PORTLAND RING METHODS.—A considerable feeling is manifested among Salem Republicans over a garbled account of the result of the Republican primaries at Salem. THE JOURNAL wishes it distinctly understood that it is in no way responsible for the dispatches that are sent from Salem to The Oregonian or other Portland papers. THE JOURNAL has the right to send Associated Press dispatches as a part of its Associated Press franchise, but does not use its privilege for other than strictly news purposes. The colored and garbled reports sent out for ulterior and personal purposes are only a part of the ring methods that are not pursued at this office.

BAKING POWDER

in the New York Legislature.

The following, taken from "The Oil, Paint and Drug Reporter," refers to a new bill just introduced in the legislature of New York State:

"The latest development in the baking powder war, is the introduction of a bill in the Legislature of this State, requiring all packages of baking powder which contain ammonia, to be branded with a statement of that fact in large type on the label.

Now while the ammonia contention is on, why cannot the law give the public the benefit of the doubt? Wholly unprejudiced people are certainly not willing to be dosed with the substance acknowledged as a poison, simply because scientists, some of whom are not even physiologists, disagree as to its potency."

A similar bill was introduced last April, but it is shrewdly surmised that the influence of interested parties prevented its passage. The provisions of the present bill are so just that it probably will soon become a law.

This will be welcome news to the manufacturers of pure Cream of Tartar baking powders, the most prominent of whom is the Price Baking Powder Co., of Chicago and St. Louis, makers of Dr. Price's Cream Baking Powder, who have always made a strictly pure Cream of Tartar powder, notwithstanding the temptations of adulteration suggested by the enormous profits realized by a large New York concern which uses ammonia, and advertises its powder as strictly pure, by means of garbled official reports and certificates signed by its own employees, dubbed professor, doctor or government chemist, as fancy may dictate.

A bill compelling alum powders to be conspicuously labelled as such, already exists in Minnesota, and is to be hoped in the interest of the consumer that similar laws will soon be enacted in other states, for ammonia as well as alum.

The following powders known to contain either ammonia or alum or both, will be affected by the proposed legislation:

Royal, Pearl, Calumet, Chicago Yeast, Forest City, One Spoon (Taylor's), Bon Bon, Kenon, Snow Puff, Unrivalled, Yarnell's One Spoon, Shepard's Economical, Crown, Climax, Hercules, Monarch, New Era, Snow Ball.

How WE EXPAND.—It is less than a year ago that the Southern Pacific Railroad company built a new freight depot, double the capacity of its old one, and now finds itself under the necessity of taking the same action with its passenger baggage room. Carpenters are now at work, having cut the south end off, which will be moved out about thirty feet and built up between, similar to the old structure.

HEATHERINGTON IS GUILTY.

The Court Returns a Verdict of Wilful Murder.

VICTORIA, B. C., March 20.—The steamer Zambes has arrived here from China and Japan. Her principal news is as follows:

Following is the verdict returned in the case of the shooting of Mr. Robinson by a United States naval officer: "That George Gower Robinson died on Sunday, the 16th inst. near midnight, from a bullet wound inflicted by J. H. Hetherington, a lieutenant in the United States navy, on Saturday, the 15th inst., at a little after 6 p. m., on the Bund-Yokohama, and we find the said J. H. Hetherington guilty of wilful murder."

A telegram from Kochi, dated March 22, states that, with the exception of the Tooa and Aki districts, the whole of the Kochi prefecture is convulsed by a strife between the liberal and national parties, who fight with swords and firearms. The police and gendarmes are quite powerless to restore order, and already several men of considerable local prominence have been murdered.

A grim affray is reported from the district of Heba, where a pitched battle was going on between the factions. About 1000 men are engaged on each side. During the warfare a fire broke out among the houses, but the struggle was continued with the utmost fury, the list of killed including both those who lost their lives at the hands of their antagonists and those who were burned to death. At Motoyama the ballot box was protected by some 3000 liberals.

Trouble has arisen at Singapore between the government of the Straits settlement and the foreign consuls resident at Singapore. The governor having the duty to intimate to the consuls the death of the Duke of Clarence and Avondale did so by informing the consul-general for China, leaving him to inform the other consuls, the consul for Italy being instructed to represent that he was the elected doyer of the consuls, and all communications should be made through him. The governor replied that he had no knowledge of a consular corps, the consuls not being diplomatic representatives, but mercantile agents, and that the government was justified in following the unusual course.

WAS QUITE NERVOUS.

A Woodstock Car Runs Into a Mule.

PORTLAND, March 21.—An exciting experience was had by Mike Oiler, a motorman, on the Waverly & Woodstock electric car line, Saturday night. He was speeding down the grade in the cut on the Waverly track. It was quite dark and the headlight did not throw much of an illumination in advance of the car. A mule was in the cut and made an attempt to dash across the track. Oiler saw the animal but not soon enough to stop. The mule was struck on the nose with such force that he was whirled around, when he again came into contact with the car, and this time was thrown against the bank and out of danger. Oiler, has had but very few accidents, thought his time had come when his car struck the mule. He was quite nervous for some time afterwards.

Deserving Praise.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Daniel J. Fry druggist, 225 Commercial street.

A Plain Precaution.

Either to adopt a plain precaution, one sanctioned by experience and approved by medical men, or to incur the risk of a malarial miasm and destructive in its various forms of intermissions or bilious remittent fever, or dumb ague, which of these two? For every type, for every phase of malarial, Hostetter's stomach Bitters is a specific. It acts promptly—does its work thoroughly. As a defence against the malarial taint it is most effective. Emigrants to and denizens of regions in the West where miasmatic complaints are periodical visitants, should be indulgent of this and use the Bitters as a safeguard. For constipation, biliousness, rheumatism, "grippe," indigestion and bladder troubles the Bitters will be found no less useful than in cases of malaria. Against the insidious effects of exposure, bodily or mental fatigue, it is also a valuable protection.

NOB HILL.

THIS beautiful, elevated and slightly tract of land, on the southerly extension of the Electric Street Railway, has been platted, surveyed and staked out in blocks and lots as an addition to the City of Salem, and the streets are now being opened. The grounds are clear and seeded in grass, soil is good, no gravel or rocks. The under current of pure water from the mountain ranges forced upward to within 40 feet of the surface by the underlying strata, in addition to a 75-foot pressure from the big reservoir of the Salem Water Co., insures a never-failing supply of pure water. This, in connection with the excellent natural drainage due to the elevation of the property, gives it all the advantages for desirable homes in a healthy locality. This property will now be put on the market at low prices for SIXTY DAYS, when it is expected the street car service will be in operation. Maps of the property can be seen at the office of J. C. Booth in Ladd & Bush bank block; Spalding & Rogers in the Bush-Breyman block, and the well known firm of Thomas & Johnson, next door to The Statesman office. Any of these gentlemen will answer all questions and show the grounds to persons wishing to purchase, or any application to the proprietor, who may be easily found, will be attended to.
