### T. HOLVERSON'S,

301 Commercial Street.

THE CAPITAL JOURNAL.

FRIDAY, JULY 22, 1892.

**GILBERT & PATTERSON,**  
Dealers in Groceries, Crockery, Glassware, Paints, Oils, Varnishes, Brushes, Windowglass, Etc. Sole Agents for Epicure Tea and Big Can Baking Powder.

**ED. D. GOODHUE, K. CAHILL,**  
**BUILDING MATERIAL.**  
Lime, cement, plaster, hair, fire and building brick, fire clay, sand, gravel, blacksmith and house coal, all kinds, wholesale and retail. Office 95 State street.  
GOODHUE & CAHILL.

**BUSINESS CHANGE.**—E. M. Waite has sold his printing establishment to Mr. Stinson and Wilcox for cash, and retires from business after almost continual employment at his trade for nearly fifty years. We are glad to know that he is financially situated to take the balance of his life easy, independent of the world's charity. Printers are not thick who can make this boast. The new firm are employed for many years, and are thoroughly competent to conduct the business. The business will be removed into the new Bush building, and will hereafter be known as the E. M. Waite Printing house. New facilities will be added, and this old establishment will be kept up to the highest standard of excellence.

**HORSES GASHED.**—On Wednesday evening a horse belonging to Mr. Kuerton, of the soap factory, was given a deep cut inside the hind leg with a knife, while in the barn yard. Last night a mare belonging to J. E. McCoy was also badly cut with a knife while in pasture at the end of Capital street. The perpetrator of these dastardly deeds is not known, but if any trace can be found of him he should be prosecuted to the bitter end. A man who will injure a helpless dumb brute is worse than one who will attack his brother in mortal combat.

**BURKE BLOCK.**—Wm. E. Burke, the enterprising real estate man, is now building a fine brick block on Commercial street just south of the Journal office. It will be 48 feet front by 90 feet deep, and two full stories. A stairway will be placed in the center and the upper story will be neatly finished. A plate glass front will be put in below, and the lower rooms will be completed for two good store rooms. Salem has no empty business buildings that are at all desirable for commercial purposes, and such buildings as the Burke block must prove good business investments.

**A CHANGE ABOUT.**—The J. H. Gunn stock, which has been purchased by the Capitol Adventure company, will be removed into the vacant room under the opera house. E. C. Small's clothing stock will be moved into the Lunn building, on the first of the month.

**WARRANT OUT.**—A warrant was issued yesterday by Justice Batchelor, for the apprehension of Robt. Boswell, on charge of abducting Carrie, the daughter of S. M. Wharton, who is only thirteen years of age. Sheriff Knight is on the lookout for his man.

**GREEN OR ROASTED.**—A fine line of coffees, including the best Mocha and Java ever in this market, at Clark & Eppley's.

**PAY UP.**—Saturday is the last day for paying city taxes. After that date a penalty of five per cent will be added.

**HOUSE CARRIAGES.**—For the coast—just what you want, at Geo. F. Smith's.

### FROM BAD TO WORSE.

**Persecution Not Enough—Crime Must Be Incited.**

The Statesman, which is just now playing the lackey to a very small lawless element, is not satisfied with persecuting a woman for her religious convictions, but goes so far as to incite crime. In speaking of the discharge of the young man who was arrested for disturbing Mrs. Woodworth's meeting, and only cleared on a technicality, that paper says:

"Anyway, he would have been guilty of no crime had he torn down the tent of the hypnotizer and trampled it under foot. Her exhibitions are not recognized by the local ministry or any one else as being Christian work. Her carryings-on are nothing more nor less than blasphemy."

If this kind of advice had been given several centuries ago, at Salem, Massachusetts, when honest people were burned at the stake on the charge of witchcraft, it would not have been considered strange, but to have a public newspaper make such suggestions at the present enlightened time is a slam on our boasted free institutions. This same paper has accused Mrs. Woodworth of all manner of crimes since she has been in Salem, and has repeatedly urged that she should be run out of town, but it seems the public is of a contrary opinion, for her meetings are growing in attendance and in good work. No one is compelled to attend or accept her preaching, but free speech is one of the first rights guaranteed by our country, and to persecute any one for his or her belief is the height of arrogance and lawlessness. The same methods were employed by the newspaper in question when the Salvation Army visited this city some years ago, yet much good and lasting work was done at that time, and the work of the organization is recognized the world over. The only objection seems to be to ridicule sincere people who are living up to their highest light. It is silly, to say the least.

### ELECTRIC POWER FOR SALEM.

**Mr. Holman Will Put in a Power Plant—A New Building.**

Thomas Holman has commenced a new brick building 50x100 feet, just south of his present building. This new building will be built specially for an electric light and power station. The plans were drawn up by Pugh, the architect.

The power plant will be a new thing for Salem, and Mr. Holman will put in a very complete and large plant to start in with. It will run both night and day. A new circuit of wires will have to be put in for the power plant. Work will be pushed, and the whole thing will be ready by the first of September. The wire will take in the whole city, so any small or large manufacturer of any sort can have power for his machinery much cheaper than he can own and operate his own plant. His rates will be as low or lower than those charged in any other city for similar service. He will furnish any amount of power required, from one-eighth to 100 horses.

Mr. Holman will put in new Corliss engine with 300 horse power, making 450 horse power in all, exclusive of his water power. All his present electric light machinery will be removed into this new brick power and light station, and it will thus all be compact and handy.

Mr. Holman will put about \$25,000 into this improvement, and will no doubt be amply rewarded by good and liberal patronage from the citizens.

