the road petitioned for by G. W. ment. In it will be the heating Newport. court that the road petitioned for be tors for each ward. ordered established. The court refuses, however, to vacate the part of dining rooms and two dormitories, the established road as prayed for by an operating room, together with G. W. Vedder et al, then to the su- baths, pantries, elevators, closets, manded for trial in the county court. arate rooms for severe cases and There is no material difference in convalescents. --- The court also asks bids for fifty cords of pole oak and twenty cords of body fir. See advertisement for bids in this paper.

DUNCAN CLARK'S MINSTRELS .-In the Cincinnati Enquirer of Sept. 13 appeared the following flattering notice: "Duncan Clark's monster combination tested the capacity of People's Theatre last night. The house was uncomfortably filled, and the show made a distinct hit from the start. The novelty of the attraction is sure of crowded houses everywhere, and Cincinnati amusement patrons are not slow in recognizing same. The managers are to be congratulated on their successful opening in our city." At opera house tonight.

TO THE ASYLUM. - Sheriff Ganong arrived up from Oregon City last night in charge of James F. Ethridge, a young man aged about 25 years, who was committed to the insane asylum. Ethridge is a native of New York and has but a slight attack.

FOR MT. HOOD .- A party of fourteen teachers will leave Silverton tomorrow morning for a ten day's Treasurer Metchan was absent, no trip to Mt. Hood. Besides the Silverton teachers, J. M. Winslow, of Marion, and Miss Helen Hibbard, day morning, when this matter will of Salem, will be with the party.

BLACKSMITHING-Done at eastern prices at the Red Iron shop corner State and Front streets opposite cents per horse, tire setting \$2.75 per to write at all. Instead of filling up set. Call and see us,

PROHIBITION CLUB.-A meeting of the Salem Prohibition club will be held in the W. C. T. U. hall on Tuesday night at 8 p. m. E. C. Minton, president; Oliver Jory, secreta-

at their grounds this afternoon.

THE NEW INFIRMARY. Building.

provement were prepared by Archi- Tickets for sale at Patton's. tect McNally, who furnishes us with the following description.

This structure will be of brick and

iron and will be as nearly fire proof as it is possible to be made. The roof will be made of tin and the cornice of galyanized iron. About half a million brick will be used in the construction of the building and these are manufactured at the state prison. The trimmings of the building will be of stone. It will be two full stories, with basement and attic, and a tower. The building will be 146x68 feet and fifty-seven White, of the African church, left feet high to the main roof. It will be eighty-three feet to the top of the tower and chimney. It will be divided into six wards and there will be a separate outside entrance for each ward. All of the stairways about \$1200, as follows: Fanny will be of iron and four of them lead Smith, 50c; Mrs. Jones, 50c; Mrs. A. up from the outside. The building will be heated by hot water and the Mrs. V. Jennison, 50c; Mr. and Mrs. system of ventilation will be of the most improved style.

The new infirmary will be located near the southern corner of the south wing, being about fifty feet from that wing. It will face the west and a part of the building will occupy the present site of the cow field Brooks, 50c; Mrs. Blakely, 25c; barns. The estimated cost of the Mrs. Suerwood, 25c; A. J. Smith, structure is \$20,000 and it is being a visit among Minnesota friends. built for the accommodation of patients who are afflicted with conta- itor today. wishes Rev. White great success in gious diseases. There will be six separate wards and all of the floors Gervais this afternoon. will be deadened.

COUNTY COURT.-In the matter of The basement will be one apart-Vedder et al., it was ordered by the apparatus and wood and food eleva

On the first floor there will be two preme court, by which it was re- etc. There will also be twelve sep-

the order of the present court and The second floor will also be comthat of the former one .... The court posed of two dormitories, dining has decided to solicit bids for keep- rooms and twelve separate rooms for ing paupers at the county poor farm. attendants, and the same conveniences as on the first floor.

The attic will all be one department and will serve as a dormitory. It also will have the same convenlencies, except dining rooms, as the other floors. In the attic there will also be two large water tanks. The one for cold water will have a capacity of 5,000 gallons and the hot water one 1,500 gallons.

Bids were also received for a cot-

te for the engineer.

EVOLUTION OF THE BACE HORSE. The Development of the Thoroughbred Is Entirely the Work of Man.

In so far as a creature endowed with life can owe its existence to human bands the race horse may be said to be manmade. Horses were an important factor Headin early nomadic life, and were cherished by their owners, and the progress of civilization, so far from breaking tois bond, has apparently strengthened it. The animal is not now so essential to

of derangements of the stomach and bowels.

