

French will be blown up. The Echo de Paris publishes what purports to be an interview with the anarchists who caused the explosion at Vercy's restaurant. They say the explosion will begin again in a fortnight. An attempt has been made to blow up the town hall of Dijon.

REFUSED TO PAY.

The Demand was Excessive and Agreed to Under Pressure.

SAN FRANCISCO, April 30.—The suit of the Cedros Island Mining and Milling Company vs. the steamer Sirius has begun in admiralty in the United States district court. The Sirius was at anchor off Cedros Island, near the coast of Lower California, on February 25, being on a voyage from Guatemala to San Francisco, having broken her shaft and lost her propeller. She was, on request of her master, towed to the harbor of San Diego by the steamer Tillamook, owned by the Cedros Island company, the price agreed upon for towage being \$20,000, payable in San Francisco. The owners of the Sirius never paid the \$20,000, claiming that the demand was excessive and had only been agreed to under pressure while the vessel was in a disabled and helpless condition, and the master of the Tillamook threatened to leave her.

THE MIDDLE WEIGHTS.

Ted Pritchard to Have a Go at Fitzsimmons.

NEW ORLEANS, April 30.—President Noel, of the Olympic club, yesterday cabled Charley Mitchell to see Ted Pritchard and ascertain whether or not the English pugilist would take the place of Hal and fight Fitzsimmons for a purse of \$12,000 offered for the other fight. As Pritchard has on several occasions manifested a desire to have a go at Fitzsimmons, he will probably not let the chance now offered him go begging. Mr. Noel, who has just returned from Hot Springs, says there will be nothing to prevent the Myers-McAuliffe match, as Myers has always expressed a desire to fight the champion, and McAuliffe has signed articles of agreement for the match.

A Mindreader Takes a Fit.

UKIAH, Cal., April 30.—Professor Tyndall, the mindreader and hypnotist, gave two exhibitions in Ukiah on Wednesday and Thursday evenings. The first evening was devoted to mindreading and the performance was successfully concluded. Last evening the first part of the entertainment was devoted to mind reading and was to conclude with exhibitions of mesmerism and hypnotism. Just before the last part Tyndall was taken with a cataleptic fit and fell from the stage. He was carried to his hotel and lay ten hours in a comatose condition. He is slightly recovered this morning. Great interest is manifested in the case by the doctors here.

Smuggled Jewelry.

NEW YORK, April 30.—The customs officers made a big seizure of smuggled jewelry at the White Star pier yesterday. Jules de la Motte, a cabin passenger from Liverpool, on his way home to San Francisco, smuggled jewelry valued at \$3000. The special customs officer noted some movements as he descended the steamship's gangplank, and took him in the examining room and searched him. He found concealed on his person two pair diamond earrings, a brooch, bracelet, pair of ornaments, pearl brooch and scarf-pin, gold watch chain, ladies' watch, gold ring, two bracelets, gold chain and chain, five pieces of gold jewelry, eight table spoons, seven tea spoons and eight forks. The goods were confiscated, and the man arrested. He was brought before United States Commissioner Shields in the afternoon and gave his address at 311 Pine street, San Francisco. He said he bought the goods found on him in Paris, paying \$1200 for them.

Nervous Prostration.

So prevalent, especially among women, results from overtaxing the system. The assimilative organs becoming deranged, the blood grows weak and impoverished, and hence "that tired feeling" of which many complain. For all such cases, there is no remedy equal to Ayer's Sarsaparilla. Take no other.
"Some time ago I found my system entirely run down. I had a feeling of constant fatigue and languor and very little ambition for any kind of effort. A friend advised me to try Ayer's Sarsaparilla, which I did with the best results. It has done me more good than all other medicines I have ever used."
—Frank Mellows, Chelsea, Mass.
"For months I was afflicted with nervous prostration, weakness, languor, general debility, and mental depression. By purifying the blood with Ayer's Sarsaparilla, I was completely cured."
—Mrs. Mary Stevens, Lowell, Mass.
When troubled with Dizziness, Sleeplessness, or Bad Dreams, take

THE S. P. ACCIDENT.

Koehler and Commissioner Colvig Upon It.

PORTLAND, April 30.—The railroad people say there is no doubt the accident was caused by wreckers. General Manager Koehler, when questioned about it, said: "It was found that two ties had been placed on the track, so as to derail the engine. The engine ran about 160 feet on the ties, and as the track was on a curve at this place, went towards the outer side of the curve, which was against the slope of a cut, then fell back, tumbling over on its side. The mail car pitched on top of the engine, telescoping itself. A stock train passed the place, bound south, at about 3:50 p. m., and the time of the wrecked train was 10:28 p. m."

