NAVAL CHANGES.

WASHINGTON, Feb. 6.—There were some important orders issued from the navy department today. Capt. Sheley is relieved from command of the cruiser Baltimore and placed on duty in charge of the Third light house district with headquarters at Staten Island, relieving Capt. H. F. Pickens, who is ordered to command the cruiser Charleston, Capt. Remy being relieved from her command and granted a two months' leave of absence. The Baltimore is to be commanded by Capt. Wm. Whitehead, who is at present on duty at the Boston navy yard. It is stated at the navy department this morning there had no bearing on the Chilean episode as the relief of Captains Sheley and Remy, those officers having already served more than the regulations required as commanders of vessels, their time expired some weeks ago and it was at their urgent request.

A COURT DECISION.

GALVESTON, Tex., Feb. 6.—The state supreme court has rendered a decision in the case of S. S. Turner vs. receivers Missouri, Kansas & Texas road. John Turner's mother sued for damages for the death of her son who was killed on that road. The court decided inasmuch as the law specified as liable the owners, proprietors, etc., and omits receivers, the latter cannot be held responsible for injuries inflicted not compelled to pay damages.

FOUND DROWNED.

PORTLAND, Feb. 6.—About 4 o'clock Thursday afternoon Coroner River was notified that the body of a man had been discovered floating in the river near the foot of Flanders street. At first it was reported to be the body of Captain N. S. Pierce, who disappeared from Portland on the 9th of January, and this rumor caused quite a sensation for a short time. However, the falsity of the report was very soon verified. Coroner River repaired with all haste to the scene, and soon conveyed the remains to the morgue. The remains were those of a medium-sized man apparently about thirty years of age, very respectfully dressed, and having no beard, but a heavy black mustache. Apparently, the body had been in the water for some days—two weeks, at least—but was not much decomposed. Though the features were bloated, any one knowing deceased in life would have had no difficulty in identifying the remains. Two letters and one envelope were found on the person of the dead, from which it is ascertained that his name was E. T. Williams. The envelope bore the Australian postmark, and was addressed to "Mr. E. T. Williams, Victoria, British Columbia." One letter was dated "Eada street, Melbourne, November 28, 1891," and must have been written by the mother of the deceased, for the letter began "My dear son." No signature was attached to the letter. The second letter was merely dated "Friday," began "Dear Ed," and bore no signature but "Alice." Beyond these two epistles, nothing was discovered tending to throw light on the question of the man's identity or the mystery in which his death is shrouded. No marks of violence were found on the body leading to the suspicion of foul play. When first discovered the body was near the river bank, and had probably just risen to the surface. As yet, the body has not been identified by any friends or acquaintances.

TARIFF REFORM.

WASHINGTON, Feb. 6.—Springer's policy of attacking the Republican tariff by separate bills has found endorsement from the great political economist and father of tariff reform David A. Wells, of Connecticut. At the next conference of the Democratic members of the ways and means a letter will be read not only endorsing the Springer policy as the wisest party course at this time, but intimating that if the Democrats controlled both houses of congress and the executive, the separate bill plan rather than a measure for general revision, would be the wiser course. In his letter, referring to the framing of a complete new bill, he says no bill can be framed that will not contain in its intricacies, errors, and perhaps absurdities, which only time and experience will reveal. In his partisan discussion following such a bill all weak points will be exaggerated and used to obscure more important issues and confuse the public. We cannot afford to give the enemy advantages in discussion or opportunities for befogging the real issues. Again with a complete tariff bill, the friends of reform would have to meet the entire force of protectionists, active and content through the attraction of further opportunity for profit plunder. On the other hand under the tentative plan, that is of

comparatively few issues, the tendency of those interests not immediately affected would be to sluggishness and indifference. The old maxim, "divide and conquer" seems to Wells the most pertinent under existing circumstances. Furthermore, by adopting this method and sending to the senate a few sample bills enacted by the house, removing duties on wool, salt, coal, lumber, tin plate and the like, the Democratic party will define and formulate the plan and scope on which the tariff debate in the coming presidential election shall be conducted.

CHILIAN AFFAIRS.

NEW YORK, Feb. 6.—The Herald's Valparaiso special says: Judge of Crimes Foster assured me yesterday his entire review of the Baltimore case occupied ten days. "I have rendered sentence upon Irená Shumada and Rodríguez," he said, "in strict accordance with Chilean law. The only regret I feel is, there was no direct evidence showing the immediate cause of Riggia's death, although I tried everything in my power to fix the responsibility for his killing upon some one. The court of appeals, which will review the action of Judge Foster will convene next month. On all sides there are renewed expressions of hope that there will be speedy re-emption of friendly intercourse between Chile and the United States. Since the loss of the steamer John Elder there has been a great deal of talk among the residents of his city against the Pacific Steam Navigation Company. Many people here, in view of the approach of the world's fair, are desirous to see a line of American steamships between Valparaiso and Panama, or direct to San Francisco. Some are in favor of traffic with New York, by way of Argentine and Uruguay ports. There seems no doubt of an opening to one American line along the Chilean coast.

