Dolph submitted his form of registration certificates of residence to Chinese laborers in this country, but not to resident merchants. Sherman was adverse to the issuance of any registration certificates whatever, but said if Dolph and Morgan desired such certificates he would offer no opposition to it. Geary labored with Dolph for a considerable time in endeavoring to gain his consent to a certificate of registration for all Chinese within the United States, including laborers, merchants, teachers, and travelers, but Dolph would not agree to it. Dolph and Sherman are reluctant. The bill with the above provisions may be reported to the senate and house today.

### STRANGE PROCEEDINGS.

Two Members of a Church Driven Out.

BURLINGTON, N. J., May 2.—Rev. Father Tracy, pastor of St. Paul Catholic church, yesterday ordered a policeman to eject Matthew Gaynor and daughter. The officer refused. The priest drawing a revolver, forced Gaynor to arise from his knees, and drove him out of the edifice. The trouble is said by Miss Gaynor to be due to the fact she had received the attentions of a protestant. The priest denounced the companion ship from the pulpit and finally rebuked the Gaynors the church. On several occasions Tracy has created a sensation by the bitter denunciations of the members of the church whom he found guilty of immorality. He has also denounced dancing in severe terms. He has also flourished a revolver in the pulpit. Gaynor will lay complaint before Bishop O'Farrell.

The peace delegation is discouraged at the result they have received from the cattleman but they will make overtures and hope to bridge over the difficulty.

### PORTLAND'S POLICE.

The Yellowstone Park Lease, Heavy Fire, Etc.

### THAT GRAND JURY REPORT.

Very Severe on the Police—Gambling, Etc.

PORTLAND, May 1.—We find from corroborative testimony that gambling is being openly carried on at several places in this city, all of said places being well known to the police, who are expected and in duty bound to suppress the same, but we have had no evidence to show any disposition on the part of the police department to do their duty toward the suppression of gambling; while on the contrary, we have evidence that the police officers do not dare to make any move against the gamblers without special orders from their chief.

Further evidence in this matter, while not conclusive, fully convinces this grand jury that large sums of money are being regularly paid by the gamblers for the protection they receive; that every gambling house in the city has been running in full blast during our term, and the only move against them during that time was when three of our number visited the several games running, without any hindrance or delay on entering, and afterwards swore to the complaint which indicated nine of the principals, six of whom have come up and paid their fines of \$100 each. We have it from a leading official that the others will pay as soon as they make a winning. Neither the city nor county officers have made any move toward closing the games during our term although they have been repeatedly notified by different members of this grand jury that the games are running, showing conclusively that our city and county officials only do their sworn duty for the suppression of vice and enforcement of our law when compelled to do so on the sworn statement of a private citizen, and even then with great reluctance.

### Yellowstone Park Lease.

WASHINGTON, May 2.—The question of the Yellowstone Park Lease was again investigated by the house public lands committee, E. C. Walters, of Montana, for years manager of the Yellowstone Park association, testifying. A letter was read by him addressed to T. F. Oakes, in substance as follows:—The party to whom \$5000 worth Yellowstone Park association stock is to go when paid for in dividends is R. C. Kerns, of St. Louis. Will you please have Gilson or the proper person notify him of the situation, namely, the amount held by order of the directors. My friends will probably explain to him fully, as he desires.

The Cleveland men are said to be willing to withdraw their favorite, provided

### FIVE CHILDREN BURNED.

Work of the Flames in a Brooklyn Tenement House.  
NEW YORK, May 1.—At 1:45 o'clock this morning a fire was discovered in the cellar of the three-story brick house, 189 Broadway, Williamsburg. On the second floor lived John Sauter, his wife, four daughters and son. The family became panic-stricken, and despite the warning cries and shouts the daughter, Maggie, jumped from the window and was horribly mangled. The third floor was occupied by Thomas Tubbs. There were ten in the family, five of whom are missing. The 2-year-old baby boy and one of the sons were taken to the hospital, but they cannot live. A fireman found Benjamin Tubbs, 12 years old, on the third floor badly burned about the face and hands and overcome by the smoke. Another fireman carried off the 2-year-old baby, and others did some good service. Smoke drove the firemen out finally. It was then found five children of the Tubbs family were still missing, and it could not be learned whether or not the children were still in the building. Several of those burned and sickened by the smoke were removed to the eastern district hospital. At 2:30 the fire was not under control, and the people living in the houses adjacent to the burning building, were running into the streets below, or with their clothing in their arms. The last report says it is believed the five Tubbs children perished in the flames.

### AN UNFORTUNATE CASE.

The Ex-Sheriff of Walla Walla County Sinking Fast.

WALLA WALLA, May 2.—A. S. Bowles' insanity increases rapidly. During Friday he was confined in a cell and was very violent. Several times during the night he tore his blankets into strips in trying to hang himself. It was necessary to keep a watcher on the top of the cell to cut down the rope as fast as he tied it up. When the guard opened the cell door Saturday Bowles rushed out of the corridor and a fearful struggle ensued. It took seven men to subdue him. He has not been given an examination yet, and probably will not, as the physician is of the opinion he will not live in his present condition two days.

### THE WORLD'S FAIR.

Oregon Will Not Be Represented at Chicago.

PORTLAND, May 2.—It is now as good as settled that Oregon, as a state, will have no representation at the Columbian world's fair exhibit in 1893 at Chicago.

Such was asserted by the decidedly negative and apathetic action taken Saturday in the chamber of commerce rooms. The meeting was called to order by Hon. J. T. Apper son, of Oregon City, but after remarks by one or two of the delegates adjourned sine die without taking any action whatsoever.

### Yellowstone Park Lease.

WASHINGTON, May 2.—The question of the Yellowstone Park Lease was again investigated by the house public lands committee, E. C. Walters, of Montana, for years manager of the Yellowstone Park association, testifying. A letter was read by him addressed to T. F. Oakes, in substance as follows:—The party to whom \$5000 worth Yellowstone Park association stock is to go when paid for in dividends is R. C. Kerns, of St. Louis. Will you please have Gilson or the proper person notify him of the situation, namely, the amount held by order of the directors. My friends will probably explain to him fully, as he desires.

A member of the committee asked the witness whom the term "my friend" referred to. Witness replied it was his lawyer. Witness was again asked to tell why \$5000 in stock was so promised and for what purpose. Waters said he had come to Washington to secure certain leases from Secretary of the Interior Vias, but had accomplished nothing, and upon seeing he could not get anything done, he said to Oakes that when another administration came in he could get the matter through. He acknowledged acquaintance with Russell Harrison, and said he thought he might intercede in the matter and help him to get things fixed up. Upon close questioning by a member of the committee, witness said the \$5000 in stock was intended for Russell Harrison, but neither he (Harrison) nor Kerns knew anything about it. Harrison, however, was to give his aid and surety for the public good, and did not know the stock was set aside for him until last spring, when he was told so. Waters further said he never promised Russell Harrison stock for his influence, and when he was told of it Harrison appeared very much embarrassed, and said he would not have had the matter done for anything. Harrison told him, said Waters, that he would see Secretary Noble and lay the matter before him, but whether that was ever done he did not know, as Gilson has come on to Washington to attend to the matter and stay until it was concluded. The committee will continue the investigation today.
