SMOKED OUT.—THE JOURNAL

feels it rendered the Republican
party a service in smoking Dr.
Cusick out of his hole. For one
who has sought party honors and
party favors, he has not perceptibly
increased his influence nor standing
in the party by carrying on a guer-
rilla campaign which was only ex-
posed on the day of election by the
unmasking which THE JOURNAL
gave him Saturday. The appearance
of a Republican in the role of an
assistant Democrat, while enjoying
party emoluments, and using the
party to further his pecuniary inter-
ests, is a questionable one to say the
least.

WHO DID IT.—That's the question?

The appointment of Martin
Rowley to a lucrative and responsi-
ble position is much appreciated by
that gentleman and his friends. On
the other hand it is causing a good
deal of dissatisfaction and those ob-
jecting to Rowley's holding the position
are asking who is responsible. The
matter will probably cause some
feeling.

QUITE A LOSS.—Sunday, while at

church, Thos. Bruce of North Salem
had the misfortune to lose a fine
horse worth \$175. The animal disem-
bowed itself by jumping on a sharp-
pointed picket fence. It then
broke from its enclosure and ran
several blocks with its intestines
gushing out, before it died.

THE PUMPKINS.—At Chas. Hel- lenbrand's restaurant there has been

introduced what is called a "Pumkahn,"
or Huidoo fan, by which four large
frames suspended from the ceiling,
and kept in motion by a water ma-
chine, keep up a constant current of
air, that is very grateful to guests.

DIED.—On Friday last, Mrs.

Martha N., wife of A. Noltner,
editor of the Evening Dispatch, died
in Portland, aged 45 years, 1 month,
and 4 days. On the same day, in
Portland, occurred the death of Mrs.
Eda D. Bridge, aged 27 years and 3
months. Both of the deceased ladies
formerly lived in Salem.

The Oregon Speed association, or-
ganized by Salem men is to be con-

OPEN THE STREET.—Since the
people see how grandly improved
Chemeketa street appears after grad-
ing, all are moved by a general im-
pulse to have it opened out to the
end and make a first class street in
every respect. The electric railway
poles on being removed from the
center of the street and the com-
pany will put the track into the
finest possible shape. A petition
will be presented to the council to-
morrow evening, signed by about
fifty property owners asking to have
the street opened full width from
14th street to the city limits, and it
will no doubt be favorably acted
upon.

Doctors at home and at Detroit
treated her, she grew worse rapidly.
Then she tried Dr. King's New Discovery
and after the use of two and a half
bottles, was completely cured. They

THE AUSTRALIAN BALLOT.

A Quiet Election With Increasing
Wonder as to the Result.

At 3 p. m. there is indication that
a not heavy vote will be polled. At
6 p. m. the polls close and some
voters may be shut out.

The day has been perfect, but as
this has been a backward spring,
farmers are behind with their work
and that will not have much effect
either way.

The effect of the law is to allay all
excitement and the election has
proceeded very quietly.

TUESDAY'S JOURNAL will have a
pretty definite known result of the
election.

THE BLAINE ACT

The political sensation of the hour
has been the dramatic retirement of
James G. Blaine from President
Harrison's cabinet. Upon the Sat-
urday before the national conven-
tion the conspicuous figure of the
administration throws himself upon
the country by severing himself
from the fortunes of the Harrison
regime.

As well known for some time, a
combine of leading Republicans
have been at work to make a second
term impossible for Mr. Harrison.
This has not been out of opposition
to the two term idea, because some
of these leaders were willing to give
Grant a third term. It has not
been for any reasons afforded by
Mr. Harrison's administration for
all speak of in the highest terms
as a clean and able four years rule.
The opposition has been purely to
attain personal ends, if anything.

