

The Political Cauldron—News from Other Points.

FROM CHICAGO.

Cleveland Does Not Seem to Have Two-Thirds Yet.

CHICAGO, June 20.—With delegates present from all the states to the Democratic Convention the number of forces of the various leaders is diligently going forward. Cleveland's followers this morning display with much ostentation a carefully prepared table which gives Cleveland 583 votes on first ballot. Just nine-tenths short of the necessary two-thirds to insure his nomination. The anti Cleveland faction including not only the Hill but also the Boies, Gray and Gorman men about these figures as unreasonably large and assert their investigations show that Cleveland is assured of but little over a bare majority on first ballot and they still hold his forces will be steadily disintegrated thereafter, and the race be come one of the dark horses. The most uncertain feature at present is the attitude of Senator Gorman of Maryland as leader of the delegation. He protests loyalty to Cleveland but despite this his name is more discussed as a dark horse capable of uniting all factions opposed to the nomination of Cleveland than any other.

The loyalty of the Iowa delegation to Boies has aroused admiration. It has been suggested that Boies would be a good vice-presidential candidate in the event of Cleveland's nomination. It does not even find a courteous reception at the Iowa headquarters. It now looks as if on the opening ballot the Indiana delegation will cast 17 votes for Governor Gray and 13 for Cleveland. The sub-committee on temporary organization met this morning and Henry Watterson quickly won his fight, the committee deciding to recommend the name of Hon. W. C. Owens, of Kentucky for temporary chairman. The full committee met this noon and will confirm the action of the sub-committee. It is believed there will be a fight in the convention over the matter and the friends of General Stevenson, of Illinois, will accept his defeat quietly. S. P. Sherman, of Indiana, secretary of the national committee, will be temporary and permanent secretary of the convention.

It is still insisted by Gorman's friends the presentation of his name is yet an open question and Gorman himself still denies he is a candidate. Opposition to Cleveland is finding the Gorman fever did not elicit special enthusiasm, and have turned over to Iowa's idol, Governor Boies, the effect has been to give increased prominence to the Boies boom, scattering for Boies has been secured in various sections where there is Cleveland opposition. South Carolina is willing to give Boies 12 votes. It is also reported that Brice and Watterson are friendly towards Boies. Carlisle opposes the Boies movement and is likely to make it known in the meeting of the Kentucky delegation this evening. Ex-Secretary Whitney this morning claimed 559 votes as certain for Cleveland, on first ballot.

A signal victory for Cleveland forces was fought and won almost without a struggle today it was on the question of unit rule in the Pennsylvania delegation. It was made to break the unit in the Keystone state and the result here it was thought would be initiated in other delegations. After disposing of the selection of committees a resolution which guaranteed the solid vote of Pennsylvania for Cleveland passed 88 to 4.

CHICAGO, June 20.—Illinois delegation will cast its 48 votes solidly for Cleveland, John M. Palmer said to a Associated Press reporter I think I can state with considerable certainty Illinois will vote for Cleveland. It looks to me as if Cleveland will be nominated. I take no stock in the New York fight. I simply trust if Cleveland is nominated or any good democrat we will carry Illinois and Wisconsin to make up for the possible defection of New York State."

CRIMINAL LIBEL. Arrest of the Editor of the Evening Telegram. PORTLAND, June 19.—Capt. Geo. H. Moffet, editor of the Evening Telegram, was arrested on a charge of criminal libel, at the instance of W. L. Lightner. The alleged libel consists in the publication of an article by the Telegram stating that Lightner, Chief of Police Parrish, I. F. Powers, republican nominee for police commissioner, at the coming election, and two other parties held a conference yesterday and devised means for raising campaign funds. The article states that as a result of the conference it was decided that bawdy houses should be assessed and that two men were immediately sent out to collect money. Capt. Moffet was released on bonds.

Result of a Flirtation. COLUMBUS, O., June 20.—Sixteen-year-old Theresa Recker has been keeping up a flirtation with George Ebner, not knowing until recently that Ebner had a wife. On Tuesday evening Mrs. Ebner met Miss Recker in South Park and pulled her by the hair. Saturday Miss Recker, who was much humiliated by the assault, committed suicide by taking poison.

Lincoln for Secretary. PARIS, June 20.—A telegram from a high source in the United States says President Harrison will appoint Depew minister to England and that Robert Lincoln will be recalled from that position and made secretary of state.

The Palmer Boom.

