ship. Bismarck is said to have received the admonition with very ill grace. All his valuable papers, save those of a strictly family nature, are in London. He retains copies of some of them, however, and it is those copies he proposed to use in the reichstag.

THE ELECTION IN IRELAND.

CORK, Nov. 6.—Great excitement prevails; both parties are making their final appeals to the voters and an active canvass is in progress. The arrival of two additional companies from Dublin indicates how the authorities regard the situation. The police will be on duty, either on the streets or in the barracks, awaiting the order to go any place where they may be needed. It is believed that a good proportion of the 3000 unionist voters will be thrown for the Parnellite candidate, as there is no expectation that Sarsfield can be elected.

THEY MAY STRIKE.

NASHVILLE, Tenn., Nov. 6.—One hundred and twenty-seven of the released convicts, released by the Nashville miners in Coal Creek district are still at large. The releasing convicts does not seem to have satisfied the miners and unless other demands made by them are conceded a strike may occur.

THE BRIBERY CASE.

SAN FRANCISCO, Nov. 6.—Ex-Assemblyman Bruner appeared before Judge Wallace yesterday, and, after securing a continuance of his case until today, because of his counsel's illness, filed a motion to set aside the indictments against him on the grounds that the grand jury was illegally drawn; that its members are prejudiced against him, and that the indictment was founded in part upon testimony given by himself as a witness before the grand jury. He also filed a demurrer charging that the indictment does not state facts sufficient to constitute a public offense, and that it does not conform to the requirements of the statutes. On Bruner's motion Judge Wallace ordered a subpena issued for the county clerk and each of the grand jurors to appear today. Bruner then went before the supreme court and applied for a writ of prohibition. The court took the application under advisement.

INTERVIEW WITH SHERMAN.

CLEVELAND, O., Nov. 6.—In an interview on the recent elections, Senator Sherman said: "In the first place, so far as the Republican party is concerned, the result in Ohio fixes the silver question as the one issue of the next presidential contest, and decides it so far as this state is concerned. I am convinced the free coinage bill will be passed by the congress which assembles in December. I also believe such a bill will be vetoed by President Harrison. That will naturally make free silver a feature of the next presidential fight, in fact it will be the leading issue upon which there is a vast difference of opinion in both parties. It is exactly like the tariff. Local conditions and interests govern the sentiment and action. I doubt very much whether the Democracy in the national convention will proclaim for free coinage. If they should there will be no other issue of significance in the next campaign. The financial battle that will be fought in Ohio then will be transferred to the national contest and such a one as we have never seen will be the result. Tariff will be prominent but not the vital point of the contest."

The tariff question will practically be settled for the time being, but it will always be a source of agitation as long as the government lasts. During the next session of congress it can hardly be considered but in the next campaign it will be a leading issue with silver.

PECULIAR FRAUD.

NEW YORK, Nov. 6.—John J. King, a respectable citizen of Brooklyn, was arrested Wednesday night at the request of the Boston police. The charge against King is a peculiar one, involving him, as alleged, in a fraudulent transaction, from which so far as known he neither has received nor expected personal gain. Some months ago, a friend of King dying with consumption, being at that time in the last stages of the disease, applied to the Boston branch of the New York Life Insurance company for a policy of $2000 on his life. Knowing that in his condition it would be impossible for him to pass the examination or get the policy, he arranged with his friend to impersonate him and issue the certificate in his name. This was successfully accomplished, as alleged by King, and the policy secured without the company's suspecting that any fraud had been perpetrated upon them. In due course of time the sick man died and a demand was made on the company for the payment of the policy, which, as everything appeared right, was paid, the amount being turned over to the dead man's widow. Recently the Boston manager discovered that all was not as it should be, and the matter was investigated, with the result that the fraud was discovered and a warrant issued for King's arrest.

HAD A HARD TIME.

SEATTLE, Nov. 6.—The steamer Wilmington, which sailed from Portland on Oct. 31, arrived here last night after a terrible experience of five days in the raging sea. Her bulwarks are torne away and she was badly battered. She made two attempts to get back to Astoria, but was unsuccessful. Her engines broke down, and she rolled for a time in the trough of the sea, shipping a large amount of water. The waves smashed in her bulwarks in the port side, and the water swept over her deck and flowed down into the steerage, carrying some of the coal which was piled forward on her deck along with it.

