

FROM ALL PARTS.

The Strikes and Lockout—Railroad Accidents, Etc.

FROM HOMESTEAD.

The Mills Getting Ready to Run With Non-union Help.

HOMESTEAD, July 16.—Right Rev. Samuel Fellow, Protestant Episcopal bishop of Chicago, addressed a secret meeting of locked out workmen yesterday morning. Among other things he said: "I have nothing to say about the right or wrong of the work done on the river bank last week, but the fact which stands out above the riot is, you have dealt the death blow to the Pinkerton system, and it is because you have done so that the people of America, not alone the working men, are with you, and will be to the bitter end, if you preserve in steady obedience to American law and stand fast against any attempt to wrong you."

It was rumored last night that there are fifty non-union men in the mill, but the Carnegie managers and strike leaders deny the statement. Fire was started in hearths yesterday, and the sight of steam attracted a large body of strikers. They made a hasty movement toward the gate, and the provost patrol hurriedly intercepted them. Bayonets were brought to charge, and the men halted. The abrupt manner in which they were turned back caused considerable feeling. Since the soldiers have been confined to camp the sentiment between them and the strikers has become decidedly unfriendly.

Among symptoms of renewed activity at the mills was the unloading of a boat containing a large number of cots, camp supplies, etc. Orders were issued to superintendents and foremen of different departments to report for duty today. The order brought about the resignation of Allan Hubbard, foreman of the armor plate department, who refuses to work with non-union men.

The strike picket is still maintained about the mill and railroad stations, and the men are resolved, and they have been advised that they are strictly upon their legal rights, to request newcomers not to work in the mills. No effort has been made to gather up and return the captured Winchester rifles, of which nearly 200 are still in town.

Beaver Fall Men to Go Out. PITTSBURG, July 16.—Frick, of the Carnegie company, having received a notice from the employes of the Beaver Falls mills that they will refuse to work unless the company confers with the Homestead men, has telegraphed to the superintendent of Beaver Falls mills to inform the men that unless they go to work under the agreement by Monday next the company will cancel the agreement, and the work resumed as if no non-union men had been employed under the Homestead men as members of the Amalgamated association.

Homestead Will Resume. PITTSBURG, July 16.—A notice is posted at Homestead mill this morning, by the Carnegie Steel Company, to the effect that the Homestead mill will be started up with non-union men on July 23d, and that any of the employes of the company at this mill who did not take part in the recent disturbances, are at liberty to make individual application for work till 6 p. m. on July 21st, those first applying to be given choice of unfilled positions, which they are capable of filling, those who fail to apply by the time mentioned, will be considered as not desiring to enter the company's service, and their places will be filled with non-union men. The company is receiving many applications for work, including some from the old men.

Rail Road Accident. BAKERFIELD, Calif., July 16.—A wreck occurred here at two o'clock this morning resulting in the death of two tramps who were instantly killed and the fatal scalding of Brakenau Frank Donnelly. The freight train was five hours late and when coming into Bakerfield and within one hundred yards of the station ran into four steers. The train consisted of eleven freight cars, they were piled one on top of the other and the engine was completely demolished. Two tramps who escaped state there were six in the party; it is supposed the other two are still in the wreck.

National Fight in South Carolina. CHICAGO, July 16.—A dispatch from Columbia, S. C., says: "The bitterness of the democratic factional fight in South Carolina is becoming intensified as the campaign progresses. The Tillman faction, led by Governor Tillman, is becoming more intolerant every day toward the conservatives supporting Governor Shepard for governor. The Union county the Tillmanites have revived the Ku Klux Klan with all its terrors, and are warning leading conservatives in the country to leave the county under penalty of death."

A Blaze at Huron, Cal. HURON, Cal., July 16.—Half the town of Huron is in ashes. A fire broke out about 1 o'clock yesterday. The fire burned out George G. G. G., general merchandise, and the postoffice. Loss, \$15,000; insured, \$8,000.

A FEARFUL EXPLOSION.

The Careless Use of a Burning Match Causes Loss.

