LOCAL DATES.

Jan. 22. County Farmer's Alliance.

A LITTLE MIXED.—The Salem Journal gives us one of the new inmates of the reform school, N. J. Heaton, from Albany, aged 10, Mr. Heaton is at least four times that age, and, instead of going to the reform school, the city recorder is the gentleman who signed the commitment of Thomas Martin Heffron for that school, and the JOURNAL man probably did not look straight. A correction may possibly save him a cordon thrashing at the hands of the Albany official.—Albany Democrat. The error occurred by mistaking the committee for the committee, as the Democrat can see. We do not know Mr. Heaton, but extend a cordial invitation to the Democrat man to enter a London or Queensbury ring at short notice if he is inclined that way.

NEW SCENERY.—A reporter this morning found Cherrington Bros. art gallery all torn up and workmen busily engaged repairing furniture and remodeling the rooms. An outfit of elegant new scenery is being put in to be in keeping with the celebrated artist photo which this firm have gained such a reputation for of late. Cherrington Bros. are bound to have everything in their line up to the highest grade.

SALOON POLITICS.—The Wood burn Independent has a Salem correspondent who must have been sent here on commitment papers in charge of Dr. Rowland. He asserts that there are sixteen saloons at Salem, all but two of which are run by Republicans. It is useless to refute such silly assertions, as actual count shows that saloon keepers are divided in politics as other people. Not half Salem saloon keepers are Republicans, if that many.

A MIDNIGHT CARNIVAL.—A whole State street block was excited Wednesday night after twelve by a fierce struggle between an employe of a barbershop and a woman of the town who was considerably inebriated. The fellow had struck her and choked her, and bitten her cheek until her cries alarmed a neighbor who assisted her up after she had fallen down stairs. Even the most miserably have their infidelities.

FARM SOLD.—The Fred Brown farm four miles southeast of the city was yesterday sold by Catterlin & Martin to L. M. Benninghall, late of Pennsylvania. This firm is making some substantial sales of late, and to have a superior list of property to show buyers.

Sweet Oranges.—Washington navel and Riverside, all sizes, and prices the lowest at Clark & Eppley's.

Ladies' superior cloth top shoes reduced to \$3.00 at R. J. Fleming's State street shoe store.

STYLE.—If you like oysters in any style known to the art of cookery go to Hellenbrand's.

Sweet potatoes, first class at Clark & Eppley's.

NEW ELECTION PRECINCTS.

Established by the County Court and Commissioners—Further Business.

Sublimity.—Commencing at the southwest corner of sec. 33, T 7 S, R 1 W, thence running east to southeast corner sec. 34, T 8 S, R 1 E; thence north one mile, west three-fourths mile to southwest corner sec. 31, T 8 S, R 1 E; thence north to northeast corner sec. 5, T 8 S, R 1 E; thence west to northwest corner sec. 4, T 8 S, R 1 W; thence south to place of beginning.

Silver Falls.—Present Silver Falls precinct, less sec. 33, 34, 25, and west half of west half sec. 27.

Horeb.—All that portion of the present Horeb precinct lying west of the west line of T 9 S, R 1 W, with voting place at G. S.

Brettenbush.—All that portion of present Horeb precinct lying east of west line of T 9 S, R 5 W, with voting place at Brettenbush.

Ordered by the court that the county surveyor be directed to furnish descriptions of boundaries of election precincts by metes and bounds as established by the court.

The court rescinded its order creating Salem precinct No. 4 and Salem precinct No. 5, upon the application of the residents of that district, for the reason that there would have been only about sixty electors in the latter precinct. The two were thrown together and will be known as Salem precinct No. 4. Its boundaries are as follows: North by Berry street, east by railway, west by Willamette river and slough, and south by Mission street and the south boundary of Salem as platted by T. H. Wilson.

ROAD REFORM.

Petitions Being Signed all Over the County for a Road Tax.

Petitions are ready for submission to the county court asking a levy for county road purposes.

The committee that has been assigned the duty of waiting upon the county court should be prepared to do so at an early day.

The present roads and the system that engenders them must be abolished. It all depends upon the interest and energy of the people in the matter.

There must be something done and now is the time to do it. If there is not action at this term of court nothing more can be done for a year but to plod on under the old system and—in the mud.

RAILROAD AMENITIES.—

Railroad men in this city are laughing over the way the traffic men of the Oregon Pacific company have got away with a valuable consignment of their traveling agent. The Oregon Pacific men learned that a large quantity of hops was to be shipped East via the "Sunset." Now, the Southern Pacific company refuse to pay the Oregon Pacific company's charges on freight delivered to them at this point; but to make the thing "dead sure" the Oregon Pacific men shipped a box to Albany with charges and made a great row with the Southern Pacific men in Portland about their refusal to advance the charges and then referred the matter to the San Francisco office. That office sustained the Portland office to the effect that none of the Oregon Pacific railroad charges should be advanced at Albany. Now, the hops were shipped from Philomath and transferred to the Oregon Pacific boats for Portland, and the reason given to the through lines for diverting the shipment is, that the Southern Pacific company declined to advance charges at Albany. There has been several shipments handled in the same way since, and there is now a large shipment in the warehouse at the Oregon Pacific dock waiting to go forward by boat. It seems evident the Southern Pacific company's "dog in the manger policy" will prove a boomerang.—Albany Herald.

