PUBLISHED DAILY, EXCEPT SUNDAY, BY THE Capital Journal Publishing Company, (Incorporated.)

Office, Commercial Street, in P. O. Building entered at the postoffice at Salem, Or., as second-class matter.

#### BOIES AND CLEVELAND.

There are strong indications that Boies, re-elected governor of Iowa, will be added to the Democratic presidential ticket which is already as good as nominated. The Democratic press are all engaged in eulogizing Mr. Boies as a suitable running mate for Mr. Cleveland. In many respects there are similarities. For instance, Mr. Boies having been a life-time corporation attorney, it is now leaking out that he polled from twenty to thirty thousand railroad votes. It is now pretty well understood that the railroad companies of Iowa organized their employees and voted them solidly for Boies, and that there is to be no more interference with the corporations in Iowa. While prohibition cut quite a figure in Iowa, the solidly amassed railroad vote elected Boies. The farmers did not do it. Mr. Boies got the benefit of the corporation influence. He is a corporation man, and in this respect he would make a splendid running mate for another distinguished Democrat. It is a noticeable fact that the Democratic fact is not booming any anti-monopolists for the presidency. Penoyer of Oregon, Governor Hogg of Texas and other Democrats, who are distinctively classed as anti-corporation men, set very little notice in connection with the presidency. The tendency toward plutocracy is so strong that a strong combination plutocratic ticket is already selected for the Democratic masses. The same influences will no doubt dictate other political nominations in time. The plutocrats can take a million dollars to a Chicago national convention and dictate the nominees. They will have little difficulty in shaping up matters so as to secure their ends on the Democratic side with Cleveland and Boies in a fair way to be nominated.

#### THE TWENTY FOOT CURB.

Nothing was said or done at the last session of the city council towards paving the streets except to enact the 20-foot curb ordinance. As many blocks are already curbed with cement at a distance of 12 to 14 feet out, there is little use for the 20 foot curb. The theory employed to justify it is that it will save some paving and make the gutter outline even and regular. As the gutters are to be nothing but the rolled gravel street surface, a regular width of walk is not essential so long as it is of the same width for a whole block. It will be a ridiculous expense to build a second cement curb outside the present curbs. It is to be regretted the curb ordinance was not so amended as to apply only to blocks not already curbed. The common-sense way of doing this may not be the scientific way, but it is the right way. The next session of the council should amend this and not run the risk of an injunction. A property owner who has already been allowed by the city to curb the street in front of his property cannot be forced to build another curb of identically the same character only a few feet farther out. Uniformity of street width is desirable but must be provided for by aldermanic wisdom before permanent improvements are made. By amending this ordinance the city will save itself an injunction suit that is quite likely to be successfully prosecuted.

#### A SUPERINTENDENT OF PARKS.

The council has appointed a competent gentleman who volunteered for two years to give his services as superintendent of the city parks and avenues. This is an intelligent step to take toward beautifying our city and very gratifying to all who love progress.

Mark Skiff, the gentleman appointed, is an intelligent man. He has traveled and has seen something of other lands and consequently know what parks should look like. He also keeps his own premises very neat. He will be able to improve the appearance of our parks and is possessed of those tastes and habits that dispose him to do so. Such service as he will render, the city could not buy for considerable money. At a small expense by the city he can wonderfully improve the appearance of the city. It is a step in the right direction. Public-spirited citizens will hail this improvement and thank the council for undertaking it.

A new office is created. There will hereafter be a park commissioner. There is no salary attached, so the city is sure of a reasonably competent service in this department. If there were a salary this might not be the case. Now, can't

a public spirited citizen who loves beauty and order will be selected to superintend our parks and avenues.

#### RECIPROCIITY.

The Confectioners' Gazette, a trade journal of high rank, in speaking of the benefits of reciprocity says:

This country was good enough for the South American to sell coffee and sugar to, but in their buying the favors were all shown to the Europeans. Reciprocity has changed this. It has compelled them to give Americans fair play. It has been the cause of abolishing discriminating duties, and now it has opened the German market to the American hog, which has been barred out heretofore. American farm products gain also in the same treaty. This insures an immensely increased market for American pork, and American corn, which is not such a very bad result of "the reciprocity humbug."

