

The sudden impact of making and breaking the contact, and for that reason the execution of Amier, the most victim, was conducted a little differently. Three contacts of ten seconds each were made, at the end of which time there was no effort at respiration, but the pulse was beating so firmly and regularly that it was deemed expedient to again close the circuit for nine-second contacts, at the end of which time resuscitation showed that the heart had permanently ceased beating. Prof. Landy reported in this case a pressure of 1.45 volts.

### PARNELL IS DEAD.

#### He Died Suddenly Last Evening at Brighton.

#### UNVEILING OF GRANT'S MONUMENT

#### An Ancient Ax, Worse than a Beast, Chinaman in a Fix, Destructive Fires, State Board of Commerce, Foreign and State News, etc.

### PARNELL IS DEAD.

LONDON, Oct. 7.—Great Britain and Ireland was startled this morning by the utterly unlooked for announcement that Chas. Stewart Parnell, the noted Irish leader had died suddenly yesterday evening at Brighton. It has been known that Parnell has not enjoyed the best of health for years, and it has been pointed out and widely commented upon, that since the O'Shea divorce developments and political trouble came upon him, the great Irish member of parliament has grown thinner, that he is perceptibly aged in appearance, but nobody expected to hear of his death, and no inkling as to his illness had reached the newspapers. He died at his home, Walsingham Terrace, Brighton at 11:30 yesterday evening. Death is said to have been indirectly due to a chill caught last week, which at first was not regarded as serious. Parnell, however, grew worse, and a physician was called in, with the result that the patient was ordered taken to bed. This was Friday last and from that time Parnell lost strength, and finally succumbed. The exact nature of the disease is not known at present. From the day he took his bed however, the state of Parnell's health was such as to require the constant attendance of two physicians. In spite of their untiring efforts to prolong or save his life, Parnell gradually sank lower and lower until he expired in the arms of Mrs. Parnell, who is utterly prostrated by the shock.

In this city particularly, the news of Parnell's death came like a thunder bolt upon the clubs and political parties. The last time that Parnell appeared in public was at Creggs, Ireland, Sept. 27, when he delivered a long speech upon the attitude and alleged inconsistencies of Dillon and O'Brien. Upon that occasion Parnell stated he was speaking in defiance of the orders of his doctors. Coupled with the announcement that Parnell had died news that Sir John Pope Hennessy, member of parliament from North Kilkenny was also dead. Hennessy, it will be remembered immediately after the exposure in the O'Shea divorce case contested the North Kilkenny election backed by Parnell's opponents and defeated the Parnellite's candidate, Vincent Scully 1147 votes. This was possibly the greatest test of strength between Parnellites and McCarthyites, and the defeat of Scully no doubt counted for a great deal in the future series of disasters which befell the Irish leader.

#### UNVEILING GRANT'S MONUMENT.

CHICAGO, Oct. 7.—Under the leaden sky from which rain had been falling at intervals during the day and in presence of a great throng of people the bronze statue of General U. S. Grant was unveiled today. Impressive hush fell on the vast assemblage when General Walter Q. Gresham, orator of the day, advanced to the platform. On either side and beside the speaker the distinguished guests were given a place. Among them was Mrs. Grant, her white hair showing beneath her widow's bonnet. Manned in front were nearly twenty thousand uniformed infantry, cavalry and artillery, both regular and state militia, veterans of the Grand Army of the Republic, the bright plumed Knights of Pythias and many similar semi-military and civic organizations and back of them the general public and beyond an imposing array of nearly two hundred vessels profusely decked with bunting heading up to this superb column of infantry was the formation on the lake front three miles distant of great land parade and its march to the statue under command of Major General Nelson A. Miles, U. S. A. The procession was headed by a platoon of police followed in order by United States regulars from Fort Sheridan, Infantry, cavalry and artillery, Illinois national guard, infantry and cavalry, grand army of veterans including the society of Army of Tennessee, Cumberland and Potomac, distinguished guests in carriages including Secretary Noble, Senator J. A. Sherman, Governor Buckley, of Conn., Governor Fifer, of Ills., and Mrs. John A. Logan, next came the G. A. R. veteran posts of the north-west forming an entire division then veterans and society of ex-confederates closing with the civic societies. At the monument Bishop John P. Newman offered prayer, then Col. E. S. Taylor presented the monument on behalf of the monument association to the commissioners of Lincoln Park, the unveiling followed and General Gresham, then delivered his address.

