

Liège, Belgium. During the siege of Paris he was one of the army physicians, and did much to relieve the wounded. Shortly thereafter he came to Chicago; he remained one year, and then moved to Lafayette, Ind. There he built up a lucrative practice, but the murder of his brother and the death of his wife led him to drink, and he became a slave to liquor. Four years ago he returned to this city, and had been employed for two years upon Le Courier de Linnos. He was a good French and German and English scholar. He leaves a sister, who married into one of the best families of England, and a brother, an officer of the English army.

THE CHILIAN AFFAIR.

The President has Concluded His Examination.

HOLMAN'S RESOLUTIONS.

Want to Volunteer, Railroad Accident, The Ohio Rising, New York Republicans, Rain Making, Over a Million, After the Liquor Dealers, Fire at Coffax, Missing from Home, Found Dead, State and Foreign News, Etc.

WASHINGTON, Jan. 15.—The president today concluded his examination of the diplomatic correspondence in the Chilean controversy, and sent the documents back to the state department. At the cabinet meeting today he announced this, and indicated that the next step in the case would not be long delayed. The whole matter was discussed in a general way, but no action was taken, as there was nothing to be done until the correspondence is published. It is ascertained that the president will accompany the transmission of the correspondence by a message on the subject that will advance certain propositions that will define the attitude of the administration in a very positive manner.

WASHINGTON, Jan. 15.—The expectation is that the president will have his message ready to be submitted to the cabinet meeting Tuesday or Wednesday.

WASHINGTON, Jan. 15.—The house of representatives of the 52d congress has not followed the aggressive leadership of Chairman Holman, of the appropriations committee, in declaring that appropriations of congress shall be strictly limited to moneys necessary to carry on the several departments of the government.

ROME, Jan. 15.—Handolph Rogers, the celebrated American sculptor, died today. His age was 67.

LONDON, Jan. 15.—Christopher Furness, a member of parliament, has invited subscriptions from British ship owners to defray the cost of conveying to the Russian famine sufferers four million pounds of flour contributed in the United States.

MADISON, Wis., Jan. 15.—The petition filed in the supreme court today by ex-Attorney General Estabrook to test the constitutionality of the gerrymander of the congressional and assembly districts of the last legislature. Petitioner alleges a large number of Republican voters are disfranchised thereby.

PORTLAND, Jan. 15.—Wheat valley \$1.02 1/2 @ \$1.65; Walla Walla \$1.57 1/2 @ \$1.60.

CHICAGO, Jan. 15.—At close wheat was steady, cash, 85; May, 90.

SAN FRANCISCO, Jan. 15.—Wheat buyer, season \$1.79 1/2.

SAN FRANCISCO, Jan. 15.—Forecast for Oregon and Washington: Threatening rain.

La Grippe. The tendency of this disease toward pneumonia is what makes it dangerous. La Grippe requires precisely the same treatment as a severe cold. Chamberlain's Cough Remedy is famous for its cure of severe colds. This remedy effectually counteracts the tendency of the disease to result in pneumonia, provided that proper care be taken to avoid exposure when recovering from the attack. Careful inquiry among the many thousands who have used this remedy during the epidemics of the past two years has failed to discover a single case that has not recovered or that has resulted in pneumonia. 50 cent and \$1 bottles for sale by G. E. Goode, druggist.

WASHINGTON, Jan. 15.—Today when the house resumed consideration of unfinished business, a motion to reconsider the vote by which the previous question was ordered on the resolution ordered by Holman. He had, he said, come to the conclusion that the second resolution was broad enough to cover any and all legal appropriations. It would include all such legislation as private pension bills and the like. The question having been taken on the first resolution relating to bonuses and subsidies, and it was adopted; yeas, 227, nays, 41. On the second resolution referring to limitation of expenditures; Lynch of Wisconsin, making vain efforts to present a substitute; it was agreed to, yeas, 164, nays, 83.

SAN DIEGO, Cal., Jan. 15.—General Cook, commander of Heintzelman post, G. A. R., of this city, and vice national commander of the National Union Veteran legion, on behalf of the foregoing orders, telegraphed to President Harrison yesterday, asking permission to raise a brigade of troops for Chili. The barbarous treatment of American seamen in Valparaiso aroused the spirit of '91-'93 in the old soldiers here to the highest pitch. Permission from the war department to enlist would cause veterans to pour into San Diego.

MINNEAPOLIS, Jan. 15.—A special train carrying an opera troupe was derailed near Brainerd on the Northern Pacific early this morning. The sleeper caught fire and two members of the company were burned to death.

CINCINNATI, Jan. 15.—The floods are coming now as the recent storms have two on the tributaries of the Ohio river and its head waters. Lumber companies have already sustained losses.

