REV. B. FAY MILLS—Who is now holding meetings at Portland and has just closed a series of meetings in Cincinnati when over 7000 were enrolled as becoming Christians, will be in Salem on April 4th. Mr. Greenwood, who joins Mr. Mills in his services, is a very sweet singer. They have had wonderful success in Philadelphia, New York, Brooklyn, Boston, Chicago and other cities. It is calculated that 70,000 persons have been converted through the meetings held. A grand time is in store for Salem and all churches should rally to the standard.

A DIAMOND MINE—J. C. Cawood brings the JOURNAL a sackful of specimens taken from the hind end of his orchard, which he believes indicate the presence of diamonds. The rock brought in is full of sparkling crystals, but as the diamond editor of this sheet is absent, an opinion cannot be given. Mr. C. says he does not think the deposit is a very good fertilizer, but as his orchard has no codlin moth it may be a good insecticide.

CAN'T BE DOWNED.—The United Brethren revival can't be stopped. It is going right ahead. Rev. R. Logan, of Woodburn, preached last night to an attentive audience at the C. P. church. The sermon was very plain and practical. Mr. Logan, though more than 70 years old, is still mentally strong. The meetings are well attended. They will continue through next week—at 3 p. m. and 7:30.

SPIRITED BATTLES PENDING

Details of the Republican Primaries Tomorrow.

LET THEM BE HONESTLY CONDUCTED.

Republicans, Get Out and Select Good Men for Delegates.

It is the duty of every Republican, and of every citizen who expects to act with the Republican party this presidential year, to attend the Republican primary elections tomorrow, Saturday, the 19th. The judges at each primary are given entire control of who shall vote there, and while they should be fair and liberal in the construction of the law they should so conduct the election that all controversy shall be ended when the election is closed. Charges that Democrats voted will be made, no doubt, but if the elections are fairly and honestly conducted there will be very little attention paid to such complaints. This is the first test of the new law, and Republican honor and good faith are pledged to its full and fair application. No Republican will object to this.

We give below time and places of holding the primaries of this city, with judge at each.

A RAILROAD MOVEMENT.

Originated by the Salem Board of Trade for a Connection With Astoria.

There was a well attended enthusiastic meeting of the Salem board of trade at the parlors of Hotel Willamette Thursday evening. The gentlemen present were all excited over the necessity of doing something locally to take advantage of the railroad situation and secure for this city and the central valley a railroad connection with the new Astoria railroad.

Secretary Wagner made a glowing statement of Salem's opportunity. President Cottle and P. S. Knight spoke energetically along the line of Salem organizing a company to build to Mehama and there secure a connection with the Oregon Pacific. Such road would be a good local feeder for Salem, secure us a connection with a transcontinental system and become an inducement to secure a connection with Astoria.

The following standing committees were appointed: Soliciting Committee—A. I. Wagner, F. N. Dery, T. H. Barnes, J. C. Booth and George M. B. eler.

Finance Committee—E. M. Waite, John G. Wright and P. S. Knight.

Committee on Advertising—A. I. Wagner, P. S. Knight and E. M. Waite.

Committee on Railroads—P. S. Knight, E. Hofer and John G. Wright.

President Cottle was added to the committee and the committee was instructed to at once enter into communication with the projectors of the Astoria enterprise. It is certain that this part of the valley will do the handsome thing by the first time that crosses the valley at this point.

A connection with the Yaquina Bay route was very favorably discussed.

WHAT THE BANKS SAY. About City Warrants—Two Receive Them Only From Depositors—Two Cash Them.

Learning that some of the Salem banks refused to cash city warrants, a reporter made the rounds and ascertained the following:

The First National cashier said: "We are not buying them. When they are presented as deposits by our regular customers we do not refuse them."

Williams & England Banking Co.: "We do not cash city warrants. We take some as deposits."

Capital National bank: "We have cashed city warrants at par since we opened our doors and expect to continue to do so. The city warrants involve no liability that is not provided for by the assessment and levy at present being made. The uniform action of courts is such as to compel cities to pay their obligations for current expenditures properly authorized. We have perfect confidence in the solvency of Salem city finances. We consider city warrants at 8 per cent. a good investment. Of course, grossly extravagant, unnecessary expenditure, entailing a large issue of warrants, would affect the credit of the city unfavorably, but could not be retroactive on city warrants."

A. Bush: "We have cashed all warrants and under prudent management of city finances shall continue to do so."

Salem city warrants are good property.

