Ayer's Sarsaparilla,

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicine.

How Often Can We Love?

How many times can a man or woman be in love, really, truly and intensely? In undertaking to answer this question one wise editor seems to take it for granted that while a man is capable of loving "really, truly and intensely" as often as a suitable object meets his eye, woman has only one real love—a man whom she idealizes and worships forever.

This fine theory does not seem to wear in real life. Both men and women may be in love over and again. A woman may adore a good looking youth when she is sixteen, or she may be attracted to a scapegrace and think she wants to save his soul, when she has only a sickly, sentimental fancy for his personality, which would quickly change to loathing if she should marry him.

With those who have been in love oftener, however, this fact undoubtedly remains—though they have loved over and again there is always one whose memory in after years is dearer and sweeter than that of all the rest.

Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Remedy for the great use of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what we desire to see in a medicine.