ALBANY, N. Y., Jan. 15.—The Republican state senators are getting desperate. In a long conference they very seriously considered a proposition to resign in a body. This daring scheme was proposed by Mr. O'Connor, who has been greatly worried since Governor Sheehan told him at the opening of the ses-

sion that there was no need of Republican Senators coming back after the week's adjournment. The main funds favor with all the Republicans except Erwin, Coggeshall, Richardson and Vangor, and two of the four may yet be won over. If the plan prevails, the Republicans will resign in a body the moment one of their number is unseated. They will refuse to stand for re-election, and will issue a manifesto declaring to the people of the state that they have been deprived of all rights in the senate, and that resignation is all that is left for them. Democrats, on hearing of the proposed plan, ridiculed it as preposterous, declaring there was not enough backbone in the Republican senate, either individually or as a body, to take any such step.

RAIN MAKERS IN CALIFORNIA. PIXLEY, Cal., Jan. 15.—A party of three rainmakers arrived here last night, and will proceed at once to demonstrate what they can do. The weather is dry and cold, and there is no probability of rain in the appearance of the sky; so if any rain falls it will be greatly to their credit. This town is surrounded by nearly 100,000 acres which is being put into wheat, and an assurance of rain would be well worth \$1 per acre to the farmers. So if the rainmakers do what they promise their fortune is assured.

PHILADELPHIA, Jan. 15.—The assignee today made an examination of the books of Joseph H. Coates & Co., the cotton firm which failed. Liabilities and a definite statement of the assets were not presented, but it is understood that the amount involved is over a million dollars. The firm is selling agent for over forty mills in the south, but it is said none of them will be affected.

OTUMWA, Ia., Jan. 15.—Judge Dewey, holding court for Judge Burton, yesterday threw a bombshell into the camp of the syndicate of saloon keepers represented by Liston McMillan. "Stormy" Jordan was fined \$800 and John Nusser \$300 for contempt in violating an injunction. This indicates the fate of the rest of the syndicate of fifty saloon men. "Stormy" Jordan, a saloon keeper who years ago labeled his saloon "The Road to Hell," is one of the syndicate. Liston McMillan has kept him thus far out of jail. Although Governor Boies resigned Governor Larrabee's action in suspending his fines during good behavior, and although the supreme court has decided half a dozen times on constitutional points of law raised, "Stormy" has been doing a land office business since the original package decision, and has treated the Willton bill with contempt. McMillan's plan is to raise federal questions and spring the civil rights bill on interstate commerce lines; but yesterday Judge Dewey ruled all his motions out of order, and told "Stormy" he must respect the mandates of the court or go to jail. A strange feature is that McMillan is a prohibitionist, and was a candidate for congress on the prohibition ticket ten years ago, polling enough votes to defeat Casey. He will get a writ of habeas corpus to keep "Stormy" out of jail, while he carries the question up to the supreme court again.

MISSING FROM HOME. MIDDLETOWN, N. Y., Jan. 15.—Six days have passed since Nellie Brown, a pretty 15-year old school girl, left her home in the quiet village of Otsego, in Otsego county, ostensibly for a ten minute's call on a young companion, who lives near by. She never reached the neighbor's house, but completely and mysteriously disappeared, and unremitting search, which has since been kept up, has failed to discover a clue to her fate. The theory that she committed suicide by drowning in the Susquehanna river, which flows near by is discarded because she had no reasonable cause for self destruction, and the river would have surely yielded up her body to the searchers before this time. A somewhat startling theory is now suggested in explanation of the mystery. It appears that under the will of her grandfather, Nellie would inherit a considerable sum of money upon reaching 21 years of age. If she died before attaining that age the money was to go to more distant relatives of the testator, who are said to be living in Michigan. This feature of the case suggests the possible motive for putting her out of the way, and is being thoroughly investigated by the missing girl's friends.

FUND DEAD. NEW YORK, Jan. 15.—The body of John Carson, agent for Scribner's magazine, was found lying in front of a stable early this morning with his throat cut from ear to ear. Police are undecided whether it is a case of murder or suicide.

NEW PULTRY MARKET.—The Hurdell has opened a new fish and poultry market at the rear of the State insurance building, and is prepared to purchase all the best poultry to be had at the highest market price.

New Try This. It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to give relief, or money will be paid back. Sufferers from La Grippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Trial bottles free at D. J. Fry's drugstore, 225 Commercial street. Large size 75c, and \$1.00.

Safe in the Midst of Danger. This would seem a contradiction, is so, in fact, to the eye. But experience has proved its possibility. Take the case of the individual who resides in a malarious region. A robust constitution is his natural defense against the dreaded malarial attack. Recorded testimony, covering a period little short of half a century, proves that Hostetter's Stomach Bitters is powerful in its effect. It does not only rid the system of malarial poisons, but also restores the system to its normal condition. It is a recognized specific in malarial fevers, and is prescribed by physicians of repute. Look to it if you are afflicted with malarial fever, indigestion, loss of appetite, and general debility. It improves appetite and sleep, neutralizes malarial acid, and restores the system to its normal condition.

