

the people against him by delivering a scathing sermon on the wickedness of adultery. No direct allusion was made to Mr. Farrell, but the congregation understood what was meant, and several prominent Parsonages severely denounced the bishop after the services were over for his evident attempt to belittle the Irish leader. The prospect is that Farrell will have an enthusiastic reception at Tuam.

EDITORIAL DEATH.
BOSTON, Sept. 1.—Rev. J. W. Olin, editor of the Watchman, a Baptist denominational paper, died at Manchester-by-the-sea yesterday.

MICHIGAN TRIALS.
MICHIGAN, Sept. 1.—The Rev. S. C. Bunn, an ex-prosecutor, who has had charges in a half-dozen places in Tennessee, Mississippi and Arkansas, and who was at one time presiding elder in the Greenville district of Mississippi, has been arrested on a charge of arson. Mr. Stone came to Memphis six months ago and started a storage warehouse, which was destroyed by fire a month ago. He again started in business on Jefferson street and a fire was discovered in this place Sunday night, which the department suppressed with trifling damage. Stone was seen leaving the storage house a few minutes before his place of business was destroyed. This aroused suspicion which led to his arrest. He makes no denial of the charge and says he is a victim of the morphine habit and started both fire while under its influence. Martin Anthony, a negro employed by Stone, was also arrested. He says Stone has asked him several times to fire the place, but he refused.

CO-OPERATIVE BOARDING HOUSE.
DECATUR, Ill., Sept. 1.—The Decatur Co-operative Housekeeping Club, or the Bellamy boarding house, as it is commonly called, has collapsed. This project was aimed to put in practice some of the theories of Bellamy, has been written up in all the housekeeping and women's papers in the country, and a number of people have come here from a distance to see how the scheme worked. Ten or twelve families rented a dining-room, hired a housekeeper to take charge of the servants and paid the expenses of furnishing board to the members of the club. It was a success for a year and a half, but the novelty wore off and this fall so many of the members concluded to set up establishments of their own that the few who are left did not care to keep up the club, so they disbanded.

ANOTHER PARACHUTE VICTIM.
CHICAGO, Sept. 1.—Professor Hart, a parachute jumper, was fatally hurt Sunday at Spring Grove Park, in this city, while attempting to make a balloon ascension. The balloon had risen about thirty feet, when the rope became entangled in the branches of a tree. Hart was on a trapeze bar, and when the balloon began swaying he lost his hold and fell to the ground. His right leg was broken and he sustained other injuries which will cause his death.

LARGE FIRE.
NARRAGANSETT PIER, R.I., Sept. 1.—At 2 o'clock yesterday the night watchman in the Rockingham house discovered the hotel was on fire. The 150 guests in the house were all gotten out safely. Eleven of them will lose heavily, as trunks thrown from the windows spilt on the walks, and a hard rain falling wet the contents. The fire began under an open furnace, and spread to the roof by the elevator. The local fire company did hard work, and saved the building with a loss of \$20,000 only, which was fully covered by insurance. The guests must have lost as much more. A light wind prevailed, and the escape of the Casino, the Gladstone and Clark's hall from destruction is miraculous.

BASE BALL GAMES.
At Chicago—Chicago 9, New York 6. Game called on account of darkness after the eleventh inning.
At Cincinnati—Boston 5, Cincinnati 3.
At Cleveland—Cleveland 2, Brooklyn 0.
At Philadelphia—Philadelphia 7, Pittsburg 3.

"August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES H. DEBRIK, Sangertown, N. York.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

NOTHING FROM EGAN.

A Bold Train Robbery—Bank Robbed—First Shipment of Wheat.

A BANK ROBBER LYNCHED.

ATTEMPTED MURDER AND SUICIDE.
The Park Place Disaster, Barge Collision, Rifles for China, Rail Road Accident, Trial of the Largest Engines, State and Foreign News, Etc.

