

This morning, and the air resounded with shouts of "Caskey" and "Down with Hall-nyne." The janitor was the first sufferer. When he took his key and attempted to insert it in the keyhole of the front door, he discovered that the keyhole, as well as all in the building, were plugged with plaster of Paris. The young anarchists gathered on the opposite side of the street, and awaited the arrival of the principal. Mr. Ballentyne appeared, accompanied by Director Alexander Adair, Rev. Dr. Hunter and Dr. Down, who had decided to hold a little celebration in honor of his assumption of office. Then came the explosion. "Down with Ballentyne," "Give us Caskey," and similar shouts were yelled lustily by the scholars. Director Adair made a speech, and received eggs and stones in reply. Policemen were sent for, and the children who refused to come in were driven off. In the afternoon the parents of the young anarchists were appealed to, and the children were driven into school.

### TRAIN WRECKED.

#### Most All of a Train Goes Through a Bridge.

### RAILROAD ACCIDENT.

#### A Santa Fe Train Wrecked in Missouri.

CHICAGO, May 5.—Meagre details have been received by the Atchison, Topeka and Santa Fe road of a frightful wreck at Medill, Mo. The Chicago limited from San Francisco was thrown through the bridge near there at eight this morning. As far as known all the cars of the magnificent train loaded with the transcontinental passengers bound eastward were buried in the waters of a flooded ravine. It is known many are crushed to death, drowned and more injured. The best information so far obtainable is seven killed and twenty-three injured. No names have yet been received. Among the killed are the engineer and fireman.

### THE MAGNETIC POLE.

#### A Scientific Expedition to Be Sent Northward.

NEW YORK, May 5.—Colonel W. H. Gilder, who, with Lieutenant Schwatka, won fame in bringing back from the Northern regions information respecting Franklin and his expedition, again proposes to make a journey to the North, this time at the head of a party to make a magnetic survey of the region immediately surrounding the Northern magnetic pole. The American Geographical Society, the National Academy of Sciences at Washington, members of the United States coast survey and a number of other scientists are interested in the proposed expedition. Although some funds have been pledged for fitting out the party and carrying on the work, nothing definite has been determined in the way of plans and the money required. The American Geographical Society, with Colonel Gilder, has taken the initiative in the matter, and for the purpose of discussing the expedition the society held a special meeting last night in Chickering hall. Professor Troy Bridger said as the result of the expedition the magnetic pole might not only be located, but the whole world of terrestrial physics benefited. He said in his opinion all magnetic surveys on land should be prohibited, as the true importance and benefits derived were on sea alone. He looked forward to the time when a station would be established in the neighborhood of the magnetic pole, and telegraphic communication made between it and the rest of the world.

### ENGLAND REACHING OUT.

#### Reported Purchase of the Island of Socorro.

SAN FRANCISCO, May 5.—A rather startling story is circulated here, that part of the island of Socorro, off the coast of Mexico and belonging to that republic, has been sold to the British government. It is stated the price paid was \$100,000. Socorro is not much of an island, but there is a good bay there and it would be a first-class place for a coaling station. England is very anxious to make a coaling station in that part of the world, and this fact lends color to the story. At the Mexican consulate they say they have no news of such a sale and do not think it is a probable event. A merchant, whose advice keep him concerning occurrences in Mexico, said: "The Diaz government would not dare make such a sale. In the first place, they would not offend the United States, as this would undoubtedly do. But the main argument against the probability of the sale of the islands is that the Mexican people are exceedingly jealous of their land and would resent the sale of a foot of it. It would produce much the same effect as the sale of an American island would on your people." The island of Socorro is one of the group near which the brig Tabiti was lost. The island is uninhabited, and covered by rugged mountains.

Edmond Hall, a millionaire of Detroit, Mich., intended to visit Myrtle Point last week and examine the resources of the country, but on arriving at Roseburg he was informed that he could not get down without danger to life. Better roads are greatly needed in Coos and Douglas counties.

### Nervous Prostration.

So prevalent, especially among women, results from overtaxing the system. The assimilative organs becoming deranged, the blood grows weak and impoverished, and hence "that tired feeling" of which many complain. For all such cases, there is no remedy equal to Ayer's Sarsaparilla. Take no other.

"Some time ago I found my system entirely run down. I had a feeling of constant fatigue and languor and very little ambition for any kind of effort. A friend advised me to try Ayer's Sarsaparilla, which I did with the best results. It has done me more good than all other medicines I have ever used."

