JUDGE DEADY HAS NEW LIGHT

Judge Deady has granted a new trial in the case of Grace G. Isaacs vs. the Southern Pacific Company. The motion was allowed and the judgment set aside.

"The action was brought by Grace G. Isaacs against the Southern Pacific company to recover damages for personal injuries alleged to have been sustained in a railway accident, commonly known as the Lake Labish disaster.

"The defendant now moves to set aside the verdict and for a new trial, because the court erred in admitting evidence on the part of the plaintiff as follows: It being shown and admitted that the bridge in question was originally constructed without longitudinal braces, the plaintiff called Henry Rogers as a witness, and asked him if the defendant, in the reconstruction of the bridge, put in such braces, to which question the defendant objected, which objection was overruled by the court; and thereupon the defendant excepted, and the witness answered 'yes'.

"No authority has been shown in support of the ruling, and it is believed that none can be found, unless it be in the state of Pennsylvania. 'The admission of the evidence over the objection of the defendant appears to have been erroneous both on principle and authority. The jury were led to believe by it that the bridge ought to have been constructed with such braces originally, and that the omission to do so was negligence, which contributed to the result. The motion is allowed and the verdict set aside.

"The Oregonian has instituted suit against Aborn to recover \$1100 due for advertising in that sheet. There are few papers in Oregon that have not been bilked by him. The press is in the same boat with the suckers it brought to the bilk.—Eugene Guard. The outrageous charges of this man Aborn for medical services should be investigated. We have heard of a number of instances where his fees were in the hundreds, where he did not know what ailed the patient and did not effect a cure. Such outrages on poor people should be exposed.

It is not the province of a newspaper to criticize the action of a judge in any case. But it is a notorious fact that big corporations pursue all possible methods of wearying and worrying litigant parties until they settle upon any terms. It is also a fact that private citizens stand very little show of carrying on such contests in the federal courts, especially when such federal courts are disposed to grasp at straws and technicalities to allow new trials. The effect of such a ruling will not in the least prevent proof of the faulty construction of the Labish bridge. It can only force upon plaintiff the increased expense of a new trial.

STATE POULTRY SHOW. We call attention of farmers and poultry growers to the advertisement of the first annual show of the State Poultry association, to be held at Salem, March 25-26.

It will be a very important meeting and deserves the liberal support of all breeders, as well as of Salem business men. Special premiums will not doubt be made up by our restaurateurs and market men. The liberal cash premiums offered will make the show a successful one if money can do that. It deserves the enthusiastic support of all interested.

REPUBLICAN PREPARERS. Next Saturday will occur the Republican primaries. They should be largely attended by every voter of that party. The foundation of good work at the polls is laid by good work at the primaries. There is another chance to sift the ticket at the polls but good work at the primaries results in good government all around. We especially urge the farmers to see to it that good delegates are sent to the county convention. See the official call.

A FALSE ASSUMPTION.

Turner Grange is reported to have awarded a JOURNAL editorial on the county judgeship a leather medal, on the theory that THE JOURNAL assumed that no farmer could fill the office of county judge. The assumption of Turner Grange is false and the construction placed upon our editorial is strained for an effect. That editorial was complimented for its fairness and justice by many of our farmer readers, and we defy anyone to show from any language contained therein that there was any such assumption made as Mr. Hilleary implies was made, Turner Grange to the contrary notwithstanding. If gentlemen who interest themselves in this matter will unite to help this county get a county judge at the next election, who has great business and executive ability and a fair knowledge of law, be a farmer or any other man the people will be far better served than by rushing a man into the office solely because he is a farmer and nothing else. The theory that any good farmer will be repeatedly shown to be a fallacy in this and other counties.

Persons who make a living flattering the farmers will not agree with this, but the truth about important offices is of more consequence than any man's prejudices or any species of demagoguery, be it ever so pleasing to the farmers. THE JOURNAL does not make a living by flattering anyone, and it believes a county judge should be fully in sympathy with the farmers and producers in all matters of county government.