LOCAL AND PERSONAL.

Thos. Sims returned this afternoon from Mill City.

One disorderly and one drunk were before the recorder.

The State street clean-up is a good one. Let the good work go on.

W. Coburn, a Scot, died near Gervais the 13th inst. He had been at Brooks for several years, having a regularly sent allowance from Scotland.

The Albany Democrat says: "The county court of Marion county played a great joke on the newspapers there. It ordered the county court proceedings published at one cent an inch. The county court there evidently thought that they would have some fun."

THE JOURNAL has received considerable favorable criticism for its vigorous treatment of the state tax levy question, and its enterprise in having the only verbatim report of Mr. Bilyeu's speech which has attracted so much attention.

Roy D. Gilbert, manager of McCully & Gilbert's store at La Grande, arrived in the city last evening to spend a week under the parental roof.

Superintendent Irwin of Harrison institute at Chemawa was in the city today, and says that he is expecting the arrival of his successor every day. The new superintendent is to be Chas. W. Wasson, of Massachusetts, who has been appointed through the civil service commission.

The time of service indicates that the city marshal and attorney must proceed to abolish the Milling Co's North mill creek race next Monday as that will be ten days after giving notice. The council does not meet until Tuesday.

A BLUFF GAME.

Manager Wilcox's Threats Being Circulated to the Harm of Salem.

Portland Telegram: T. B. Wilcox, the president of the Salem flouring mills and the Willamette Valley mills, is having a little trouble in Salem over a recent ordinance passed by the city council. It seems that the mill race overflowed on the night of the 3d inst., and the council required the damages to be repaired. This the milling concerns are willing to do, but not to be subjected to an addition of insult to injury by a caution to stop any recurrence of the matter. They say that the overflow is the first one that ever happened them, and even it was caused by some evil-minded person, who opened the head gates and caused an overflow all along the ditch when the mills were shut down. Mr. Wilcox has ordered that both mills shut down as soon as they have ground the wheat they now have on hand, which means six weeks in the Salem flouring mills and ten days in the other. Unless a peace is made in some way all the wheat in the future will be ground at Albina, and Salem will be minus a strong industry.

COAL FOR GAS!

First Sample From the Coal Fields Near Salem to be Tested.

Blair Forward brought in a load of coal Wednesday for the Salem Gas works. It will be dried and placed in a special retort where its gas product will be tested and measured, and its burning qualities tried.

THE TRIAL

will be made in a few days. The coats of a jet black color, and when broken glitters like the veritable black diamonds of Pennsylvania. The gas test is a sure one and will go far to determine the value of the coal fields east of this city. As soon as the roads get so as to be traveled readily there will be a constant stream of visitors to the Blair Forward coal fields.

What Some Wives Expect.

That a man will come home eagerly night after night, after his business, and caress them, and whisper loving words, when the fire is sickly, the hearth unclean, the dinner delayed and badly cooked, the children neglected looking and cross, and she herself grumbling and complaining, is what some women expect to find in matrimony. Well, she need not expect it; he won't come; he has more sense. He will very naturally leave her awaiting him and go where his surroundings will be more tempting, where he can get a good meal and read his paper in peace and quietness.

When a man knows a nice dinner is waiting for him, a comfortable fire, a smiling wife and bright, well cared for children, as a rule, with very few exceptions, he will come home with rapid feet and eagerness. Try it, ye women whose husbands are uncertain in their home coming; it is quite worth your while; it requires some thought, self denial and much effort, but it will repay in so many ways—an easy conscience, a happy home, a contented husband, healthy children and an approving mind.

Some women expect a man to give them all the money they ask for to spend as foolishly and recklessly as they like; he is simply a money making machine, existant for their convenience; his life must be a hard working one, while hers is to be full of ease and amusement. The worst of it is, these sort of women generally get the best men, and are much envied by their more unucky sisters.—Dublin Times.

How to Keep Your Temper.

Ruskin, in a letter to young girls, says: "Receive the thing that is provoking or disagreeable to you as coming directly from Christ's hand, and the more it is likely to provoke you thank him for it the more, as a young soldier would his general for trusting him with a hard place to hold on the rampart. And remember that it does not in the least matter what happens to you—whether a clumsy school fellow tears your dress or a shrewd one laughs at you, or the teacher doesn't understand you. The one thing that does matter is that none of these things should vex you.

"Say to yourself each morning, just after your prayers, 'Whoso forsaketh not all that he hath cannot be my disciple.' This is exactly and completely true, meaning that you are to give all you have to Christ to take care of it for you. Then, if he doesn't take care of it, of course you know it isn't worth anything. And if he takes anything from you, you know you are better without it. You will not, indeed, have to give up houses and lands, or boats or nets; but you may, perhaps, break your favorite teacup or lose your favorite thimble and might be vexed about it, but for this second St. George's precept."