**SOCIAL.**—An ice cream social will be given at the Presbyterian church this Friday evening, by the Y.P.S.C.E. Everybody invited.

Ed Jackson, Hatter, State St.

**THIS EVENING'S LAWN PARTY.**—This evening the ladies of the M. E. church will conduct a lawn social on the lawn of C.B. Moore's, on State street. There will be ice cream, egg lemonade, cake and an abundance of nice things. You should be sure and attend. There will be fine music and good entertainment for everybody.

**INCORPORATED.**—The Portland Milling and Distilling Co. was incorporated in the office of the secretary of state yesterday by G.B. Goodell, J. W. Walker and L. D. Walker. The capital stock was fixed at \$100,000. Grant, Sherman company, will be the principal place of business.

**VISITED THE PRISON.**—After adjournment of the county institute this afternoon, Supt. Graham and about seventy of the pedagogues and pedagogesses visited the state prison, and were shown through by the accommodating officials.

**PRISON FUN.**—This morning the following bulletin appeared in the corridors of the state prison "Bulletin, 8:30 a. m. Wilson passed a restless night. Arose at 7:52. Ate a hearty breakfast, and is now resting well. Temperature normal."

**JUICY MEATS.**—It is a fact that Salem never had such meats until the cold storage was introduced. E. C. Cross leads as usual. His meats are the finest—juicy and tender.

**REMEMBER.**—It should not be forgotten that there will be a lawn social this evening on C. B. Moore's lawn. It is given by the ladies of the M. E. church.

### Colossal Biblical Spectacle.

The era of Solomon, the Israelitish king, has ever been fraught with an interest that will last through all ages. There was so much that was grand, so much that was sumptuous, so much that was prophetic, so much that was sacred, so much that was divine, attending and consequent to his reign, that history furnishes no parallel. Art has now been called into requisition as an adventitious aid to biblical lore, and the glamour and glories of the past are reproduced in the present. The eminent artist, Mr. John Rettig, has devoted a year or more to personal research in Palestine, Jerusalem and the Holy Land, and has studiously mastered the history and traditions of the Bible, and returning, has produced a grand spectacular masterpiece, depicting the great temple, the walls and city of Jerusalem, the visit of the Queen of Sheba, the Judgment of Solomon, and other notable scenes, incidents and events during the regal administration of the great Hebrew sage, patriarch and king. In connection with the biggest and best circus on the road, the largest and most varied menagerie, and the vast royal Roman hippodrome, the management of John Robinson's Great World's Exposition now present this transcendently beautiful and impressive spectacle for the gratification of their patrons.

The consolidated exhibitions will be given at Salem Wednesday, Aug. 3.

### Pimples.

The old idea was that facial eruptions were due to a "blood humor," for which they gave potash. Thus the old Sarsaparilla contained potash, a drastic mineral, that instead of decreasing, actually creates more eruptions. You have noticed this when taking other Sarsaparillas. It is however now known that the stomach, the blood creating power, is the seat of all vitiating or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, result pimples. A clean stomach and healthful digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compounded after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate. A short testimonial to contrast the action of the potash Sarsaparilla and Joy's. Mrs. C. D. Stuart, of 409 Hayes St., S. F., writes: "I have for years had indigestion. I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently, I tried it and the pimples immediately disappeared."

### Was it a Case of Cholera?

DETROIT, Mich., July 22.—James Cockburn came from Glasgow, Scotland, on the steamship Furnessia and reached Detroit six days ago. Sunday night he died very suddenly of what was really an aggravated case of cholera morbus, which presented all the characteristic symptoms of the Asiatic cholera. He had cholera been epidemic, the doctors would have pronounced it a case of that dreaded disease, and the fact that Cockburn was a recent emigrant added to the fear. Health Officer Duffield, upon calling it a case of "asmodic cholera, ordered a private funeral at night; the undertakers in laying out the body saturated the sheets with camphor. The funeral took place at Woodmere cemetery at midnight and there was only four persons in attendance, a clergyman, the wife and brother of the deceased and a friend who had known Cockburn in Scotland. The only religious services were a short prayer recited by the clergyman at the grave.

There was nothing of importance done at the morning session with the exception of hearing an appeal of Seaside lodge from a decision of the grand master. The grand master was sustained in his decision.

Then, after reports had been received from sub-committees and minor matters had been considered, they proceeded to the election of grand lodge officers for the ensuing year.

### REVOLUTION IN CUBA.

Preparing to Inaugurate an Independence.

New York, July 22.—There is talk of a revolution in Cuba. The home-rule party, which has for 14 years been fighting the Spanish government, having failed to gain what they sought, is, with the aid of others, making preparations with this end in view. A Cuban revolutionary party has been formed in the United States, Jamaica and Mexico. They declare that they want liberty for all the inhabitants of the island—Spaniards and Cubans, negroes and white men. They do not propose to invade Cuba until the independent movement there takes definite shape and they are asked to aid in the war. They do not intend to send expeditions without a complete understanding with the veterans of the "past revolutions and with the people on the island. They count upon the sympathy of Spanish America and of this country. They believe that Porto Rico will rise at the same time in rebellion. Not until their assent will the war break out. Meanwhile the leaders, who are in direct communication with every patriot inside and outside the islands are organizing, respecting, nevertheless, the international laws. Cuban clubs are accumulating funds, without which the war would be a failure, and are working secretly to combine all elements for the final effort. In Key West, which has 15,000 Cubans, there are 40 clubs, composed of rich and poor, young and old, men and women. In Tampa there are eight, in New York eight, in Jamaica five, and in Philadelphia two. The treasurer of the party is Benjamin Guerra, a wealthy cigar manufacturer.