Baby cried, Mother sighed, Doctor prescribed: Casterol's.

ODDS AND ENDS. A cushion car wheel is now. New Mexico claims meerschaum deposits. The moon is said to move 8,333 feet per second. November was the ninth month of the year at one time. The emperor of Japan, lately entered on his fortieth year. It is an error to think that any "poor creature" can have a "fine heart."

A lump of coal weighing a ton was recently mined in Wyoming and sent to Denver. A new herring bank 100 miles long has been discovered off the west coast of Newfoundland.

The queen's granddaughters outnumber her majesty's grandsons by almost three to one. At the bureau of engraving 1,400 people are employed all the time in making paper money.

The interstate commerce commission requires \$225,000 and the federal courts about \$4,000 for a year. It is on house cleaning days, not on washing days, that washing preparations of all kinds are especially valuable.

Some souls are like coffins; their confines are too cramped and narrow to hold anything but cold and rigid creeds. The Burmese natives delight in huge, loosely rolled cheroots, varying from six to eighteen inches in length.

A new and powerful machine for clearing wrecks on railroads has been invented and tried by a citizen of Michigan. By a new system compound sheets of platinum and gold are used to make crucibles for use in industrial chemistry.

A Delaware farmer claims to be able to preserve watermelons for winter use by coating the rind thickly with varnish. About half the railroad which is to connect Jaffa with Jerusalem has been completed. The remainder will be finished within a year.

All who care for the individual and the home must desire that in every land there be one day of the week free from the exactions of toll. An Angusta man has recovered a verdict of \$5,000 against a bank which refused to honor his check although he had money there on deposit.

Before he came to America Mr. Willard, the English actor, thought that his was a rather rare name, but on one occasion at Boston he was entertained at a dinner at which every guest was a Willard.

A New York Minister's Boy. There is a certain up town minister whose little son, having profited by his father's teachings, has a most complete faith in God. The little fellow spent some weeks in the country, and became much interested in a yoke of oxen which belonged on the place on which he was staying. One day, desirous of stirring the creatures up a little, he poked them with a stick, but they didn't mind that. Then he scratched them with a hog which lay handy, but still they stood drowsy, almost lifeless. Finally the boy struck a wisp of hay up each ox's nose. That did the business. The oxen stopped chewing their cud and began to look extremely frisky.

"Take care, Harry," shouted the hired man, "them beasts might cut and run."

"Couldn't you stop 'em if they did?" asked Harry.

"Well, perhaps I could, and then again perhaps I couldn't. Oxen is powerful ugly sometimes."

Harry was silent for a moment, and then he said, "I know who could stop 'em if you couldn't."

"Who?" asked the man.

"God," was the answer.

"How could God stop 'em?"

"He could say 'Gee-haw' at 'em," was the triumphant answer.—New York Times.

IRISH WIL. An Irish peasant brought a litter of kittens to a Protestant vicar in a certain town in County Wicklow, requesting him to purchase them. The vicar declined. "Your reverence, they are good Protestant kittens," urged Paddy, but his reverence remained obdurate. A few days after the Roman Catholic priest (who had meanwhile been informed of the offer to his brother clergyman) was approached, and on his refusing to make a purchase the would be seller urged a sale. "Sure, father, dear, they are good Catholic kittens."

"But how is this, my man?" replied the priest. "You said a day or two ago they were good Protestant kittens."

"And so they were," said the peasant, "but their eyes weren't opened."—London Spectator.

TWO WAYS OF FRODOBING MISSOURI. There is a discussion among the Missouri newspapers of the proper pronunciation of the name of their state. It seems to be understood that the plain people call it "Missourree" and the patrician folk "Missourrah." Arkansas wisely settled a similar dispute some years ago by a statute which made the correct pronunciation "Arkansas," with the accent on the first syllable.—Philadelphia Ledger.

Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Reason for its great success is Hood's Sarsaparilla is found in the blood itself. It is worth that, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other remedy.

Merit Wins

Hood's Sarsaparilla cures Scrofula, Skin Eruptions, and all Humors, Dyspepsia, Headache, Biliousness, nervousness, Throat, Stomach, and Bowel Disorders, and all the troubles that attend them. It is a blood purifier, and it is a blood tonic. It is a blood cleanser, and it is a blood builder. It is a blood restorer, and it is a blood strengthener. It is a blood purifier, and it is a blood tonic. It is a blood cleanser, and it is a blood builder. It is a blood restorer, and it is a blood strengthener.