NOT A WORD FROM EGAN.
WASHINGTON, D. C., Sept. 1.—Not a word of news has been received regarding the state affairs in Chili at the state department from Minister Egan. The officials of the department are at a loss to explain this reticence on the part of the minister, except upon the theory that telegraphic communication between Valparaiso and Santiago and San Diego, where Minister Egan resides has not yet been fully restored.

TRAIN ROBBERY.
CANNON CITY, Sept. 1.—Seven men held up the east bound Rio Grande train last night, near Cotopaxi. The train was relieved of a fine gold watch, and then forced to pick the lock and break in the door of the baggage car, under fire from the express messenger. Express messenger Angel made a determined resistance and used his revolver to good advantage, but whether anyone was killed or not is not definitely known. The flight was a fierce one, though it lasted only a few moments. Masked men, then under a threat of killing him, compelled the messenger to open the safe, from which the robbers took \$3000. The robbery was accomplished, the desperadoes fled to Wet Mountain Valley. They did not disturb the passengers. A posse was summoned, and are now in pursuit.

BOLD ROBBERY OF A BANK.
KANSAS CITY, Sept. 1.—At North, a small station on the Alton road, in Lafayette county, a daring bank robbery took place yesterday. The bank was closed on business, when two men rode up to the bank, dismounted, walked into the bank, shut the door and locked it, before the cashier noticed what was going on; then at the point of a revolver one man kept the cashier quiet while the other took about \$700, all the cash in sight. The robbers then mounted horses and fled.

THE FIRST SHIPMENT.
PORTLAND, Sept. 1.—The first cargo of this year's crop of wheat leaves the port of Portland on the British bark Comrade, under the command of Jolly Captain Doran, today. The wheat comes principally from Umatilla county, and also partly from around Walla Walla. It was forwarded by Hamilton & Bourke, and amounts to 43,545 bushels, contained in 19,228 sacks. The cargo is one of the finest ever shipped from this port. The quality of the grain is extraordinary and some.

RETURNED FROM IRELAND.
PORTLAND, Aug. 31.—Patrick O'Farrell, who has just returned from Ireland said in an interview Saturday: "There is little or no money in Ireland; it has all been drawn away. Ireland pays every year, in rent, to English absentee landlords, \$60,000,000, and in addition to that vast amount over \$40,000,000 in taxes. The country is drained to the extent \$100,000,000 a year, and that drain has been going on for a century. You must remember that this amount of money has been drawn from a country one-third the size of Oregon, and consequently such a withdrawal would impoverish the richest country in the world. The struggle which has been going on has been one to retain that wealth at home and to spend it there in the building up of factories and industries of all kinds, for the benefit of the people; its object is not to allow this money to benefit people living in another country. "From this fact it will be seen that the home rule fight is as noble and patriotic a struggle as ever was fought. "From what I saw and learned I think affairs in Ireland are improving, because the land is now being transferred from the absentee aristocrat to the peasant by various land-purchasing bills, and England has allotted \$2,000,000 for that purpose. Ireland is a land of vast resources, and under home-rule government would support a large and prosperous population."

FROM RUSSIA.
EGENE, Sept. 1.—Hop picking commenced in most of the yards in this vicinity yesterday morning, and thousands of pickers are now engaged in gathering the crop. Some damage on account of the lice is reported, but a fair yield will probably be saved. The market is very discouraging to the growers, and buyers are refusing to advance the cost of picking, on account of which, some yards will not be picked.

ATTEMPTED MURDER AND SUICIDE.
ST. LOUIS, Sept. 1.—While George Anderson, Sup't. of the Madison Carworks was walking along the approach to the Merchants bridge this morning on his way to Madison, Warren Colcott, an ex-employee of the carworks, shot and painfully wounded him in the back. The would be murderer then put a bullet in his own head expiring soon afterwards. Colcott was discharged a short time ago and that is supposed to be the cause of the attempted murder.

RAILROAD ACCIDENT.
DAVISVILLE, Cal., Sept. 1.—Train No. 14, arriving at this place at 3:30 yesterday was derailed near Swingle's station. An engine and four cars were derailed. The baggage, postal, parlor and smoking cars were badly wrecked, and the first coach tipped. Postal Clerk Quinton was killed, R. N. Clark, parlor car porter, had a leg broken in two places. Several others were injured more or less seriously. The cause of the accident is supposed to be due to expansion of the rails resulting from heat.

