The Great Floods.
ST. LOUIS, May 21.—A trip by an associated press reporter from this city to Cairo revealed desolate scenes. The river is fifteen to twenty miles wide, eating away homes, drowning stock and submerging farms. It is estimated ten thousand people are homeless in this stretch of country alone, and 500,000 acres of growing grain destroyed utterly. A potential famine is in prospect. The great American bottom, comprising most of the Mississippi valley, is entirely inundated. It will not yield a single potato. The cabbage crop is also ruined. Newspapers, and the board of trade are soliciting subscriptions for flood sufferers.
DES MOINES, May 21.—The river is falling, the sun is shining and the worst is over.
ST. JOSEPH, Mo., May 21.—At a joint meeting of the relief and flood sufferers committees this morning it was agreed to say to the benevolent people of the country the losses far exceed the first estimate and aid will be gratefully accepted. Contributions should be sent to Morris Pierce, mayor, or J. C. French, treasurer of the relief committee.
ST. JOSEPH, Mo., May 21.—The big Sioux river has been rising since last night, but it is still well within its banks. No danger is apprehended.
CEDAR RAPIDS, May 21.—Heavy frost this morning. The ground is slightly frozen in places. Fruit not far enough along to be injured.
OTTUMWA, Ia., May 21.—The Des Moines river rose rapidly again during the night, it is now seven inches higher than at any previous time. It is reported there is a heavy rise above, and it creates uneasiness here. Albia reports a material rise, and Edvia is badly under water.

Workmen's Celebration.
LAFAYETTE, Or., May 21.—Delegates from various lodges of Yambill county of the Ancient Order of United Workmen, were in attendance at this place yesterday to decide the time and place for a celebration. It was the unanimous decision of the delegates that the celebration be held at Lafayette, Wednesday, June 1. The executive committee with Mr. Littlefield as chairman, was appointed from Lafayette lodge No. 31. Prominent speakers from abroad will be invited and a grand celebration is assured.

CLEVELAND'S VOTES.
Chances of the Ex-President For Nomination.
WASHINGTON, May 21.—Mr. Tracy, a warm supporter of Cleveland has tabulated returns from state conventions held to date, and figured on delegations to be selected, and declares with much emphasis that Cleveland will receive the nomination probably on the second ballot. Of the conventions already held, he gives Cleveland 915; un-instructed or anti-Cleveland ballots, 185. Eighteen states have not declared their preference, and Tracy divides them into sixteen for Cleveland, with 209 un-instructed or anti-Cleveland. According to Tracy's calculations Cleveland will lack only about ninety votes of the nomination. With this showing on the first ballot, he believes those wavering or un-instructed will come over. The anti-Cleveland men say the claim is extravagant.

The committee recommends the salaries of the chiefs of the fifteen great departments shall in no case exceed \$4000; the salary of the director general be cut from \$15,000 to \$8000, and secretary of national commission, to \$3000. Fifty-six nations and colonies have accepted the invitations to participate, and already appropriated \$3,783,900 for that purpose. Big Fire at Oswego N. Y.
OSWEGO, N. Y., May 21.—A great fire is raging along the water front. It started in the Washington mills, three hours ago, and at this time it looks as though the lumber district is doomed. The Corn exchange, the Continental and Merchants' elevators have been destroyed. The flames have leaped over to the island in the center of the river, which is piled full of lumber, and it is now burning fiercely. The loss thus far is \$500,000. There is no telling where the fire will stop. Syracuse firemen are on their way here by a special train. Six elevators have been destroyed. The heat is fearful and the firemen, although working heroically, can do little to stop the spread of the flames. At 1:30 a. m., the firemen abandoned the marine elevator. The great coal trestles on the railroads are now at work there wetting them down, trying to save them. The firemen are trying to save the Northwestern elevator. This is the one left. It is on the opposite side of the river and has been in fire several times.

Methodist Conference.
OMAHA, May 21.—The committee on temperance and prohibition of the Methodist conference, has prepared a lengthy report, which will soon come before the conference. It reiterates the sentiments of the Episcopal address of 1888 declaring that liquor traffic inimical to the interests of honest trade; the report further declares that the man engaged in the manufacture or sale of intoxicating liquors ought not to receive the commercial patronage of Christians. The licensing plans for saloons is declared to be the means to foster and sustain the damaging traffic. In closing, the report says that while it is not the province of the church to suggest or dictate as to the political proclivities of any man, yet the committee declares that no political party has a right to expect, neither ought any party receive, support of Christian men, so long as that party stands committed to the license policy.