CRITICISM.

WASHINGTON, Feb. 6.—The state department has received no cable message from Minister Egan for several days, the last one being a simple acknowledgment that he had received Secretary Blaine's telegram that Chile's apology was accepted by the United States. The department expects to hear from him officially as to the result announced in the press dispatches from Santiago, that Judge of Crimes Foster had announced the findings in the Baltimore sailors assault case. The sentences, as contained in the press dispatches, are thought to be quite light, and the fact that no one is held responsible for Riggia's death provokes some criticism in official circles.

TRYING TO STOP THEM.

WASHINGTON, Feb. 6.—The navy department is just now trying to head off several collars started out from New York during the recent Chilean war preparations for the Chilean. There were four ships, in all carrying a total of 18,000 tons of coal. One of them has been intercepted at Montevideo, and ordered to discharge her cargo there and return to the United States. The second one is expected at the same point in a few days, and efforts are being made to learn the whereabouts of the other two, so as to reduce the expense of transportation as much as possible.

TO REDUCE DUTY.

WASHINGTON, Feb. 6.—Congressman Bunting of New York yesterday introduced two tariff bills, one of which places a duty of one cent a pound on tin plate or baggers tin, and one and two-tenths cents a pound on tin plate, drawback less 5 per cent of duty paid on exported article made from imported plates after October 1, 1891, articles named to be placed on the free list. The second bill repeals, after July 1, 1893, the duty of four cents a pound on pig tin.

HE REFUSED.

OMAHA, Feb. 6.—The conference between Manager Dickinson and the grievance committee of the Union Pacific railway employees yesterday was short and inconclusive. Dickinson refused to discuss the proposition for a general increase of wages, and the employees withdrew without presenting minor complaints.

DEMOCRATS IMPORTING ARMS.

NEW ORLEANS, Feb. 6.—The steamer El Paso arrived Thursday from New York, her cargo including forty cases of Winchester and thirteen boxes of cartridges addressed, "A. W. Crandall, chairman of the Democratic campaign committee, New Orleans." In an interview concerning these arms Col. Crandall says, "Yes, it is a fact that these arms came to New Orleans addressed to me as chairman of the Democratic executive committee. There has been no attempt made to conceal their shipment. We are providing our selves with them simply to protect ourselves against a scheme, armed or otherwise, to deny us a free ballot and a fair count in the coming election. Since the nominations at Baton Rouge, we have met on all sides with statements from friends and supporters that it was war with the knife, and knife to the hilt, and that the machinery in the hands of the existing state administration was to be used in counting in the Foster ticket and counting out the McEnery ticket. Believing that the election machinery under control of the present administration would be employed in frustrating, if necessary, a free expression of the public will, we determined on the principle that an ounce of prevention is worth a pound of cure, to take such

means as would protect us from illegal and unwarranted interference with our rights under the law. There will be another shipment of arms shortly. There is no intention on the part of the regular Democratic party to precipitate trouble, and no desire to provoke the shedding of blood. All we ask is the privilege of every voter to be chosen in the election, and the assurance that his vote will be counted as cast. We never intended to bulldoze or bluff, but are firm in the determination not to be bulldozed or bluffed."

BEER IS NOT SPIRITUOUS LIQUOR. HELENA, Mont., Feb. 6.—Beer is not spirituous liquor, according to a decision rendered yesterday by Judge Knowles, United States district judge. This is an original ruling by a Federal court on this subject. Of the state courts that have passed upon the question, those of New Hampshire, West Virginia and Tennessee have agreed with the judge's ruling made yesterday, while the court of North Carolina and one court in New York have held to the contrary. The case on trial was that of a man who sold a bottle of beer to an Indian on the Crow reservation. He was discharged. The Federal statutes provide a penalty for selling spirituous liquor or wine to an Indian on a reservation.

AN INHUMAN BRUTE.

CHICAGO, Feb. 6.—Yesterday afternoon Patrick Hurst, a laborer, attacked his wife with a knife while she was sick in bed, stabbing her again and again until he had slashed her thirty-eight times. Many of the cuts were inflicted after the woman, succumbing to the frightful hacking, was dead. Hurst was arrested. He shows no concern, and only says: "I killed her during the past twenty-five years." Hurst is believed to be insane.

