to their houses. The police, the fire department and the army was demoralized and made no attempt to maintain order. Balmaceda, when he heard of the fall of Valparaiso summoned General Baquenadona, commander of the government troops in Santigo, to meet him. A council of war was held at Valparaiso, at which, President Balmaceda and leading Balmacedists were present. The situation was thoroughly canvassed, and it was decided to surrender the capital.

AFTER SANTIAGO.

NEW YORK, Aug. 31.—The Herald Valparaiso, Chili, dispatch says: "Santiago has been formally surrended. The triumph of the congressional party is complete, and peace and quiet may be looked for in Chili before many days have passed. The crushing defeat which Balmaceda's forces met with was only a question of a very short time when the conquering army would take possession of the capitol. The insurgent leaders intended to make it a question of a very short time, for active preparations were being made to send a force sufficient to overcome all possible opposition at Santiago, as soon as arrangements for transportation of troops could be made. In the meantime, however, word was received from the Balmacedaists asking for a conference with a view to surrender. The request was granted and final arrangements for the surrender have been made. There is some rioting in the streets of Valparaiso and several people have been killed. The insurgents are endeavoring to secure the large amount of silver which was recently taken from the treasury by Balmaceda and shipped to Europe. It is thought that this money has not got beyond Buenos Ayres. President-elect Vicuna is also a refugee aboard a German steamship in this harbor. He acknowledges the defeat of the government is final and any further resistance is simply useless destruction of life and property.

WHAT THEY LOST.

WASHINGTON, Aug. 31.—The following cablegram was received at a late hour Saturday night by Signor Montt, the envoy of the Chilian congressional party at Washington: "According to an official dispatch from Commander Montt, on the congress naval forces in the battle of Concon, the enemy lost 1500 men and an equal number of prisoners were captured. Two thousand rifles were taken, besides a number of field pieces. Our loss was 500. Among the killed were five officers. In the battle of Placella the defeat of Balmaceda was complete. His two generals Barbosa and Alcerrica were killed and many other officers wounded. Vicuna, the president-elect, has escaped on board a foreign war vessel. The whereabouts of Balmaceda is unknown." The battle of Concon, mentioned in the dispatch was the first battle fought after the landing of the congressional troops from the fleet and the battle of Placilla was the last battle fought prior to the capture of Valparaiso. At the headquarters of the envoys all had retired at midnight Saturday and the house was closed to callers.

It is learned that the city of Santiago is in a terrible state. In addition to the destruction done by the mob, it is threatened with an irruption of all the desperate characters the surrounding country. General Banquadano has posted the imperial regiment in a cordon about the city to prevent the outlaws from entering, but it is almost a hopeless task General Canto and staff have left Valparaiso for Santiago with additional troops. A new chief of police of Santiago and a new railroad administrator has been appointed. It is asserted on good authority that Balmaceda went by special train to Talcahuano Saturday. There he will make connection with the Condell and Imperial, and in one of these vessels will make for Buenos Ayres or Montevideo. If this is so he will probably escape. Comparative order has been restored in this city. Rioters caught at their work were summarily dealt with, many being shot, but rioting was not stopped until property worth $1,800,000 had been destroyed.

CAUSE OF THE REVOLUTION.

NEW YORK, Aug. 31.—William M. Ivins, counsul for the Chilian legation, Saturday made a lengthy statement of the cause leading up to the Chilian revolution. He said:

Balmaceda was elected five years ago by the liberal party. He has had eight or nine distinct cabinets in his endeavor to please the party and insure harmony among its factions. It was impossible however, to satisfy the different wings. There were a number of men in the party determined to rule or ruin. Balmaceda is an even-tempered, broad-minded man of great forbearance, and he acquiesced to the demands of the liberal leaders as long as possible. When it became evident that to further submit to congressional despotism would be virtually to abdicate his office, serious trouble began. Congress refused to pass appropriation bills and charged that the president had a candidate to succeed him, whom he was trying to force upon the country. To settle this difficulty Balmaceda appointed the gentleman in question to a cabinet office, thus removing him from the list of candidates. Then, notwithstanding that congress has no power of impeachment, the majority passed a resolution declaring the president's office vacant because of his failure to submit to congressional dictation. Then in January came an open rebellion. The opposition majority in congress declared itself the government, went on board men-of-war with mutinous naval officers and secured the coast for a place to land. It became imperatively necessary to maintain order at any price. The majority in congress having disputed the government the president was left without one of the constitutional branches of the government. Because these members of congress had themselves violated the constitution, debauched the navy and abandoned their posts, it did not follow that the president should abandon his. The obligation on him was greater, to remain and protect internal order and the external safety of the state, and hence the trouble.

NEW YORK, N. Y., Aug. 31.—The World's Valparaiso special says. At sundown a riotous mob of laborers united with the rabble of deserters from the government, set fire and looted many buildings on the outer ends of the city belonging to Balmaceda's partisans. Fourteen fires raged all night but are now under control. $2,000,000 worth of property was destroyed. The city rang all last night with rifle reports, and this morning the bodies of 200 rioters and pillagers littered the streets.

