One of the men paid the bill of the party, and then went toward the door which he held open. One of his companions placed a parcel under the table, beside the counter, while the third man ignited a match and lighted a cigarette. After lighting a cigarette he held the match under the table, apparently to avoid the sulphurous vapor emitted after the cigarette was lit; both hastily joined their companion, who was still at the door, and all quickly departed down to the Rue Lancy.

THE WORLD'S WHEAT.

The Visible Supply and the Situation.

WHEAT CROP.

The Situation as It Strikes San Francisco.

SAN FRANCISCO, April 27.—There has been no improvement whatever in the local wheat situation, business during the past week having been very slack and prices are unchanged to any appreciable extent, nearly all trading having been of a speculative character. Foreign markets have been without any particularly important changes and offering little or no encouragement for local exporters to enter into new engagements. The visible supply of wheat west of the Rocky mountains showed a decrease of 2,904,000 bushels in the past week. India shipments of wheat lately have attracted more attention as comprising a somewhat important factor in the situation of future probabilities. With a gradual diminution of wheat and flour on passage to the United Kingdom and a prospective decrease of supplies available for English consumption the English market may rally after a time. It is stated in the report that the Russian prohibition of export of wheat will be raised in May, is not believed in London. Official reports indicate that though the Indian crop is much below last year it will not be much below the average.

ILLINOIS DEMOCRATS.

Senator Palmer is Willing—The Platform.

SPRINGFIELD, April 27.—Democratic state convention met here today. A telegram from Senator Palmer last night indicating that he would not object to having the national convention instructed for him for president made his friends aggressive and confident this morning and slightly discouraged the Cleveland portion, but they resolved to make a vigorous fight. The platform denounced the McKinley law, declares for gold and silver standard establishment of currency, convertible without loss to the holder and fixing the rate by international monetary congress so that parity will be maintained and all mints thrown open to free coinage, favoring elections of senators by the popular vote, and an unrelenting war on trusts and combinations.

ODD FELLOWS CELEBRATE.

Interesting Exercises are Held at Two Places.

LAFAYETTE, Or., April 27.—The seventy-third anniversary of American Odd Fellowship was celebrated here yesterday under the auspices of Lafayette lodge, No. 29, I. O. O. F. Rev. J. T. Abbott, of Iroquois lodge, No. 143, of Indiana, delivered a most interesting and able address. The Lafayette chorus and the Sheridan brass band entertained the audience with instrumental and vocal music. Representatives from the lodges near by were in attendance. On the platform were Grand Master Gates and Mrs. G. A. Booth, past grand president, and Mrs. W. J. Plymale, grand secretary of the state convention of Rebecca lodges. The weather has been pleasant and the day one of rare privileges for members of the order.

WALLA WALLA, April 27.—The Odd Fellows celebrated their anniversary last evening at the opera house. The oration was delivered by H. S. Blandford. A large crowd attended.

SHOCKING BRUTALITY.

Sick Woman Unmercifully Beaten by Her Husband.

WALLA WALLA, April 27.—A sensational case came up before Justice Taylor yesterday, when John Williams, of Wallula, was examined for assault on his wife. He was fined \$100. The evidence disclosed shocking brutality. Williams left his wife very sick, and on returning, found her in bed, and beat her fearfully, at last choking her into insensibility. He then had a friend named Sample swear a complaint charging Mrs. Williams with insanity. The woman appeared in court badly bruised, with her eyes blackened, and told a straightforward story of her husband's abuse.

THE RUSTLERS.

Are Having Things All Their Own Way in Wyoming.

CHEYENNE, Wyo., April 27.—The leaders of the regulators were in consultation with their lawyers yesterday. After the interview was over the captives were not in the best of spirits. They all believe that they will be acquitted of charges of murder, treason and arson, which will be preferred against them, but they are now ready to admit that their freedom will not come in two weeks, as they had boasted. They talk about an all-summer's siege with the civil authorities. Reports from Buffalo would seem to indicate that Sheriff Angus and Jack Flagg and their sympathizers are running things with high hand. The forman of the Echo has been warned not to run his press, and the acting editor, St. Clair Mallory, was brutally as-

RAUM INVESTIGATION.

More About the Enloe and Raum Episode.

