

to urge his nomination desire to demonstrate that he can carry New York. The delegation chosen at Syracuse will certainly demand seats. No contingency can arise to prevent his knocking at the door of the convention for admission.

"How is Boies regarded in New York?"

"He is favorably thought of, but there is no disposition to make him president. Boies' success in Iowa was much due to the issues presented to the people by Mr. Cleveland and to his position on the prohibition issue."

"Can Cleveland carry New York?"

"Most assuredly. We vote under the Australian system, and you know there can be no trading."

Nathan S. S. Cleveland delegate from the 30th New York district, arrived at the Grand Pacific hotel last night. "We are all Democrats in our delegation, notwithstanding the charges brought by the other fellows that we are bolters and kickers," said he. "The February Democratic convention was dissolved by the Democratic president without exception as an outrage. There is no doubt that Mr. Cleveland is the choice of the New York Democrats, but whether it is Cleveland or any other Democrat will have the support of our people."

The position which the Illinois delegation is to occupy is still uncertain. Since the state convention it has come to the public knowledge that the friends of Colonel William R. Morrison, by skillful management, have succeeded in securing control of the delegation, and the question now is whether Cleveland, Palmer or Morrison is to have its support, despite instructions.

STORM IN CHICAGO.

The Grant Monument Struck by Lightning.

CHICAGO, June 17.—Three persons were killed, two seriously injured, and some forty were stunned by a flash of lightning which struck the Grant monument in Lincoln park last night. The catastrophe was the result of a severe electrical storm, during which people who were congregated in the park took refuge in the vaults under the monument. The storm began with a slight shower, which rapidly developed into a small hurricane accompanied by a down-pour of rain. When the storm was at its height a blinding flash struck the statue, taking a course directly to the little crowd underneath. Everybody with the exception of three men was thrown from his feet, but none suffered further injury than stunning, except those who were killed. The damage to the monument will be covered by a few dollars.

A Business Block Burned.

ELIZABETH, N. J., June 17.—An entire business block on First street and Broadway, Elizabethport, was burned yesterday morning. The building was occupied by James Mitchell, furniture dealer, and lodges of Masons and Knights of Pythias. The fire spread to the large frame buildings adjoining, all of which were burned. The Elizabethport bank building was also damaged. The loss aggregates \$90,000, partly insured. Several firemen were injured by falling walls, but none seriously.

Could Not Bear the Shame.

ROCHESTER, N. Y., June 17.—Frank Merrick, a farmer who had suspected his wife of infidelity, found her on Saturday in a compromising position. After horsewhipping her male visitor he ordered her to leave, telling her he would not live any longer with her. Merrick stayed all night at a neighbor's house, and on returning in the morning found his wife dead. She had committed suicide by taking poison.

The Dallas Postoffice.

WASHINGTON, June 17.—The postoffice at Dallas, Polk county, Oregon, will be raised to a presidential office July 4th.

A Stranger Hanged.

YORK, Pa., June 17.—William Henry Patner, the stranger of Mrs. Michael Strominger, was hanged in the jail here at 10:17 o'clock yesterday.

SCROFULA

That impurity of the blood which produces unsightly lumps or swellings on the hands or neck, causes painful running sores on the arms, legs, or feet; develops pimples on the face, or, in severe cases, blindness or deafness; is the origin of tumors, cancerous growths, or the many other manifestations usually ascribed to "scrofula"; and fastening upon the lungs, causes consumption, and death. Being the most ancient, it is the most general of all diseases or affections, but very few persons are entirely free from it.

Now Can Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, when other medicines have failed, has proven itself to be a potent and peculiar medicine for the disease. Some of these cures are really wonderful. If you suffer from scrofula or impure blood, be sure to try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with scrofula, sores breaking out on them in various places. My little boy, three years old, has been a terrible sufferer. Last spring he was swarmed with sores from head to feet. I was advised to use Hood's Sarsaparilla, and we were all cured. The result is that all have been cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy."

MINNESOTA CYCLONE.

The Latest From Mankato—Democratic Politics, Etc.

THE DEMOCRATS.

All Is Not Harmony in the Michigan Delegation.

DETROIT, June 17.—All is not harmony in the Democratic delegation to Chicago. It has been thought all along the delegation was solid for Cleveland but W. T. Baker, one of the delegates, says a deal has just been made by which at least twenty will vote for Hill.

Gray Withdraws.

CHICAGO, June 17.—An Indianapolis special says: At a conference between the friends of Cleveland and Gray, it was decided to withdraw the latter candidate for both first and second place, and that he will be given a cabinet position if Cleveland is elected.

Wednesday's Cyclone

DELAWARE, N. H., June 17.—The cyclone which passed near here Wednesday afternoon crushed a barn belonging to H. Duffy, and struck the house of C. Leitenberger and reduced it to splinters. One of the children a girl of 7 years was killed. Leitenberger and another child were seriously injured. A mile east of the house of L. P. Fisher was unroofed and the outhouse swept away. Passing on it swept everything in its path and killed three persons two miles farther east. Late reports of the number killed in this vicinity is six killed with thirty injured.

