

FROM THE STRIKERS.

Spreading in Pennsylvania—General News.

H. O. FRICK SHOT.

Carnegie's Manager Shot and Stabbed This Morning.

Pittsburgh, July 23.—At two this afternoon H. O. Frick, manager of the Carnegie company was shot by a man whose name is unknown, supposed to be a Hebrew. Man came into Frick's office and fired without warning. It is not known how dangerously Frick is wounded, he is conscious and able to talk. The man was arrested. There are four wounds, one in neck, two in back, one in side. The man had a knife and only three shots were heard. It is supposed the fourth wound, that in the side, was from the knife. Physician in making examination says he cannot tell whether the wounds are fatal.

Frick's condition, however, is regarded as very serious. The would to assassinate him has frequently been in Frick's office and was admitted without question. Frick and he were alone together, what passed between them is unknown. Secretary Leshman rushed in when the shots were heard and after a struggle over-powered the man, and turned him over to the police. There is much excitement, crowds surround the office.

Pittsburgh, July 23.—The man's name is Alexander Berkman, 21 years of age, he lives here, a Russian Jew, a supposed anarchist. When asked by a reporter why he did the deed, he said "you know why."

Pittsburgh, July 23.—Berkman came from New York a few days ago, where he worked for the Singer Sewing Machine company. Frick is lying in the private office, attended by two physicians. The doors are closed, and no one is allowed to enter. It is believed that his robust constitution will enable him to survive the shock.

When the news of the shooting reached the court room where the case of O'Donnell and Ross is being heard, O'Donnell was evidently greatly shocked and said: "Oh that is terrible, that is terrible." The report spread like wild fire in Homestead, people crowded around the bulletin boards for the latest intelligence. Leaders deplore the shooting, but many strikers are saying served him right, wish he was dead, etc. At 3 p. m. Frick is resting under opiates, police say the assassin had confederates outside and if he had got out of the building he would have been split away. Berkman was subjected a searching examination late this afternoon and two dynamite cartridges found in his mouth.

Pittsburgh, Penn., July 23.—At 4:45 p. m. Physicians have sent out word that Frick is out of danger. All the bullets are extracted.

Chopped to Pieces.

Denver, July 23.—Shortly after midnight Mr and Mrs. Jacob Scott, were almost chopped to pieces in bed. The weapon used was a hatchet. There is little hope of recovery. Peter Eisen, a former husband of Mrs. Scott, is suspected of having committed the crime, prompted by jealousy.

Sheriff Will Interfere.

HOMESTEAD, July 23.—In case Hugh O'Donnell, is released on bail, the strikers propose to welcome him home with a parade and a big demonstration. The sheriff declares he will allow no such affair, and that the parade will be stopped. The men declare they will not submit to interference, and a collision may result.

Mine Explosion.

HOMESVILLE, Pa., July 23.—In an explosion of gas in the New York colliery this morning there is believed to be killed nine, three are missing, probably dead, at least ten were wounded and burned, some of whom will die.

Notice to Congress.

Pittsburgh, July 23.—National convention of window glass workers here passed resolution giving notice to congress, it will hold the dominant party of that body responsible if it passes the Stamp Immigration bill instead of Stone bill.

17 Days Without Food.

EMERY, July 23.—Three men tried a long time in a mine at this Bohemia, were rescued alive. They were without food 17 days and found were in a terribly emaciated condition.

Stage Robbers Guilty.

PORTLAND, July 23.—The jury in case of Virgil Howard and Geo. ... charged with being implicated in the stage robbery near Lakeview, Oregon, last October, today brought in a verdict of guilty. Jones is recommended to the mercy of the court.

Trains Badly Scorched.

SEASIDE, Cal., July 23.—A fire, which originated in Wadsworth's warehouse, destroyed that Cleveland's warehouse and a part of Rayner's store. The fire, together with the burning of the warehouse and buildings. The losses foot up to \$100,000, partially insured. During the fire a case containing \$10000 was stolen from Wadsworth.

SYMPATHY WITH STRIKERS.

Workmen at the Duquesne Mills Quit Work.

PITTSBURGH, July 23.—The skilled workmen at the Duquesne steel mills of the Carnegie Steel Company to the number of 300, went on a strike last night, in sympathy with the Homestead men. The men announced they will not go to work until the Homestead troubles are settled and the Amalgamated Association recognized by Carnegie. The strike was a surprise. The Duquesne mill is supposed to be non-union, but it seems the strikers organized a lodge there within the past two weeks.

