

The secretary it is understood, gave bail for his appearance when the trial shall take place.

Mr. Lapham is well known in this city, having been an employee of the patent office for a number of years, and worked his way up from a minor clerkship to the chief of the stationery division. He is a near relative of the late United States Senator Lapham, of New York. The friends of Mr. Lapham assert that the charges made against him by Secretary Noble were unjust and libelous, and they propose to ventilate the matter in the courts.

THE MIKADO COMING.

Japan Arranges to Send Exhibit to the World's Fair.

SAN FRANCISCO, May 10.—The City of Peking arrived yesterday from China and Japan, bringing the following epitome of events in the Orient:

The Chicago exhibition will be the fourth at which Japan will be represented. The articles exhibited at Philadelphia weighed 425 tons, and it is estimated by the officials dealing with this matter that twice that amount ought to suffice for Chicago. The applications to exhibit become more and more numerous, and the number of articles manufacturers desire to send is already more than seven times the limit estimated. Of course it will be impossible for all those articles to go under government auspices, and the department has limited the amount to be sent to 1750 tons. The decision to do this was arrived at after a consultation with local governors, and a fixed scale of the amount to be sent from each district will be published shortly.

Rumors are openly expressed in Tokio that his majesty the emperor will visit the Chicago exhibition next year, the same source having furnished the statement to all the native papers. Such a visit would be unprecedented in the annals of this country, and could not fail to have the most beneficial results for Japan.

According to the Official Gazette, the number of dwelling houses totally destroyed in the Kanda conflagration of April 10 was 3953, and the number partially burned 102, making a total of 4055. In addition to this there were sixty storehouses and forty-two fireproof godowns reduced to ashes. Twenty-five streets were devastated, twenty-five persons killed and thirty-four wounded, among the latter twenty-eight being firemen, and four persons attached to the engines.

Editorial Delegates.

CHICAGO, May 10.—Two special trains, consisting of seven Pullman cars and one baggage car, containing about four hundred editors and their wives, left Chicago over the Santa Fe road yesterday afternoon for California. An additional special train left over the same line from St. Louis with about seven carloads, making nearly 600 people altogether bound for San Francisco.

The editors will reach Colorado Springs, where two days will be spent. From there they will visit Albuquerque, Barstow, San Bernardino, San Diego, Riverside, and spend Monday and Tuesday next at Los Angeles. The party will leave Los Angeles Wednesday, May 16th, and visit Fresno, Stockton, Sacramento, Santa Rosa, San Jose and Monterey, where they will remain over Sunday. They will leave Monterey on Monday morning, take an excursion around San Francisco bay Tuesday morning, and in the afternoon settle down to the work of the convention.

Maximum Comfort on route East.

Passengers designed to points east of the Missouri river should patronize the Chicago, Union Pacific & Northwestern Lines. Maximum comfort and speed, courteous attendants, Pullman and Wagner sleeping cars, Pullman and Northwestern dining cars, Pullman colonist sleepers, free reclining chair cars, and Union Depots, combined make this the popular route east.

Vote for John H. Starr for County Clerk of Marion county.

Dyspepsia

Makes many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, nervousness, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are the more common symptoms. Dyspepsia does not get well of itself. It requires timely and careful attention, and a remedy like Hood's Sarsaparilla, which acts gently yet effectively. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and, by thus sick overhauling the local symptoms, cures the Headache, Sick Stomach, and all the troubles which attend it. I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, and I did not feel like going to work. After taking Hood's Sarsaparilla, I feel like a new man. I have a good appetite, and my food is properly digested. I feel like a new man. I have a good appetite, and my food is properly digested. I feel like a new man.

Distress After Eating

It is a common complaint, and is often the result of indigestion. It is characterized by a feeling of fullness and discomfort after eating, and is often accompanied by headache, nervousness, and loss of appetite. Hood's Sarsaparilla is a reliable remedy for this condition, as it acts gently yet effectively to regulate the digestion and create a good appetite.

Headache

Headache is a common complaint, and is often the result of indigestion. It is characterized by a feeling of fullness and discomfort after eating, and is often accompanied by headache, nervousness, and loss of appetite. Hood's Sarsaparilla is a reliable remedy for this condition, as it acts gently yet effectively to regulate the digestion and create a good appetite.

Heartburn

Heartburn is a common complaint, and is often the result of indigestion. It is characterized by a feeling of fullness and discomfort after eating, and is often accompanied by headache, nervousness, and loss of appetite. Hood's Sarsaparilla is a reliable remedy for this condition, as it acts gently yet effectively to regulate the digestion and create a good appetite.