As Joy's Vegetable Earsaparilla is the only bowel regulating preparation of Sarsaparilla it is seen why it is the only appropriate Sarsaparilla in sick-headaches. It is not only appropriate; it is an absolute cure. After a will forever after prevent return.

From a rough and hardy creature, subsisting on such rations as chance and Jno. M. Cox, of 735 Turk Street, San Fran convenience might provide and suffering ciaco, writes: "I have been troubled with attacks of sick-headache for the last three the hardships and hazards of toil and years from one to three times a week. Some time ago I bought two bottles of Joy's Vegeadventure, he has gradually evolved into a combination of nerves, intellitable Sarraparilla son have only had one gence and trained muscle that has but attack since and that was on the second day a family likeness to his early progeni-

It differs from them in the same measure that the American Beauty or the La France rose differs from the little five petaled pink flower that blooms by the roadside. Like those floral triumples he is a product of scientific culture. It is not chance that has given him that peculiar build, that slenderness and lightness that to the expert means speed. His masters have wanted these developments, and they have studied sire and dam and the pedigree of each until they could name in advance the qualities of the offspring. And having secured a horse that has within him the possibilities of outdoing his ancestors they treat

human welfare and convenience; science

has furnished other means of transpor-

tation, and it is in a fair way to take all

the heavy loads from his back; but in

the degree that he ceases to be a mere

beast of burden he is transformed into a

source of entertainment and pleasure.

A groom is always in attendance. He is brushed and combed until his coat is like satin. He is fed and housed and exercised with as much care for his comfort as for a child's. Royalty itself is not looked after with more solicitude. The attention that ancient Greeks used to give to their own bodily training is A small boy is said to have set it given by modern men to the race horse, and as a result he is a marvel of physical perfection.

And after all this? Why, when he has been tested and his paces tried he is put Puter, Portland. upon the race track, where his beauty and grace and swiftness please the sight and thrill the pulses of the watching thousands as no other spectacle devised for public pleasure could ever do.—Indianapolis Journal.

Where it takes eight Brazilian negroes From Jan. 1 to date ...... \$1,168,633.00 to carry a load with difficulty, four African porters carry it cheerfully kola eaters are employed in unloading vessels they are always given twice the pay received by their competitors who do not use the nut. There are thousands of this latter class, the majority of whom refuse to eat it. whom refuse to eat it because of a be lief that the devil originated the nut for the special use of those he desired to have as laborers in his vineyard .- St. Louis Republic.

Most Fans Are Made in Paris.

Most of the finer fans sold here are made in Paris and in three or four sub-Prest Bloss of the State Agricul-urban villages near by. No fanmaker Sarsaparilla than the hundreds of tural coilege, was a Salem visitor knows the whole art. All the workers letters continually coming in telling today, coming from Eastern Oregon. in one village make sticks; those in an- of marvellous cures it has effected other fold; those in a third supply the after all other remedies had failed? bows that hold the sticks together. The Truly, Hood's Sarsaparilla possesses making of the upper sticks is a trade by itself. After all the parts have been Architect E. W. Cornwell, of Port- made they are sent to the great factories land, is in the city, the guest of his in Paris to be put together. A fanmaker begins his apprenticeship in childhood. The tools are few and simple.

Most of the carving and filigree work is done with chisel or scroll saw. The Mary Martin and daughter Emma, pattern, traced on paper, is pasted on the piece of bone or ivory or wood from which the fan stick is to be made, and the filigree is rapidly out with a saw. Tortoise shell sticks are made by special workers in shells. That is a difficult, Prof. Wm. B. Clarke of Yale Coldelicate and well paid art. A few skilllege, New Haven, Connecticut, is ful shell workers are in NewsYork, and visiting her uncle S. A. Clarke, and they are among the best paid artisans .-

Electricity in Warfare.

A clever piece of work was recently done by the telegraph battalion of an A. W. Blackford left today for English regiment in the course of some night experiments. An extensive cable was rapidly laid over the roughest possible ground, and that, too, without the slightest assistance from search from the firm of Smith, Royal & lights, and the lieutenant general was Alderson, millers at Fossii. This is thus enabled not only to find a lost brithe firm in which Mr. Klepplin, gade, but to control the simultaneous advance and attack of three separated brigades on an earthwork at midnight, The telegraph in fact rendered a most difficult and doubtful operation comparatively easy and certain. With large scale mans, a balloon and increased observing staff, it is likely to be made a most important aid to the strategist and the tactician.-Exchange.

> She Manages It. "There is one thing I like about your

husband; he never hurries you when getting ready for a walk." "Very little credit due to him for that, my dear. Whenever I see that I am not likely to be ready in time I simply hide his hat or his gloves out of the way. and let him hunt for them up and down until I've finished dressing."-Exchange.