The statue of bronze eighteen feet in height represents General Grant seated on horseback, both animal and man in positions of rest. The general grasps a field glass in his right hand, with the glass resting upon his thigh, as after taking a careful survey of the field.

#### AN ANCIENT AXE.

CLEVELAND, O., Oct. 7.—Lehan & Schmidt, architects of this city, have a very curiously fashioned broad-axe in their office which was found several days ago by the workmen, who were excavating for the foundation of the new chapel in the United Jewish Cemetery near Maxwell field, this county. The axe was found in the shale, several feet below the surface and there is no evidence that the ground at that spot had been before disturbed. It is made of very hard steel, so hard indeed that it will chip the steel used in alleged "non-sawable" prison cells without apparent injury to itself, and it is of two pieces. The handle is 13 1/2 inches long and rounded at the end, which is 6 1/2 inches wide in the middle. The blade is 5 inches wide in the middle, and about 1 of an inch thick. The handle was fastened to the weapon by a clasp, which was solidly riveted to the blade. A part of the handle is still in place, and the wood looks as if it were nearly petrified. The axe appears as though it might have been buried with an old Indian chief, but the quality of the steel is so much better than was usually sold to the red men that it causes doubt on that point. The axe will be given to the Historical Society.

#### TWO CHINAMEN IN A PECULIAR FIX.

BUFFALO, Oct. 7.—Yesterday afternoon the deputy marshal's men took four Chinamen to the ferry for deportation, acting under the instruction of Judge Coffey, of the Federal court, who had ruled they were to be returned to Canada, as when the four Chinamen arrived at Fort Erie, on the opposite shore of the Niagara river, a dilemma presented itself. Two had certificates of entrance to Canada and were accepted. The other two had none and were refused permission to land. They remained aboard the boat and were ferried back to Buffalo. Here they were not allowed to light because of the exclusion act, and so they remained on board the ferry boat plying back and forth between the two countries, taking in the river scenery, but very much in doubt whether they would ever set foot on dry land again. The captain of the boat was almost as distressed as the Chinese. He feared he might have to engage them as deckhands since he could not land them anywhere as passengers. Finally the Canadian authorities agreed to their landing in Fort Erie, provided they paid the entrance fee. This the Celestials willingly agreed to do. Each provided the required amount, \$50.

#### DESTRUCTIVE FIRE.

WALLA WALLA, Oct. 7.—Fire occurred here yesterday afternoon destroying property to the amount of twenty thousand dollars. Fire caught in the roof of the southeast corner of the Walla Walla Union-Journal. When discovered the whole roof was ablaze, and the flames rapidly spread to the adjoining frame buildings. The Union-Journal office was only one block from the engine house, and the fire department was promptly on hand, yet it was seventeen minutes from the time the alarm was turned in before the engineer had up steam sufficient to throw a stream of water. By this time it was too late to save the burning buildings, and the whole block from the corner of Third and Alder to the alley was burned down. Insurance on the property is about \$7,500. The Journal saved about one-fourth of its material, and will issue from the Statesman office.

#### STATE BOARD OF COMMERCE.

PORTLAND, Or., Oct. 7.—The Annual meeting of the Oregon State Board of Commerce was called to order at 1:30 this afternoon. There were present twenty-two delegates, representing Eugene, Grant's Pass, La Grande, Oregon City, McMinnville, Union and Portland. Fourteen towns are as yet unrepresented. The report of the treasurer shows the board to have a balance on hand. The first question taken up was the world's fair appropriation.

#### FOREIGN.

WORSE THAN A BEAST.

PARIS, Texas, Oct. 7.—Cooper, Delta county, is in a ferment of excitement over a case of the most depraved nature. Yesterday afternoon C. E. Walls, of that place, was arrested and lodged in jail on a charge of incest filed against him by his daughter. The developments are of a startling nature tinged with romance. About three or four months ago Mrs. C. E. Walls and her husband, C. E. Walls, separated on account of abuses by Walls, Mrs. Walls taking her three little children. Walls continued his harassing abuses by taking away the baby, stoning the house at night and by every conceivable means he could think of. Last Saturday or Sunday Walls took the baby boy, 3 years old, to his house. On Monday the little fellow managed to get to his mother, and it was found that he had been most brutally whipped. From his waist down were twenty-eight stripes made with a switch, letting out the blood. It had been slapped on the side of the face, and beneath the eyes there were finger marks. The good people of the town had been considerably worked up over Walls' conduct before, but now their indignation boiled over. That night fifty of Cooper's best citizens met at the court house and held an indignation meeting and resolved that Cooper did not need

#### BEAUF WILLAMETTE.

Sam L. Sion's immortal poem is kept below by request.