Railroad Commissioner Colvig visited the wreck and expresses his opinion, concurring with this statement as to the cause of the accident. There was no defect in the track or in the engine.
The overland passenger train, which left Portland Thursday night, was delayed by the accident eight hours, the company making a transfer at the wreck, which saved three hours. As soon as the accident was reported, preparations were at once made to clear the track. It was soon found, however, that a transfer could be effected sooner than the wreck could be cleared; so that the latter was at once done. If there is anything the Southern Pacific people pride themselves on it is in taking time by the forelock in such cases, and either clearing up the wreck with all possible speed or transferring passengers in a hurry, if that can be more quickly done. Of course, it takes some time to do either, especially in such a case as this, where the train was unusually large. There were ninety-seven overland passengers and a large quantity of mail, baggage and express. The track was clear and all trains moving at 4:30 p. m. yesterday.

RAILROAD ACCIDENT.

Three Men Killed and Thirty Injured by a Wreck.

SPOKANE, April 30.—Three men were killed and nearly thirty injured by a wreck on the Great Northern railroad yesterday, seven miles east of Bonners Ferry. The train carrying nearly three hundred laborers left the track on a curve and four double deck boarding cars rolled down the embankment into the river below. The train was proceeding slowly otherwise the loss of life would have been frightful. The names of killed are: Conrad Rusch, John Russell and S. Johnson. Three of the injured men will probably die.

HANGED TO A BRIDGE

And His Body Riddled With Bullets in the Heart of a City.

NASHVILLE, April 30.—At 2 this afternoon, a mob assembled on the square, marched to the jail, apparently without interference of the officers, took Eph Grizzard out, put a rope around his neck, led him in a northward direction and hanged him to a bridge across the Cumberland river in the heart of the city. The body was riddled with bullets. Grizzard, with a brother, who has already been lynched, is supposed to be the man who outraged the Bruce girls on Thursday. An attempt was made to lynch him last night.

STAGE ROBBERY.

Shot into the Stage Without Any Warning.

SAN ANDREAS, Cal., April 30.—The stage running from San Andreas to the sheep ranch was stopped this morning by a single masked highwayman, who without any command discharged a shotgun, the shot killing Miss Roderino, a passenger. The driver, a young man named Raggio, was shot through the body and will probably die. Messenger Tolvex was shot through the right arm, between the elbow and shoulder. Large treasure was aboard for the sheep ranch mine, but all was saved and brought back here by the messenger. A large body of citizens is in pursuit of the robber.

PORTLAND POLICE.

The Grand Jury Say There are Rotten to the Core.

PORTLAND, April 30.—The grand jury in their report to the circuit court today are especially severe in strictures against the municipal police force which they characterize as "rotten to the core," serving to protect lawbreakers. They recommend the police commission be placed under the direct supervision of the mayor, who shall be held to an accountability for their actions.

The Crop Report.

PORTLAND, April 30.—The weekly report of the Oregon weather bureau says: The temperature conditions throughout the state are markedly deficient. Precipitation is largely in excess of the normal amount. Copious rains have fallen on Eastern Oregon and Washington grain-fields. Grain acreage has been

largely increased and is larger this year than ever before with a much better prospect of a good yield. The grain on the low land in the Western part of the state is slightly injured by the continued wet weather. Frosts have done some damage to fruit, though the total product will not be lessened. Vegetation has little growth and is fully four weeks later than usual. Wool crop promises to be unusually large and fine.

Civil Service Reform.

BALTIMORE, April 30.—At a meeting of the national civil service reform league yesterday the report of the committee on resolutions was presented and adopted. The resolutions commend what has been accomplished by the administration in the way of reforms, but say: "The solemn promises of the republican platform of '88 were broken. The voluntary pledges of the president were unfulfilled, and the claim of the republican party, however strong, to be the party of civil service reform is not sustained by the course of the administration, and against this gross breach of plighted faith the national civil service reform league earnestly protests." In the discussion which preceded the adoption of the report Dorman suggested it included an endorsement of Harrison because in the appointment of nine new United States judges he named two democrats. The suggestion aroused opposition. Discussion waxed warm, when Schurz offered as a substitute: "The president's judicial appointments are signs of progress in the right direction." This was adopted.

Belmont Says It Will be Hill.