All of which is true and because it is true the business sense of the country approves reciprocity. Reciprocity does not put the American product at the mercy of foreign cheap labor competition. It means protection for American products, and fair exchange in all non-competitive products. It means fair trade instead of free trade. Reciprocity seems to suit the American people pretty well and it is going to suit them still better, as its operation will continue to demonstrate the wisdom of the new industrial policy. During three months of reciprocity between the United States and Brazil there was practically an increase of nearly \$4,000,000 in the export business of this country. This was not due to any "failure of crops" because there has been no failure of crops in Brazil, at least not in respect to the articles of exports which includes wheat, hardware, carriages, railway cars, machinery of all kinds, naval stores, lumber and manufactures of wood, cotton and iron.

#### SUGGESTED COMMENT.

A Salem paper should not wear a Portland collar.

The Oregon state fair next year will be a greater success than ever.

Before entering upon the campaign of 1892 let us eat our Thanksgiving dinner in peace.

Thursday, the 20th, is the day to give thanks or something more substantial to your nearby neighbors.

The campaign in Oregon next year will be a hot one and the Republican party should be well organized.

A great deal of time would be saved to all concerned if our circuit court had a properly printed bar docket.

The late elections prove one thing—the people will never support the best things. Government is a compromise with evil.

Compliments are cheap. Nearly every public man in Oregon is being mentioned for congress by some cheap newspaper.

Albany papers continue to worry over Salem's prosperity. It is hard to print a daily in a small town without having something to worry about.

Salem could have no better advertisement than a fine free public library in a fine building in a fine location—but this is too much to hope for.

The press of the state should oppose the state work being done by bands of convicts that displace the honest laborer. The law should be repealed.

A public newspaper cannot help at times to print matters that cross the private interests of individuals. In some cases the person aggrieved has just cause, but quite often he helps his cause quite as much by a jocular letting alone of the subject.

There is more Catarrh in all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore constitutional treatment, Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75 cents.

Have no equal as a prompt and positive cure for such rheumatic, biliousness, constipation, jaundice, and all liver troubles. Carter's Little Liver Pills. Try them.

Must not be confounded with common cathartic or purgative pills. Carter's Little Liver Pills are entirely unlike them in every respect. One trial will prove their superiority. The well known strengthening properties of iron, combined with other tonic and a most perfect emulsion, are found in Carter's Liver Pills, which strengthen the nerves and body, and improve the blood and complexion.

Highest of all in Leavening Power.—Latest U. S. Gov't Food Report.

## Royal Baking Powder

ABSOLUTELY PURE

#### GENERAL NEWS NOTES.

The number of children attending the public schools in Colfax is about 400.

Some of the school lands situated in Nez Perce county, Idaho, will be sold at public auction at Lewiston on Tuesday, November 24.

Many wild fowls are reported on the lakes throughout Eastern Washington, and sportsmen are improving their opportunities to the utmost.

A Fort Klamath correspondent says: No less than 13,000 acres of this country will be under irrigating ditches next spring, and this beautiful section is destined to be a very Eden spot of Oregon.

The Union Republican states that property in Union is worth 50 per cent more since the completion of the water works. The reason is evident, as the chances for destruction by fire are greatly diminished.

A very small proportion only of the Lane county wheat crop has left the hands of the growers. The present advanced price will result in large sales, and the result will be the present stringent money markets will be relieved.

A. L. Selman and Miss Mabel Allen, of Zena, eloped Wednesday evening, because of objection to the marriage made by the girl's parents. Their reason for objecting are that Selman had nothing to support a wife, no home, no means and no trade.

The Colfax Gazette reports that the scale bug is increasing in several parts of the Palouse. It is said that several orchardists are in danger of losing a large number of their trees unless vigorous measures are taken soon against the pest.

A depth of 450 feet has been reached in the second artesian well in the Moxee valley, and indications are that in a few days the well will be in full discharge. The Republic says the difference in the depth of the two wells is but fifty feet, the first one spouting water at 400 feet.

Sixteen of the large lights of glass in the high school building at Colfax were broken by hoodlums recently. The names of the boys who did the mischief were learned, and as the panes cost \$1.15 each, it is quite likely that they will find the sport too costly for further indulgence.

#### The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever afterward holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottles free at Fry's drugstore, 225 Commercial street.

Between the rows of their newly set orchard near Jacksonville, Crowell & Son last season raised full twenty-seven bushels of corn to the acre and never lost a tree—a good showing at any time. They will have one of the very best orchards in this section in a few years.

