

riders and has been with Barnum's circus for nine years, at a salary of \$150 a week. She left the circus last week and went to live with her mother, Mrs. Carroll, who once was one of the most noted bareback riders in this country. Eddie Snow also was, until a week ago, with Barnum's circus. He rode in the circus races at the garden, and also the double bareback races. In a chorus of the show was a singer named Annie Gray. Snow, it is alleged, paid marked attention to her. Last week the management of the circus, it is said, objected to these attentions, and he left the show and went to Chicago, where he accepted a place with Irwin's circus. Annie Gray also left the show and went to Buffalo, where she now is.

### FIRE IN KENOSHA.

Property Destroyed to the Amount of Half a Million Dollars.

KENOSHA, Wis., April 20.—The loss by yesterday morning's fire is \$500,000. The fire was got under control shortly before 10 o'clock. The wind was blowing a gale from the southwest, and only a short time after the alarm was given in the Northwestern Wire mattress company's works, where it spread to vast lumber piles adjoining. The Kenosha fire engine was useless, and aid was telegraphed for to Milwaukee, Racine, and other towns. These responded promptly. The mattress works, were soon in ruins. The Kenosha Crib company's plant next, then Baldwin's coal sheds. By 8 o'clock the entire lumber district, covering an area of eight blocks, was a burning mass. The fire began to get the flames under control. A large number of fires were started by blowing firebrands but were extinguished without material loss. The heaviest losers are the Wire Mattress company, whose loss is \$350,000; Head & Sutherland, storage warehouse, with 3,000,000 feet of lumber, and the Bain Wagon company, with 2,500,000 feet of lumber.

Insanity Will Be the Defense.

WASHINGTON, April 20.—Lawyer Edgington, of Memphis, Tenn., has been securing affidavits for use in the defense of Alice Mitchell, indicted for the murder of Freda Ward. Vance Scott, the only brother of Alice Mitchell's mother, died insane some fifty years ago, while Quincy Scott, son of Dr. John Scott, of Pittsburg, committed suicide a year ago while mentally deranged. The Memphis lawyer took his affidavits to New York, where he expects to submit them to insanity experts.

MOST of the cases cured by Ayer's Sarsaparilla have been given up by the regular practice. Physicians are recommending this medicine now all over, and with satisfactory results.

E. M. Sargent, Lowell, Mass., writes: "Several years ago, my daughter broke out with large sores on her hands, face, and other parts of her body. The case puzzled the doctors, and it resulted in a complete cure. Her blood seems to have been thoroughly purified, as she has never had so much as a pimple since taking this medicine."

In a creek one mile above town, a lead hissing sound, water is thrown out of the creek on the banks on either side a distance of 22 feet by the explosion. Solid banks on each side of the creek were broken off for a distance of 75 yards and thrown into the creek almost filling the bed. The damage is estimated at \$100,000 at the lowest figure now. There is not a house in town but what is damaged, homes of William Baker, J. R. Wolfkill and Wm. Brink, are damaged beyond repair, occupants have moved out of buildings that are unsafe. Hotel Devlin is badly damaged, as is also the bank and the Masonic hall. The ground floors of the two-story buildings suffered the most.

G. Davis, butcher. In the structure Horace Patten and Thomas Rogers slept in the second story. Bennett's building, just west, piled over it, crushing the roof and imprisoning the sleepers, fortunately injuring neither. The two-story brick building occupied by Raik Bennett is a total loss, only one wall left standing; loss, \$5000. The Walker building, occupied by J. M. Miller, druggist; Hewitt's watch store, J. A. & I. Blum, general merchandise, is badly damaged. The Platt block, occupied by the postoffice, Crystal Bros., Madison grocery, and the Vacaville Enterprise, is almost a total loss. The residence of Fred Hutton, in the village, is a total loss. It is hard to estimate the damage in the village, but it is very large. All the wooden buildings were racked and twisted out of shape. The brick residence of Carl M. Gates, Lagoon valley, is badly wrecked. Rev. O. E. Felker, San Jose, is injured badly. A hired man was badly injured. ### A YOUNG FIEND.

Guilty of All the Crimes in the Calendar.