SUGGESTED COMMENT.

Who dropped the brick at the school election?

Republicans get out to the primary election Saturday.

Salem people always put in good men at their school election.

When THE JOURNAL gets left at an election it is not a victory for the people.

THE JOURNAL is the cheapest and best advertising medium in the Willamette valley.

Get up a campaign club for the people's Republican paper—ten weeks for 25 cents, for THE WEEKLY JOURNAL.

THE DAILY and WEEKLY JOURNAL never had the circulation it has today and it grows right along.

Business men are welcome to come in and inspect THE JOURNAL'S subscription books. Circulation is pushed by enterprise and modern methods, and our carriers deliver this paper in all the suburbs.

The Salem JOURNAL seems quite interested in Linn county politics in a manner we predict will not be duplicated in its own county.—Albany Democrat. THE JOURNAL takes the same interest in good results for the people everywhere that it does in Linn county.

GENERAL NEWS NOTES. Albert Hellenbeck, of Franklin precinct, Lane county, has been indicted for an outrageous assault upon Mrs. Belle McFarland.

The balance of the indebtedness on the M. E. church at Marshfield, has been raised by subscription and the church will be dedicated this week.

The Canyon City News says that sheep buyers in Grant county are offering \$2.75 a head for 2-year-old mutton sheep and \$2.50 for yearlings. Sheep are a good price and will probably remain so.

E. E. Dalton, pursuer on the Chance, reports eighteen feet of water on the Siuslaw bar at less than high tide. The soundings were taken last week when the Chance was coming out on her way to Coos bay.

The Cottage Grove Leader expresses great faith in the mines of Bohemia, about twenty-five miles south of its town, and predicts that it will be one of the greatest gold districts ever discovered in the West.

A Chinese woman got off the south-bound train at Grant's Pass the other day, carrying a large clock, a calise and umbrella. The express truck carried twelve bundles of baggage for her, so she has evidently "come to stay."

At a meeting of the board of directors of the Douglas County Agricultural association, held last Saturday, it was ordered that an assessment of 20 per cent. be levied upon the capital stock, payable at the office of the secretary within thirty days from date of notice.

A rich deposit of gold has been struck on Canyon creek about three miles above John Day. Mr. Hines and Mr. Silsby are the lucky prospectors who found the dirt. It yields 200 colors to the pan and there is said to be plenty of it. Many claims have already been staked out and an era of excitement seems to be at hand.

A 9-year-old son of Superintendent Gammie, of the Broadmead farm, at McMinnville, while riding a horse and driving a number of others, received a kick from one of the animals, breaking his leg below the knee. The boy jumped to the ground, not knowing or realizing the injury he had just sustained, alighting upon the broken limb and driving the bones through the flesh.

John Carleton Graham is under arrest at St. Helens, charged with forging a note on one C. E. Smith, and payable at the Oriental bank of New York, for \$400, bearing date of November 22, 1890, and for a term of one year. C. E. Smith is supposed to be present in England. The note was deposited with David Hinkle, as collateral security for the payment of the purchasing price of a whisky scow several months ago.

Elijah Davidson, who came to Oregon in 1850, was the father of twelve children, six boys and six girls. The first child born to Mr. and Mrs. Davidson had red hair, the next one black hair, the next one red hair again, and so on alternating red and black through the whole twelve, no two in succession having hair of the same color. There are few, if any, such coincidences on record. Mr. Davidson is a resident of Mount Hood.

E. K. Jones, who is establishing a match factory at Portland, is on the way purchasing matchwood, says the Coos Bay News. He says that nearly all the matchwood used on this coast comes from Coos Bay. When asked why he did not establish a factory of this kind here, he gave as one of his reasons, that it required 100 5-gallon coal oil cans a day to pack matches in, and that he could obtain them of junk dealers in Portland at 44 cents a can delivered at the factory.

A Little Girl's Experience in a Lighthouse.