THE JINX takes pleasure in publishing a request for the publication of a correct version of this gem pastoral poem. It is found in Pacific Coast Fourth Reader, and is a nephew of Barney David Simpson of Salem, we he visits occasionally. The poet's residence is a cabin home near Point. Here is the poem "BEAUF WILLAMETTE,"

From the eaves of frozen gorges,  
Lapping a child at play,  
Wind, o'er the valley,  
Bright Whimzie glides away.  
O'er ever,  
Lo! river,  
By calling to the sea;  
That seeks to  
Ma and mar's  
Is no track or trench on the!

Spring's gn' witchery is weaving  
Green sward for thy side,  
Green sward haunts thy journey,  
Beauty o'p'ns on thy side,  
Through purple gorges of morning,  
Now rippling ripples dance,  
Like those of fabled Aedon,  
On thy way to his lair;  
Wing, fishing,  
Tingling, plashing,  
Liquor, vault and rée,  
Alix hurried  
To barbed  
Jug butter, moon-mad sea.

In thy deep, inverted,  
Swings a'round the sky,  
Like those of fabled Aedon,  
Dearly imp'd, down in turmoil,  
Faintly, far away—  
Wrought-up on the morrow,  
Breathes again round today.  
Lover's wander  
Herod powder—  
Her poetry would dream;  
Life's questions,  
Sad answers,  
When at "with" throne thy stream  
O'er the range of wastes of ocean,  
Soon thy waves shall toss  
And the sea's rhythmic thunder  
Shall thy liver long be lost.  
On thy glistening, rush of address  
Stocks and gold life of mine,  
Racing to wild forever,  
Down the opening paths of time!  
O'er ever,  
Lo! river,  
By calling to the sea;  
That seeks to  
Ma and mar's  
Is no track or trench on the!

#### MARKETS.

BERLIN, Oct. 7. The Bourse is depressed on the rumors that Russia intends to prohibit the exportation of wheat on October 15.

PORTLAND, Oct. 7.—Wheat valley \$1.50. Walla Walla \$1.40.

SAN FRANCISCO, Oct. 7.—Wheat buyer; 1891 \$1.75 season \$1.82.

#### WEATHER REPORT.

SAN FRANCISCO, Oct. 7.—Forecast for Oregon and Washington: Fair weather.

#### HOTEL ARRIVALS.

#### RE-ORGANIZED.

The Capital City Electric Railway Co. elects officers.

At the annual meeting held Tuesday evening at the office of the company the following directors for the ensuing term were chosen: David Simpson, P. S. Knight, O. E. Krause, M. L. Chamberlain, T. H. Barnes, T. C. Holman, H. V. Matthews.

At a meeting held today the board of directors perfect their organization as follows: David Simpson, president; Ladd & Bush, treasurer; F. H. Barnes, secretary and manager.

#### THE DEPOT EXTENSION.

The company's stock will be issued to satisfy the investment. As soon as the financial arrangements are completed work will begin.

#### Christian Ministerial Association.

The Oregon Ministerial Association of the church of Christ met in Albany Tuesday. The meeting was called to order at 2 p. m. by the president, David Wetzel, of the First church of Christ, of Portland. After a few brief, pointed and forcible remarks by the president, G. W. Wright of Albany gave an address of hearty welcome, which was responded to in a happy way by Elder D. M. Doty of Dallas. Rev. S. G. Irvine and Rev. T. J. Wilson of Albany were voted access to the floor of the convention. The committee on constitution reported a strong document and it was unanimously adopted. The following were elected officers: David Wetzel of Portland, president; J. F. Stewart of Albany, vice-president; W. R. Williams of Salem, secretary; D. M. Doty of Dallas, treasurer. After appointment of committees, the meeting adjourned till 7 o'clock.

#### WOOD! WOOD!

Here's a snap in the wood trade.—Four foot fir wood at \$1.00 per cord!

CAPITAL LUMBERING CO.

"The Best."

#### MARRIED.

WEST-FISHER.—At the Baptist parsonage, at 8 o'clock p. m., Tuesday, Oct. 6, 1891, Gertrude Fisher to Frank West, Rev. Robert Whitaker, officiating.