Sour Stomach

Sour stomach is a common complaint, and is often the result of indigestion. It is characterized by a feeling of fullness and discomfort after eating, and is often accompanied by headache, nervousness, and loss of appetite. Hood's Sarsaparilla is a reliable remedy for this condition, as it acts gently yet effectively to regulate the digestion and create a good appetite.

THE CONFERENCE.

Knights of Labor—Political—A Strange Case, Etc.

THE HIGH WATER.

Danger of Levee Giving Away—Great Loss of Stock.

LOUISIANA, Mo., May 10.—The river here is only five inches below the record of 1888, when the levee broke, causing a loss of over a million to the farmers on the Illinois side. Stock on this side is in a perilous position, in some places being drowned before the eyes of the helpless owners. One man has lost 250 hogs and fifty cattle.

CHICAGO, Mo., May 10.—The water of the Grand river continues to rise, another foot will cut off the city water supply.

ST. JOSEPH, Mo., May 10.—Railroad traffic is almost suspended on some of the lines running into this city. No trains in or out on the Santa Fe or Wabash since Saturday. No farm work is being done in this vicinity. The Missouri river has cut through the levee above this city and threatens to leave the town high and dry a mile and half away from the channel.

IOWA DEMOCRATS.

To Meet in Convention at Council Bluffs Tomorrow.

COUNCIL BLUFFS, Ia., May 10.—The Democratic state convention meets here tomorrow to select delegates to the national convention. There is very little doubt the delegation will be instructed for Governor Bode for the presidential nomination. The only contest in the convention will likely be over the financial plank. The last two Democratic state conventions in Iowa decided for free college, but the indication is that the present one will declare for the coinage of both gold and silver to the greatest extent compatible with equal interchange of the circulation medium.

The Centennial.

ASTORIA, May 10.—Streets, stores, residences and public buildings are decorated profusely for the centennial celebration, which begins this morning with the arrival of the pioneers from Portland. Great numbers of people continue to visit the Baltimore and Charleston. The sailors and marines are enjoying their stay in this port. Their presence in the streets give the city a naval appearance. Colonel Anderson has issued his program for the civic parade Wednesday. Captain Gray has prepared the order of the day for the marine procession Wednesday forenoon. There will be five boat contests between the crews of the Baltimore and Charleston Thursday. Each race will be one mile and return. The purse for each contest will be \$50. The starter will be Captain Meyer. The judges are Captain Richardson, Lieut. H. McCrea and Lieut. J. H. Gilpin. A battery and detachment of soldiers from Fort Canby came over yesterday and camped on Flavel's spacious wharf. Last evening the search lights of the cruisers were operated. It is learned from a reliable source that the cruisers will make a trip to Portland.

ASTORIA, Or., May 10.—Yesterday afternoon and evening the city was profusely decorated. The rain during the night, created an alarm for the appearance of the decorations which fortunately did not suffer much, this morning the clouds lightened. On the arrival of the Potter the members of the Oregon Pioneer association met a delegation of the members of the Oregon Pioneer's Historical society. They formed line at 10:30, the marine band headed the procession of pioneers followed by Utziger's band and marched to the opera house. Dr. C. C. Strong, of Portland, was introduced by Mayor Crosby, who made the address of welcome, followed by Dr. Eels. He was followed by Honorable John Minto. Ex-Governor Chadwick followed with humorous sketches of the early settlers crossing the plains and reminiscences of their life. The exercises were interspersed with music by bands and adjourned at twelve for lunch. At half past one the pioneers went on the Potter on a visit to the jetty.

CONNECTICUT DEMOCRATS.

NEW HAVEN, Conn., May 10.—The Democratic state convention met this morning. General E. Bradley, of New Haven, permanent chairman. The mention of the name of Cleveland aroused unbounded enthusiasm. Cheers for Hill were mingled with a few hisses from Cleveland men.

Republican Seated.

WASHINGTON, May 10.—The house committee on elections has decided that Shunk, Republican, the sitting member in the Pennsylvania contested case of Reynolds vs. Shunk, is entitled to the seat.

Knights of Labor.

PITTSBURGH, May 10.—The quarterly meeting of the general executive board of the Knights of Labor will be held tomorrow. Powderly says the reports show an increase in membership during the past three months of over 2000. This is unprecedented. District Master Workman Dempsey said the board is likely to take action on the People's party platform, as it was more acceptable to the Knights than that of either the old parties.