Rev. W. H. Wilson sold last week his fruit farm on Mill creek, near The Dalles, to the new fruit company for \$9000. This new company are acquiring all the valuable fruit land in the vicinity of The Dalles, and are pushing matters lively, which means lots of business in the near future.

The town of Fossil is greatly excited over the discovery of a well defined coal vein within the city limits. The discovery was made a short time ago when George Mateer, in sinking a well, struck the vein at a depth of forty feet from the surface. The well is about a mile and a-half from the tunnel which was dug into Black Butte mountain by C. S. Miller several years ago. The coal has been tested and found to be excellent.

Dr. R. L. St. John of Howland, Putnam county, Missouri, takes especial pleasure in recommending Chamberlain's Cough Remedy, because he knows it to be reliable. He has used it in his practice for several years, and says there is none better. It is especially valuable for colds and as a preventive and cure for croup. This most excellent medicine is for sale by Geo. E. Good.

#### Buckley's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Burns, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give prompt satisfaction or money refunded. Price, 25 cents per box. For sale by Dr. J. F. Fry, 225 Com. St.

#### MISCELLANY.

##### HE PROMISED TO MARRY HER.

DAYTON, O., Nov. 19.—A sensation has come to light here. The hero of the story is Edward S. Crane, whose father is president of the Troy National bank. Mr. Crane has been brought up in luxury and wealth, and was considered the pet of the household. He kept company with a lot of swell fellows here, and graduated at a commercial college. His father sent him to Wellston seminary, Easthampton, Mass., to prepare for Harvard or Yale. While there he visited his uncle in Brooklyn, N. Y., who is president of the Cleveland Baking Powder company, also a large stockholder and president of a New York company. His uncle resided in a mansion and near by resided Miss Mary Degarno. The young people met and an acquaintance sprang up. When Crane had completed his studies his uncle made him secretary of the Cleveland Baking Powder company. Crane frequently called upon Miss Degarno, their friendship ripened into love and they became engaged. Miss Degarno is a handsome, vivacious brunette, wealthy and a member of the society clubs. Under promise of immediate marriage she yielded to the desires of Crane, and she soon saw that she was to become a mother. Crane, the dauntless man, with influence and wealth, then resigned his secretaryship, and suddenly changed his mind, concluding not to marry the girl he had wronged, and telling her that he was coming to Ohio to prepare for his wedding with her, he went to Troy, O., and there consulted relatives who advised him not to marry the girl. He came here and mingled with his wealthy relatives and continued to write to Miss Degarno, telling her he intended to make his word good and still loved her. She came here and stopped at the Phillips house and very foolishly called upon a friend of hers, who was a relative of Crane's and asked if he was in town. Crane immediately left for the west. The girl has disobeyed her attorneys in her anxiety to see her lover. They had instructed her to swear out a warrant for his arrest before she made her presence known. She believed he was anxious to see her and would come to her. Next day she swore out the warrant, but Crane had gone. Attorneys and rich relatives of the Cranes offered to compromise the suit with Miss Degarno for any sum she would name, but she scorned all offers and had detective sent out in all directions for her recent lover. Then it is alleged that influences were brought to bear and Miss Degarno was arrested as an adventuress and blackmail. She was taken to police headquarters, where she told her story and was allowed to go free. She then renewed her wish to find Crane, stating that she does not care to live with him, but wants a legal father for her unborn child. Crane was last heard of making arrangements to sail for Europe. Miss Degarno's father is in Europe and will meet Crane when he lands, if he goes. The wronged girl's parents and attorneys say they will hunt Crane down if it takes a lifetime. The developments have created a great sensation in society circles here.

##### TOO SHARP FOR DETECTIVES.

HONOLULU, Nov. 19.—The British yacht Beagle arrived here about September 1st, with the owners, Messrs. Bloom and Douglas, on board, who spent money lavishly while here. On the arrival of the steamship Australia from the colonies last month, it was announced that the Westminster bank of Sydney had been robbed of over 50,000 sovereigns, and photographs brought by the detectives who came on the steamer, it is claimed, tallied with the appearance of the owners of the yacht. The latter were at once arrested on the charge of smuggling coin, which did not appear on the vessel's manifest and on the importation of which there is a duty fixed by the Hawaiian laws. A detective then went to San Francisco to cable to Sydney for further instructions, as there is no treaty between Australia and Hawaii covering the case at point. The trial of the men was continued until the return of the steamer from San Francisco, which