WHAT DANA SAYS.

NEW YORK, Feb. 6.—The Sun says: "Hon. Stephen B. Elkins, secretary of war, has arrived at the Fifth-avenue hotel from Washington. The visit of Secretary Elkins so soon after the pilgrimage of Hon. Thomas C. Platt to the capital, is regarded as significant by those who understand what is going on in the Republican party in the state. Mr. Platt denies that on his visit he called on the president. He says he went to the City of Magnificent Distances for the purpose of securing certain contracts for the United States Express company. The truth might just as well be known now as at any other time. Mr. Platt is directly, emphatically and positively opposed to the renomination of President Harrison. It has been considered good Republican politics in the state for the last several months to give out that the state machine was for Harrison. There has been a string to all these state machines. Mr. Platt has nothing to thank Mr. Harrison for. He is for Blaine as his first choice; there is no mistake about this statement. The visit of Mr. Elkins to New York may mean that Mr. Harrison is alive to the situation. Mr. Platt and all his friends are awaiting anxiously some word from Mr. Blaine in the national Republican committee have advised Mr. Blaine to stand as a candidate. He is now soliciting their advice. He does not feel very well at times, and occasionally, it is said, he feels like writing a letter to some personal friends, declaring that he will not become a candidate. With Mr. Blaine out of it, Mr. Harrison will then have the first chance in the Minneapolis convention. But New York state Republicans are at least the dominant element in the party and have talked about another candidate. This candidate is Robert T. Lincoln, now minister to the court of St. James. It is said that Senator Hisecock differs with Mr. Platt in this opposition to Mr. Harrison, but Mr. Hisecock disagreed with Mr. Platt at Rochester over the nomination of J. Sloot Fassett for governor. Mr. Platt on that occasion told Mr. Hisecock that Fassett was to be the man and Mr. Hisecock acquiesced."

A GAY DECEIVER.

HAWKSVILLE, Ky., Feb. 6.—Two years ago J. T. Dawson, a traveling representative of the St. Louis Range company, met Miss Laura Robbins, of this place. She is the daughter of a wealthy retired farmer and horseman, and is known throughout the country for her beauty. Soon after the couple were married, and went to Wichita to reside. After a few months there, they traveled through various states, reaching here last spring. Dawson told his wife he was compelled to take a trip to Europe for his firm. He went, and in due time Mrs. Robbins-Dawson began to receive letters postmarked London, Hamburg, Paris, Berlin and other places. The letters were sent in charge of the St. Louis house and forwarded. The Robbins family will push Dawson to the limit, and the deceased girl, a brother and her father left this morning for Belmont.

A RUNNING FIGHT.

HARRISBURG, Pa., Feb. 6.—James Marshall and David Dunkley started to fight in a bar room, and gave two policemen and a crowd of 200 men and boys a race of two miles before they were caught. Both had pistols and kept up a running fire. One of the bullets struck John Switzer in the left shoulder, inflicting a serious wound. Policeman Yingsat was also wounded in both arms, and a boy shot through the hand. When taken into custody each man was found to have a full set of burglar tools. They are believed to be the companions of William Carney, arrested Thursday for robbery.

SUICIDE OF A MURDERER. NEW YORK, Feb. 6.—The dead body of Frederick Seener, who shot and killed his sweetheart, Maggie Weismuller, at 24 East One Hundred and Twenty-sixth street, Wednesday night, was yesterday found on a vacant lot on One Hundred and Sixteenth street, near Lenox avenue, with a bullet-hole in the right side of his head and a 32-caliber revolver lying beside him.

LUCKEY DISAPPEARS. PORTLAND, Feb. 6.—The mystery concerning the whereabouts of Captain N. S. Pierce and W. M. Wisdom has not yet been cleared up before another man has disappeared as though swallowed up by the earth. The missing man this time is E. R. Luckey, of Eugene, a very well-known man in that section, who came down to this city on Monday last, and went to the Perkins hotel. He registered, and was assigned to room 313, but said at the time he would not occupy it that night. He said he would return on Tuesday morning, and merely registered to let his friends know he was in town. His niece, Mrs. S. S. Spencer, went to the hotel to see if he was there, and was alarmed to find out that he had not returned. The police were notified, and have been looking for him, but as yet without success. Mrs. Luckey will come down to this city to aid, if possible, in the search for her husband.

