Two Actors Insane.

CHICAGO, Feb. 18.—Harry Woodson, the well-known minstrel performer, who has been on the stage nearly twenty years, and has traveled all over the country, has become insane and is now in the detention hospital in this city. About a fortnight ago he was stranded with a minstrel troupe in Nebraska, but managed to make his way to Chicago. At the Clifton house, where he lodged, his strange demeanor attracted the attention of the guests and a physician pronounced Woodson insane. Woodson is a native of Richmond, and about 37 years old. His wife is Laura Bennett, the soubrette, now with Pat Rooney's troupe.

It was made known in the theatrical circles Monday that Eugene A. McDowell, a well-known actor, had become insane as the result of a long-lasting illness, and that he has recently been placed in a private asylum in the vicinity of New York. Mr. McDowell is a brother of Melbourne McDowell, who is married to Fanny Davenport.

FROM WASHINGTON.

The Work of the Different Committees.

ANTI-OPTION BILL.

Effect of Silver Coinage on the Wheat Product.

WASHINGTON, Feb. 18.—The silver question was broached again yesterday and this time it was in hearing before the house committee on agriculture on the anti-option bill, which has been under discussion by the committee for the past two weeks. Charles A. Pillsbury, a Minneapolis miller, was on the stand. He stated in the course of his remarks the world's surplus supply of wheat was steadily dwindling and it is being drawn on each year to meet the increasing consumption of wheat. He said if one man owned the wheat crop raised in the United States this year it would have been possible to get $1.50 per bushel for it from Europe just as easy as 90 cents, because Europe had to have it. Russia had none to export and India had shipped its surplus the previous year.

Lewis—Then the statistical position of wheat has been growing better for five years past, and the price, except for the spur of this year, has been growing weaker?

Pillsbury—That's so.

Lewis—Does not the value of money have a great deal to do with it? Isn't money worth more than ever?

Pillsbury—I think as a whole a dollar will buy more goods now than ever.

Lewis—If we had $1,500,000,000 instead of $850,000,000 in circulation would not the farmers get more for their wheat?

Pillsbury—More nominal dollars but perhaps they should not buy so much. In reply to a further question from Lewis, Pillsbury admitted that short selling alone would not account for the decline in wheat, which was too great to be chargeable to one cause alone.

In his address to the committee Pillsbury advocated the passage of an anti-option bill. Pillsbury said there should have been high prices for wheat this year, but, partly in consequence of short selling, millers and others are living from hand to mouth. The world was drawing on the surplus supply of wheat each year, for the consumption was steadily increasing.

Government of Utah.

WASHINGTON, Feb. 18.—The house committee on territories gave a hearing yesterday to the opponents of the proposed legislation to give a local government to the territory of Utah, as proposed in the bill introduced by Caine, delegate from that territory. The committee was addressed by O. W. Powers, representing the liberal party of Utah. That party, Powers said, was composed of Democrats and Republicans, who for the time being had cast aside their national political preferences and had joined hands for the purpose of building up an American state in the mountains. It was because the Mormon people were honest and sincere that the liberal party opposed the measure, the time not having come, in its opinion, for it.

Treasury Affairs.

WASHINGTON, Feb. 18.—Secretary Foster says that there is nothing in the financial condition of the treasury to cause uneasiness, and it is silly to suppose that he contemplates the use of $100,000,000 gold reserve to meet the current obligations of the government. He said also, that while the present net cash balance of $27,500,000 consists almost entirely of subsidiary coin and money on deposit with the national banks, it did not include the national bank redemption fund of $5,500,000 and the disbursing officer's balance, amounting to $25,000,000, both of which are subject to the action of the department, and should not be regarded as "demand liabilities."

Interstate Commerce Committee.

WASHINGTON, Feb. 18.—The senate committee on interstate commerce listened yesterday to an argument by Richard Olney, of the Chicago, Burlington & Quincy road, on the measure before the committee known as the procedure bill, which contemplates the definition of the method of procedure in hearing railroad cases before the interstate commerce commission. He held the measure was unconstitutional and should not be enacted. George Crocker, of Boston, spoke in favor of the car-coupler bill, now before the committee.