DESTRUCTIVE FIRE.
CLEVELAND, Sept. 1.—An alarm of fire here just called a large number of engines and fireboats to the refineries of the Standard Oil works. The extent of the fire cannot be learned at present, though it is reported there has been an explosion and burning oil is running into the river.

RESULT OF A DRUNKEN SPEE.
SAN FRANCISCO, Sept. 1.—John

E. Magary, contractor, living at 1239 Valencia street, died from morphia poisoning. For several days he had been on a spree, and couldn't sleep, so his brother got a box of a dozen morphia pills of one-eighth grain each. Magary took all of them. The doctors worked five hours to save him, but in vain.

TRIAL OF ENGINES.
NEW YORK, Sept. 1.—An exhibition trial of the engines of the armored cruiser Maine was given yesterday on East river. The engines of the Maine are the largest of their kind ever built in this country. The trial was eminently successful.

SHOEMAKERS ON A STRIKE.
SAN FRANCISCO, Sept. 1.—Forty men struck at Orlin, Jones & Co.'s shoe factory yesterday, owing to changes made in the wage schedule by the firm.

IN LUCK.
NEW YORK, Sept. 1.—Constantine Anshagen, a young man who has been a millionaire twice, and is now clerking for \$10 per week, is in luck again. A number of years ago he inherited \$1,000,000 upon the death of his father, a wealthy manufacturer of Athens, and proceeded to cut a large swath. By the time he was twenty-five years of age he was penniless. Shortly after his mother died, leaving him another million. By diligent application, he managed to squander this in eight years, when he came to this country, landing at San Francisco, and beating his way to New York, where he has since resided. Now an uncle in Alexandria has died and left him a third fortune. Constantine says he will take care of this one.

HOTEL FAILURES.
NEW YORK, Sept. 1.—An Atlantic City Special says the failure is announced of the three largest hotels here, the United States, Congress Hall and Cambridge. Very few particulars can yet be obtained but the backward season is supposed to be the cause of the failures.

MARKETS.
SAN FRANCISCO, Sept. 1.—Wheat buyer: 1891, \$1.73; Season \$1.83.
PORTLAND, Or., Sept. 1.—Wheat valley \$1.55, Walla Walla \$1.47.
CHICAGO, Sept. 1.—At close wheat was firm, cash 90 @ 1/2 sept \$1.00, Dec. \$1.01 @ 1/2. Wheat opened higher and lower this morning, December which closed at \$1.04 yesterday opened at \$1.02 @ \$1.03 and by noon had sold off to \$1.00 after numerous fluctuations.

**PORTLAND, Or., Sept. 1.—Wool, Eastern Oregon, 13c @ 17; valley, 18c @ 20.
SAN FRANCISCO, Cal., Sept. 1.—Wool, Oregon valley, 22c @ 24.**

WEATHER REPORT.
SAN FRANCISCO, Sept. 1.—Forecast for Oregon and Washington: Fair weather.

You Take No Risk
In buying Hood's Sarsaparilla, for it is everywhere recognized as the standard building up medicine and blood purifier. It has won its way to the front by its own intrinsic merit, and has the largest sale of any preparation of its kind. Any honest druggist will confirm this statement. If you decide to take Hood's Sarsaparilla, do not be induced to buy anything else instead. Be sure to get Hood's.

HOTEL ARRIVALS.

Frank R. Lynch, Salem.
Miss A. March, Albany.

Beware of Quackery for Catarrh that Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Sold by druggists, price 75 cents per bottle.

EARLY AND LATE.—The peaches that everybody likes are the Crawford's, and the place to get them in any quantities is at Farrar & Co's.