NEW YORK, April 30.—Ex-Congressman Perry Belmont said in an interview, Hill will be nominated for president at the national Democratic convention because he is the only man who could carry New York, for this and other reasons which the New York delegation would present he had no doubt of being able to convince the Western and Southern men of the wisdom of coming over to Hill.

Fatal Boiler Explosion.

LITTLE ROCK, Ark., April 30.—A boiler in the mill of W. Pallen, near Rocky Comfort, exploded this morning killing Pallen, his engineer and fireman and wounding three men and women all of whom will probably die.

It Was Not So.

NEW YORK, April 30.—The report circulated last night to the effect that the United States Sub Treasury of this city had been robbed of \$125,000 turns out to be canard.

WILLAMETTE NOTES.

Only six weeks more of school. Prof. Starr preaches at Halsey Sunday.

Dr. Whitaker went to Grant's Pass, Thursday, to lecture.

Thursday, the last rhetorical of the semi-term rhetorical were held in the session rooms.

The supply of catalogues having been exhausted the authorities have issued some neat circulars for use until the new catalogues are issued.

P. L. Brown, the young electrician of the school, has made a very nice electrical engine. He will furnish the science department of our exhibit at Chicago with a very neat engine having a battery underneath so that it may be kept constantly in motion.

The trustees at their last meeting appointed Dr. L. L. Rowland, Dr. Whitaker, Rev. Chapman, and Leo Willis a building committee to arrange for the \$30,000 edifice to be built this summer.

We extend to Dr. J. M. Bloss the new president of the State Agricultural college our best wishes for the prosperity of that institution under his care, and that he may find a high place in the esteem of the teachers and people of Oregon.

Our rhetorical list is very good. Miss Carrie Bradshaw read an essay of careful preparation on "Ancient Philosophy." Miss Edith Field recited a "Fisherman's Daughter." Miss Edith Gwynne, "Vamp of Life." F. J. Brown, "The Heritage" by J. R. Lowell.

Prof. Z. M. Parvin and wife gave a very pleasant reception to the teachers, on Wednesday evening. Much pleasant conversation was had, good singers sang, and an excellent lunch was served. These evenings at Prof. Parvin's are exquisite events.

THE HEATHEN CHINESE.

Getting Ready to Come Over from Canada in May.

THE CHINESE ARE COMING.

Hundreds Ready to Cross the Border on May 4.

DETROIT, April 30.—The woods are full of Chinese over in Canada. The long haired heathen in large numbers are dodging behind trees and hiding in sequestered nooks, ready to make a break for the United States the minute the clock strikes 12 on the night of May 3. They all firmly believe that on May 4 the Chinese exclusion act will expire, and they hope to slip into this country before the new law, now under consideration in congress, goes into effect. This numerous aggregation has consequently spread itself out along the border all the way from here to Vancouver, and is only biding her time to get into this great republic. Detroit, however, seems to be the most favorable point at which the Celestials can cross the border, for it is the city most adjacent to Chicago, whither nearly all of them seem to be bound. Because of this fact, Detroit has always been a favorite port at which to land after a trip through Canada from the Pacific, and, although there are no statistics to prove it, it is undisputed that more Chinese have been smuggled across the Detroit river at various points than at any other place in the country. Captain Pratt, special treasury agent, says the Chinese are avoiding Windsor because they know they will be closely watched there. The border is as closely guarded as it can be by the small force stationed here. There is more chance of the Chinese's trying to cross at Marine City or the mouth of the river than at Detroit.

LEFT HIS MONEY BEHIND.

A New Jersey Miser's Estate Without Heirs.
NEW YORK, April 30.—Christian Grimm died Friday at his residence in Parkertown, N. J., aged 80 years. He came to this country from Germany many years ago and lived in Monmouth county for forty years, most of that time at Parkertown. He was a miser, and leaves property valued at \$60,000. Very few people had any idea that the old man was worth any such amount, as he appeared on the streets in poor garments, and generally with a soiled black derby hat. For a number of years he ran a store at Parkertown. There are apparently no heirs to the property. Several years ago Grimm sent to Germany for his sister to come and keep house for him. She came, bringing with her a daughter about 16 years of age. Mr. Grimm treated them shamefully from the start. Before long the girl was taken sick and died. She was shortly followed to her grave by her mother. Both deaths, it is believed, were hastened by Grimm's refusal to buy proper food for the sick ones. Grimm left no will, and according to the New Jersey laws, if no heir is found, the property will be divided between the state and Middletown township.