To Protect the Seals.

WASHINGTON, Feb. 18.—The regular annual proclamation by the president warning all persons against illegal sealing in Behring sea is prepared and probably will be issued in a few days. The proclamation it is understood is couched in the usual terms. The question of continuing the modus vivendi for the protection of life in Behring sea which was in operation last summer has not been agreed upon up to a day or two ago.

The Anti-Option Bill.

WASHINGTON, Feb. 18.—The sub committee of the senate judiciary committee heard further arguments upon the pending Washburn anti-option bill. Alfred Romer, of the New York produce exchange; Chas. Hanuli and Thomas A. Wright, of the Chicago board of trade; and William Cudahy, a Chicago pork packer, argued against the bill.

FREMONT DEMOCRATS

Express Their Preferences for President.

WASHINGTON, Feb. 18.—In the house, Congressman Bryan, of Nebraska, presented the New York congressman, in behalf of the Democrats of Fremont, Nebraska, with a badge bearing the following inscription: "For president, Amos J. Cummings, of New York; for vice-president, J. Sterling Morton, of Nebraska."

Fight Among Indians.

WASHINGTON, Feb. 18.—General Schofield this morning received a telegram from the general commanding the department of Arizona, saying that a fight occurred at Fort Stanton, N. M., yesterday between the Mescalero and Lipan Indians, during which four men were killed and one wounded. He says affairs have quieted down and no further trouble is anticipated.

Afraid of it.

WASHINGTON, Feb. 18.—The anti-free coinage men again come forward with a demand for a caucus to relegate the silver question to the rear until after the presidential election.

APEX AND WESTERN R. R.

A New Transcontinental Line Contemplated.

DENVER, Feb. 18.—The placing of the bonds of the Apex and Western Railway, and the announcement that it will build over the range as soon as snow is off the ground brings forth a rumor that D. H. Moffett, the former president, is behind the new concern, and in collusion with the Rio Grande Western, is trying to wreck the Rio Grande. It is also stated that the Apex, Rio Grand Western and the Rock Island will enter into a combination to compete for the transcontinental traffic, Chicago to Denver, and Grand Junction to Ogden, thence to the coast, by the construction of a new line, which would give the people west a direct line from the Great Lakes to the Golden Gate.

FIRE IN NEW ORLEANS.

Several Large Buildings Burned—Loss Very Great.

NEW ORLEANS, Feb. 18.—At 11 o'clock last night a fire gutted the dry goods store of Asharaz & Sons, corner of Canal and Bourbon streets. The heat was so great that the firemen could not get near the building. The fire then spread to adjoining buildings, and soon Werelein's music store, Cluvier's drug store, Fankel's dry goods, McCloskey's confectionery, Kuhn's fancy goods, Kreeger's fancy goods, Nickelplate shoe store, Quibble's fancy goods, Kraus Bros.' notions, Hoffman's worsted, Brills' saloon, and Wenger's saloon were consumed.

The buildings and stock already destroyed will approximate $2,000,000.

WHEAT MARKET.

Manipulated by the Speculators—Wind Sales.

CHICAGO, Ills., Feb. 18.—The Tribune says there is strong indications the wheat market is being manipulated, and intimates that J. D. Rockefeller, of the Standard Oil Co., Jas. T. North, the "Nitrate King," and John W. Mackey, the bonanza millionaire, are back of it. The paper asserts the sale of wheat on Chicago board of trade alone, aggregates seventy to eighty million bushels, whereas there are less than forty million bushels actual wheat in the West, leaving about forty million bushels, which are really "wind" sales, and must be covered at whatever price the market touches. The paper says similar short sales have been made by the combine in all the principal wheat dealing cities of this country and at Liverpool.

Said He Was a Thief.

BUFFALO, Feb. 18.—Samuel J. Price, business manager of Chandler's Saturday Night, a weekly society paper, has absconded, taking with him about $1000, the cash capital of the paper. When Mr. Chandler came down to his office this afternoon he found a loaded revolver on his desk, and beneath it was a note which read: "I leave this to you, George, as a remembrance. My wife always said I was a thief, and I guess she was right. Good-by. I will repay the money I stole." The missing man has a wife. He left her in destitute circumstances. He is thought to be in Canada.