OFFICIAL CONFIRMATION.

WASHINGTON, Aug. 31.—Official confirmation of Balmaceda's fall reached the state and navy departments this morning. Acting Secretary Wharton received the following cablegram dated Valparaiso August 30th: Balmaceda has turned over the government to Barquedano and fled, Canto goes to Santiago tonight to assume control until the arrival of Junta from Iquique. Good order here." Signed, McCleery, Consul.

CRUEL ITALIANS.

ASHBURY PARK, N. J., Aug. 31.—Thomas Davean, aged 25, a farmer, living three miles out of Red Bank, was murdered by a gang of Italians late Saturday night. Davean had been to town to dispose of a load of truck, and on his return, accompanied by a man named John Simpson, stopped at the Italian colony on the outskirts of town. A quarrel arose over the price of a load of manure, when the Italians set upon Davean and beat and stabbed him to death. Simpson fled for his life, but was overtaken by the Italians who attempted to kill him. Simpson defended himself with a club, and the Italians made off. There is great indignation expressed here, and lynching is freely talked of.

DROWNED WHILE BATHING.

NEW YORK, Aug. 31.—While closing up Palmer's bathing pavilion at West Brighton beach, Coney island, Saturday night, it was discovered that a man and woman who had occupied two of the rooms had not returned. Mrs. Johnson, who had charge of the women's department, said that she remembered assisting a pretty girl of about 19 years of age, to one of the rooms in question shortly before dark. Her clothing consisted of a drab cashmere overskirt, a dark silk waist, black shoes and stockings and rather expensive underwear. There was 40 cents in change in the pocket of her dress. The missing man is supposed to have been about 24 years of age. In his bathhouse was found a pair of light striped trousers, a white tennis shirt, a black coat and necktie, but no vest. His hat was a brown derby. In his pocket was $2, two return tickets over the Culver road to Brooklyn and a time table of the Jersey Central railway. Officers patrolled the beach all night, but found no trace of the missing persons.

THE FUTURITY STAKES.

NEW YORK, Aug. 31.—It was the most sensational futurity race that has been run. The colt that finally won carried a crushing impost of 130 pounds and the contending horses were ridden in the most brilliant manner. Ed. Corrigan, owner of the colt Huron, had refused to abide by the decision of the executive committee that his horse was not eligible and invoked the aid of the courts, which granted him a mandatory injunction. The club officials, however decided to fight it to the bitter end. When Jockey Overton went to weigh to ride Huron, Assistant Secretary Roorke refused to pass him. Then Corrigan was wroth. He sought his lawyer, and in company with him, demanded that Overton be weighed. The club officials gave in and weighed Overton, but refused to give Huron a number, and there was no betting against him. Huron ran and finished second, and Corrigan will now have to sue the club for the $5,000 that belonged to the second horse. The club officials haye awarded it to Yorkville Bell.

The day was perfect, but the track was not fast. It was lumpy, all over wet in spots and fast time was out of the question. The crowd was without doubt the largest that ever witnessed a race at Sheapshead Bay. They began to come in the early morning. There was considerable interest taken in the races preceeding the futurity, but when that was on a mad rush was made for the betting ring.

At the post the tension was great. Every jockey was anxious to get the best of the start, but Starter Caldwell was determined that there should be no "best," and roundly lectured the boys. Nearly half an hour was consumed before the crowd firmly shouted "They're off!" Caldwell had caught them all well in motion, and it was a magnificent start. Yorkville Belle was first to show, but her advantages was slight, and Mars, Anna B. Lavish, Triangle and His Highness were quickly lapped on her at the quarter. Dagonet, with a wonderful burst of speed, took the lead, and His Highness and Huron both moved up. As they swung into the stretch there was little to choose between Huron, His Highness, Yorkville Belle, Dagonet, Mars and Bashford, Suddenly Overton shot Huron to the front and while there was not a man on the grounds who had bet on him, everybody cheered. McLaughlin, however, quickly sent His Highness after, while Murphy was improving his position on Yorkville Belle. In a few strides Huron and His Highness were on even terms and going for their lives, lapped by Yorkville Belle. So it went on until opposite, when McLaughlin gave His Highness the whip. Despite the enormous weight, the horse responded gamely. Slowly but surely he forged ahead, while behind thundered the field. By this time the crowd was delirious, and amid the greatest excitement ever seen here, His Highness dashed in, the winner by a length from Huron, who beat Yorkville Belle half a length for the place, with Dagenot a length away. The judges, however, did not recognize Huron.

UNION PACIFIC RAILROAD.