CHICAGO, June 20.—The Palmer boom received an impetus Saturday by the arrival of Congressman Springer and his declaration that Cleveland's nomination would be political suicide, and it is the duty of Illinois delegates to support Palmer from the very opening of the convention. Springer said that if Cleveland is nominated it would be necessary to reorganize the democratic party in New York. To discard an organization which nominated and elected Tilden, which nominated Cleveland twice and once carried the state for him for president, which nominated and elected him governor, and which has now seven successive and signal victories to its credit in the state, would be an act of political suicide. I cannot believe the national convention will do it. The arrival of Wm. C. Whitney is marked by more methodical work for Cleveland. One evidence of the work by the Cleveland men was shown today in efforts being made to reduce the size of the field to be entered against the leader. In each state, where there is a lack of favorite sons, Cleveland men will be put to work to prevent the nomination of dark horses.

Dispersed by the Rain. DALLAS, Tex., June 20.—Police Officer W. H. Riddle was killed by P. F. Miller, whom he attempted to arrest. A mob gathered to Lynch Henry Miller, the murderer of Officer Brumer; G. F. Pouton, the slayer of A. Tighe; Charles Henry, who killed a woman in Denver, and another in Dallas; and Miller, the slayer of Officer Riddle. The sheriff resisted until about midnight, when a heavy rain came up and so thoroughly drenched them that they dispersed.

Death of Emmons Blaine. CHICAGO, June 20.—The death occurred in the home of Blaine's father-in-law, Cyrus H. McCormick. Only his wife, son and Mrs. McCormick were present. Death came so suddenly that there was not time to summon other members of the families. Strenuous efforts were made during the night and morning to get a message to James G. Blaine and wife, who are at Bar Harbor telling them of their son's critical condition but the telegraph companies were unable to get messages through. A member of the McCormick family, in explaining why information of young Blaine's death was withheld said: "I feared it would be a death-blow to them, all members of the Blaine family, to receive the dreadful news without preparation." Emmons Blaine was vice-president of the Baltimore & Ohio Railroad company, and came to Chicago recently to take charge of its western interests.

BAR HARBOR, June 20.—Ex-Secretary and Mrs. Blaine left for Chicago Saturday afternoon, on receipt of the news of the death of Emmons Blaine. WASHINGTON, June 20.—Soon after hearing of the death of Emmons Blaine, President Harrison sent a telegram to Mr. and Mrs. Blaine, expressing his deep sense of sympathy for them in their affliction. Members of the cabinet also sent a dispatch of condolence.

A Jealous Husband. LA GRANDE, OR., June 20.—James Palmer shot and instantly killed Eli Risen early yesterday morning. For some time Palmer's wife has been receiving attention from Risen, last night Palmer lying in wait saw his wife and Risen walking along the street together, he fired five shots at Risen, three taking effect, Palmer then disappeared. The sheriff and posse started in pursuit but have no trace of him. Risen was a blacksmith at Island City and was not more than twenty-one.

Notified the President. WASHINGTON, June 20.—Committee appointed by the Republican National Convention waited on President Harrison today to notify him of his renomination. Governor McKinley acted as spokesman.

Nothing But Cleveland. CHICAGO, Ill., June 20.—The surprise of the day was the statement that Gray's name will not be brought before the Convention. Gray's friends examined the situation carefully and saw nothing in it but Cleveland.

Portland Election. PORTLAND, OR., June 20.—The city election is being held here today for the purpose of electing Police and Fire Commissioners and a councilman from each Ward. There are three tickets in the field, Regular Republican, Citizen-Democratic and People's party.

Rid of an Imposter. DETROIT, Mich., June 19.—The news of "Prince Michael's" conviction and sentence was received here late Saturday night and all good citizens felt that they were rid of an imposter. The "Prince Michael" sect has between 100 and 200 members in Detroit, and they have been charged with the ruin of many girls as well as practicing other immoralities. Adultery is permitted by their code. The conviction of the leader will probably result in breaking up the sect.

ODDS AND ENDS.