#### DIED.

MEYERS.—Mary, wife of Charles Meyer, at the home near Jefferson, Oct. 6, 1891, aged 63.  
Deceased will be buried in the Ankeny cemetery, Thursday morning at 11 o'clock. The funeral takes place from the home of Aug. Miller. Mrs. Meyer was a member of the German Lutheran church. She suffered from an attack of the grippe, which left her stomach very weak and for the past two months she has partaken of scarcely a mouthful of food.

ASHBY.—HUMPHREYS.—On Wednesday, Oct. 7, 1891, at the M. E. parsonage in Salem, by Rev. Kellerman, Hattie Ashby to Will Humphreys, both of Marion county.

The groom is a son of Dr. Humphreys of Waldo Hills. The bride couple took the afternoon train for a short visit in Portland and Eastern Oregon.

#### Counting Particles of Water.

Water particles can now be counted by Mr. John Aitken's latest modification of his apparatus for counting the particles of dust in the air. In his communication to the Royal Society of Edinburgh, Mr. Aitken says of the instrument: "It consists of a glass micrometer divided into squares of a known size, a spot mirror for illuminating the stage, and the strong lens of a microscope for observing the drops on the stage." In the case of one of the observed Mr. Aitken found the number of drops falling per minute to reach nearly 20,000 per square inch.—London Tit-Bits.

#### Production of Silk.

The quantity of silk produced annually is over 100,000,000 pounds a year. Before the Revolutionary war the silkworm was introduced into Virginia and North and South Carolina, but the culture has never been attended with any degree of success in the United States.—New York Recorder.

#### Delight Followed by Torment.

What man or woman will deny that a good dinner is a present delight. Equally undeniable is it that when a well cooked meal is succeeded by a bit of indigestion, nature is converted into torture. You charge your dyspepsia to your dinner. No, my dear sir, your gastric department was out of order to begin with. Had you regarded it with Hostetter's Stomach Bitters, the cargo that you took on board would have been comfortably stowed away without the slightest inconvenience. This is the only stomachic that reforms the digestive and assimilative, besides, the liver and bowels, and restores the harmony with the digestive system and harmonizes the blood. It is the best remedy for indigestion, and in all cases of malaria. As a tonic, appetizer and promoter of convalescence, it has no peer.

Water particles can now be counted by Mr. John Aitken's latest modification of his apparatus for counting the particles of dust in the air. In his communication to the Royal Society of Edinburgh, Mr. Aitken says of the instrument: "It consists of a glass micrometer divided into squares of a known size, a spot mirror for illuminating the stage, and the strong lens of a microscope for observing the drops on the stage." In the case of one of the observed Mr. Aitken found the number of drops falling per minute to reach nearly 20,000 per square inch.—London Tit-Bits.

#### Production of Silk.

The quantity of silk produced annually is over 100,000,000 pounds a year. Before the Revolutionary war the silkworm was introduced into Virginia and North and South Carolina, but the culture has never been attended with any degree of success in the United States.—New York Recorder.

#### Delight Followed by Torment.

What man or woman will deny that a good dinner is a present delight. Equally undeniable is it that when a well cooked meal is succeeded by a bit of indigestion, nature is converted into torture. You charge your dyspepsia to your dinner. No, my dear sir, your gastric department was out of order to begin with. Had you regarded it with Hostetter's Stomach Bitters, the cargo that you took on board would have been comfortably stowed away without the slightest inconvenience. This is the only stomachic that reforms the digestive and assimilative, besides, the liver and bowels, and restores the harmony with the digestive system and harmonizes the blood. It is the best remedy for indigestion, and in all cases of malaria. As a tonic, appetizer and promoter of convalescence, it has no peer.

#### BEAUF WILLAMETTE.

Sam L. Sion's immortal poem is kept below by request.

THE JINX takes pleasure in publishing a request for the publication of a correct version of this gem pastoral poem. It is found in Pacific Coast Fourth Reader, and is a nephew of Barney David Simpson of Salem, we he visits occasionally. The poet's residence is a cabin home near Point. Here is the poem "BEAUF WILLAMETTE,"

From the eaves of frozen gorges,  
Lapping a child at play,  
Wind, o'er the valley,  
Bright Whimzie glides away.  
O'er ever,  
Lo! river,  
By calling to the sea;  
That seeks to  
Ma and mar's  
Is no track or trench on the!