BECAME A SOLDIER.

A Plan to Get Clear of His Inamorata.

DENVER, Col., May 10.—The recruiting officer at Fort Logan was surprised the other day by the appearance of banker C. H. Dow, and his son, Clarence L. Dow, who married Miss Price, the high kicker. Mr. Dow intimated that if his son could pass the necessary physical examination he would like to enlist in the United States army as a musician. The recruiting officer sent Clarence with an order to the post surgeon, who put the young man through the usual course and said he was qualified to serve Uncle Sam. Mr. Clarence, in violation of good military discipline, here offered Dr. O'Reilly a cigar. It surprised the doctor, but he took it. Clarence, from that hour, was a private soldier at \$13 a month. Mr. Dow explained that for divers reasons he would prefer that his son should be stationed at Fort Logan. It is so near the scene of his former disgrace; so he, the musician, was assigned to the band of the First United States infantry, stationed on Angel island, San Francisco harbor. His instrument is the cornet, with which he has already made quite a reputation.

JAP WOMAN AND CHINAMAN.

Wedding Which Occurred at Roseburg.

ROSEBURG, Or., May 10.—Young Sam and Miss Sue Foy were married at the courthouse yesterday, Judge G. W. Biddle officiating. The bride is a Japanese and the groom a Chinese cook. Considerable difficulty was experienced in procuring a license, as the girl's father could talk but little English and seemed opposed to the marriage, but when the girl was brought in and the ceremony was forthwith performed. It was the first ceremony of the kind ever performed in the county.

General James Weaver, of Iowa, addressed the people's party at their picnic, which was held in the grove here yesterday.

Died by Her Own Hand.

MINNEVILLE, Or., May 10.—The coroner's jury found strychnine in the stomach of Mrs. R. A. Beardsley, who died suddenly Sunday, by taking headache medicine, as she said. The jury has not rendered a verdict, but it is believed to be suicide.

A Strange Case.

NEW YORK, May 10.—One night Rev. Dr. Parkhurst visited the disorderly house of Hattie Adams here also went to the notorious French resort of Madame Audrel, she was indicted and is on trial, which began yesterday, young Erving one of Dr. Parkhurst's young parishioners, was a witness against the woman. Erving is of good family and it was evident for some time before he left the stand he was suffering intense mental agony, he finally rushed from the witness chair, a raving maniac talking incoherently, and making as if he would avoid some horrible thing.

What Gambling is.

PHILADELPHIA, May 10.—Judge Mitchell, of the supreme court, has rendered a decision holding that the purchase of stocks or grain on margin is not necessarily a gambling transaction, if actual delivery is made. When no delivery is contemplated in any event that transaction became gambling.

The Methodist Conference.

OMAHA, May 10.—The Methodist conference today instructed the committee on the world's fair, to send a telegram to Washington, approving the objects of the fair, but protesting opening it on Sunday.

Killed the Watchman.

TUCCO, Ga., May 10.—Burglars broke into Tucco bank last night, killed the watchman, but fled without robbing the bank. Several persons are under arrest.

A Terrible Revenge.

LES OZES, N. M., May 10.—Isabelle Moriana was to be married to Jose Pedro, but he proved faithless and married Angelica Moizan. The jilted girl slowly recovered from the prostration into which the lover's perfidy had thrown her, and Sunday evening, entering the apartments of Pedro and wife, found them asleep. She cut their tongues out and fled, only to be captured by the city marshal after a desperate struggle, in which the latter was severely wounded by the maddened woman. Pedro and his wife will live, but will never be able to speak again.

Wun Lung.

This is the queer name of a Chinese laundry man in Hartford, but he has probably two lungs, like the most of us. Some crying babies seem to have a dozen. Lungs should be sound, or the voice will have a weakly sound. Dr. Pierce's Golden Medical Discovery makes strong lungs, drives the cough away, generates good blood, tones the nerves, builds up the human wreck and makes "another man" of him. Night sweats, blood spitting, short breath, bronchitis, asthma, and all alarming fore-runners of Consumption, are positively cured by this unapproachable remedy. If taken in time, Consumption itself can be baffled.

SANDWICH ISLANDS.

A Gambling Syndicate—Parochial Schools, Etc.

HAYWARDS EXCITED.

Electric Light and Agricultural Works Burned Out.