NEW YORK, Aug. 31.—Important developments in the affairs of the Union Pacific railroad is expected this week says The Times. A meeting of the recently appointed financial committee of which Pierpont Morgan is the head will be held today or tomorrow in this city. Probably the outcome of the meeting may be of greater significance than mere putting into effect of the scheme for carrying the floating debt. The rumors say the Vanderbilts are to take control of the property is received with serious consideration in Wall street where J. Pierpont Morgans close relations with Vanderbilts are duly appreciated. It is well known when the Gould-Dillon contingent first approached Morgan with a request for aid in straightening out the finances of the Union Pacific company they met with a chilling reception. When finally Morgan consented to take charge of the scheme for temporarily disposing of $19,000,000 floating debt it transpired he exacted concessions practically to put him in control of the property.

STATE.

ALBAMY Aug. 31.—(Special to JOURNAL:) While bathing in the Willamette yesterday, at Sanderson Bridge, a man named Junkey was drowned.

CRUSHED TO DEATH.

ALBANY, Aug. 31.—(Special to JOURNAL:) At noon Chas. A. Reinhart, who works the McFarland farm, near Tangent, was driving a train of two wheat wagons, drawn by four horses, into Albany. The horses were frightened on Front street, and he fell with the sack he was sitting on and the wheels passed over him, killing him almost instantly. An inquest will be held. Deceased was twenty-three years old. An eye-witness says Reinhart hit the lead horses a cut with the whip, when they broke loose and pulled him off under the wagon.

FOREIGN.

THE WORLD'S FAIR.

LONDON, Aug. 31.—The royal Gazette anounces that Queen Victoria has issued a commission to the president, vice presidents and treasurers and members of the council of the royal society for the encouragement of arts, manufactures and commerce. The preamble rehearses the invitation from President Harrison to Great Britian to take part in the Chicago exhibition and goes on as follows:

"Whereas it is our wish that the exhibition should afford full and suitable representation of the agriculture and fine arts of Great Britian and Ireland, our colonies and dependencies in Europe, Asia, Africa, America and Australia, and our subjects should co-operate in the exhibition, know ye, that we, considering the premises and earnestly desiring to promote the success of the exhibition, appoint you our commissioners to obtain and distribute full information as to the best mode whereby the products, etc., of the United Kingdom, our colonies, etc., may be cured and forwarded, and to assist and co operate generally in promoting the success of the said exhibition, and to report to us in writing every proceeding taken, and lastly, we ordain this commission to continue in full force until the exhibition shall be closed and the various proceedings connected therewith properly concluded."

COLLIERY EXPLOSION.

LONDON, Aug 31.—An explosion took place this morning in Malgo colliery near Redminsion, Somerset shire, seven miners were killed, two others missing and about a dozen others seriously injured.

THE POPE IS FAILING.

ROME, Aug. 31.—The pope has ordered Cardinal Rampolla, papal secretary of state, to send instructions to the various bishops to invite the workingmen throughout the entire world to make pilgrimages or send delegates to the holy city for the purpose of expressing personally to the pontiff their thanks for his recent encyclical on the labor question. This action is taken because of the belief, the dispatch adds, that the pope has not much longer to live, and wishes to give the faithful an opportunity of communicating their expressions of loyalty and appreciation before it is too late.

THE PRESIDENT PINTO.

BERLIN, Aug. 31.—The fall of President Balmaceda, of Chili, is received with great satisfaction here. The position of the new Balmacedan warship President Pinto, which is now at Kiel, is a matter of discussion among naval officers, owing to the different circumstances which now attach to her. Her commander expects to remain at Kiel until he can obtain orders from the constituted government at Santiago de Chili.

MARKETS.

PORTLAND, Or., Aug. 31.—Wheat, nominal.

SAN FRANCISCO, Aug. 31.—Wheat buyer; 1891, $1.72½ Season $1.83¼.

CHICAGO, Aug. 31.—Wheat opened excited and higher this morning, all the way from $1.00¼@$1.01¼ against .99¼ Saturday. After flucuating considerably December advanced to $1.03¼ at one o'clock. Stronger cable receipts and figures showing shortage in the world's crop of wheat to be 90,000,000 bushels and in rye of 30,000,000 bushels is the cause of the higher prices. The highest point reached was $1.04¼, closing firm at $1.01¼@$1.03; Sept. $1.01¼; Dec. $1.04. Shortly before noon Rumsey Bros., a long established commission firm notified those having trades with them to close them out. The announcement had no effect on the market as the firm has been doing only a very small commission business of late.

Dyspepsia

Makes many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently yet efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and, by thus overcoming the local symptoms, cures the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind.

Distress After Eating **Sick Headache** **Heartburn** **Sour Stomach**

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, painting, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla and it did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

IF A BODY MEET A BODY

the result is a collision, whether "coming thro' the rye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread diseases that "knocks us off the track" and perhaps disables us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. In all cases of nervousness, bearing down sensations, tenderness, periodical pains, sick headache, congestion, inflammation, or ulceration and all "female weaknesses," Dr. Pierce's Favorite Prescription comes to the rescue of women as no other medicine does. It is the only medicine for women, sold by druggists, under a **positive guarantee**, from the manufacturers, that it will give satisfaction in every case, or money paid for it will be refunded.