Mr. and Mrs. Loren Trencott are keepers of the Gov. Lighthouse at Sand Beach, Mich., and are blessed with a daughter, four years old. Last April she was taken down with measles, followed with a dreadful cough and turning into a fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones."—Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at Daniel J. Fry's drugstore, 225 Commercial street.

Neuralgia Cured in 15 Minutes. Mr. J. S. Sturtevant, editor of the Waupaca (Wis.) Post, says: "Last night Chamberlain's Pain Balm cured my wife of neuralgia of the face and tooth in fifteen minutes. We would not be without it." 50 cent bottles for sale by G. E. Good, druggist.

ANOTHER TRUST.

The Queen—England's Army and Navy.

A GIGANTIC TRUST.

A Syndicate Formed with Almost Unlimited Resources.

CHICAGO, March 16.—The Transatlantic Mortgage and Securities trust, limited, is the name of another colossal financial scheme, the origination of which has just been perfected by the signing of papers to which the names of some of England's greatest financiers had previously been attached. It is the first syndicate ever formed with a purely American board, which will first pass upon all American business, and which will control the operations of the concern in this country. The nominal capital of this new concern is \$5,000,000, but it has practically unlimited resources behind it, and it is the intention of the founders to draw upon the resources whenever promising investment justifies it. The Marquis of Tweeddale is the head and front of the syndicate. Among the American founders and directors are Calvin Goddard, president of the Chicago & South Side Rapid Transit company; W. A. Newell, general agent of the Home Life Insurance company; Gilbert Montagu, Chas. H. Kingman, H. C. Spier, and Frank S. Wragley. The backers are the Commercial bank of Scotland, and in all probability the First National bank of Chicago. The new plan proposed is to establish a bond of sympathy between the foreign capitalists and a great American republic through the medium of the American bond. The incorporation will undertake trusts and agencies of every description, the issuing and guaranteeing of capital for companies, the conversion of industrial business to joint stock companies. The object is to secure control of gilt-edged American properties, including manufacturing establishments, steam and street railways, gas and water plants, etc., and local gossip has it that the wires are already laid for the absorption of certain valuable Chicago franchises, the owners of which have been seeking for purchasers.

QUEEN VICTORIA.

A Large Sum Left the Queen and Her Daughters.

LONDON, March 16.—Queen Victoria and her immediate family will be rewarded for her good offices in trying to settle the Guelph fund dispute by receiving several millions thalers from it. In his will King George of Hanover bequeathed to her daughters 1,000,000 thalers each. The present arrangements between the emperor and the Duke of Cumberland are understood to be that the latter shall receive the capital sum of 16,000,000 thalers and the simple interest at 4 per cent., which will make the total amount of the payment from the Prussian treasury almost 32,000,000 thalers. This sum will be delivered to the duke probably before summer, and he will then pay the queen and her daughters 5,000,000 thalers.

England's Army and Navy.

LONDON, March 16.—The house committee on supply have discussed the estimates for the army and navy. The subjects touched upon were weak boilers in the ships Blake, Vulcan, Benham, Medea, Medusa, Superb, Thunder and Devastation, the inefficiency of the torpedo portion of the navy armament and the termination of the expensive experimenting with heavy guns during the last ten years, as well as the last characteristic exploit of the admiralty in building thirteen torpedo-boats, which, after purchase, were found to be unseaworthy. The committee also considered briefly the army estimates. They adjourned after voting 23,500,000 for the wages of officers, seamen, etc. of the navy, and 27,000,000 for the army.

Not Opposed to Diaz.

SAN ANTONIO, Tex., March 16.—A. Robertson, general manager of Monterey & Mexican Gulf railroad, has arrived here from Mexico. He is on his way to New York on important railroad business. The president of the Monterey & Mexican Gulf railroad is George Gerónimo Trevino, who was reported in a City of Mexico dispatch as being a candidate for the presidency of Mexico. Mr. Robertson states that the report is unfounded, and that President Diaz has not a warmer