HAYWARDS, Cal., May 10.—At about 2:30 o'clock yesterday Haywards was thrown into a state of excitement by an alarm of fire turned in from the Haywards electric light and agricultural works. When the hose companies reached the scene of the conflagration the fire was under good headway. The fire companies did good work in saving the buildings near by. The fire started in the Haywards agricultural works, adjoining the electric light plant, completely destroying both establishments. The electric light and agricultural works were owned by Chisholm & Parrel. The loss is over \$100,000, with no insurance. The plant was new, having been lately refitted with all the latest improvements. The harness shop of John Bridge was also consumed, this being lightly insured. Bridge's loss was \$3000. Chisholm thinks the fire was incendiary, as no one has been in the agricultural department since last Saturday evening, and the electric works closed down at 12 o'clock Sunday night, leaving everything safe.

MISS CALDWELL ILL.

Wealthiest Unmarried Woman at Death's Door.

NEW YORK, May 9.—Miss May Gwendolyn Caldwell, who is reputed to be the wealthiest unmarried woman in America, is very ill in this city with typhoid fever. It is thought that the disease was caused by drinking the water of Florida, as Miss Caldwell had just returned from a winter residence in that state. Miss Caldwell's fortune is estimated to be about \$10,000,000. She is a devout Catholic, has given liberally to Catholic charities, and endowed the Catholic university in Washington to the extent of \$500,000. She has been decorated by the pope with the order of the Golden Rose. Miss Caldwell was engaged at one time to Prince Murat of France, but the engagement was broken off.

They Know More Now.

WASHINGTON, May 10.—Some farmers' alliance men in the South and West, advocating the warehouse system for adoption by the government, are met with the argument that it is not the province of the government to build warehouses for any class of producers, to which advocates of the warehouse system replied that if the government can build warehouses in which to store whiskey, there ought to be no reasonable objection to the construction of warehouses for grain and other products of farmers. Senator Coakley sent an inquiry to Internal Revenue Commissioner Mason, who replied in substance: The United States does not now build, and has never built, any warehouses for distillers for the storage of liquor and distilled spirits. All distilled spirits, with the exception of brandy distilled from apples, peaches, and grapes, are deposited in a warehouse provided by the distiller himself. Distillers of brandy from apples, peaches, and grapes exclusively, are exempt from the provisions of the statute. These distillers either pay tax upon spirits as soon as produced, or their spirits are deposited in a bonded warehouse erected by the private individual and stored until the tax becomes due, but in no case is the government liable for any expense incurred in storing distilled spirits of any kind.

Parochial Schools.

NEW YORK, May 10.—D. Mc Glynn lectured Saturday evening in Cooper Union on the school question. He denounced parochial schools, and said they had been established by men who wanted to see the old order of things revived, who were out of sympathy with the progress of the republic, who loved to see monarchy established again, and who wanted to make a living in that way. "In a short time," he said, "the spirit of freedom will assert itself, and the liberal Catholic will then throw off the weight he has been carrying, and support the public school system."

Gambling Syndicate.

NEW YORK, May 10.—M. P. Phillips, who was sent to France by a syndicate of capitalists to study the workings of the gaming system at Monte Carlo, arrived yesterday on the La Bourgeoise. The syndicate will endeavor to get permission to open a resort similar to Monte Carlo at one of the American pleasure resorts.

Army Promotions.

WASHINGTON, May 10.—The president has sent to the senate the following nomination: Majors Wm. H. Powell, 23d infantry, and Curwen B. McClelland, 10th cavalry, to be lieutenant colonels; Captains H. Lisicum, 18th infantry, Theo. J. Wint, 4th cavalry, to be majors; First Lieutenants Alex. H. Taylor, 18th infantry, F. W. Kingsbury, 2d cavalry, Abiel Smith, 4th cavalry, to be captains; Second Lieutenants R. B. Bucke, 18th infantry, Setgwick Rice, 7th cavalry, to be first lieutenants. Captain Richard Meade, to be commander in the navy.

A FALSE BARON.

Drink and Chloral Cause of His Downfall.

