Railroad Proposition-Salem should take hold of it

Stayton Times: The Southern Pacific railroad Co's, offer on the proposed Sa'em, Stayton and Santiam road is a bait which minnowand suckers may play about and nibble at but it is not the bart for which the majority of the people. A Bomb Found Under His House however sanguine for the early completion of the road, have been waiting to rush at and guip down without observing the steel point and spear of their proposition, which once accepted would hold fast its victims however grave might be their mistake or bitter their regrets. The Southern Pacific company

proposes to furnish the iron if the people will give the right of way. grade and the the road to either some point on the Woodburn-Springfield branch or to Turner, the road to be tions allowing It to be operated by the people for a period yet to be agreed upon after which it must revert to the great and only S. P. R R. Co. Their proposition also requires the people to bear the expense of putting in repair an engine to be used on the road. The company also refuses to sell iron for the road unless they are given a cinch on it for no other reason than that it would be a competing line. It would not be a competing line and that is what it should be Every citizen from the summit of Mt. Jefferson to Salem should work to that end. Such a line independent of the Southern Pacific is what is needed and it can be built.

This term might be applied to Stevens Point, located on the Wisconsin Central This term might be applied to Stevens Point, located on the Wisconsin Central Lines, at the gateway to the vast forest region which extends North to Lake Superior, a distance of 200 miles without a oreal, on account of its vast lumber inter-ests. The Wisconsin River to which the iumbermen have given the familiar and somewhat affectionate title of "Old Wis-cons, not alone acts as a lumber feeder to theelty by turnishing through its numer-ous tributaries an outlet for thousands of acres of pine in the uppur country, but it furnishes a water power that is second only to that of Neensh and Menasha, which citles are also located on the "Cen-trad." Millions of feet of lumber are cut every year, giving employment to hun-dreds of men. In addition to the lumber irade, it has numerous other manufac-or the Wisconsin Central Lines are isons of the Wisconsin Central Lines are isons to tickets, maps, pamphlets and full information apply to G.