ST. PAUL, June 17.—As later reports received, the list of dead by Wednesday's cyclone grows less. A large number being made by duplication of names and the same names spelled differently. It now seems twenty lives were lost, though this may be increased somewhat by later reports from distant points and by deaths among the injured. The greatest loss was about Wells and Minnesota Lake. The list of dead as far as known includes those of that neighborhood and around Hartland.

MANKATO, Minn., June 17.—The latest developments, substantial, are that the grave fears of yesterday as to the cyclone death loss will amount to at least thirty. Seventeen bodies have been recovered thus far. With a large territory to hear from the cyclone was the worst that ever visited the North West.

ALBERTA, Minn., June 17.—Every report adds to the list of injured and the loss of property. Three children were killed in Martin county. List of casualties in Furbault county is a long one, it is hard to ascertain. Thus far six deaths are reported in the county with many injured. Destruction of property cannot be estimated as the path of the cyclone is through the richest farming country in the states.

Flight of Dictator Palacio.

NEW YORK, June 17.—A special to the Herald from Panama says: "I have received your dispatch inquiring what truth there is in the rumor that Dictator Palacio, of Venezuela, is a fugitive. There are rumors here to that effect, but they have not yet been confirmed. It is common talk among persons arriving here from Venezuela that Palacio has been drinking heavily, that his forces have been defeated in several successive encounters, and that all his influential friends have deserted his cause. The general belief is that if the dictator has not already fled he soon will be compelled to do so."

Uster Wants to Remain as Now.

BELLEVILLE, June 17.—The great Uster convention, to consider the negative side of the Home rule question, was held here today. Work was generally suspended. The city is decorated. Ten thousand delegates were present, and Duke Abercorn presided. At the conclusion of his speech, Sir W. O. Ewart proposed a resolution, declaring Uster has avowed a fixed resolve to retain unchanged the present position as an integral portion of the United Kingdom.

Democratic Victory.

LANSING, Mich., June 17.—The supreme court has rendered a decision sustaining the constitutionality of the Miner election law. The decision was unanimous. This law was passed by the last Democratic legislature and provides for the choice of presidential electors by congressional districts instead of by the state at large as usual. Decision will give the Democrats ten presidential electors in Michigan. Court is made up of three Republicans and two Democrats.

Kansas Crops.

WICHITA, Kas., June 17.—The wheat harvest is in full blast in Southern Kansas. The quality of the grain is excellent. Reports from nearly all points indicate a larger yield than last year. Corn is looking well.

WASHINGTON, June 17.—The department of state was advised by cable this morning from Caracas of the resignation of the president of Venezuela. Everything is quiet.

Exposition Coinage.

WASHINGTON, D. C., June 17.—The World's fair committee of the house today agreed on a bill for the coinage of ten million half dollars to be used in aid of the Columbian exposition.

The Chairmanship.

CHICAGO, Ill., June 17.—A formidable competitor to E. Stevenson, of Illinois, for temporary chairman of the Democratic national convention, has sprung up in the person of W. C. Owens, of Kentucky, who is being backed by Henry Watterson. Stevenson has been taking things easy, but this morning found it necessary to go to work for the place. The selection of Owens, while not antagonistic to Cleveland will be less favorable to him than General Stevenson. The principal objection to Stevenson, is the fact that he was sent to congress by the Green backers, some years ago. On the other hand, Stevenson is personally very popular.

She Wedded a Millionaire's Son, Who Deserted Her.

ROCHESTER, N. Y., June 17.—The wife of William Powers, son of millionaire D. C. Powers, asked an old friend yesterday for a loan of \$5. She told him that her husband had deserted her and refused to allow her to buy even the bare necessities of life in his name. She said she had begged her husband's father on her knees to see that she was provided with what she needed, but he refused to give her a dollar. It is understood that Will Powers intends to sail to Europe Saturday for an extended trip, his intention being it is said, to force his wife to seek a divorce and then to bid of her with a nominal alimony. Mrs. Powers was, before her marriage, Miss Della Morgan. She was employed by Hughes' candy store when she became acquainted with Powers, who passed his time in the bank owned by his father. Powers, the father, objected strenuously to the proposed marriage, and the mother vowed that her son should never marry "that candy girl." Mr. and Mrs. Powers proposed that Miss Morgan should be educated and should travel abroad for two years before the marriage. Miss Morgan declared that if there was any educating to be done it must wait until after the important event. Finally, the parents yielded, and Miss Morgan was taken from the candy store and placed at work in Powers' art gallery. The marriage took place in 1885. There have been all sorts of things said about the unhappy life of Della Morgan in the little cottage almost in the shadow of the Powers mansion, where the young couple lived, but it failed to bring happiness. The young husband has kept up a pretension of duty all the time, but it has been an open secret for a year or two that his wife and his home saw very little of him. It is also stated, though nobody believed it, that the young wife was destitute at times, despite the fact that her husband was a member of one of the richest families of Rochester and was himself cashier of a prominent banking institution.

Received Summary Punishment.