LONDON, May 10.—Dr. John Homfald, who claimed to be a German baron, was caught in the act of robbing a till in Fleet street on the night of March 27. He was convicted and sentenced to three weeks' imprisonment at hard labor. He had been employed as tutor in the family of an Englishman of wealth, but had lost his occupation and resorted to theft to obtain money. A dynamite cartridge was found in his pocket when he was arrested, though there was no proof that he intended to use it. The police looked up his record while he was serving out his sentence, and he was again arrested upon leaving the prison, and charged with obtaining money under false pretenses. It seems that he had by false representations induced the charity organization to pay his fare to Eastbourne, where he started he had obtained a position as tutor. This statement was untrue, and he also showed bogus bills. It transpired at his trial on Saturday that he was formerly a tutor at Eastbourne, where he had been dismissed for inducing the pupils under him to pawn articles of their clothing in order to buy him drink, and was guilty of other base misconduct. It was also proven that he was not a baron, though he was a man of highest education, and at one time enjoyed a high position in cultured and intellectual circles. His downfall was wrought by indulgence in drink, and by the chloral habit. He was sentenced to a year's imprisonment at hard labor.

WILL HAWAII ANNEX?

Representative Blount Fostering a Scheme.

WASHINGTON, May 10.—It is said that Representative Blount, chairman of the house committee on foreign affairs, has made a cautious canvass among the leading members of the house to see what congressional support can be obtained for a scheme for the annexation of the Hawaiian islands. The matter has as its origin the belief that it would be more politic for the United States to secure the possession of the islands than to allow England to either seize them or to establish a protectorate there. Dr. Mott Smith, Hawaiian minister, when asked about the matter, said he was not in the confidence of those who are reported to be interested in the move, but said he was not aware of any such plan. He said further that if the United States made Hawaii a free proposition looking toward annexation it would be well received.

Severe Cyclone.

MARSHALLTOWN, Ark., May 10.—A severe cyclone passed near here at 6 o'clock last evening, accompanied by heavy rain. Timber, fences and outbuildings were prostrated. The greatest damage was done in the Catholic monastery of Marienstad. The church and monastery buildings were destroyed, valued at \$12,000. Matthew Brill's house was blown down. He and his children received injuries which are thought to be fatal.

Clerk Swore Against Him.

DETROIT, May 10.—Fifteen acres of the village of Chase, Mich., were laid in ashes on the evening of April 27th by a fire which started in the drug store of Z. Ross. Of all the men burned out, Ross was the only one insured. He was charged with incendiaryism and was arrested, and is now in jail awaiting trial. His clerk swore that Ross intimidated him and said that if he (the clerk) would burn the store he could have a pot of money. He also swore that Ross showed him how to fire by means of a tallow candle fuse, and showed him the best place to put it. The citizens threaten to haul Ross if the law releases him.

Killed in a Cave.

ANTHONY, Kas., May 10.—William Wilkins, colored, wife and five children, entered a cyclone cave last night, fearing a cyclone. Heavy rains washed away the foundation, and at 1 o'clock last night the roof fell in, burying the family. Wilkins managed to crawl out from under the mass of mud and brought neighbors to the rescue. The five children were taken out dead. Wilkins and his wife were badly hurt.

Great Relief

It instantly afforded sufferers from Bronchitis, by the use of Ayer's Cherry Pectoral. Either as an anodyne, to allay inflammation, or an expectorant, to loosen and bring away the mucus, this preparation has no equal.

"Last winter I contracted a severe cold, which, by repeated exposure, became quite obstinate. I was much troubled with hoarseness and bronchial irritation. After trying various medicines, without relief, I at last purchased a bottle of Ayer's Cherry Pectoral. On taking this medicine, my cough ceased almost immediately, and I have been well ever since."—Rev. Thomas B. Russell, Secretary Holston Conference and P. E. of the Greenville Dist. M. E. C., Chattanooga, Tenn.

"My mother was sick three years and very low with bronchitis. We feared nothing would cure her. One of my friends told me about Ayer's Cherry Pectoral. She tried it, and it used eight bottles, and is now well."—T. H. D. Chamberlain, Baltimore, Md.

Ayer's Cherry Pectoral.

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

This book contains 30 full-sized colored cuts of Thoroughbred Fowls, and is replete with information. Address: PACIFIC INCUBATOR CO., No. 1313 CASTRO ST., Oakland, Cal.

A LUMBERMAN'S RENDEZVOUS.

This term might be applied to Stevens Point, located on the Wisconsin Central Lines, at the gateway to the vast forest region which extends North to Lake Superior, a distance of 200 miles without a break, on account of its vast lumber interests. The Wisconsin River to which the lumbermen have given the familiar and somewhat affectionate title of "Old Wisconsin," not alone acts as a lumber feeder to the city by furnishing through its numerous tributaries an outlet for thousands of acres of pine in the upper country, but it furnishes a water power that is second