THE FINEST ON EARTH.

The Bronze Doors for the Vanderbilt Mansion.
NEW YORK, April 30.—At Williams' bronze factory in this city the magnificent bronze doors intended for W. K. Vanderbilt's new palace, "Marble house," at Newport, R. I., are nearly completed. The doors, or grilles, as they are technically termed, will cost more than \$50,000. They are twenty-five feet in width by sixteen feet in height, and fifty men have been at work on them for a year. "Marble house" is constructed entirely of marble. The portico is supported by enormous marble columns, and is approached by a gracefully winding driveway rising from the street to a considerable grade. The grilles will form the entrance to the house. When completed they will surpass anything of the kind in the country, and will not be exceeded by any of the famous old bronzes in Europe. The doors and structural work supporting them weigh nearly twenty tons. The design is French, of the period of Louis XIV, and is extremely chaste and beautiful. The interior is a duplicate of the exterior in wrought iron. The grilles were designed by Richard M. Hunt.

More Earthquakes.

SAN FRANCISCO, April 30.—At ten minutes past 4 yesterday afternoon a slight earthquake shock was felt here, but no damage was done. At Winters the shock lasted five seconds, and people generally were frightened. Mrs. R. Morrison and a bricklayer had ankle sprained by jumping. At Napa the quake was sharp, but did no damage. At Vacaville a heavy shock caused temporary suspension of work on repairs. Timid people continue to live in tents. The earthquake was also felt at Grass Valley and Marysville.

Home Rule Question.

LONDON, April 30.—It is expected that Biane's motion that the time has now arrived to grant home rule to Ireland will force Gladstone to make a declaration what his course will be. Unionists continue preparations for a mammoth anti-home rule demonstration in Ulster. The seriousness of the movement can be judged from the speech of the Marquis of Londonderry, who said it is the duty of Irish unionists to bring before the English viceroy the fact that within twenty miles of his shores he might have a hostile parliament and a hostile country. The marquis added: "If home rule is carried, there must be civil war in Ireland." The statement was received with great cheering and cries of "Ulster will fight!"

In the Wraps that we see rising from the shores of sluggish streams, from low lands soaked by freshets or from marshy muddy flats on the outskirts of populous cities, lurk disease and death. Invested in this poisonous veil of mist are isolated business structures, manufacturing villages and humble tenements. For those who either from motives of business interest or dire necessity are daily constrained to breathe this envenomed atmosphere, there is no immunity saved in an efficient medicinal safeguard. Howler's Stomach Bitters fully fills the need, protecting whole communities from the insidious attacks of malaria, a disease which in its more malignant forms is scarcely less to be dreaded in the individual than typhoid. Every type of it thoroughly eradicated by the Bitters. This powerful medicine also remedies dyspepsia, constipation, liver and kidney trouble, rheumatism and nervousness. It is a restorative, too, of appetite, sleep and flesh.

A MURDER MYSTERY.

After Many Years It Will Now Be Cleared Up.

WILKESBARRE, Pa., April 30.—A sensation was caused here yesterday by the confession of Samuel Shiner, of Sugar Loaf, near Hazleton, of complicity in the murder of the two Kester brothers for \$2000, at Seybertville, Pa., in 1888. The murder was a most mysterious one, and it was not until last October that a clue was obtained. This led to the arrest of Henry Higgins, Joseph Evaland and Joseph Gallagher. A few days ago Shiner was taken very sick, and believed that he was dying he confessed that he was one of the Kester murderers. "I went to the house with Joe Evaland," he said, "and also two men named Kunkle and Christensen. I stood outside while they went in. Evaland shot William Kester and the others clubbed John Kester to death. Then we divided the spoils." He does not implicate Gallagher and Higgins, who are now in prison. Shiner will be arrested as soon as he recovers, for the physicians say he will be all right in a few days.

SERVED HIM RIGHT.

A Chinaman Horsewhipped for His Conduct.

NORTH YAKIMA, April 30.—For some time past complaint has been made to the authorities that a Chinaman on several occasions has been exhibiting his person to little girls. Yesterday he was arrested and thrown in jail. Last night fifty or sixty men organized for the purpose of dealing with the celestial. They went to the jail and demanded the keys of the night watch, who yielded them up. The men then took the Chinaman to the city limits, stripped him, and with a blacksnake gave him an unmerciful beating. Then they told him to go, admonishing him that if he ever returned his life would not be spared. No effort is being made to punish the law breakers, public sentiment being in their favor.