What will be the effect of Blaine's
leaving himself to this plan at this
time? Of course the intended effect
was to force Harrison into retire-
ment. There may be a reaction in
his favor. It is possible the sober
second thought of the American
people will repudiate the scheme of
the plotters, and the country will
rally about Harrison. It is to be
hoped this may be the case, as it
would free his second administration,
if re-elected, from a dangerous
element that are not content with a
good Republican administration
but seek to advance their private
fortunes. The alleged causes for the
retirement of Blaine are worthy
of consideration. One stated cause
is "lack of cordial relation between
the families." In a Republic we
are to be deprived of the service of
able men; good government is to be
impeded; political history is to be
made over;—forsooth because
Madame Blaine has a temper or a
mad ambition to be the first lady in
the land. It would seem as 'tho'
the dirty linen of our shoddy aristoc-
racy at Washington should not be ob-
truded under the nostrils of the
nation. Inviting a political father
confessor in the person of the editor
of a religio-political paper to pass
judgment on his course is not very
edifying to the public.

From Minneapolis.

MINNEAPOLIS, June 6.—The open-
ing of the last day before the
convention finds both parties reso-
lute and confident. The arrival of
another score of prominent leaders
this morning, showed about the
same divisions of sentiment as to
Harrison and Blaine, that prevailed
the last two days. The administra-
tion forces fear another Blaine out-
burst just prior to the opening of
the convention, as nearly all promi-
nent Blaine clubs from the larger
cities are delaying their arrival un-
til this evening or tomorrow morn-
ing. Harrison people declare it will
not dismay their organization or
deter their delegates. A positive de-
nial by General Alger, of the report
that he will be withdrawn from the
contest, adds hope for Harrison peo-
ples, as it is fully understood that
nearly all Alger following will go to
Blaine, when Alger is out. The
prevailing opinion today is that no
dark horses, but a fight to the finish
between Blaine and Harrison. Should
it come to dark horses, however,
McKinty is beginning to loom up
strong as a compromise candidate.
North Dakota delegation is much
divided on candidates, but Blaine's
friends succeeded in getting the
state legislature to pass resolutions
strongly endorsing the candidacy of
Blaine. The vice presidency is be-
ing discussed today, for the first
time. Rusk and Alger are most fre-
quently mentioned, but Hon. Wm.
Warner, of Missouri, ex-commander-
in-chief of the G. A. R., and nomi-
nated for governor in his state, Sena-
tor Washburn and Davis, of Min-
nesota, are also spoken of.

ALMOST A RIOT.

MINNEAPOLIS, June 6.—It looks
now as if the convention will be
slow getting to work. The per-
manent organization is not likely to
be effected for two or three days.
Depew, Murat Halstead and other
cooler heads are at work to secure
better feeling among the factions,
believing that the present threatens
to develop a bitterness such as to
make the nomination of Cleveland
more probable and endanger the
success of the Republican candidate.

An anti-Harrison delegate from
Indiana arrived this morning with
a Blaine banner aloft, the sight was
like a red rag to a bull to the In-
diana Harrison men. Shell, a leader,
shouted, "Haul it down, cut it
down." One of his followers darted
forward and snatched at it viciously.
Almost a riot resulted and the end
was the Indiana Blaine men made
a very bitter harangue against
Harrison. The Blaine forces prac-
tically settled on Fesset, of New
York, for temporary chairman.
Harrison men continue to talk of

Bad Blood.

Impure or vitiated blood is
nine times out of ten caused
by some form of constipation
or indigestion that clogs up
the system, when the blood
naturally becomes impure
to reach this condition by at-
tacking the blood with the drastic mineral
"poison." Joy's Vegetable Sarsaparilla is
modern. It goes to the seat of the trouble.
It arouses the liver, kidneys and bowels and
invigorates the circulation, and the impure
blood is quickly carried off through the nat-
ural channels.

Charles Lee, at Beach's
Third and Market Sts., S. F.,
writes: "I took for vitiated
blood and while on the first
bottle became convinced of its
merits, for I could feel it
was working a change. It
cleansed, purified and broad-
ened up generally, and every-
thing is now working full and regular."

General Horace Porter at present,
but have not come to a definite con-
clusion. Nothing definite as to the
permanent chairman.