Buy the light running Singer at 327 Commercial street

The Coming Line.
The Chicago, Union Pacific & Northwest Line offers the best accommodations for the traveling public on route from San Francisco and Portland, Chicago. Through trains, fast time, magnificent sleeping cars, elegant dining cars, colonist sleepers, reclining chair cars and handsome day coaches. Sold—Aug.

RIFLES FOR CHINA.
LONDON, Sept. 1.—Advice received here announcing that the condition of affairs in China is now so grave that the emperor is considering the advisability of calling out the entire military resources of the empire. If compelled to do so

he proposes to give the troops the best type of small arms that can be procured without exhaustive experimenting. The commission will also endeavor to obtain some light field batteries of the latest pattern.

If the Lee gun is manufactured in this country, as it will have to be if accepted, all consignments of arms and munitions will doubtless go via San Francisco. The Lee gun is an American invention and was sold recently to the British war office. The Lee company has already sold to the Chinese government 50,000 stands of arms of the Lee 43 calibre Spanish model. This is the same arm in use to some extent aboard the naval vessels and revenue cutters of the United States service all Lee guns are of 45 calibre.

London officials of the Lee company declare that if the Chinese wish Lee arms delivered at once they will have to take either 43 or 45 calibre, as it will require at least nine months in which to erect the tools for the manufacture of any smaller bore. The company, on selling Lee 43-calibre to the British government, entered into a contract to make no more arms of this calibre. This prevents any foreign power from using British ammunition.

In England the Chinese commission will be able to see the Lee gun in actual use by the troops, and this is what the officials desire, rather than listen to the representations of its agents.

If the commission selects the Lee guns, which it was thought yesterday in London was extremely probable, an order will have to be executed in this country and at the Lee shops at Lion, N. Y. In this case the demand for 500,000 pieces will be the biggest order ever undertaken in the United States since the close of the war.

How a Negro Got a Holiday.
A favorite name of the Virginia witch is Sally—due to the fact, probably, that one Sallie Slate achieved great fame in this region years ago through her infernal arts. She was guilty of many ugly tricks before she turned old Casey—her neighbor's hired man—into a horse and went foraging upon his brawny back. He was a strange negro from Georgia. He had never heard of Sallie Slate.

But the very night he arrived at his new home he was visited by her, so he declared when daylight came. "Bress Gawd, massa," said he in relating his adventure, "an old 'oman wit' red beard an' a bump on her back came to me last night. 'Git up,' she said; an' up I lapped. Den she straddled my back an' I went a pavin' off sech as I never seen no hos do afore. She rode into a co'nfield, an' we didn't stop for no fence, but trabbled up a shaft o' moonlight.

"She filled a yaller bag wit' co'n an' den make me kerry off yander, an' de co'n to a little house up her, and there I see a black snake whip an' an' see 'n' an' I tuk to my heels an' piced home. Yeh can't 'speak' me to work to-day, massa; I'm too fagged out."

Of course he was allowed a holiday.—Chicago News.

The Future of Storage Batteries.
There are few electrical appliances that elicit such widely varying opinions from electricians as the storage battery. Some stoutly hold that for traction purposes the accumulator will never be reduced to a commercial basis, while others just as emphatically maintain that it will inevitably be the almost universal source of power for city electric lines. Be this as it may, the storage battery will unquestionably come into general use for lighting in the near future.

As a reserve when the machinery breaks or is at rest, or as a regulator when running, it insures that the consumer is never left in the dark. Buildings have been known to have been lighted for five or six days by storage batteries, for concerts, balls, etc., they form a convenient method of installing, at a short notice, the electric light, while dispensing with the noise of running machinery, accompanied by the ordinary amount of smoke and dirt.—New York Telegram.

The Spirit of English Football.
It is entertaining to listen to the observations of foreigners upon our national game of football. Here it seems as if our character was objectively epitomized. For a mere piece of leather to risk broken necks, heads and limbs in so reckless a manner! And yet if herein one does not discover a very direct descendant of the chivalrous craze of the Middle Ages, I doubt if any such descendant may still be said to exist. Our forefathers, several centuries back, do not to us, seem very wise in their habit of going about fighting with each other on behalf of the black or the blue eyes of their lady loves. But they did it with the same zest, and probably got as much satisfaction out of it, as our modern fellow countrymen in the honor of winning their game.—All the Year Round.