Spring's gn' witchery is weaving  
Green sward for thy side,  
Green sward haunts thy journey,  
Beauty o'p'ns on thy side,  
Through purple gorges of morning,  
Now rippling ripples dance,  
Like those of fabled Aedon,  
On thy way to his lair;  
Wing, fishing,  
Tingling, plashing,  
Liquor, vault and rée,  
Alix hurried  
To barbed  
Jug butter, moon-mad sea.

In thy deep, inverted,  
Swings a'round the sky,  
Like those of fabled Aedon,  
Dearly imp'd, down in turmoil,  
Faintly, far away—  
Wrought-up on the morrow,  
Breathes again round today.  
Lover's wander  
Herod powder—  
Her poetry would dream;  
Life's questions,  
Sad answers,  
When at "with" throne thy stream  
O'er the range of wastes of ocean,  
Soon thy waves shall toss  
And the sea's rhythmic thunder  
Shall thy liver long be lost.  
On thy glistening, rush of address  
Stocks and gold life of mine,  
Racing to wild forever,  
Down the opening paths of time!  
O'er ever,  
Lo! river,  
By calling to the sea;  
That seeks to  
Ma and mar's  
Is no track or trench on the!

#### RE-ORGANIZED.

The Capital City Electric Railway Co. elects officers.

At the annual meeting held Tuesday evening at the office of the company the following directors for the ensuing term were chosen: David Simpson, P. S. Knight, O. E. Krause, M. L. Chamberlain, T. H. Barnes, T. C. Holman, H. V. Matthews.

At a meeting held today the board of directors perfect their organization as follows: David Simpson, president; Ladd & Bush, treasurer; F. H. Barnes, secretary and manager.

#### THE DEPOT EXTENSION.

The company's stock will be issued to satisfy the investment. As soon as the financial arrangements are completed work will begin.

#### Christian Ministerial Association.

The Oregon Ministerial Association of the church of Christ met in Albany Tuesday. The meeting was called to order at 2 p. m. by the president, David Wetzel, of the First church of Christ, of Portland. After a few brief, pointed and forcible remarks by the president, G. W. Wright of Albany gave an address of hearty welcome, which was responded to in a happy way by Elder D. M. Doty of Dallas. Rev. S. G. Irvine and Rev. T. J. Wilson of Albany were voted access to the floor of the convention. The committee on constitution reported a strong document and it was unanimously adopted. The following were elected officers: David Wetzel of Portland, president; J. F. Stewart of Albany, vice-president; W. R. Williams of Salem, secretary; D. M. Doty of Dallas, treasurer. After appointment of committees, the meeting adjourned till 7 o'clock.

#### WOOD! WOOD!

Here's a snap in the wood trade.—Four foot fir wood at \$1.00 per cord!

CAPITAL LUMBERING CO.

"The Best."

#### MARRIED.

WEST-FISHER.—At the Baptist parsonage, at 8 o'clock p. m., Tuesday, Oct. 6, 1891, Gertrude Fisher to Frank West, Rev. Robert Whitaker, officiating.

#### DIED.

MEYERS.—Mary, wife of Charles Meyer, at the home near Jefferson, Oct. 6, 1891, aged 63.  
Deceased will be buried in the Ankeny cemetery, Thursday morning at 11 o'clock. The funeral takes place from the home of Aug. Miller. Mrs. Meyer was a member of the German Lutheran church. She suffered from an attack of the grippe, which left her stomach very weak and for the past two months she has partaken of scarcely a mouthful of food.

ASHBY.—HUMPHREYS.—On Wednesday, Oct. 7, 1891, at the M. E. parsonage in Salem, by Rev. Kellerman, Hattie Ashby to Will Humphreys, both of Marion county.

The groom is a son of Dr. Humphreys of Waldo Hills. The bride couple took the afternoon train for a short visit in Portland and Eastern Oregon.

#### Counting Particles of Water.

Water particles can now be counted by Mr. John Aitken's latest modification of his apparatus for counting the particles of dust in the air. In his communication to the Royal Society of Edinburgh, Mr. Aitken says of the instrument: "It consists of a glass micrometer divided into squares of a known size, a spot mirror for illuminating the stage, and the strong lens of a microscope for observing the drops on the stage." In the case of one of the observed Mr. Aitken found the number of drops falling per minute to reach nearly 20,000 per square inch.—London Tit-Bits.

#### Production of Silk.

The quantity of silk produced annually is over 100,000,000 pounds a year. Before the Revolutionary war the silkworm was introduced into Virginia and North and South Carolina, but the culture has never been attended with any degree of success in the United States.—New York Recorder.