HAZELTON, Pa., June 17.—John Spolack, a Hungarian, stabbed Mrs. Hancock, his boarding mistress, twice in the breast Tuesday night, inflicting serious wounds. A crowd of boarders in the house pursued him as he ran away. Three hours later Spolack's body was found at the bottom of a deep slope, lying beneath a freight-car. One of the men who was in the crowd that pursued Spolack is alleged to have said yesterday that they caught the man, killed him and threw his body down the slope. The coroner held an inquest, but elicited nothing to show that the Hungarian was lynched.

Russia at the World's Fair.

ST. PETERSBURG, June 17.—The commissioner-general of the Russian section of the world's fair, with assistants, has started for Chicago, to make necessary arrangements. Russia contemplates making great exhibits from all parts of the empire of the most varied and interesting character, comprising twelve divisions.

The Power of the Press.

PARIS, June 16.—A curious revolution has taken place in French literature and judicial customs. For the first time in the history of the press in France has a jury recognized the principle that heavy damages should be awarded for defamation of character. M. Drumont, a well-known anti-Semite, who recently accused a deputy of being at the same time engaged in drafting a bill relating to the Bank of France, was promptly prosecuted by M. Bardeau, and being found guilty, M. Drumont, was sentenced yesterday to three months' imprisonment and fined 1000 francs. Moreover, the court ordered that the sentence be published in several journals, and that the amount of the fine be spent in this way: that for eight days special prominence be given to the sentence on the first page of M. Drumont's own journal, Le Libre Parole, which is certainly a novel sentence. The trial proved there was absolutely no foundation for Drumont's accusation.

GRAV-HAIRED LOTHARIO.

He Was Very Anxious to Marry a Girl of Sixteen.

FORSYTHE, Pa., June 17.—What would have been a romantic marriage was nipped in the bud here yesterday. At an early hour an old man, about sixty years of age, drove into the city, accompanied by a rosy-cheeked, bashful girl of not more than sixteen. The couple attracted a great deal of attention on the streets, and they were the objects of great attraction when it was learned that they were in search of a minister. The old man's heart throbbed with joy as he walked into the ordinary office and called for a marriage license. Just then however, the would-be groom's joy was replaced by sorrow and disappointment for a prominent minister heard of the intended ceremony and determined that it was an unjustifiable injury to the unsuspecting girl, and that he would make an attempt to prevent it, as he knew the groom expected had a wife living in Florida. The license was refused the old man, and a more disappointed lover could not be imagined. He grew indignant, while the girl at his side smiled coquettishly into his face, reassuring him of her love. The white-haired lover, though crestfallen at this disappointment, took the girl by the hand and led her away, swearing that he would get the license elsewhere and make the young girl his bride.

Four Italian Laborers Hung by a Mob Near Sedro, Wash.

SEATTLE, June 17.—A special from Sedro, Wash., to the Post-Intelligencer says: A report of the brutal murder of John A. Nelson, foreman of Smith Bros. camp on the line of the Monte Cristo railroad, by four Italians, followed by the lynching of the murderers, was brought here last evening. Nelson, who had lived in Sedro for some time and had been employed by Smith Brothers, railroad contractors, was given a position as foreman over Italian laborers on the grade of the Monte Cristo railroad. The statement as told to the Post-Intelligencer correspondent was told that Nelson was attacked by the Italians and during the fight an iron bar was driven through his head, killing him instantly. The white men of the camp became so enraged (about sixty) over the brutal murder that they seized the Italians and in the presence of 150 of their countrymen, lynched the four murderers. No further particulars have been received, as there is no wire to the scene.

Licking Bridge Disaster.

CINCINNATI, O., June 17.—Another part of the Licking river bridge fell at 9 o'clock yesterday. Five men working under it at the time escaped without injury. Two more bodies were taken out of the wreck yesterday forenoon, but are not identified.

A Local Option Fight.

LANSCASTER, Ky., June 17.—Lanscaster is a local option town, but has her "blind tigers." Several days ago Henry Arbute, a detective, took the matter in hand, and began to work up cases against the illicit whiskey-sellers of Battle Row, a negro settlement. He reported Tuesday morning, and five negroes and one white man were arrested yesterday. The white man is Frank Turner. He was fined \$100, each in 1877 cases, amounting to \$157,000.

The assimilative organs becoming deranged, the blood grows weak and impoverished, and hence "that tired feeling" of which many complain. "Some time ago I found my system entirely run down. I had a feeling of constant fatigue and languor and very little ambition for any kind of effort. A friend advised me to try Ayer's Sarsaparilla, which I did with the best results. It has done me more good than all other medicines I have ever used."

Give us Laughing Philosophers!

None of your snarling cynics for us! They laugh not, neither do they smile. They are nervous—dyspeptic. They are usually of size, pale, slight, dry, quite gray or individuals in fact, who look as if they had been at loggerheads with roast beef all their lives. The side-splitting laughing gas, which sweeps from the individual with a good digestion is never heard from them. They usually make little into mountains, and in whom the nervous and querulous disposition to snarl and find fault which attends dyspepsia. Rheumatism, constipation, headache, indigestion and a slippe yield to the Bitters.