WASHINGTON, April 27.—There was an exciting scene yesterday in the room where the Raum investigation proceedings were held. Representative Enloe, one of the members of the committee, called Commissioner Raum a liar, and attempted to make a personal assault upon him. The trouble began with an inquiry by Enloe as to whether or not Commissioner Raum had not furnished Special Examiner Greenwalt with \$15 to be used for the purpose of entrapping an attorney at Kalamazoo, Mich., suspected of buying information regarding pension cases. The commissioner said he had not given Greenwalt any money. Enloe insisted that on the previous hearing Raum had admitted that he had. The commissioner replied that he did not. Enloe repeated the query several times, until finally Raum turned around and sharply asked if he wanted another denial. Enloe hotly exclaimed, "You're a liar; you said so," and rose to his feet, grasped a glass sponge cup on the table, and started for the commissioner. Other members of the committee rose hastily and forcibly prevented Enloe from proceeding further. As he struggled to free himself, Commissioner Raum said, "I want no difficulty with you or anyone else, but the man don't live that I fear." Then, to avoid trouble, he took up his hat and marched out of the room. Chairman Wheeler called to him that there was no need to leave, as he would be amply protected. To Enloe, Chairman Wheeler expressed regret at the scene, but Enloe insisted he had treated the witness fairly, but he thought Raum's manner very offensive. Payson asked in what respect, adding that the commissioner had simply said he did not make the statement, and Enloe kept on insisting on it. Enloe retorted that the commissioner's manner was very offensive. Finally, the committee adjourned.

"Thick and Glossy."

THE PRODUCTION of an abundant growth of hair, of a silk-like texture and of the original color, often results from the use, by those who have become bald or gray, of Ayer's Hair Vigor. I was rapidly becoming gray and bald; but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored. —M. Adkins, Cassaca Centre, N. H.

A trial of Ayer's Hair Vigor has convinced me of its merits. Its use has not only caused the hair of my wife and daughter to be abundant and glossy, but it has given my rather stunted mustache a respectable length and appearance. —E. Britton, Oakland, Ohio.

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all that I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair easy to arrange." —Mrs. M. A. Bailey, 9 Charles st., Haverhill, Mass.

PORTLAND, April 27.—In the state circuit court Judge Shattuck denied the writ of habeas corpus in the case of thirteen Japanese who arrived here last week on the steamship Batavia and were not permitted to land by the federal authorities on the ground that their admission would be a violation of the contract labor law. The Japanese were remanded to the steamer and placed in charge of Captain Hill. Yesterday he sailed for the Orient, taking along the Japanese. Another writ of habeas corpus was filed and telegraphed to Astoria to be served on the captain on his arrival there. As the captain had a similar experience at this port before he did not stop at Astoria, but carried his Japanese out to sea without the knowledge of the federal authorities. The Batavia will touch at Victoria, B. C., and it is probable that the Japs will leave the vessel there.

A Proposed Resolution of Inquiry.

WASHINGTON, April 27.—Three members of the house committee on foreign affairs (Geary, O'Donnell, and Harner) united with Raynor in reporting to the house a set of resolutions in place of what they regard as a perfunctory expression of sympathy with the persecuted Russian Hebrews, and already reported by a majority of the committee. These resolutions assert that the time has now come when the United States is entitled to take an interest in the continued persecuted Hebrews in Russia, and to direct the American minister at St. Petersburg to communicate with the Russian government and report whether there is any prospect of a repeal of the May laws; of laws limiting the presence of Jews, and of prohibiting foreign Jews from transacting business in Russia. The attorney-general is also to report upon the facts ascertained by the minister whether or not these Russian statutes and ordinances do not constitute a violation of the existing treaties between the United States and Russia.

Active Volcanoes.

YUMA, Ariz., April 27.—Indians from Lower California have arrived here and report volcanoes near Lake Sululce, close to the Gulf of California, in active operation. They say that on the 16th of April an earthquake shock was felt, and almost immediately the volcanoes became quite active. The greatest eruption occurred last Thursday night. The country for twenty miles around was illuminated by burning sulphur and molten rock thrown up hundreds of feet by volcanoes, while the noises of exploding gases soon spread consternation among the Indians who were