To Enjoin the Sale.

PORTLAND, Feb. 18.—J. Wharton, Lindsey Smith and George Dekum, who owned five million dollars' worth of bonds of the Oregon Pacific railroad, have brought suit in the United States circuit court here to enjoin the sheriff of Benton county from delivering a certificate of sale to Z. Job, who bought the road for $1,000,000 in November, for the benefit of stockholders. The plaintiffs alleged that Colonel T. Egenton Hogg, president of the company, is attempting to form a new company and transfer the stock to it and defraud them of their rights.

Captain Conner Dead.

ST. LOUIS, Feb. 18.—Captain Wm. Conner, the well known turfman, died here yesterday.

OLIVE RANCH SOLD.

Joy Killed Her—Sensational Murder Trial—Stabbed in the Back.

THE OSCAR AND HATTIE.

A Statement of one of the Survivors.

ALBANY, Or., Feb. 18.—A special from Yaquina says: Since the three men belonging to the sealing schooner Oscar and Hattie, of Victoria, deserted last Sunday with the ship's boat, the Oscar and Hattie has been lying off the coast in the hope of finding some trace of the men and the boat. Tuesday about 2:30 p. m., while two or three miles off shore, Captain Gault with four men, Lome, Wittingham, McDonald and Ralph Starlett, took one of the remaining boats and started for the shore. Nothing was heard of them after this, although a good lookout was kept by those on the schooner until 10 o'clock that night, when a voice was heard by some one aboard the vessel, but no one could be seen. The voice was heard again several times, and and as soon as a boat could be lowered search was begun, and in a short time a man was discovered lying on top of a boat. It proved to be Ralph Starlett, who had been clinging to the boat for four or five hours, and when found he was in an exhausted condition. From him it was learned that in going through the surf at the mouth of the Siletz river the boat upset, and he was the only one saved. The remainder of the party were helped on the boat by Starlett, who is a good swimmer, at different times, swimming out when necessary, but they failed to keep their hold, and were washed off and drowned. The boat was washed gradually out toward the schooner, but as the evening was foggy he could not be seen. He discovered an oar some distance from him and swam from the upturned boat and secured it and used it with one of his garments to attract the attention of those on the schooner, but to no purpose. There is a hope of finding the bodies. The mate, Peters, took the vessel to the mouth of the Yaquina bay, where he secured the service of the tug Rustler, which towed the schooner into this port. She lies in the harbor between Yaquina and Newport until instructions from her owner in Victoria can be received.

Olive Ranch Sold.

SANTA BARBARA, Cal., Feb. 18.—Elwood Cooper has sold his olive ranch to an English syndicate for $200,000. The olive ranch is the largest of its kind, and is noted for its fine product and for being the scene of the earliest attempt at American olive-oil making. The syndicate will colonize the property with immigrants.

Joy Killed Her.

CHICAGO, Feb. 18.—Mrs. Catharine Baker, widow of a veteran of 1812, and a pensioner, died suddenly at Metropolis, aged 88 years. A few days ago she received a letter from one of her sons, whom she had not seen for thirty years, telling her he was coming home to visit her. The good news caused her so much joy that she grew very nervous. Yesterday her son sent her a dispatch that he would be with her in a few hours. When the message was read to her Mrs. Baker fell down and died. Her son reached the house soon after.

Sensational Murder Trial.

PHOENIX, A. T., Feb. 18.—In the trial of Dr. Scott Helm, one of the most prominent physicians in Arizona, charged with the murder of Mrs. Alice White, as the result of an operation last August. The attorneys for defense announce their intention and ability to prove that the murder was deliberately committed by another physician who was called in to attend Mrs. White first, and that his object was to rid himself by a powerful professional rival by charging Helm with the crime. The peculiar nature of the defense makes it by far the most sensational case yet tried in an Arizona court.

Stabbed In the Back.