Great Danger From Cholera.

MONTREAL, July 23.—Prominent medical men of this city have sounded an alarm against a danger which they declare threatens Canada from Asiatic cholera, on the Pacific as well as the Atlantic coast. The quarantine regulations both on the Pacific and the Gulf of St. Lawrence are most defective. The attention of the Canadian government has frequently been called to the defective system, but nothing has been done to remedy it. Dr. Lefevre, chairman of the Vancouver, B. C., board of health, who arrived here today, declared that the danger on the Pacific was very great, and that extreme precautions were necessary against the dissemination of cholera and small pox by immigrants and passengers from China and Japan. "As yet," the doctor stated, "there have been no cases of cholera in British Columbia. The small pox outbreak was serious enough, but the danger is all over in Vancouver now. When I left there were only four cases, two of which were safely convalescent, and all of which were carefully quarantined. In Victoria, however, it is hard to say how far the disease has spread. There are over twenty cases there, and the necessity for quarantine regulations is still great. It is no more pressing, however, than the need of a permanent quarantine at Vancouver to guard the healthy of the whole Dominion."

The Quebec board of health has addressed a memorial to the government, demanding that stricter quarantine rules be laid down and enforced.

From Cour d'Alene.

SAN FRANCISCO, July 23.—A special from Wallace, Idaho, under date of July 21st, to a morning paper says: Rumors are rife of startling discoveries in connection with the Mission affair, wherein it was reported many men were shot, others wounded, some robbed and the bodies disposed of in such a way that no clue to either the perpetrators of the outrage or the disposition of the bodies has ever been found. On the part of some it has been persistently denied that anyone was killed at Fourth of July canyon. Others are positive that the horrors have not all been told. Your correspondent has found this much to be true beyond a doubt: That on Tuesday evening after a carload of non-union men had passed through Wardner and had gone to the Mission on Lake Cour d'Alene, nine men, members of the Miner's union, left Wallace on a hand-car to follow them. That at Wardner they left the hand-car for a flat-car, taking some more men with them and pushed onto the Mission; that suddenly the sound of many guns firing filled the air, and non-union men fled precipitately, one man (Abbott) who is now here in the hospital being shot; that Abbott heard the pursuers say, "Let's kill them and throw their bodies into the river." Quite a number of non-union men are missing yet. The authorities are making an investigation. It is reliably reported here that the authorities have full details and proof of the crime committed there.

For a General Strike.

HOMESTEAD, Pa., July 23.—Now that the Duquesne men have struck, the next objective point of the Homestead men is Braddock, and many of them have gone there to labor with workmen to come out. They have strong hopes of shutting up the Edgar Thompson works. In fact, a strong fight is to be made all along the line. There is evidence of increased activity in the mills this morning.

Alice Mitchell's Trial.

MEMPHIS, Tenn., July 23.—The feature of interest in the Alice Mitchell case yesterday was the testimony of W. H. Volkmar, brother-in-law of Freda Ward, who lives at Gold Dust, Ark. He told of Alice Mitchell and Lillie Johnson, while on a visit to Freda at his home last year. They flirted with every man in the neighborhood, without regard to whether he was single or married. Their actions came to such, finally, that he told his wife they should be sent home. He learned of Freda's plan to elope with Alice, and was instrumental in having them separated.

He Robbed the Stage.

STOCKTON, Cal., July 23.—There was great excitement here yesterday afternoon by the robbery of the stage on the public road one mile out of town. The robber was Michael Coochich, a writer by occupation, who was released from the insane asylum one year ago, since which time he has been considered sane. He was armed with a Winchester rifle and compelled the driver to stop and throw out the coin in his pockets and to give up his watch. He also compelled the two passengers to throw out their coin and

PINKERTON'S STORY.

A Fuller Account of Pinkerton's Explanation.

WASHINGTON, July 23.—The special committee of the house inquiring into the Homestead troubles heard the Pinkerton's side this morning. Robert Pinkerton presented a statement covering the history of his agency since its organization in 1850, stating that for twenty years it had furnished men to protect property during strikes. These men were carefully selected, and seldom permitted to carry arms except under public authority. They never want only fired a shot in any strike. The men were sent to Homestead only on the assurance that the sheriff would swear them in as deputies if necessary. Many of these men were regular employes, thoroughly tried and trustworthy, others were vouchered by them. They did not go into Pennsylvania as an armed force. The arms were shipped from Chicago and ordered not to be given the men unless deputized by the sheriff. As a matter of fact, the boxes were not opened until the strikers opened fire and it became a matter of life and death. Klein had been killed and five others wounded before the Pinkerton's returned fire. The Pinkerton men were handicapped in the fight by the fact that the strikers made a breastwork by placing the women and children in front.

