**UNION ENDEAVOR ELECTION.**  
The Salem local union of various Young People's Christian Endeavor Societies met at the First Congregational church Thursday evening. Reports of retiring officers for the year just ended were read. The new officers elected are: President, W. B. Peck, of the Presbyterian church; vice-president Miss Nina McNary, Baptist church; secretary, Allyn H. Cooke, Congregational church; treasurer, E. N. Starr, Christian church. The matter of sending a delegate to the Y. P. S. C. E. international convention to be held in New York City in July was discussed and a committee consisting of E. J. McCausland, Mrs. Leabo, Mrs. B. S. Cooke, E. N. Starr and Miss Addie Bowersox was appointed to see what arrangements could be made and report at the next meeting of the executive committee. The committee also recommended that the new endeavor paper published at Portland receive the hearty support of the local societies. The newly elected officers are active workers who will push the work not only in the city but throughout Marion county. These societies have brought Salem young people nearer together and have done much good.

**THE WOMAN HAS IT.**—Mr. Even now admits that his wife got the \$800, and completely retracts his statement that the money disappeared in the room at Hotel Willamette. Of course all who understood the rules of a large hotel never took any stock in that claim. Col. Wagner and his clerks handle thousands of dollars for guests each month in the year and no one ever lost a dollar.

**SALEM WILL CELEBRATE.**  
A Grand Celebration and Military Display July Fourth.

The meeting called at the Willamette parlors last evening was largely attended and everybody present was enthusiastic for a grand Fourth of July celebration and flourish-out to be in keeping with the Columbian anniversary. 1892 is the year and Salem will have the celebration. The meeting was called to order about 8 o'clock by Capt. M. W. Hunt. J. G. Wright was called to the chair and W. G. Westcott served as secretary.

It was decided to celebrate in grand style, and the work was all planned in the hands of the following named general committee: I. L. Patterson, W. G. Westcott, T. H. Barnes, E. H. Flagg and J. L. Mitchell. Sub-committees will be duly appointed and work assigned.

The matter of a military display for that occasion was fully discussed, and the sentiments of the meeting were overwhelmingly in favor of inviting the 2d Regt., O. N. G., boys for a display, or possibly a three days' encampment. The only thing that can prevent a grand military pageant will be a lack of funds, and there is little doubt about raising all the cash that is wanted. A military committee composed of D. C. Sherman, M. W. Hunt, and R. H. Leabo, was appointed to confer with the National guard and report in detail. The general committee is made up of workers who are already in the field. The raising of funds will begin today, and it is to be hoped each one will try to see how much he can give instead of how little. If we want to hold a generous celebration we must all be generous on the start. Remember, what you give for this occasion comes back to you before the money is collected. The Bouquet City will out-do herself, and the result will be such a combination, oration, celebration as was never before witnessed in this valley.

**THE CHURCH OF GOD.**  
A Noted Woman Revivalist Erects Her Tent at Salem.

A force of electric light line men were at work all the forenoon running in wires to illuminate the Church of God revival tent erected in Yaw Park near the street car line, south of the grocery.

Mrs. M. V. Woodworth, the proprietor, occupies the cottage closely. The crew of revival workers consists of this lady, Elder Shock, of Forest Grove, Elder Kimball, of Indiana, Misses Ollie Daggett and Emma Isenberg, all of whom assist in prayer and exhortation.

**THE SERVICES TONIGHT**  
will be opened by Mrs. Woodworth herself. She is a fine looking woman of forty-six years, has come direct to Salem from Jacksonville, Florida, prior to which she worked a year in St. Louis. At that city she pitched her tent in the heart of Carey Patch, a notorious slum region where murders were often committed in open

day light. There now stands a large brick church where nightly services are held.

**AN INTERVIEW.**  
"I am a native of Ohio," said Mrs. Woodworth. "My present home is in Rochester, Ind. I was ordained a United Brethren preacher and had calls from other denominations, but declined all. The church of God seeks to save men by conversion and Christ's methods only, recognizing no ordinance as a door to the church. All denunciations assist me wherever I go. I have no salary, but rely only on voluntary contributions. We work in tents because we can reach the masses in that way, and people are more united and open to the work of the spirit of God in a tent than in any church. In Oakland we saved 2000 souls; the people bought us a tent that would hold 8000, and yet we turned thousands away. We are always attacked by some newspapers but that only helps us. Our meetings are open to all, even to the lowest."

**Old People.**

J. V. R. is the only Sarsaparilla that old or feeble people should take, as the mineral potash, which is in every other Sarsaparilla that we know of, is under certain conditions known to be enervating. J. V. R. on the contrary is purely vegetable and stimulates digestion and creates new blood, the very thing for old delicate or broken down people. It builds them up and prolongs their lives. A case in point:

Mrs. Belden an estimable and elderly lady of 80 Mason St., S. P. was for months declining so rapidly as to seriously alarm her family. It got so bad that she was finally afflicted with fainting spells. She writes: "While in that dangerous condition I saw some of the testimonials concerning J. V. R. and sent for a bottle. That marked the turning point. I regained my lost flesh and strength and have not felt so well in years." That was two years ago and Mrs. Belden is well and hearty today, and still taking J. V. R.

**What Geology Teaches.**  
We claim that geology holds rank with astronomy or biology. The former science tells us of the existence of other worlds than ours and gives us some conception of the immensity of space. The study of plants and animals carries an impressive lesson as to the unity prevailing amid all the diversity of nature, besides affording the hope that we may at some time discover the origin of life, since it has already opened the way to an explanation of the origin of the existing forms of life, while the grand outcome of geological study is that it brings vividly before the mind the immensity of time, enabling us to realize that time is only less than eternity.—Professor A. S. Packard in Popular Science Monthly.

**French Canadian Women.**  
Canadian manners in the province of Quebec are oldtime French manners, and are sweet and unaffected. The ladies are plumper and fresher than those of the United States, and do not seem to live under such high pressure. If they find great satisfaction in being charmingly dressed and feeling themselves on beauty, they do not strike one as being dirty. Their clergy, I hear, take the place of Mrs. Grundy, and keep strict watch over their morals and their manners.—London Truth.