Using Odds and Ends.

A woman well known among her friends for the tempting little dishes served at her table says that usually those dishes are her little economies. One of her ways of disposing of cold chicken, or in fact of any kind of cold meat that is well flavored and tender, is to serve it with boiled rice and a curry sauce. The sauce is made first by browning slightly a large tablespoonful of butter with a teaspoonful of minced onion, cooking them slowly in a frying pan.

A tablespoonful of flour and the same quantity of curry powder are then added, and the mixture is stirred until smooth and frothy. Add two gills of cold milk, a little at a time, stirring the sauce all the time, and season it with a teaspoonful of salt and a dash of pepper. Cut the chicken fine, turn the sauce over it and heat slowly. This dish should be served on a heated dish with hot boiled rice. A half cupful of rice boiled until soft is a sufficient quantity for the given quantity of chicken.

Bachelors in New York Society.

According to a society directory there are 3,307 bachelors among the people who make up good society in New York—that is, twice as many unmarried men as women, and many unmarried men than married.

There are 8,098 names in this directory of polite society. Of that number 3,307 are those of unmarried men, 4,503 are those of unmarried women, and 3,198 are the names of married men and their wives. This indicates the extent of the bachelor habit in New York. There are twice as many bachelors as maidens. And yet there is no complaint. Not one of these 3,000 bachelors will admit he could not find a wife if he chose.

It has long been a matter of remark that men do not rush as impetuously into marriage as they used to.—New York Letter.

A Cautious President.

The frequency with which New York bank cashiers take advantage of their opportunities is causing some disgust. The president of a New York bank remarked not long since to one of the principal stockholders and depositors: "I feel much safer about the funds than I did last week."

"I am glad to hear it. I have been feeling very uneasy about my money. What precautions have you taken?"

"I've had a special telephone wire connected with the Grand Central depot, and the man who sells tickets has got a photograph of our cashier, so if he goes to Canada we will know in time to have the sounder arrested."

About a week afterward the president himself went to Montreal with most of the assets.—Texas Sittings.

FOR PORTLAND.—

Today Messrs, L. and P. Burton, two of the Salem brick makers, left for Portland where they are about to open the largest brick yard in the state, at the junction of the steam motor line with the S. P. on the west side. They have some of the best machinery enroute from the east, and expect to be in operation by early spring. Ed and A. A. Burton will conduct the Salem yard the coming season.

JAIL REGISTER.—Marshal Minto has received from the secretary of the state board of charities and corrections a fine jail register. There are columns so arranged as to give a complete history of each occupant, his offense, nativity, and thus is kept a record of the penal business of the office. This will prove a useful book.

Pimples.

The old idea was that facial eruptions were due to a "blood humor," for which they gave potash. This, the old Sarsaparilla, is a drastic mineral, that instead of decreasing, actually causes more eruptions. You have noticed this when taking other Sarsaparilla. It is however now known that the stomach, the blood creating power, is the seat of all vitiating or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, result pimples. A clean stomach and healthy digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compounded after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate. A most testimonial to contrast the action of the potash Sarsaparilla and Joy's. Mrs. C. D. Stuart, of 405 Hayes St., S. F., writes: "I have for years had indigestion. I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently, I tried it and the pimples immediately disappeared."

DIED.

MINTHORN.—Thursday, Jan. 14, 1892, at noon, of a grippe, Miss Tennie C. Minthorn, daughter of Dr. and Mrs. H. J. Minthorn, that is, twice as many unmarried men as women, and many unmarried men than married.

Miss Minthorn was a student at Willamette university and was about seventeen years old. Her death is a severe blow to the family and to the society of Friends, of whose church at Highland she was an active member.

The funeral will be held Friday at 3 o'clock p.m. at Friends' church, and the remains will be taken to Newberg Saturday for interment.

Does Experience Count?

It does, in every line of business, and especially in compounding and preparing medicines. This is illustrated in the great superiority of Hood's Sarsaparilla over other preparations, as shown by the remarkable cures it has accomplished.

The head of the firm of C. I. Hood & Co., is a thoroughly competent and experienced pharmacist, having devoted his whole life to the study and actual preparation of medicines. He is also a member of the Massachusetts and American Pharmaceutical Associations, and continues actively devoted to superintending the preparation of and managing the business connected with Hood's Sarsaparilla.

Hence the superiority and peculiar merit of Hood's Sarsaparilla is built upon the most substantial foundation. In its preparation there is represented all the knowledge which modern research in medical science has developed, combined with long experience, brainwork, and expertness. It is only necessary to give this medicine a fair trial to realize its great curative value.

It is a Mistake To try to cure catarrh by using local appliances. Catarrh is not a local but a constitutional disease. It is not a disease of the man's nose, but of the man. Therefore, to effect a cure, requires a constitutional remedy, like Hood's Sarsaparilla, which, acting through the blood, reaches every part of the system, expelling the taint which causes the disease, and imparting health.