The steamer started from Portland on Saturday evening carrying fifty tons of coal forward on her deck. Just as she passed out of the mouth of the Columbia river, Sunday evening, she encountered a terrific southeast gale but she held her course until about sixty miles off the bar. About o'clock in the morning the packing blew out of the engines, but it took only about ten minutes to fix it. The vessel got in the trough of the sea, and she rolled so terribly that every moment seemed to be the last. The water, which was sweeping over her deck, was flowing down in her steerage carrying a portion of the coal along with it. Captain Moody called on the steerage passengers to come up and shovel off coal or all would be lost. They obeyed. The coal was shoveled off into the bunkers; the engines were placed in order again, and she was turned head on, until finally she began to leak. It was then feared she would not have coal enough for the trip, and she was headed back for Astoria again.

On reaching the mouth of the Columbia river the sea was rolling so that Captain Moody would not venture in, but put to sea again. This was Monday evening, and on Tuesday evening he made another attempt to cross the bar, but it was too foggy, so he started for the sound to get coal. She kept her course until last Tuesday night, when she encountered another heavy gale and had to lie head on until Wednesday morning. Her engines broke down Tuesday night, and it took two hours to fix them. Wednesday morning she headed for Distruction island, and missed it about a mile. She passed the cape Wednesday evening in very heavy seas.

Capt. Moody said that had she been an hour later he believes she never would have been heard from again. The passengers say that the vessel went to sea wholly unprepared. Her hatches were not fastened down, and she had no sails to carry in case of emergency. All the passengers are talking of leaving her and taking another steamer to San Francisco. As soon as she takes coal she will put to sea again.

THE NEW COIN.

WASHINGTON, Nov. 6.—Under the authority of the act of congress, approved September 28, 1890, the director of the mint has prepared a new design for silver coin, which has been approved by the secretary of the treasury. The design is intended for half dollars, quarters and dimes. On the obverse face of the coin is a female head representative of liberty looking to the right with an olive wreath and Phœnician cap on the back of the head. On the band, or fillet, over the front of the head is the word "Liberty," and over the head at the top of the coin, "In God we Trust." Around the medallion are thirteen stars, and at the bottom the date of coinage. On the reverse side appears the seal of the United States, as adopted in 1782, an eagle with open wings. On the breast a shield argent, six pellets gules, a chief azure. In his dexter claw the eagle holds an olive branch, representing peace, and in the sinister claw a sheaf of thirteen arrows, representing war. In his beak the eagle holds a scroll containing "E pluribus unum," entwined above and about the head with thirteen stars, environed by clouds. This will be the designs of halfs and quarters. Dimes on the obverse side, instead of the stars, will have "United States of America." "In God we Trust" will be omitted from the dime. The reverse of the dime will be the same as the present dime in use. The reverse of the half and quarter is a return to the design of almost the first coinage of the country.

DOUBLE LYNCHING.

BASTROP, La., Nov. 6.—W. S. Felton and K. F. Smith were taken from the Parish jail here by a mob and hanged. Smith and Felton were suspected of the murder of the J. A. Dryeus at Merrouge near here October 16th, but no arrests were made at the time. A few days afterwards Smith went to Arkansas, where he remained until last Saturday, when he returned. Then he and Felton made threats against several citizens of Merrouge, and for this Smith was arrested on Monday. Felton then became more violent, and both here and at Merrogue he threatened incendiarism and personal violence if Smith was not immediately liberated. As a result Felton also was jailed. By this time public feeling against the two men became intense, and it culminated in the double lynching.

RAILROAD TRAIN ROBBED.

OMAHA, Nov. 6.—The Missouri Pacific train which left Omaha Wednesday night was held up by four masked men at a West Side suburb, at 11 o'clock. They covered the engineer and fireman with their revolvers. By threatening to blow open the floor of the mail car with dynamite, the clerk was induced to admit the robbers, who plundered the car. The officers refuse to give any information as to the amount of money taken, but it is said large sums for Kansas City and St. Louis were secured. It is estimated the robbers secured $6000 in money taken from a safe in the Pacific express car.

FROM NEBRASKE.

OMAHA, Nov. 6.—Official returns are received from thirty-nine of the ninety counties in the state, showing a total vote of 35,828 for Post and 35,077 for Edgerton. Partial returns received from the other counties of the state furnish a basis for a careful estimate of the result. This shows Judge Post's election over Edgerton by a majority of over 6000.

CAUGHT IN TIME.