"For months I was afflicted with nervous prostration, weakness, languor, general debility, and mental depression. By purifying the blood with Ayer's Sarsaparilla, I was completely cured."

"When troubled with Dizziness, Sleeplessness, or Bad Dreams, take Ayer's Sarsaparilla."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicines.

### A WIFE MURDERER.

#### To be Sentenced and Hanged the Same Day.

TRENTON, N. J., May 5.—Edward Halligan, the negro wife murderer of Jersey City, who has been twice sentenced to hang, but who was saved each time through a lawyer who asked for a habeas corpus, will, it is reported, be sentenced in Hudson county court of over and terminate this morning and hanged this afternoon. The unusual proceedings will be justified, it is said, in order to keep Lawyer Peachall from appealing the case again, as one appeal was set aside by the United States supreme court.

### A Grand Stand Collapses.

Wallace Rogers and John Loftus are sinking a shaft on the ledge recently uncovered on the hill back of Ashland. The ledge was two feet wide at the surface. The shaft is now down about twenty-five feet, and the ledge has widened to three feet. The Ashland Tidings says the vein has every appearance of being a true fissure, and the boys are taking out some very fine looking rocks.

Indians have been engaged in rounding up all the trespassing cattle on the reservation, which were corralled near the agency, and many a head charged for the trouble. Many were taken out by the owners, and the damage paid, but a cheaper method was hit upon Friday night. During the hours of darkness some unknown parties rode quietly to the corral and drove away about 100 head remaining.

### A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, cough, and cold. ### Chinese Exclusion.

WASHINGTON, May 5.—The president approved the Chinese bill this afternoon.

### GENERAL CONFERENCE.

#### The Twenty-fourth Quadriennial at Omaha.

### A TRUSTING HUSBAND.

#### Puts Too Much Confidence in the Frail Sex.

STREUBEN, N. Y., May 5.—Child-law Evans is a well-to-do and easy-going farmer of this town, past middle age. He married, late in life, a woman much younger than himself. She liked to wear good clothes and have lively companions. Eli Jones, a young man about town, who was said to have been an admirer of Mrs. Evans before she was married, continued to pay her marked attentions. After marriage the unsuspicious farmer raised no objections, although other people were less tolerant, and wondering why Farmer Evans could permit his wife to pass so much time in the company of the gay young bachelor Jones. One day last week Mrs. Evans expressed a desire to go to Utica and get some spring dresses. The same day Mr. Jones came around and suggested to Mr. Evans that he contemplated making a business trip to Utica, and if Mr. Evans would lend his carriage, he (Jones) would drive Mrs. Evans to the city and return that lady and the rig safely home at a reasonable time. Mr. Evans lent Jones the carriage and bountifully replenished his wife's purse for the shopping tour. The pair failed to return at the appointed hour, and a hasty search of the house disclosed the fact that they carried all of Mrs. Evans' best dresses and jewelry and the family silverware. The fugitives have been traced across the country to Herkimer, and are reported to have taken a West Shore train there for Chicago. Mr. Evans will begin an action for divorce.

### THE RADLOFF CASE.

#### Dr. Ballard Released and Exonerated.

SEATTLE, May 5.—Dr. Frank R. Ballard, the Fremont physician who was arrested one week ago upon a charge of complicity in the Radloff conspiracy to swindle insurance companies out of \$55,000, was given a hearing yesterday before Justice Neagle upon charges of arson and grave robbery. The only witness against him was Mrs. Radloff, and, inasmuch as she is a participant criminal, he was discharged from custody. The woman swore that Dr. Ballard agreed to identify the cadaver burned in Radloff's house as Radloff's remains. In dismissing the case the justice said: "The testimony given against defendant is uncorroborated. As it comes from the mouth of a participant criminal it requires corroboration. The charge is based on a vague, shadowy, and flimsy pretext, and I regard it as very unfortunate not only to Dr. Ballard, but to the peace and dignity of the state that Dr. Ballard has been arrested. The defendant is discharged on the charge of arson, and his bondsman in this case is exonerated and released."