Hope can only die by our own hand. China has twenty-seven American merchants. Plants are synthetic feeders; animals are analytical feeders. The omnibuses have awnings over the people who sit on the roofs. The spider probably thinks that the bee is wasting time in making honey. Most men find out too late that they should have taken their wives' advice. At some hospitals almost the only guard used for the throat is hot salt water. Buenos Ayres is going extensively into the manufacture of agricultural implements. No woman, unless in feeble health, should cling to a man's arm during a daylight stroll. The greatest distance covered by a steam vessel in one hour's run is fixed at twenty-six miles. When tins are much blackened by the fire they should be scoured with soap water and fine sand. If the oven should be too hot at any time, place a pan filled with water in it, and the heat will be lessened. A French officer has invented a hip-pometer which will register the paces and ground covered by a horse. The largest dock in the world is said to be the one at Bermuda, which is 381 feet long and 123 feet in breadth. Steel wire railway carriage seating is fast taking the place of the padded and volatile spring seats in use in England. It is reported that an Atlanta lawyer dislocated his arm while making a gesture to emphasize his speech recently. Giant killers and destroyers of monsters are found in the folklore of Pacific Islanders as well as in that of other people. It is optional with a lady to recognize at the second meeting a gentleman who has upon a previous occasion rendered her a service. Never omit regular bathing, for unless the skin is in regular condition the cold will close the pores and favor congestion or other diseases. A little vase of Sevres ware, presented by a French sovereign to Tippu Sahib, was sold in London not long ago for \$7,205. It was only eight inches high.

Pet Superstitions. How many of us are there who do not once in awhile feel just a little uncomfortable when we find that we have sat thirteen at the table, or have seen the moon over our left shoulder, or have done any of the thousand and one things that are supposed to portend evil? Not that we think for a moment any misfortune really will happen in consequence of these acts, but the suggestions are not pleasant, and we wish our attention had not been called to them. Of course we all laugh at superstitions, and think them silly, as they are, but nevertheless we do not get away from the unpleasant feeling. I knew an old lady who considered it positively wicked and unchristian to give up to "foolish superstitions," but she never would allow any one to rock an empty chair in her presence. You will see people in the street, who have been hurrying as if anxious to lose no time, stop on a corner and wait five minutes for a long funeral procession to pass. They have not the courage to cross through it when an opportunity is offered, although they may waste moments that are golden to them.—Harper's Bazar.

A Patriotic Landlord. Of all Irish landlords perhaps none was more popular with his tenants than the Earl of Leitrim. As an instance of what may be termed his approachability, it may be stated that on the birth of his second son an old woman on the estate called at Manorvaughan to offer her congratulations and, remarking to the earl that this was "the first of the breed" born on Irish soil, suggested that the boy should be called "Pat." The earl good naturedly said he might do so, and accordingly the child bears the name of Hon. Francis Patrick. It is characteristic of the same man's determination and resource that at one time he voluntarily did duty in the engine room of a small coasting steamer, which he had established for trading purposes along the Donegal coast, for a period of three weeks when he was without an engineer.—London Tit-Bits.

Religions of China. A work of giant dimensions has been undertaken by the celebrated Chinese scholar, Dr. J. M. de Groot, under the comprehensive title of "The Religious System of China." During his long sojourn in China the author carefully collected, sifted and arranged his materials from Chinese literature and personal observation. The work will consist of seven books, to be published in twelve stout octavo volumes of 350 to 500 pages. Each book will deal with a separate part—the first, with the funeral rites; the second, the grave; the third, with Taoism; the fourth, with the worship and propitiation of divinities; the fifth, with Chinese Buddhism; the sixth, with the state religion, and the seventh and last, with the two great churches of China, the taoist and the Buddhist.—Philadelphia Ledger.

A Lost Art Discovered. An interesting report comes from Anderson, Ind., to the effect that an enterprising glass manufacturer of that town has discovered the lost art of casting glass tubes which the ancient Egyptians and Phoenicians practiced with entire success. The toughness and durability requisite for molding into pipes, together with a process by which annealing might be dispensed with, have been diligently sought through many years by inventors. If the Indiana man has succeeded his reward is likely to be correspondingly great.—Chicago Herald.

Wonderful Results. Results often follow the use of Hood's Sarsaparilla. Several cases of scrofula, upon which other preparations have been powerless, yield to the peculiar curative powers of this medicine. Dizziness, headache, excruciating complaints of the kidneys and liver, agonizing itching, eruptions, and pain of salt rheum, disagreeable humors, are cured by Hood's Sarsaparilla. It purifies the blood, and at the same time tones the stomach, creates an appetite, and gives strength to every function of the body. Give it a trial.

General Debility. "For four years my wife suffered with large tumor bunches on the glands under the arms, and general debility of the whole system. She became so poor in health that we were on the verge of despair regarding her recovery. Physicians did not seem to understand her case; at all events she never derived any benefit from their treatment. She finally concluded to try Hood's Sarsaparilla. The immediate effect was so marked and satisfactory that she continued to take it, and this is the result: She has gained in weight and is stronger and in better health than she has been for years. The bunches under her arms have diminished, and we believe Hood's Sarsaparilla will be too much for them in time." J. J. Non-Ross 226 Commercial Street, Boston, Mass.