THE REASON FOR IT. WASHINGTON, Feb. 6.—Senator Stewart, of Nevada, is, and has been for several weeks, throwing every possible obstacle in the way of a settlement of the contested seat of Senator Dubois, of Idaho. Mr. Stewart is about the only Republican senator who is in favor of the claim of Mr. Claggett, the contestant, but there is no probability that Mr. Dubois can be disturbed in his seat. The committee on privileges and elections were unanimously in favor of his undisturbed title to the seat, and every Republican senator except Mr. Stewart voted for him. The Nevada senator has, however, still kept up the fight, and until yesterday no explanation of his peculiar course has been forthcoming. It is now learned what the trouble is. It appears that during the fifth congress Senator Stewart was much opposed to the admission of Idaho into the Union. He wanted to see the territory divided, the lower half to be attached to Nevada and the upper half to become a part of the state of Washington. The senator realized that Nevada was rapidly being depopulated and that new blood and new territory were necessary to its continued existence. Senator Dubois then a delegate, made a strong speech for Idaho and won. Mr. Claggett, who now wants the seat of Mr. Dubois, it is said, is in favor of Mr. Stewart's plan to split Idaho in twain and give his test efforts to the movement. Senator Stewart is now inclined to the man who assisted him. Mr. Dubois, notwithstanding, will retain his seat in the senate without serious opposition.

DECADENCE OF AMERICAN SHIPPING. NEW YORK, Feb. 6.—W. E. Ferguson, of the New York Produce Exchange, the recognized authority on statistics of the grain export trade of this port, has just made his annual report. The tables compiled show an enormous increase of the grain export trade of New York, and the dwindling away of the American ocean marine. The American merchant's flag being driven off the seas by Great Britain. There was shipped from New York during 1891, 68,000,000 bushels of American grain to Europe. Of 1235 ship loads only 25 was carried under the American flag. There are only four American steamers left in the grain-carrying trade.

IN A STRANGE PLACE. PORTLAND, Feb. 6.—Richard Petzold, a butcher in the employ of T. J. Uhlman, found in the stomach of a fat cow which he slaughtered a few days ago, a copper coin which no one who has seen it is able to identify. On the obverse is the head of a man with a big bushy beard around which is stamped, "Petrus II. D. G. C. Imp. et Pop. Bras. Fed. 1809." On the reverse is a globe surrounded by stars in a ring on a shield, surmounted by a crown. The denomination is expressed, by 20 Rs., which does not mean rubles, nor reals, and no one knows what the R is of which it takes twenty to make a cent. The coin was bought of Mr. John Brill, below town, and the question is, where did she find the strange coin, and why did she swallow it?

TRIAL TRIP. SANTA BARBARA, Cal., Feb. 6.—The steamer City of Sidney, arrived this morning from San Francisco on her way to Bahama. Captain Louis Kempf, U. S. N., reports that she made fourteen or eighteen one hundred knots per hour in her test trip, plowing her in the third class for mail service.

THAT VIADUCT.—The city engineer is working up the plans and details of the Commercial street viaduct and bids will be received in a few days for stone and steel structures. Messrs. Hunt and Lamoreaux are working like beavers to push the enterprise to completion and are enthusiastic over it. Both declare there is practically nothing in the way of going ahead with it and having the viaduct completed in a few months if all do their share, and all seem willing to do that.

SOCIALLY.—Miss Anna Briggs was very pleasantly surprised Friday evening by about twenty of her young friends stepping in upon her, at the home of her parents in East Salem. The evening was spent in social games and amusements. Lunch was served, and about midnight the young folks departed, having been most pleasantly entertained.

Deafness Can't be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that we cannot cure by taking Hood's Sarsaparilla. Send for circular, free. P. J. CHENEY & Co., Toledo, O. Sold by druggists, 75 cents.

Hood's Sarsaparilla.

is a healthy preparation from Sarsaparilla, Mandrake, Dock, Pipsissewa, Burdock Berries, and other well-known and valuable vegetable remedies, by a peculiar combination, proportion, and process, giving to Hood's Sarsaparilla curative power that is possessed by other medicines. It cures remarkable cures where others fail.

SCHOOL NOTES.

School opened Monday with an increased attendance, and a deep interest was manifested by pupils. The East school is still crowded, notwithstanding 130 pupils have been transferred to the Park school. Another teacher may be employed for the Park school, which will necessitate a change in the lines in that part of the city. If no new teacher is employed the lines will remain unchanged.

The teachers' meeting last Monday was well attended. The following teachers were on the program: Miss Reynolds, "What Daily Preparation the Teacher Should Make Before Coming to School?" Mr. Long, "Morals and Manners in School." These were followed by an address by Rev. Kellerman of this city.

School in the Lincoln school will move into the new building Monday.
