Appropriations Continued.

WASHINGTON, Aug. 1.—Holman moved in house today to suspend the rules and pass the joint resolution extending until August 4, the appropriations of the sundry civil act for last year.

Ready to Report.

WASHINGTON, D. C., Aug. 1.—Representative Oates, chairman of the special sub-committee of the judiciary committee that investigated the labor troubles at Homestead, prepared his report and will submit it to the sub-committee today.

Will go for Them.

HOMESTEAD, Aug. 1.—Adjutant-General C. H. Parker, after the surrender will be prosecuted for aggravated assault and battery, highway robbery, larceny, pocket picking and other crimes and misdemeanors. It is stated that several women who were particularly active during that time will also be prosecuted.

From Homestead.

HOMESTEAD, Aug. 1.—General Superintendent Potter claims there was a break in the ranks of the strikers in the mechanical department last night, and that 25 of the best skilled workmen returned to work this morning. Committee of strikers at the gate when men went in to assert but eight of the 1200 men in the mechanical department have broken away. It is said there are now several strikers in the mill influencing non-unionists to quit. This plan was adopted with great success in 1882 when the strikers went back to work and soon organized all the non-unionists taking them out in another night.

From Union.

UNION, Or., Aug. 1.—The Oregon Gold Mining company at Cornucopia started up their twenty-stamp quartz mill Saturday, after a shut down or nearly two years. The company's tramway from Red Jacket mine to the mill, which was broken down by a snowslide last winter, has been repaired, and everything is in readiness for a continuous run.

Saturday afternoon Rev. S. M. Driver, while in a dark closet in his residence with a lighted lamp, accidentally dropped the lamp, which exploded, setting the house on fire. The fire company responded promptly, but before it subdued the flames, the inside of house was badly damaged. The loss will be about \$1000.

Contemptible Revenge.

ST. JOHNS, N. F., July 31.—Some wretch went to a field where there were two horses, belonging to the man in whose stable the great fire started, and cut the animals' tongues out. This cruel act is supposed to have been prompted by a spirit of revenge of the losers by the conflagration. The utmost indignation prevails, and a liberal reward has been offered for the accuser's arrest. The haggling of the insurance companies, which are presumably substantial English concerns with fabulous resources, is in marked contrast with the course of the few American companies doing business here, which have given far more satisfaction. A large meeting of mechanics was held here last night. Nearly all lost their tools and are therefore unable to take work, which is offered in abundance. They ask the relief committee to apply them with the necessary implements, thus enabling them to resume their trades. They will ask to draw from the relief funds.

Alice Mitchell Case.

MEMPHIS, Tenn., Aug. 1.—The clerk of the criminal court has issued orders directing the keeper of the state insane asylum to receive Alice Mitchell and her sister Kelly with her reason restored and her mind that shall have been taken then to notify the Criminal Court so that she can be tried for and put on trial to answer an indictment charging her with the murder of Freda Ward. It is generally believed a noli prosequi ultimately entered in the case.

WALLA WALLA, Wash., July 31.—The heat was almost unbearable yesterday. The weather bureau thermometer registered 105. No prostrations are reported.

William at Cowes.

Coming to See About It.

TORONTO, Aug. 1.—Sir John Thompson leaves town today and it is rumored that he will make an unannounced visit to Washington tomorrow to hear from England and decide on a line of immediate action.

Down Town Destroyed by Fire.

ST. LOUIS, Mo., Aug. 1.—The little town of Hannibal, Mo., was burned yesterday morning. Four big business blocks were destroyed. The loss is estimated at \$37,000. Mrs. Schneider, a young married woman, who lived over one of the blocks, was burned to death.

Policeman Murdered.

TACOMA, Aug. 1.—Minor Cuddehe, a patrolman, was killed Saturday night by an unknown man at East D and 32d streets. Cuddehe and Jack Kinney were walking together when they came across two men lying on the sidewalk. Cuddehe said "Hello! what are you doing here?" Both men jumped up, and one went at Kinney and the other at Cuddehe with knives. Cuddehe put up his left arm and was hit on the forehead. The man struck again, stabbing Cuddehe in the heart, who died in five minutes. No motive whatever is known for the murder of the policeman but it is supposed the men were lying in wait for someone. Kinney was in their hands ready, the policeman did not have revolvers or any means of defense, so they were off duty and going to visit Officer Hollister, who had a broken leg. Officer Cuddehe lived here three years, having been in the commission business before he was a police force. He came from Detroit, Mich., where he has parents, sisters and brothers. Cuddehe has a brother, Special Officer Ed. Cuddehe, of Seattle, and another brother, John Cuddehe, of Spokane.

THE MURDERERS CAPTURED.

The murderer was caught with his companion beyond the new addition about midnight. They were in hiding. They are Delmer M. Jordan, an American, 37 years old from Arkansas, and Seale, from Texas, 29 years old.

A Hotel Burned.

PORTLAND, Aug. 1.—A fire in the Union Depot hotel on Fifth street near Hoyt, yesterday afternoon wrecked that building, and had it not been for the hard work of the department would have resulted in a heavy loss. Fire was started in the kitchen stove to prepare supper, and shortly after flames were discovered issuing from the roof immediately over that part of the hotel. The building is a two story frame, and being old the flames spread rapidly, and before the firemen arrived or scene it looked as if there was to be quite a conflagration, as all the buildings adjoining are old wooden structures. But several streams of water, vigorous application of axes and hooks saved the other buildings and the damage was confined to the hotel.