NEW ORLEANS, Nov. 6.—An important arrest was made here yesterday, which will prevent the issuance of a large number of bogus bonds of the republic of Honduras. Jesus Astegao, who is said to be an expert counterfeiter from Honduras, applied several days ago to two engraving firms of this city to print for him a large number of Honduras bonds, presenting evidence that he was duly authorized by the republic to have the bonds printed. He also applied to one of the engravers for a steel stamp, a fac-simile of the signature of the president of Honduras. The matter coming to the knowledge of Lamar Quintaro, the Costa Rica consul, an investigation was set on foot by him, and the character of Astegao was exposed. As a result Consul Quintaro applied to the United States commissioner for a search warrant. A visit was paid by the consul and deputy marshal to Astegao's quarters, where a number of criminating papers and a quantity of forged bonds were discovered. Astegao's arrest followed, and he was arraigned before the commissioner, and sent to jail in default of bail.

A BAD MAN.

SAN FRANCISCO, Nov. 6.—H. L. Bales, as agent for the state of Oregon, arrested John Davidson, a machinist at Vallejo yesterday. The prisoner is to be taken to Oregon. Davison cashed at Ladd & Tilton's bank, in Portland, a check on the Seattle Bank for $175, and Ladd & Tilton's bank afterward discovered Davidson had no funds in Seattle. Coming to San Francisco, Davidson enlisted in the navy, and was assigned to the cruiser Charleston, from which ship he deserted in San Diego.

LARGEST U. S. SUIT.

MUSKOGEE, I. T., Nov. 6.—Sarah Ellis and other Cherokee Indians have filed a petition asking for the partition and allotment of the Cherokee lands. Joel B Mayes chief of the nation and others are made defendents. Petition asks for the allotment of 14,000,000 acres equally among the five tribes of the nation. Suit is the largest ever brought in a United States court.

NO TRUTH IN IT.

TROY, N. Y., Nov. 6.—The Troy Times publishes a dispatch from Frank Hiscock, at Syracuse, saying the statement that he had been tendered the portfolio of the secretary of war is without the slightest foundation.

FOREIGN.

FROM CHILI.

VALPARAISO, Nov. 6.—Santiago has been started by the discovery of a conspiracy against the new government, with its center in that city and a branch at Buenos Ayres. It is alleged that $2,000,000 has been subscribed to carry out the plans of the conspirators. Senor Juan McKenna, one of the political refugees in the United States legation, is accused of being the chief party in the movement. The other principal persons concerned in it are said to be officers formerly under Balmaceda, but now on parole. The main object of the conspiracy is said to have been the assassination of Colonel Canto, commander of the congressional land force.

It is said that dice were cast to decide who would kill him, and it fell to the lot of Lieutenant Colonel Gandarillas, of Balmaceda's army, to do so. The exposure of the plot is said to be due to the fact that one of the conspirators repented of his complicity in it and informed Barras Arana, a wellknown Chilian historian. Senor Arana made known the facts to the government. Lieutenant Colonel Gandarillas was arrested and taken to prison. The police are now devoting all their energies to the task of unraveling the plot. Great indignation prevails both at Santiago and in this city. It is said people in prominent circles are implicated and conspirators to the number of forty-five met at a house owned by Signor Cullera. The conspiracy had progressed so far that committees had been formed to carry out the different parts of it. It had been arranged to have a general rising against the junta. It is reported that ex-General Valasquez was also one of the prime figures in the plot. Preparations had been made for conjunction with Balmaceda's friends in Buenos Ayres. Minister Guerrero has received threats from them. Minister Egan says there is not the slightest truth in the report that Senor McKenna was engaged in the conspiracy, or that any other political refugees at the United States legation were concerned in it.

The steamer Itata arrived at Valparaiso yesterday, and her officers and crew were most heartily received by the populace.

ALL QUIET AT RIO.

RIO JANERIO, Nov. 6.—The situation of affairs here today is reassuring. Troops which have been guarding the telegraph offices since the disturbance commenced, have been withdrawn. Complete order now prevails, and the usual amount of business is being transacted. Prosperity of the country is unimpaired by the recent occurrences.

THE CORK ELECTION.

CORK, Nov. 6.—The election being held today for a successor in parliament to the late Charles Stewart Parnell, who represented Cork city in the commons. The Parnellite candidate is John E. Redmond and Martin Flavin a butter merchant of this city, is the McCarthyite candidate. The influence of the priests are with the McCarthyites in order to avert possible disorder. The polls are this morning strongly guarded.