Their Marriage a Failure.

CINCINNATI, July 23.—An investigation of titles to realty has disclosed a genuine romance in upper circles here. Several years ago Dr. John Aldrich, a fashionable physician, died and left his wife much city realty and a big bank account and several thousand acres of valuable land in Texas. Mrs. Aldrich was well preserved and remained in society. A little over three years ago Roland Moore, a boy of 19, came here from Tillamook, to study at a medical college. He is of a good family, handsome and bright. He met Mrs. Aldrich, then a woman of 78, and she became infatuated with the youth, and a courtship that excited gossip sprang up. At last, on a distinct proposition to give him \$50,000, Moore consented to marry the old lady. The license was issued in February, 1889, and the couple were married in March. The wife gave up her mansion, announced the coming of a nephew and took quarters at the Kenilworth apartment house. She set the boy husband up in a handsome drug store. He belonged to the aristocratic Second Presbyterian church, and passed as a single man. A few weeks ago Mrs. Moore refused to turn over the \$50,000. Separation papers were drawn, and Moore left for parts unknown with a much less sum.

A Scoundrel Arrested.

ELGIN, Ill., July 23.—Three weeks ago William Kanchel, a young man with money but no apparent occupation, made his appearance in this city. He paid assiduous attention to a respectable young girl, and had induced her to promise to elope with him. Today, just as the appointed time arrived, a Chicago detective appeared and carried the young man away. Before leaving he admitted that he intended stealing a valuable horse and carriage. He was wanted for stealing horses at Odell, Ohio, and for selling them to the city marshal of Valparaiso, Ind. Several similar crimes are charged to him, and in each case he induced a handsome girl to accompany him. It is said that the real reason of the long search made is to secure testimony against the keepers of vile dens in Chicago, New York and Philadelphia. Kanchel comes from New York. His plan is alleged to have been to advertise for girls to play baseball, offering big salaries. When once in his power, according to his captors, these unfortunates were degraded.

The Editors Did Not Come.

PHILADELPHIA, July 23.—Recently the vice-president of the Virginia Editorial Association wrote to several newspaper publishers saying that a number of members of that association, accompanied by their ladies, desired to visit this city on July 21, and asked that arrangements be made to receive and entertain them. He also wrote to General Passenger Agent Hancock, of the Philadelphia & Reading railway, requesting that transportation be furnished the guests from Philadelphia to New York and return over the Royal Blue line. He said that there would be about 120 in the party. Arrangements were made at once to give them a reception such as was given to the Georgia editors. One of the features provided for was a visit to a mercantile establishment. An elegant lunch was prepared for the expected visitors. However, the editors failed to come, and the firm laid away the souvenirs and sent the food to the Bedford mission.

Peffer's Plan for Labor Troubles.

WASHINGTON, July 23.—In the senate yesterday after unimportant business, Peffer addressed the senate on his resolution to inquire into the relations of employers and employees. He said there were three ways to meet labor troubles: One was the government to keep its hands off; another, for the government to establish and regulate wages; third, the government to take possession of private establishments and conduct them. At the close of his remarks, the resolution was referred to the committee on education and labor.

Tinkers Hotel Burned.

PORTLAND, July 23.—It is reported here that Tinkers hotel at Long Beach, Washington, was destroyed by fire this morning.

A Daring Voyage From Alaska.

SAN FRANCISCO, July 23.—Captain Vebbing, of the schooner Kustoff, a coast-sailing man who is well known in this city, has just ended a most novel and unenviable trip from Alaska to San Francisco. The interesting feature of this voyage was that, though the schooner is only 11 tons burden, her crew consisted of one man; Captain Vebbing.

"It was not from choice I came,"

said the captain to a San Francisco reporter. "At Kodiak I rigged up the schooner, and fitted her out for a trading cruise. During the night I began to blow, and the vessel drifted to sea, the anchor chain having parted. I was alone on the vessel. I put another anchor out, but it was lost. I hoisted some sails and attempted to beat back, but couldn't. The gale carried me into the San Juan archipelago, and being afraid of going ashore, I put the schooner before the wind and stood down the Sound. I tried to make Port Townsend, but failed. I could not handle the sails and steer at the same time. As my friends were in San Francisco, I decided to make for that port. I had fine weather all the way. When I wanted to sleep, I shortened sail and took a nap, when hungry, I lashed the rudder and cooked a meal."