### TAR AND FEATHERS.

#### A Barber Gets His Deserts for Writing Letters.

OSKOSH, Wis., May 5.—A mob entered the barber shop of Frank J. Victor, and tarred and feathered him. For several weeks the Chicago Sunday Sun has been sold in this city. Every issue contained a scurrilous letter in which scandalous charges were made against some of the best known and most influential people of the city. In most cases initials were used and in some the full names. Public indignation grew as each week more people were added to the list, and an upheaval was inevitable. Considerable difficulty was had in discovering the correspondent, but at last it was proved to be Victor. Tuesday evening a mob of a dozen injured persons, heading a small mob, visited his shop and forced him to confess. They then stripped him and put on tar and feathers. He made no resistance. The crowd numbered several hundred, but they were quiet, and the police did not interfere. Victor is a young man of about 25, and is very generally disliked on account of his connection with matters of this character.

### FIRST IN TWENTY YEARS.

#### Republicans Carry St. Paul by Large Majorities.

ST. PAUL, May 5.—The entire Republican ticket was elected yesterday. Mayor Smith was defeated by Fred Wright, Republican candidate, by over 3200 majority. Every Republican assemblyman is elected and the board of aldermen will stand seven Republican to four Democrats. Republican candidates for comptroller and city treasurer are elected by majorities of over 3500. Altogether it was a landslide. It is the first time in twenty years that the Republicans have carried the city.

### Military Changer.

WASHINGTON, May 5.—Frank Wheaton, lately appointed brigadier-general, has been ordered to keep himself in readiness to command the department of Texas on the retirement from active service on June 1st next, of Brigadier-General F. S. Stanley. The officer promoted to succeed General Stanley as brigadier-general will probably be assigned to command the department of the Columbia.

### METHODISM.

#### Bishop Fowler's Address on its Growth.

OMAHA, Neb., May 5.—At yesterday's session of the Methodist conference Bishop Fowler read the Episcopal church address. The bishop said the missions in foreign lands were in excellent condition all over the world. No schisms, no dissensions, had appeared in the church during the past four years. The church has experienced a wonderful growth since the last general conference, fully 400,000 members having been added, a greater gain than was ever known in history. The speech touched on the vote in annual conference and churches upon the admission of women to the general conference, with the following results: For, 230,068; against, 3843; ministerial, for, 59,003; against, 4944. The speech warmly commends the establishment of a Methodist university at Washington. It deprecated the Chinese exclusion legislation. It declared the legal prohibition of the liquor traffic the only true solution of the great problem. The church was congratulated upon the growing spirit of fellowship among the various denominations. The relations between the various branches of the Methodist church, and between colored and white brethren, were cordial and satisfactory. The Methodist church is still watching faithfully the interests and rights of the colored race. Upon the subject of popular amusements, the address held that while church members should not make hermits of themselves they should refrain from a great deal that worldly people patronize. The church is non-sectarian and non-political. The secular press is regarded by the bishops as one of the greatest powers of modern civilization.

### In a Woman's Memory.

On the 21st of April at San Francisco, in the home where she was born, passed away Mrs. Emelie Tracy Y. Parkhurst, dearly beloved founder of the Pacific Coast Woman's Press association. Mrs. Parkhurst was a daughter of Jno. S. Sweet, the pioneer educator, and inherited from him marked executive ability. Although one of the youngest literary women on the coast, she had won an enviable position in the world of letters, and held a wide circle of friends by her loveliness of mind and heart. A philanthropist in the broadest sense of the word, earth has been the better for her life, while her too early death is irreparable.

The memorial services held by the Woman's Press association, at San Francisco, on the 30th ult., were very beautiful and attended by scores of people, drawn by the memory of her gentle virtues and womanly worth.

**Wonderful Results**  
Results of Hood's Sarsaparilla. Several cases of scrofula, upon which other preparations have been powerless, yield to the peculiar curative powers of this medicine. Distressing cases of dyspepsia, excruciating complaints of the kidneys and liver, agonizing itches and pains of salt rheum, discharges, skin eruptions, and aches and pains of rheumatism, are cured by Hood's Sarsaparilla. It purifies the blood, and at the same time tones the stomach, creates an appetite, and gives strength to every function of the body. Give it a trial.

**General Debility**  
For four years my wife suffered with large tumor bunches on the glands under the arms, and general debility of the whole system. She became so poor in health that we were on the verge of despair regarding her recovery. Physicians did not seem to understand her case, at all events she never derived any benefit from their treatment. She finally concluded to try Hood's Sarsaparilla. The immediate effect was so marked and satisfactory that she continued to take it, and in a few weeks she had gained in weight 15 pounds.