IOWA REPUBLICANS.

Met to Elect Delegates to the National Convention.

DES MOINES, March 18.—The Republicans in state convention met here yesterday. Chairman Struble, in his address, paid glowing compliments to Harrison's administration.

Speaking of the tariff, he said the Democrats have been discussing raw wool for four months. At that rate, when would they get through? He said the Republicans had a number of men who as candidates could succeed in November. Harrison himself was foremost, and James G. Blaine second. Democrats available were limited to Grover Cleveland and David B. Hill.

"Where is Boies?" shouted a delegate.

Struble said the country first wanted to hear from Boies on the silver question.

The convention then proceeded to ballot for four delegates at large. J. S. Clarkson, ex-Governor Gear, E. E. Mack and D. C. Chase were elected. Clarkson received the lowest number of votes, being out in strong Harrison counties because it was thought he did not favor the re-nomination of the president.

The report of the committee on resolutions was presented with an explanation that the committee thought best to report only resolutions upon national issues. The resolutions expressed the hope that the Republican party will make a declaration of principles and nominate a ticket for the campaign of 1892 in accordance with their past, and be true to the present principles of the party. The administration of President Harrison was endorsed. An appeal is made to Republicans in all parts of the state to unite on great Republican principles. The report was adopted without opposition and the convention adjourned.

BRUTAL EXECUTION.

Awful Scenes at the Death of a Murderer.

VIENNA, March 18.—The execution of Franz Schneider, for the murder of a servant girl, took place yesterday. But little interest was taken in the affair. The approaches to the law court in Landisgasse Strasse, where the execution took place, were strongly guarded and but eighty spectators were permitted to view the execution. When Schneider approached the gallows shortly after 7, his strong frame trembled and his face grew ghastly pale. It was evident that his brutal nature was subdued and that he was in agony and fear of the fate awaiting him. While being plucked to the gallows he struggled and shrieked: "Oh, no! In God's name, I'll say anything."

The noise was quickly thrown around his neck, and as he swung free, two assistants grasped the hanging man by the arms and legs and pulled downward with all their strength. Schneider was strangled to death in four minutes. No cap was used, and every expression and change of color in the man's face was discernible. It was so horrible that the spectators were compelled to turn away. Rosalie Schneider, the wife of Franz and a partner in his crimes, is serving a sentence of life imprisonment.

POLICY-SHOP GAMBLING.

The Authorities Are Resolved to Break it Up.

LOUISVILLE, Ky., March 18.—The excitement among the lottery vendors continues unabated, and those who have not closed are not by any means feeling easy even if they are keeping open and selling tickets.

Wednesday night five vendors closed their offices and decided not to risk going to prison for the small amount of money they would probably take in. The owners of the buildings occupied are becoming anxious too, since they have discovered that they are liable to a fine of from \$500 to \$5000, and imprisonment for one year, for renting their premises for lottery purposes. A number have notified the vendors that they must seek other quarters. Others have forbidden them to open at all, and insist upon the offices being closed at once. The effect of the lottery scare upon the vendors receipts today was manifest. One man said that their receipts all over the city will be cut down fully one-half. The absence of the usual crowds of negroes about the offices was noticeable. They are probably frightened by the prospect of arrest and punishment, and few cared to run a risk by playing. Besides the five policy shops which closed, nine additional ones put up their shutters yesterday. This makes fourteen in all. There are still twenty-six shops open. The shabby vendors are cheered up with promises of protection at the noon drawing, but several more are on the point of giving up the business.

THIS beautiful, elevated and slightly tract of land, on the new southerly extension of the Electric Street Railway, has been platted, surveyed and staked out in blocks and lots as an addition to the City of Salem, and the streets are now being opened. The grounds are clear and seeded in grass, soil is good, no gravel or rocks. The under current of pure water from the mountain ranges forced upward to within 40 feet of the surface by the underlying strata, in addition to a 75-foot pressure from the big reservoir of the Salem Water Co., insures a never-failing supply of pure water. This, in connection with the excellent natural drainage due to the elevation of the property, gives it all the advantages for desirable homes in a healthy locality. This property will now be put on the market at low prices for SIXTY DAYS, when it is expected the street car service will be in operation. Maps of the property can be seen at the office of J. C. Booth in Ladd & Bush bank block; Spalding & Rogers in the Bush-Breyman block, and the well known firm of Thomas & Johnson, next door to The Steamship office.