PRESCOTT, A. T., Feb. 18.—A miner named Hithakey, was stabbed and killed at Copper Basin by Henry Wilson, a cowboy, of Skull valley. Both men were employed at the copper mines and had a quarrel the night before at the supper table over a trivial matter. As Hithakey was on his way to work, Wilson stepped up behind him and drove a knife into him under his left shoulder, causing a wound from which death resulted in about an hour. Officers are on the trail of the murderer.

The Lumbermen Association.

PORTLAND, Feb. 18.—The reception committee appointed by the chamber of commerce and the Lumbermen's Association to receive the Eastern lumbermen who are making an excursion to the Pacific coast, and who are due to arrive here Friday morning, met at the parlors of the Union bank yesterday afternoon at 2 o'clock to prepare a program for the proper reception and entertainment of the guests.

Owing to the absence of some Tacoma gentleman the committee was unable to form any definite plans, not knowing the number of the excursionists. It was decided that the committee on reception meet the excursionists at Kalama Friday, after which the program would be prepared.

ANTI CHINESE.

Bound to get rid of the Heathens.

WALLA WALLA, Feb. 18.—At an early hour yesterday morning printed circulars were scattered about the city on which was the following: "To whom this may concern: All persons who are employing or patronizing Chinamen are hereby informed that unless they stop so doing within two weeks from the date of this notice, they will cease to receive the support of the Mutual Aid society, of Walla Walla." They caused considerable excitement, though the public sentiment all seemed of a condemnatory character. The fact of the existence of such a society with sufficient strength to threaten a boycott had not been suspected, and so little was known that even the leading spirits of the society were identified. A little investigation proved that the president of the society was Levi Kidwell, while those prominent in the movement are County School Superintendent J. B. Gehr and R. T. Modrell, a builder and contractor. A saloon keeper member being interviewed stated that the society had 800 members, and intended to force the Chinese out by means of the boycott, and expect to be a society for political purposes. The general opinion is that the effort will not amount to anything.

Louisiana Lottery.

NEW ORLEANS, La., Feb. 18.—President Paul Conrad, of the Louisiana State Lottery Company, was seen and asked with reference to the report that the lottery intended to remove to Mexico. He said that the story was false, and was evidently started by an enemy of the company for the purpose of booming Mexican lottery stock. The lottery will continue its existence here until the expiration of its charter, and after that time it will not seek a home anywhere.

Reciprocity With Mexico.

CITY OF MEXICO, Feb. 18.—One of the most prominent personages in Mexico said recently that reciprocity with the United States was an improbability. When asked his reason for the belief, he replied: "The United States made attempts to secure exemption from duties, or at least considerable reduction, on American wheat, corn and flour. The McKinley law, however, offers Mexico no important concessions, and he thought Mexico will not increase the concessions made to the United States."

Engaged to Three.

CHATHAM, Ont., Feb. 18.—Rev. N. H. E. Martin, who for the past fifteen years has been pastor of the Lewing Episcopal church here, was to have been married Tuesday evening to Miss Kitchen, a prominent member of his flock. The guests had assembled and all was in readiness for the ceremony, but the bridegroom came not. Investigation revealed the fact that he left the city Saturday last, since which time no tidings have been received from him. The sensation caused by his disappearance was added to yesterday by the announcement that he was engaged to be married to Miss Delmage, another member of his church, and also to Miss Sarah Bonet, a farmer's daughter. The latter has a document in the pastor's handwriting, in which he promises to marry her Monday, February 15, and further gives her full possession of all his household effects.

The Temptation.

To go out of doors in rough weather is not strong, but we are, many of us, compelled to face rough weather frequently. Diseases which arise from a chill are peculiar to no season of the year. This is true, therefore there should be in the closet of every household—what? Not an unmedicated stimulant, absolutely devoid of anything but an evictive action, but a tonic combining, in the effective form of an invigorant and an alterative, the quality of defence against changes of weather. Hostetter's Stomach Bitters has three or four properties that no other article of its class possesses. Not only does it relieve the complaints which it eventually cures, it fortifies the system against the bad effects of changes of temperature, fatally and too often shown in the deadly form of "la grippe;" it produces a radical change in the weakened condition of a system peculiarly liable to be attacked by it, and it tends to provide against the danger resulting from an impoverished condition of the blood and a disordered state of the liver or bowels.
