REMOVED!

To our friends of Salem.

REMOVED!

Some time ago, answered a statement of the new management of the Willamette, one of the most celebrated shipyards of the West, that same old shipyard had not been removed, but that the new building of the Willamette was not worth its price. The Willamette is a very large and well-equipped shipyard, with the latest machinery and the most modern buildings. The new building is built of the finest materials, and is designed to meet the demands of modern shipbuilding. The new building will enable the Willamette to construct larger and more powerful ships, and to do so in a shorter time than ever before.