Surpassed All Expectations.

BETHLEHEM, Pa., Aug. 1.—The first armor-plate test on the proving grounds of the Bethlehem Iron Company occurred today. The plate was 10 1/2-inch Harveyized nickel-steel plate, 8x8, and weighed 18,000 pounds. The plate was tempered with the ice-water process. Five shots from the eight-inch rifle were fired at the plate, four into the corners and five in the center. Each projectile pierced about three inches, rebounded and broke into bits. Not a single crack was developed in the plate. The success of the test surpassed the expectations of all present. A comparison with former trials shows this plate received a total energy of 25,040 foot tons, fully 50 per cent greater than the plates sustained at the former trials at Indian Head, and yet is far less injured.

Democrats Will Carry Alabama.

MONTGOMERY, Ala., Aug. 1.—In today's election every officer from governor to constable is to be elected. The contest has been heated for months between the Kolb side and the regular Democratic ticket, represented by Governor Jones. Up to noon bulletins from all sections of the state indicate heavy voting and a majority for the regular Democrats. No disturbances reported thus far.

PENDLETON, Or., July 31.—Mrs. Joseph Brown, wife of a water in a restaurant, because her husband imbibed too freely, took morphine and died from the effects of it. The coroner's jury came to the conclusion it was a case of suicide.

THE SPECIAL COMMITTEE.

Watson Failed to Disclose the Names.

WASHINGTON, August 1.—The names of the members of Congress referred to by Watson, of Georgia, in a pamphlet alleging drunkenness, was not disclosed by him Saturday at the session of the special committee appointed Friday to inquire into the charges. He said he knew enough to substantiate them, but would not mention names except under compulsion. He said he had in mind two members present during the debate on the silver bill at a night session in March, when he wrote about members reeling on the floor of the house intoxicated. The phrase "drunken speakers debating grave questions" referred to one speaker in the Noyes-Rockwell debate.

A Large Number of Other Members of the House were also called and a number of them testified to having seen members in the house intoxicated. No names were mentioned.

Watson said, in his opinion, that a certain speaker was in a state of maudlin intoxication. In front of him was a cup and saucer. His comments were replenished several times, and it was noted that the more he drank, the more he wandered in his argument. Watson heard the gentlemen say to a page, "Bring me more of that stuff, that whisky."

Otis, of Kansas, asked about the member in question said, "He was pretty well set up. The longer he proceeded the worse he grew."

Miss Dwyer, congressional reporter for The National Economist, corroborated the previous witnesses. Representatives Holverson, of Minnesota, and Butler, of Iowa, each testified that on two occasions they had seen a single member drunk in the aisles. Other witnesses testified to the same effect.

Watson wanted to prove the existence of a bar in the Capitol building but Chairman Boatner wouldn't let him, and wouldn't agree that the record should show a refusal. Boatner said it was a matter of public notoriety that whisky could be had either in the senate or house wing of the Capitol.

By vote, Boatner, Buchanan, Va., Welverton and Grout, against Simpson, the motion to admit evidence of drinking in the house restaurant was overruled. During Oates' testimony it developed that Representative Cobb, of Alabama, was the person charged with intoxication by Watson.

Cobb appealed to the committee to let the matter proceed openly, and asked a thorough investigation, saying he was not afraid of the result. Oates said while Cobb was speaking he appeared greatly exhausted, and some one sent him something to drink. This stimulant had some effect on Cobb, enlivening his manner. Oates declared, however, that Cobb was not drunk. He had known Cobb twenty-seven years, and never knew him to be drunk, though he sometimes took a drink.

Adjournd.

FROM VENEZUELA.

It is Again in a State of Revolution.

PANAMA, Aug. 1.—The latest news from Venezuela is of an alarming character. It is rumored that the 40 days' truce has been fruitless, and that the revolutionary forces under Crespo are again advancing upon Caracas. Villegas and the government troops are said to have evacuated the city and panic reigns. Nothing can be learned of the movements of Rojas Paul and Minister Sarria. It is feared that the foreign residents are in imminent danger. Advice from Caracas, under date of July 23, state that their congress was issuing daily bulletins declaring that the government was making great progress. These efforts to reassure the public were not successful. The growing opposition to Rojas Paul had nullified the effect produced by his enthusiastic reception. Crespo's strength was represented as waning, and Sarria, at the head of the Guzman Blanco faction, it was announced, would lead a revolt if Paul were elected president. Crespo, on the other hand, it was said, would renew his activity if any one of the six candidates outside of Paul were chosen. The various commissions to negotiate for a permanent cessation of hostilities had failed. Unless the existing state of things is altered ruin and famine will devastate the country. Business is paralyzed, and the state of apprehension in which the people live amounts to a reign of terror. Anarchy exists in Caracas and La Guayra. The streets are dangerous for citizens at night, armed outlaws firing here and there at pleasure. The Orinoco is flooded, doing great damage in various towns, the inundation extending to the Delta. Considerable loss of life is reported as a result of the freshets.

Bangs are doomed, notwithstanding the fact that by them more women have been made beautiful than by all the jewelry and finery that was ever designed for them.