Murderous Chinese.

SACRAMENTO, June 6.—The Bee
Saturday publishes a sensational
account of the secrets of the Bang
Kong Tong highlanders' society,
the records of which were captured
by the police after last Tuesday's
battle in the Chinese quarters, in
which two Chinamen were killed
and several wounded. This is the
only capture of the kind made in
the United States. The terrible
oath the members have to take,
while kneeling bowed over burning
candles and incense, and all the
secrets of the murderous organiza-
tion are revealed. The oath invokes
the wrath of the great god, Shing,
upon every betrayer of the organiza-
tion, and each member is solemnly
sworn to murder, when commanded,
even when the victim is a brother
or other relative. A member is re-
quired to go into the streets and fire
pistols whenever ordered to do so,
even if the persons to be slain bear
the family name of the assassin.
The blessing and protection of
heaven is promised to obey every
sign and signal of the order. The
by-laws of the society require every
fallen Chinese woman to pay a
monthly tribute of \$2 to the society's
funds, and accord each member the
right to enter any tan game, put
down money for a bet, demand his
winnings, if any, and walk off with
his wages, if luck is against him.
Many details, even to the personal
expense account of the lured fighters
including items of whiskey and
opium, are disclosed, together with
letters from San Francisco, San Jose,
Los Angeles and other places, calling
for highlanders, or relating to the
procuring of witnesses to swear in
cases of members accused of crime.

One letter recites that Chief Crow-
ley broke up the San Francisco
headquarters of the society, and
thus it was forced to meet in a
small, secret room. The police
regard these disclosures as the break-
ing up of the murderous concern,
which although but four months
old here, numbers 128 members.

Business in the House.

WASHINGTON, June 6.—The at-
tendance in the house was small
and attempts to pass several bills
developed no quorum. The house
then went into committee of the
whole on the postoffice appropria-
tion bill, the pending amendment
being to strike out section 3, which
provides that land grant roads shall
receive for the transportation of the
mails 50 per cent of the compensa-
tion charged to private parties.
This was agreed to, 104 to 51. The
chair (Wilson, of West Virginia),
suspected a point of order raised
against an amendment offered by
Wise, of Virginia, repealing the
mail subsidy set and ruled the
amendment out of order. An
amendment was adopted authoriz-
ing the postmaster to send any
government mail matter over non-
aided railroads, or by express com-
panies, whenever he can do so at
a saving to the government and with-
out detriment to the public service.
The committee then rose and re-
ported the bill to the house, and it
was passed.

Hatch, of Missouri, moved that
the house go into a committee of the
whole to consider revenue bills,
the object being to take up the anti-
option bill. A counter-motion to
adjourn was defeated, and on motion
for recess, no quorum voted and
tellers were ordered. Then came
the sensation of the session, the in-
formation given of the resignation
of James G. Blaine as secretary of
state. Pending motions were for-
gotten, and when the excitement
subsided a motion for recess until
5 o'clock was defeated. Filibuster-
ing tactics consumed the remainder
of the day, and the house ad-
journed without action.

WORK OF DYNAMITERS.

A Jewelry Store Blown Up With
Fatal Results.

PITTSBURGH, Pa., June 6.—There
was a terrific explosion at 1 o'clock
Saturday morning at Kensington,
fourteen miles from Pittsburgh, up
the Allegheny river, by which two
people were killed and another
fatally injured. The explosion oc-
curred in the jewelry store of J. K.
Turner, on Fourth avenue. The
building was completely wrecked
and caught fire. Miss Shepherd,
of Ellenton, Pa., who was in the build-
ing was instantly killed, and Mrs.
Sarah Wilson, another occupant of
the Turner, was fatally injured. J.
K. Turner, the jeweler, was blown
through the roof to the top of a
three-story building adjoining, and
his mangled body dangled over the
edge of the roof until the building
was burned down. Both buildings
were quickly destroyed by the fire
which followed. The explosion was
caused by nitro-glycerine.