NORWALK, Conn., July 16.—Italian laborers employed in digging a sewer at Shepard's leather factory, in Westport, yesterday afternoon, were blown up by the explosion of a twelve-barrel tank of naphtha, and four were fatally injured. The accident happened about 4 o'clock. One of the men, after lighting his pipe, carelessly threw the burning match on the roof of the building in which the naphtha was stored, and before he was aware of what he had done, the structure was in flames and beyond saving. Several men hastened for pails of water, while others endeavored to prevent the flames spreading to surrounding buildings. While they were thus engaged, a terrible explosion occurred, and four of the Italians were thrown high in the air. Their names are unknown. All four are very seriously injured, and last night the report was telegraphed that they would die. The report of the explosion was terrific, and people in the village thought they had been shaken by an earthquake. Window glass in the vicinity was shattered, and the loss to property will be great.

TO SWEET HOME.

Probable Extension of the Lebanon Branch.

ALBANY, Or., July 16.—R. Koehler, manager of the Southern Pacific railroad company's lines in Oregon, with a party of surveyors, J. K. Weatherford, Thomas Kay, and other members of the Waterloo Manufacturing company, left this city yesterday for a tour of inspection over the proposed route for extension of the Lebanon branch of the Southern Pacific to Sweet Home via Soda-ville and Waterloo. The proposed road will tap a country rich in agricultural resources, also in timber, besides reaching the popular health resorts at Soda-ville and Waterloo and the newly established manufacturing enterprise at the falls of the Santiam river at the latter place. The presence of Mr. Koehler in looking over the proposed route personally strengthens the belief that the branch is likely to be built soon.

ORIED LIKE A CHILD.

Capture of the Man Who Robbed the Lupers.

ALBANY, Or., July 15.—The highwayman who held up the two men near Tangent was captured yesterday in a barn only a few miles distant from Tangent. He was caught by four boys, who saw him enter the barn, and arming themselves with shotguns took him prisoner. He gave the name of William Brown, and said he lived in California. He is an awkward boy, aged 17, and cried like a little child when he was turned over to the officers. He was brought to this city, and in default of \$300 bonds went to jail. Brown had the money taken from Luper, and confessed the crime.

Powderly Wants an Investigation.

SCRANTON, Pa., July 16.—General Master Workman Powderly has addressed letters to President Harrison and Governor Pattison, calling attention to the fact that the laws of the United States and Pennsylvania were violated by the invasion of Pinkerton's July 6th at Homestead. He calls attention to the fact that the men marched under the United States flag, and says whoever usurped the functions of the commander-in-chief of the army in ordering these men to invade Pennsylvania is guilty of treason, and should be punished accordingly. He therefore asks for an investigation. These responsible persons, he says, are Frick and Robert Pinkerton. Another point is that, as the armed men came altogether from outside states, and as such could not hold offices, they could not be sworn in as deputies, and that the Homestead men were right in resisting them.

Withdrawing from Militia.

COLUMBUS, O., July 16.—A member of the Columbus Typographical union informed Adjutant General Peacock today of a general movement on the part of labor unions of all kinds to induce such of their members as belonged to the state militia to withdraw from it as soon as possible.

Believed in Life Insurance.

NEW YORK, July 16.—Cyrus W. Field was a believer in insurance. At the age of 24 years he took out a policy of \$10,000. When 40 years old he took out another for the same amount. By doubled dividends and total premiums paid, his heirs receive the sum of \$45,565. It is said that at various times during his life Mr. Field increased his insurance until the face value of the policies amounted to \$250,000.

He Made All the Money.

ROCHESTER, N. Y., July 16.—Orders have been filed in the county clerk's office desolving the Hop Bitters Manufacturing Company. Asa T. Soule made a fortune out of the medicine, drawing a salary as president of \$15,000 a year. The assets are not more than \$3000; liabilities about \$40,000. The company has not for the last five years sold more than \$5000 worth of medicine per year.

A Rape Fiend Lynched.

ARKANSAS CITY, Mo., July 16.—At Halley Thursday night negroes lynched Julian Mosley for raping his 7-year-old daughter.

HUNTING FOR DYNAMITE.

Militia Trying to Find the Hidden Explosives.

HOMESTEAD, Pa., July 16.—Three hundred men were discovered assembled in the rear of some buildings on Eighth avenue, just below the strikers' headquarters, after dark Thursday evening. There were other gatherings in out-of-the-way places about town. Guards at important points were doubled at once, and others were issued which placed the soldiers in readiness for any emergency that might arise. A picket line one mile in length was thrown out between the town and Carnegie mills. Major Crawford is in charge of these guards. He placed 20 picketed men across Eighth avenue at the corner of the poor farm property, and every person who attempted to pass down the street was halted at the points of half a dozen bayonets. Similar lines of guards were thrown out on all sides. Colonel Green, the provost marshal, was on duty at this headquarters near the southwest corner of the mill property. The second battalion was held in reserve in their tents close by. All the preparations were made quietly, and few citizens knew that any extra precautions were being taken. No reason could be learned for the sudden activity of the troops, further than the fact that men were seen gathering in groups about town, and that at several saloons there was more drinking and more loud talking than usual. More than 50 pounds of dynamite have been discovered by soldiers just outside the Carnegie plant. It has been confiscated, and a quiet search is being made by the soldiers for other explosives. Over 1000 pounds of dynamite and nitroglycerine was in possession of the strikers at the beginning of the work, but it is carefully hidden now.

WAS SUICIDE OR MURDER.

Mysterious Shooting of a Wealthy New Yorker.

DANBURY, Conn., July 16.—Chas. Crosby, one of the wealthiest and best-known men in North Salem, Westchester, N. Y., is dying as the result of a mysterious shooting. The affair happened Wednesday afternoon, and all the facts were kept secret until it became known that the victim would die. Several neighbors heard a number of pistol shots about 2 o'clock on Wednesday afternoon. A few minutes later Mrs. Crosby, the children and a maid ran out into the yard in a state of great excitement. Soon afterwards Mr. Crosby's mother went to a neighbor and asked him to go for a doctor. The neighbor asked what was the trouble, and Mrs. Crosby replied, "Nothing. Charlie is not very well this morning. Blood was on her hands and clothing. Dr. Potter was summoned, and when he reached the house every door and window was closed and the curtains drawn. Since then no one except Dr. Potter has been admitted to the house. Mr. Crosby's wife made an attempt Wednesday to hire a conveyance to take her to Purdy's station, a few miles distant. She offered \$200 to any one who would make the trip, but the villagers' suspicions were aroused and her offer was not accepted. She went home and has not been seen since. Dr. Potter admitted yesterday that Mr. Crosby was shot near the heart and also in two other places, and would die, but could not, or would not say who fired the shots. Crosby was educated in France. About ten years ago he became involved in an affair with a young woman in Salem, and suddenly departed for France. He returned to Salem three years later, bringing with him a handsome young French woman whom he had married abroad. He has been known as eccentric, and was extremely jealous. In his seven years' residence in Salem Mrs. Crosby has never been seen walking outside of her own grounds. When away from home it was always in her carriage. She is reputed to be wealthy in her own right, and receives large remittances from France every month. The local officers have not been called upon, and can do nothing in the case until Mr. Crosby's death, which is not mentally expected.

Found to Be Innocent.

BOISE CITY, Idaho, July 16.—The state board of pardons yesterday granted executive clemency to W. W. Lewis, a convict who was sent from Montpelier, Idaho, February 1889, for a term of six years, charged with having broken into freight cars and stealing large quantities of goods. He was said to be one of a large gang engaged in this work, of which the Union Pacific yardmaster at Montpelier was the leader. The latter man was known to be loaded with valuable goods down a side track to an isolated place where they were ransacked by the gang. It was subsequently proved that Lewis was an innocent party, convicted on evidence trumped up by the guilty parties. He was a very prominent man in Bear Lake county.

The Idaho Business.

WALLACE, Idaho, July 16.—The coroner's inquest is postponed until July 23d. Everything is quiet, and confidence is fully restored there will be no more trouble. All leaders of the Union are arrested. Forty men are arrested here principally miners. Major Carlin has gone to Mullan. Gen. Taylor of the Fort-eighth Infantry is in command of the troops here.

CEUR D'ALENE REGION.

Military Rule Now Prevails—Arrest of Leaders.

WALLACE, Idaho, July 16.—Two railroad bridges near Mullan were blown up last night and with them several telegraph poles. The strikers also cut down a number of poles, thus shutting off communication by that route for the time. "Six," the Gen. and the Granite mines are all right. The rumor that the Granite mines had been blown up probably started from the report of the explosion when the bridge was blown up. Military investment of all towns is complete. No one is allowed to go out without a pass. It is probable that many of the union miners will be arrested today.