On Account of Carnegie.

PHILADELPHIA, July 23.—Work on the cruiser New York is being delayed because of the non-receipt of armor from the Carnegie works. The boat will be launched next week, but without side armor, the Carnegie works having this contract also. No armor for the Massachusetts here, the Carnegie people being the contractors.

MARKETS.

PORTLAND, July 23.—Wheat valley, \$1.39 @ \$1.32; Walla Walla, \$1.25 @ 1.27.

SAN FRANCISCO, Cal., July 23.—Wheat, Dec. \$1.42.

CHICAGO, Ill., July 23.—Wheat 78.

For the Afflicted.

The well-known specialists from Dr. Williams' Institute of San Francisco, will be in this city at the Willamette hotel, Saturday and Sunday, July 23d and 24th, and can be consulted free of charge on these days. The reputation of the doctors as skilled physicians and surgeons, has preceded them, and the afflicted should not fail to consult them before their departure.

Opening the Canal.

The most acceptable proposition that can be made to persons troubled with chronic constipation, is to open the important canal—the bowels. That proposition can be carried out by the parties interested if they resort to Chamberlain's Stomach and Bowel Remedy. It is the most effective, most gentle, and most sensible medicine that they resort to. It is the most effective, most gentle, and most sensible medicine that they resort to. It is the most effective, most gentle, and most sensible medicine that they resort to.

Mr. W. M. Terry, who has been in the drug business at Elkton, Ky., for the past twelve years, says:

"Chamberlain's Cough Remedy gives better satisfaction than any other cough medicine I have ever sold." There is good reason for this. No other will cure cold so quickly; no other is so certain a preventative of cold and cure for croup; no other affords so much relief in cases of whooping cough. For sale by Baskett & Van Slype, Druggists.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Ringworm, Burns, Scalds, Eruptions, and Pimples, and all skin eruptions, and every other skin disease. It is guaranteed to give perfect satisfaction or money refunded. Price, 25 cents per box. For sale by Dan J. Fry, 226 Com St.

Wonderful Results

Results often follow the use of Hood's Sarsaparilla. Severe cases of eczema, upon which other preparations have been powerless, yield to the peculiar curative powers of this medicine. Distressing cases of dyspepsia, excretorial complaints of the kidneys and liver, agonizing itches and pain of salt rheum, discharges, and aches and pains of rheumatism, are cured by Hood's Sarsaparilla. It purifies the blood, acts at the same time tones the stomach, creates an appetite, and gives strength to every function of the body. Give it a trial.

General Debility

"For four years my wife suffered with large tumor burdens on the glands under the arms, and general debility of the whole system. She became so poor in health that we were on the verge of despair regarding her recovery. Physicians did not seem to understand her case; at all events she never derived any benefit from their treatment. She finally concluded to try Hood's Sarsaparilla. The immediate effect was so marked and satisfactory that she continued to take it, and this the result she has gained in weight. From 84 to 111 Pounds and in better health than she has been for years. The tumors under her arms have diminished, and we believe Hood's Sarsaparilla will be too much for them in time." J. J. Nourse, 226 Commercial Street, Boston, Mass.

Hood's Sarsaparilla

100 Doses One Dollar

"A Priceless Blessing."

AYER'S CHERRY PECTORAL is the best remedy for Croup, Whooping Cough, Hoarseness, and all the sudden Throat and Lung Troubles to which young people are subject. Keep this medicine in the house. Hon. C. Edwards Lester, late U. S. Consul to Italy, and author of various popular works, writes:—

"With all sorts of exposure, in all sorts of climates, I have never, to this day, had any cough nor any affection of the throat or lungs which did not yield to Ayer's Cherry Pectoral within 24 hours. Of course I have never allowed myself to be without this remedy in all my voyages and travels. Under my own observation, it has given relief to a vast number of persons; while in acute cases of pulmonary inflammation, such as croup and diphtheria in children, life has been preserved through its effects. I recommend its use in light and frequent doses. Properly administered, in accordance with your directions, it is a priceless blessing in any house."

Ayer's Cherry Pectoral,

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

On Account of Carnegie.

PHILADELPHIA, July 23.—Work on the cruiser New York is being delayed because of the non-receipt of armor from the Carnegie works. The boat will be launched next week, but without side armor, the Carnegie works having this contract also. No armor for the Massachusetts here, the Carnegie people being the contractors.