BOSTON, April 20.—Charles Tyler (colored), of Lincoln, 17 years old, is locked up in the Cambridge jail, having eight charges against him, to three of which he has confessed. He is charged with an attempt at wrecking an express train in December, 1889, on the Fitchburg road, near the Lincoln station, confessed; blowing open a combination safe of the Fitchburg railroad at Walden station, confessed; breaking and entering the hotel at Lake Walden in January last in search of booty; wrecking a train on the Fitchburg near Codman bridge in February last; robbery of a muleage book from G. M. Baker, confessed; assaulting his mother with a huge water pitcher, inflicting severe wounds; setting fire to a barn, burning eight horses and twenty head of cattle, besides a large amount of carriage and other valuables belonging to a large boarding stable. Young Tyler is something after the Jesse Pomeroy stamp. His greatest delight seems to be to see people suffer torture. When a mere child he found his greatest pleasure in torturing animals. He was expelled from school on account of his vicious habits. He has some eighteen brothers and sisters.

### CURRENT OF THE LAKES.

Government Taking Measures to Mark Their Direction.

CHICAGO, April 20.—During the next few months a great many bottles will be cast upon the shores of Lake Michigan. They are to be thrown into the water for experimental purposes by lake captains, who will undertake the service at the request of the United States government. The experiments are to be conducted for the purpose of

determining the set and drift of the lake currents, and will be under the direction of the weather bureau. The bottles are to be given out to vessel captains, who will agree to throw them overboard and enter certain data on blanks furnished for that purpose. In order to do their work systematically the great lakes have been mapped out in numbered sections, commencing at Detroit and numbering eastward. There are 400 sections in all, each one containing about 180 square miles. When the captain throws one of the bottles in the water, he will place in it, before so doing, a slip of paper upon which the date and the position of the vessel is entered. On each slip is the request that the finder send it to the chief of the weather bureau at Washington, or hand it to the nearest government observer, lighthouse keeper or postmaster, to be forwarded. By noting where the bottles go ashore, the data will be obtained from which the trend of the lake currents can be calculated.

### TO KILL THE BOY KING.

MADRID, April 20.—The arrest of Felipe Munoz, the anarchist, who was betrayed into the hands of the police by Delboche, who informed the authorities that Munoz was the prime mover among the anarchists and supplied him and others with bombs, promises to result in the extradition of a dangerous class in Spain. Munoz has already made a confession that has caused the arrest of a number of his accomplices, and it is thought before the police are through with him all the leading anarchists of Spain will be under arrest or have sought safety in flight. A most decided sensation was created yesterday by making public the further confession made by Munoz to the magistrate who has charge of the case. Munoz told the official that at a secret meeting of the anarchists lists will be drawn to decide which numbers should kill the boy king of Spain. The statement caused much anxiety, and the precautions to guard against an attack upon the king have been greatly added to. Several anarchists under arrest confessed an attempt was made to be made to blow up the royal palace, but none until now acknowledged a direct attempt upon the life of the king would be made. With the knowledge that such a conspiracy does exist, the authorities will be able to guard again it. The public do not know anything beyond that Munoz revealed the existence of a plot to kill the king, but it is thought in a very short time every one connected with it will be taken into custody. It is also thought Munoz will make a clean breast of his connection with the anarchist movement, and by this means escape the life sentence impending over him.

### ARABIAN RESERVE.

The Rush for Land in the Oklahoma Territory.

EL RENO, April 20.—Precisely as soon as provided by the president's proclamation, cannon thundered forth the signal, carbines repeated it, and 20,000 men, on horseback, in wagons and on foot, rushed into the Cheyenne and Arapahoe country, under whip and spur. Everybody rushing over flat and hollow, madly racing over to the quarter section for town lots. Soldiers guarded the line as well as possible, and were assisted by boomers themselves, who saw to it no one should secure an advantage. The greatest crowds were at points at Watonga and Rossmore, seats of counties "C," and "H". Watonga twenty-five miles from the line, Rossmore forty miles. Every man seemed to know just where he was going, and headed for his longed-for land without bestowing a glance at other rushers. A few wheels were lost near the line, and many more will be left in the gullies this afternoon, but no serious accidents. A special train over the Choctaw road from Oklahoma dumped a load at Rock Island crossing a few minutes after noon. A crowd from El Reno, which has a town organization complete, reached the land at the same time. The site was black with men within half an hour after the opening.