The Duke's Way.
During the occupation of Paris by the allies in 1815 a French marshal shouldered an English colonel from the sidewalk into the street. Thereupon the Englishman, being forbidden by a general order of Wellington's to give a challenge to or accept one from a French officer, did what he considered the only thing left him—knocked the Frenchman down, and later refused him satisfaction in a duel. The latter then made a formal complaint to the duke, who, to soothe the marshal's feelings, sent a written reprimand to the colonel, but in it inclosed a cordial invitation to dinner.—New York Recorder.

Storage of Heat.
A lake has a wonderfully tempering effect on the climate. Thus, according to M. Forel, the quantity of heat accumulated in the lake of Geneva during the summer of 1889 was equal to that given off by the combustion of 31,000,000 tons of coal, or the amount carried by a coal train 1,120 miles in length. The greater part of the heat is discharged into the air of the valley during the cold season, thus producing a milder temperature in autumn and winter.—La Famille.

One Sunday's Pleasure Crowd.
As to Staten Island the development there is simply marvelous. This is best illustrated by the simple statement that on one Sunday the receipts of the Rapid Transit railroad were \$5,000. As the fare is ten cents, this means 80,000 fares, or 40,000 people, a larger aggregation of humanity carried by this little road than by any surface road in the world.—Erasmus Winan in Baltimore Sun.

ON TOP

As usual the Woolen Mill Store is on Top of offered in the city

the largest stock of Oregon Clothing ever of Salem

BUT

Underneath all competitors when it comes to prices and qualities of goods at the WOOLEN MILL STORE, 299 Commercial Street.

THE World Enriched.
The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time, and the better it is known the more popular it becomes.

Quick time and through trains offered passengers and shippers by the Chicago, Union Pacific & Northwestern Line, San Francisco and Portland to Chicago. eod—Aug

NEW ADVERTISEMENTS.
WANTED.—Ladies or gentlemen to do light work, no canvassing, wages from \$5 per day. Call at my office on Commercial St., up stairs, room 11. E. M. GOODALE, 329 3/4

New Location.
The J. C. Booth real estate office has been moved over to Jones & Bernardi, New Bush block.

Street Improvement Bids.
NOTICE is hereby given that the City of Salem, Oregon, will receive sealed bids for the grading, draining, graveling, curbing and guttering all the parts of Commercial street, between the south side of Union St. and the north bank of Mill creek; also all that part of State street between the west side of Capital street and the west side of Commercial street; also all that part of Court street between the west side of Capital street and the west side of Commercial street, all situated in the City of Salem, Oregon, according to the plans and specifications thereof on file in the office of the City Surveyor of the City of Salem, Oregon, at 10 1/2 blocks, in. on Sept. 1st, 1891, at 10 o'clock, a. m. and the awarding of contract is to be made by the common council. The City of Salem, Oregon, and also the contractor on contracts to observe the right to reject any or all bids and also to hold open the contract, bond and underwriting for any time not exceeding two weeks after opening of the same.

Dyspepsia
Makes many people miserable, and often leads to self-destruction. Distress arising from sour stomach, sick headache, nervousness, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are the most common symptoms. Dyspepsia often gets well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently yet effectively. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and, by thus promoting the local circulation, cures the Headache, indigestion, and restores the tired man. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would experience a sickness, or tired, all-gone feeling, as though I had not eaten anything. My appetite, I think, was aggravated by my business, painting, and from being more or less shut up in a room with sick patients. Last spring I took Hood's Sarsaparilla. It did me an immense amount of good. It gave me an appetite, and my food readily satisfied the craving I had previously experienced." GEORGE A. FAIR, Waltham, Mass.

Heartburn
N. B. If you decide to take Hood's Sarsaparilla do not be induced by any other.

Hood's Sarsaparilla
Solely by druggists, 25c per box. Prepared by H. H. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar
