

MEDLEY OF NEWS.

Baptist Minister Drowned—Political, Congressional.

FROM HOMESTEAD.

About 150 Men at Work, Mostly New Hands.

PITTSBURG, July 20.—An Associated Press reporter made a tour of the Homestead steel mills yesterday, being the only newspaper man who has succeeded in gaining admission behind the great fence. He found about 150 men at work, most of them new employees. Four furnaces in the armor plate department were charged, and complete resumption in this department will take place today, the open hearth department and mechanical department were also being worked, but in a desultory way. The assistant superintendent is confident, if the mill resumes, he will in a day or two see many of the former employees returning. A large number of colored men arrived at Pittsburgh today, and visited Mr. Frick. Their destination is surmised to be Homestead.

Non-Union Men at Pittsburgh. PITTSBURG, July 20.—Fifty non-union men who started for the Carnegie union mills this morning were at once surrounded by strikers and the situation looked serious for a time, but the non-union men were finally persuaded not to enter the mill. Preliminary hearing in case Burgess McLuckie, of Homestead, under arrest for participation in the late mill riot, was held this morning and the prisoner released on \$10,000 bail.

Portland's Chief Engineer. PORTLAND, July 20.—The board of fire commissioners went into special session yesterday afternoon at 2 o'clock, and the vote of the last meeting, electing a chief engineer, was considered. Henry Morgan was installed as chief. Coffee is still electrician of the fire department, with a salary of \$150 a month. Wygant protested, but Trevett and Steffen carried their point. Morgan has held the office of chief engineer eight years, and in that time he has been absent from only two fires. He has been a most efficient officer. In politics he is a strong Republican. There is a general satisfaction over the action of the fire commissioners.

Baptist Minister Drowned. PORTLAND, July 20.—Rev. J. C. Reed, pastor of the First Baptist church of East Portland is missing and it thought he was drowned while in bathing. Last night his clothes were found on the river bank at East D street. His bathing suit was also missing from the house. The river is being dragged but at noon the body had not been recovered. Reed was forty-two years old, and leaves a wife and two children.

A Seaside Hotel Burned.

LONG BEACH, N. J., July 20.—The Atlantic hotel, corner Ocean and Chelsea avenues was totally destroyed by fire at 3:30 yesterday. Nearly 400 guests were in the hotel at the time. A panic ensued in the anxiety to reach the street, and many guests leaped from the windows. Several were hurt and many others were carried out by the firemen. All escaped in their night clothes and lost valuable wardrobes. Upward of \$30,000 worth of jewelry is missing from the various bedrooms. The fire started in the bakery, spread to the main building and thence to the other portion. The hotel was owned by Mr. Dobbins, of Dabbin & Leob, and was completely gutted. It will be a total loss. The furniture was owned by Mr. Lustig, manager of the hotel. Very little of it was saved.

An Insane Man's Deed. NEWPORT, L. I., July 20.—Dr. Chas. Scudder, son of the late Hon. Henry J. Scudder, and son-in-law of Senator W. M. Everts, killed himself yesterday morning, at the Scudder mansion, in a tragic manner. For some time Dr. Scudder has been in poor health, and came yesterday from his residence in New York to spend a few weeks for the benefit of his health. It was noticed when he got off the train that he was muttering to himself, and making wild gestures with his arms. He was quickly ushered into a carriage and driven to the Scudder mansion. The family admitted that Scudder was suffering from temporary aberration of the mind, caused, they say, by overstudy. He was placed in charge of an attendant, who kept close watch on him all last evening. Yesterday the Scudder house was greatly alarmed when they learned that Scudder had escaped from his room. Servants were sent in all directions. An attendant finally caught a glimpse of him a short distance from the house. He called to him to stop. Scudder turned, and, seeing the man approaching him, drew a dagger and plunged it into his heart. He sank to the ground and expired instantly. He was 35 years of age, and leaves a wife whose maiden name was Louisa Everts. The latter and a year-old daughter are now at his father's home in Windsor, Vermont.

Eulogy on Archbishop Ireland. ROME, July 20.—The pope, receiving the pupils of the Propaganda, delivered an animated eulogy on Archbishop Ireland, praising his many virtues, his vigor as a thinker and energy in action. The archbishop, he said, was a true republican and a genuine democrat, and since leaving Rome had done good work for the church in Paris. His remarks were received with enthusiasm by the pupils. They have made a profound impression as showing the archbishop as the confidence of the holy father. Pilgrimages to the episcopal jubilee of the pope will take place from October 15, 1895, until April 15, 1896. The pope will create a few cardinals on the eve of the jubilee, February 19. His holiness has adjourned the cardinal consistories in spite of the considerable number of vacancies, because the powers forming the triple alliance are making unheard-of efforts to get their friends into the sacred college in view of the future conclave.

From Cour D'Alene. BOISE, Idaho, July 20.—Warrants for the arrest of the leaders of the Cour d'Alene riots were issued out of Judge Beatty's court yesterday afternoon. The prisoners will probably be brought to Boise, and the question of jurisdiction settled afterward. The offense charged is violation of the injunction issued out of the said United States circuit court. The bill dividing the state into division removes all business to the division in which it originated. Thus the Cour d'Alene business will go to Moscow if it should be transferred, and it is the general opinion that it will be necessary. A special term of the United States circuit court will be called if cases go to Moscow, and this can only be called by Justice Field.

In the Senate Yesterday. WASHINGTON, July 20.—The senate yesterday received a message from the president, returning without approval the bill to amend the act as to the circuit court of appeals in the cases of Indian depositions. The chief objection was to the third section, which provides that no appeal will be allowed in such cases. There are thirty thousand such claims, aggregating thirty million dollars. The president says he could not approve a bill which denied the government appeal in such cases. The message was referred to the judiciary committee.

Bicyclists. WASHINGTON, July 20.—President Harrison reviewed from the white house porch, the procession of bicyclists here, to attend the meeting of the league of American wheelmen. Nearly 2000 wheelers passed in review.

They Have Ben Butler. PITTSBURG, July 20.—Locked out men at Homestead, propose to make a great legal fight for the acquittal of those of their number, against whom proceedings were taken. They have secured the services of General B. F. Butler and ex-Governor Hoadley, of Ohio, to defend them.

Cartier Has Resigned. WASHINGTON, July 20.—Thomas H. Cartier, chairman of the Republican national committee, has handed the president his resignation as commissioner of the general land office.

Watching the Immigrants.

PHILADELPHIA, Pa., July 20.—The United States Commissioner of Immigration, John S. Rodgers, has stated that he has decided after close inspection that no non-union men arrived in this city on the steamship Switzerland, on Wednesday from Antwerp, to go to work in the Carnegie mills at Homestead. Commissioner Rodgers said: "We have had every immigrant closely questioned as to his nationality, age, occupation, destination, etc. About 15 of them said they were bound to Steelton. We went to the ticket office subsequently, and learned that only eight full and one half tickets had been purchased for Steelton. Of course, it is impossible to always tell whether there has been any infringement of the contract-labor law. We can only ask questions of foreigners and trust to our judgment. We are compelled to take what the immigrants say to our interpreters as true. They are subjected to a thorough examination, and close observation of their actions will generally reveal whether they are legally entitled to come into this country."

The Case of Alice Mitchell. MEMPHIS, Tenn., July 20.—The second day of the inquiry into the mental condition of Alice Mitchell showed undiminished public interest. The gist of the testimony tendered to confirm the impression of her hereditary insanity from the mother's side. Depositions were to the effect that the mother of Alice Mitchell was in an insane asylum several weeks after the birth of her first child, and was scarcely herself for a number of years afterwards. The attending physician testified that "it was a remarkable case of puerperal mania." Lucy Frankland, a cook in the Mitchell family, said she always thought Alice was cranky. She had shown Lucy's engagement ring, and said she and Freda were going to be married.

The Monterey and Miantonomoh. SAN FRANCISCO, July 20.—Irving M. Scott, in speaking of the Monterey yesterday, said the coast-defense vessel would not be completed for some time. He said that all of the armor plates for the Monterey had arrived with the exception of one side plate, which was now on the way, and which had left the Carnegie Bessemer works just before the strike. Last week the armored ventilators and smokestacks arrived. He said that the finishing plate for the Monterey and Miantonomoh was the first lot of armored plate ordered by the government made in this country.

Struck by Lightning. CITY OF MEXICO, July 20.—The news of a remarkable accident has reached here from Zacatecas, in the form of an official report of the government from the warden of the penitentiary at that place. The report states that on last Friday three prisoners named Juan Cardenas, Manuel Lopez and Floria Sanchez, who were serving life sentences for robbery, were instantly killed by an electric discharge during the progress of a violent thunder storm, and ten others were made insensible by that number have since died from their injuries. The prison at Zacatecas is a low stone building, and in the center is a large corridor surrounded by a heavy iron grating. A number of prisoners were leaning against this iron work, when the lightning struck one of the guard towers, and gliding to the iron grating, was conducted along it, and the men who were in touch with it received its full effects.

The English Elections. LONDON, July 20.—Only two members of the house of commons remain to be elected out of a total of 670. One of these is at Tipperary today; the other at Orkney islands next week. The parties now stand—government, 314; opposition, 354. The districts to be heard from will go to Glasgow, giving him a majority in the next house of 42. Thomas Sexton was elected in Kerry.

A Family Killed. RICHMOND, Va., July 20.—During the prevalence of a severe storm here last night lightning struck a house killing a man named Dan Emmitt, his wife and three children.

Change of Venue. LARAMIE, Wyo., July 20.—Judge Blake this morning rendered a decision on application of the cattlemen, who invaded Johnson county for change of venue. Application was granted. The trial will be held in Cheyenne, beginning the first of August.

Cattle Thieves. CHEYENNE, Wyo., July 20.—Three officers of Fremont county went into Jackson Hole and found 29 head of stolen cattle in a corral with brands freshly changed. The two men in charge surrendered. One of the thieves was allowed to go into a room to get his clothes he reappeared with a six shooter and sent a bullet into the heart of one of the officers. In the melee both outlaws escaped. The cattle belonged on the Booth and Carver Bear river ranch.

It Saves the Children. Mr. C. H. Shawen, Wellville, Kan., says: "It is with pleasure that I speak of the good Chamberlain's Colic, Cholera and Diarrhoea Remedy has done my family during the last fourteen years. In the most obstinate cases of summer complaint and diarrhoea among my children, it acted as a charm, making it never necessary to call in a physician. I can truthfully say that in my judgment, based on years of experience, there is not a medicine in the market that is its equal. For sale by Baskett & Vanslype."

WORLD'S FAIR BILL.

House Refuses to Concur in Senate Amendments. WASHINGTON, July 20.—In the whole yesterday the committee of the whole got into a parliamentary tangle as to whether it was in order to amend the senate amendments, unless the motion to amend was coupled with a motion to concur. The point arose on an effort to secure a separate vote on the amendment of Atkinson, of Pennsylvania, prohibiting the sale of liquors on the fair grounds. The point was made that the amendment must be offered in connection with the motion to concur in the senate amendment for the issue of \$5,000,000 in half-dollar souvenir pieces. The chair decided against Atkinson. The decision was sustained by viva voce. Atkinson then moved to concur in the \$5,000,000 paragraph, with an amendment prohibiting the sale of liquor. The motion was defeated, 41 to 189. O'Neill's amendment making a loan and not an appropriation of \$5,000,000 was next defeated. The chair then put the question on concurring in the senate amendment embodying the \$5,000,000 appropriation, and the house refused to concur; yeas 78, nays 182. That disposed of the amendments. The house has concurred in the senate Sunday-closing amendment and in a paragraph making appropriations for medals and diplomas, and has refused to concur in the \$5,000,000 appropriation and every other substantial amendment, the vote, by tellers, when demanded, resulting: For concurrence, 91; against, 116. Republicans generally voted to concur, 8; the amendment will go into the conference.

The senate amendment for the repayment to the United States of the proportionate share of the net receipts was likewise non-concurred in. The amendment binding the World's Columbian Exposition to pay all the expenses of the great departments and to the restriction that the gross expenditures for clerks, bureaus, awards, etc., shall not exceed \$500,000, was sought to be amended by an appropriation of \$100,000, for an exhibit of the condition of the American Indians; lost. The original amendment went to conference. The senate amendment for medals and diplomas was concurred in; yeas 69, nays 50. Then came the Sunday-closing amendment. Taylor's amendment to do this, providing that no machinery be run and unnecessary labor performed on Sunday, was rejected. The Sunday-closing amendment was then concurred in; yeas 78, nays 74. The greater number of votes to concur were cast by republicans. On the point of no quorum the vote was taken by tellers; result, yeas 102, nays 72. The committee of the whole adopted an amendment to the sundry civil bill, making it unlawful for any government official to contract with a person or firm which employs Pinkerton detectives or any other association of men as armed guards.

IN THE SENATE. WASHINGTON, July 19.—The senate spent two hours discussing Morgan's resolution of July 14, directing the finance committee to report a bill to give all legal-tender paper money and standard silver dollars the full legal-tender effect given by law to gold coins. Morgan argued for the resolution, Sherman and Allison against. Sherman moved to refer to the committee on finance. It went over without action, and the anti-option bill was taken up. A message was received from the president returning without his approval the bill to amend the act as to the circuit court of appeals in cases of Indian depositions. The first provision of the bill, the president thinks, would defeat the purpose of congress in constituting intermediate courts. The chief objection is to the third section, which provides no appeal will be allowed in such cases. There are 30,000 such claims, aggregating \$30,000,000. The president said he could not approve a bill which denied the government appeal in such cases. The message was referred to the judiciary committee.

The anti-option bill was again taken up. Sundry amendments by Washburn; Jones, of Arkansas; and Gibson, of Alabama, were ordered printed. Stewart then addressed the senate on the subject.

A Little Girl's Experience in A Lighthouse. Mr. and Mrs. Loren Treccott, are keepers of the Gov. Lighthouse at Sand Beach, Mich., and are blessed with a daughter, four years old. Last April she was taken down with measles, followed with a dreadfull cough and turning into a fever. Doctors at home and at Detroit treated her, she grew worse rapidly. Then she tried Dr. King's New Discovery and after the use of two doses a half bottle, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at Dan'l J. Fry's drugstore, 225 Corn'l St.

OREGON ITEMS. Eugene people send their clothes to the Steam Salem laundry and have them returned finished inside of three days. A Mennonite church has been dedicated at Fern Ridge, ten miles northwest of Eugene. Albany has 105 taxpayers who pay on \$3000 and over. Two pay on \$50,000, a citizen and a bank. Corvallis boasts of \$60,000 pending improvements. Prof. Letcher of State Agricultural college has gone on the trip to Alaska. A wagon load of pioneers rolled down a high bank into the Nestuccen river, killing the team, smashing up the wagon, and killing Miss Lizzie Thacker, aged 16. It looks as though Portland would have free bridges. Salem will have two electric lines to the State Fair grounds by the time the next fair is held. A social event at the Agricultural college was the marriage of Miss Edith J. Coote, daughter of Prof. Coote of the department of Horticulture, to Prof. E. F. Pernot, instructor in photography and engraving. It seems to be the opinion of the state press that Major Handbury is the great obstacle to the opening of the Columbia river. Unless he is removed little need be expected. The Oregon grape bloom has been selected as the state flower. Corvallis has no debt and \$675 in the treasury. The Southern Pacific is contemplating a branch from Albany to Waterloo and Sweet Home. J. H. Burton is building a hop-dryer in the J. G. Orsdal's ranch one mile north of Independence that will require 200 pickers to keep it going.

SCROFULA is that impurity of the blood which produces unsightly lumps or swellings on the neck; causes painful running sores on the face, ears, or nose, often causing blindness or deafness; is the origin of tumors, cancerous growths, or the many other manifestations usually ascribed to "Humors," and fastening upon the lungs, causes consumption, and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.
