HUMANE SOCIETY.—About forty ladies and gentlemen met at Hotel Willamette read room, Friday, at 2 p. m. to hold annual meeting of the Salem branch of the Oregon Humane Society. The old officers were re-elected, except Wm. N. Ladue, treasurer who declined a re-election owing to his leaving the state. Claudech was elected. Mrs. Dodd, a teacher in the public schools, and J. Stump were elected members of the executive committee. The surer submitted a report and it was adopted and referred to the secretary to be turned over to the new surer. A committee was appointed on increasing the membership composed of Mrs. J. L. Parish, G. S. Downing and Postmaster A. Gilbert. Mrs. Dodd made a report on the public schools, showing that in ten terms teachers had for "Black Beauty," and the facts attributed by the society, an immoral application of the work "Calamity" was allowed. The society adjourned in a very open and encouraged condition. It is done much good in this and will go forward enthusiastically creating a public sentiment that will demand kinder treatment for dumb animals and human beings.

CAPITALISTS IN TOWN.

Chief of the Rollins Investment Co., of Denver in the City.

E. W. Rollins of Denver, of the Rollins Investment Co., accompanied by Mrs. Rollins, and C. M. Maxwell of the Portland Edison Electric Co., are at the Willamette. Mr. Rollins was at Portland and wanted to see the capital city. He is much pleased with its appearance and says it is a pleasure to see a city that is not all up and down. The fact that streets, car lines, sewers and water mains are not expensive to build did not escape such a close observer.

It is rumored that Mr. Rollins is considering a capitalizing proposition of the electric railroad, which if concluded will include plans for extensions to the asylum, from Rural cemetery to the passenger depot, and a motor line to Silverton. He may also stay and bid on the city lands that are to be sold Monday.

WILLAMETTE NOTES.

The rhetoricals of the previous week were very excellent. The essays were carefully prepared and much useful information was given.

The graduating classes are composed of three from normal course; one from business course; two from law course and three are preparing for graduation in the classical course.

The library has been reshelfed and refitted, and the books have been partially replaced. It is a very pleasant room, and a great improvement over the old one.

Dr. Whitaker was summoned by telegram Thursday, to lecture before the Teachers' Institute, now being held at Mounmouth.

April fool's day discovered the fact that all fools are not outside of college walls. Some people feel strangely at home on all fool's day.

The Philodossians held their first meeting in their hall, Friday. The hall is white, trimmed in gold.

The college Y. M. C. A. elected the following officers for the ensuing year: A. W. Bagley, president; W. C. Hawley, vice-president; F. E. Brown, recording secretary; Lloyd Reynolds, corresponding secretary; Floyd Field, treasurer. Five new members were elected.

Miss Myrtle Marsh recited a selection from Scott, and Frank Matthews "Cleo," bringing the ideas out plainly. Miss Edith Frizzell recited a humorous poem on "Witches." Miss Cook Matzall read an interesting essay on "American authorship."

"A man's life consisteth not in the abundance of the things which he possesseth," so an education consisteth, not altogether in the amount a student knoweth, but in an intense thirst for knowledge, and a keenness of intellect and aptitude of mind in acquiring information and seeking truth.

The essence of an education is that it plants in the mind of every student the idea of his personal responsibility for a part of the world's work and his accountability before the bar of his own conscience, of the esteem of others, and of the will of God. All study points to this end, or else when the student is "educated," he simply has a brain more or less stored with fact, but no character to back him, and no true motive to set him at work.

DOES THE COUNTRY—Need a new presidential mansion? This is a very important question, but not half so important as it is to know whether you are going to buy your rubber stamps, stencil and self-working stamp pad of E. C. Patton, 98 State street. He has a large line to show you. Price always the lowest.

INVITATIONS.—Have your invitations delivered by the Lockwood Messenger System. Cheaper than mailing, more efficient. Prompt service. Blue boxes.

ATTENTION W. R. C. I.—Members of Sedgwick W. R. C. are requested to meet at their hall at 7 o'clock sharp on Monday evening. By order of Pres.

The first fresh salmon were found at Steiner's market today, and can be had there regularly hereafter at wholesale and retail.

1492 WORLD'S FAIR. 1893

THE COLUMBIAN FAIR EXCURSION CO., of Chicago has established an agency in Salem, where those who intend going to the World's Fair can obtain information of much interest and value. The purpose of this company is to provide first-class accommodations going to and from and while at the fair, at reasonable rates and on terms within the reach of all. Many people do not seem to be alive to the necessity of securing rooms and accommodations in advance. It is estimated that 30,000,000 people, an average of 100,000 per day, will visit the fair. This company is now contracting hotels, which are being built and to be built, and it is a fact that those who do not make provision in advance had better stay at home. We would therefore impress upon those who intend to visit the fair the importance of registering upon our books and securing their certificates at once. The further payment can be made to suit the convenience of purchaser, any time between now and April, 1903. No certificates will be sold beyond the number of people to whom the company can give all they promise, viz: First-class accommodations. For full information call on

La Grippe Successfully Treated.
"I have just recovered from a second attack of the grip this year," says Mr. Jas. O. Jones, publisher of the Leader, Mexico, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days for the first attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.' Fifty cent bottles for sale by G. E. Goode, druggist."