SPOKANE, Wash., July 16.—The military has arrested Jack Wallace at Cataldo. He is suspected of being the ringleader in the Mission massacre, and runs a low resort in that country. Troops are deploying from Cataldo, and it is thought the hills will be scoured for other suspects. The troubled district has been closed to travel. No one is now permitted to go into the country without a military pass. Gen. Carlin now has 1000 troops under his command and has called on all members of the Miners' union to come in and surrender. Notwithstanding the presence of troops, the strikers continue to make their presence felt. They are still ordering spotted individuals out of the country, newspaper correspondents being particularly objectionable to them.

A special to the Review says three car loads of non-union miners taken out to Tekoa for safety have been taken back to Wardner and set to work in the Bunker Hill and Sullivan mines. They were taken in under protection of the regular troops without disturbance. Fugitives from the mission continue to straggle into Spokane. So far none of the wild stories about the heavy loss of life there have been verified. One man has been picked up and now lies in the hospital at Wallace. Troops and others are searching Fourth of July canyon. It is not likely that the truth will ever be learned about this shocking affair. The whole country is a wild one, and murderers could easily have concealed the bodies of victims or throw them into the river.

FREE RIDGES SURE.

The Portland Delegation Have Scored a Victory.

WASHINGTON, July 16.—There was an animated scene in the war department when the Portland bridge delegation had a hearing. The discussion lasted from noon until 5 o'clock, and was participated in by Senators Dolph and Mitchell, Representative Hermann, and Messrs. Osborn, Moffet and Morland, of the delegation. Secretary Elkins displayed wonderful familiarity with the subject, and propounded a great many questions to learn from the delegation certain features of the case. General Casey was present to represent the engineers. At the conclusion, Secretary Elkins remarked:

"Gentlemen, I think you have won your case, but as this is the first case, before the department under the new law, and it will stand as a precedent, I wish two or three days for investigation and will give my decision Monday."

Fire at Dixon, Cal.

DIXON, Cal., July 16.—About 12:30 a fire broke out in McLean & Mayhew's Fashion livery stable, totally destroying it together with the contents, including 10 head of horses, also a small building adjoining. Loss, about \$500; no insurance; origin, unknown.

Pastur has the Cholera.

LONDON, July 16.—L. Gaultois says Professor Louis Pasteur's illness is almost certain to prove fatal. The distinguished scientist is suffering from the disease prevalent in this city which the authorities call cholera, but which is declared by many experienced physicians as genuine cholera.

The Verdict

OF ALL who have used Ayer's Pills for Biliousness and Liver Complaint is that they are the best ever made. Being free from any mineral ingredients, and sugar-coated, Ayer's Pills are adapted to all ages, constitutions, and climates. "Having used Ayer's Pills for many years in my practice and family, I feel justified in recommending them as an excellent cathartic and liver medicine. They sustain all the claims made for them."—W. A. Westfall, M. D., V. P. Austin & N. W. R. Co., Burnet, Texas. "Ayer's Pills keep my stomach and liver in perfect condition. Five years ago I was afflicted with enlargement of the liver and with a severe form of dyspepsia, most of the time being unable to retain any solid food on my stomach. I finally began to take Ayer's Pills, and after using only three boxes of these medicinal pellets, was a well man."—Lucius Alexander, Marblehead, Mass. "If you have Sick Headache, Constipation, Indigestion, or Piles, try Ayer's Pills."

TROUBLE IN AFRICA.

British and French Forces in Uganda Fighting.

LONDON, July 16.—Official dispatches from Captain Lugard, agent of the British East Africa company in Uganda, in regard to the religious warfare in that country are received. Lugard says the troubles commenced January 12, on arrival in Uganda of the French bishop, who the captain believes brought the announcement of the intended withdrawal of the British forces in Uganda. On receipt of the news, Lugard declares, continual aggressions by the Catholic faction ensued. When Lugard asked King Mwanga, leader of the Catholic party, to punish the murderer of a Protestant chief, he was told if he interfered all his soldiers would be killed. On the following day overwhelming French forces attacked Lugard's command, who were armed with Marlin rifles. They made a brave stand and succeeded in repulsing them. Then they fled to the islands, after seizing King Mwanga, which was of immense importance to Uganda, where the people are devoted to the king. Lugard offered to reinstate Mwanga and the French party, he claims; but, owing to the intrigues and lies of the French bishop, the overtures were rejected. "Finally," Lugard continues, "we were forced to attack the islands where the French forces had entrenched themselves, and, after a heavy fight, drove out the enemy with great loss. They are now centering at Budda. The Protestants are in a critical position, the Catholics, Mohammedans and heathens all being arrayed against them."
