COMMITTED SUICIDE

At the Portland Hospital Yesterday With a Shotgun.

PORTLAND, Aug. 13.—Yesterday afternoon Frederick C. Crist, aged about 25 years, and a patient at Good Samaritan hospital, committed suicide at that institution.

A nurse passing at Crist's room heard a loud report of a firearm, and rushing in, found Crist already dead.

Crist had gone about the matter of committing suicide in a very deliberate manner, although he left no note behind to show why he did it.

When last seen alive he was in bed, but when discovered he was in a sitting position on the floor. He had arisen, taken the shotgun, which is a breech-loader and was in a case, put it together, loaded it with two shells, which contained BB shot. Then he opened the valve and took a large flask of whiskey, and it is presumed he took a large drink of it to give him nerve.

He then sat down on the floor and placed his back against a washstand. Raising both barrels of the gun, he placed it between his feet with the muzzle against his body. He then discharged the right barrel by pressing the trigger with one of his toes. Death must have been instantaneous, as the charge took effect directly in the center of the chest.

If not sent East, the remains will be interred here under the auspices of the Odd Fellows.

TROUBLE IN THE CHURCH.

Over the Movement to Make Circumcision Optional.

NEW YORK, Aug. 13.—Since the publication of the threatened schism in the Jewish church in consequence of the resolution of the recent central rabbinical conference in this city in favor of making the Abrahamic rite optional with gentiles wishing to adopt the faith, a fierce war has been waged from the pulpits in the synagogues and in the Hebrew newspapers.

Between the two factions stand the conservative reformers, who counsel peace, and say that, although a split has existed in the Jewish church for many years, a complete division should be prevented, and that, therefore, no official action should be taken in the matter. The disputed resolution was adopted at the conference at the instigation of the Rev. Mr. Wise, of Cincinnati, one of the ablest theologians in the church. He is a poet and an author, and is the leading spirit of the Hebrew college at Cincinnati. Nearly all the younger American rabbis have been his pupils and are his enthusiastic admirers. They, under his guidance, formed a central rabbinical conference, which was joined by all the radical reform rabbis. The so-called schism has aroused such a storm that Chief Rabbi Joseph has issued a proclamation calling a convocation to consider the matter.

Smuggling in Chinese

CHICAGO, Aug. 13.—Treasury Agent Andrew Soehngen returned from Detroit, where he had been for several days investigating frauds committed in smuggling Chinese across the Canadian border. He says there is a large gang at work aiding Celestials in getting into the states. The smugglers are refugees and outlaws from the United States. They know every foot of ground, and despite the vigilance of 60 inspectors who are now patrolling the territory, many Chinese succeed in crossing. The smugglers are paid \$100 for each pigtail safely landed. Two carloads of foreigners arrive twice a week from Manitoba, and are landed at various points near the border between Winnipeg, Port Arthur and Detroit. Not a few of the smugglers are located at Windsor. They play all sorts of tricks on the heathen, and several days ago landed a number of them on an island which belongs to Canada and then abandoned them.

Three Men Drowned.

MONTREAL, Aug. 13.—Early yesterday morning an accident occurred in the Lachine canal by which three men lost their lives. The tug Paul was moored in the canal and everything appeared all right last night when the men on board retired. During the night a leak occurred in some unaccountable manner and the tug sank. There were four men asleep in their berths at the time and three of them were drowned, the fourth making his escape.

Will Not Boycott Carnegie.

PITTSBURGH, Aug. 13.—The executive board of the American Federation of labor met yesterday. After an all-day session they decided not to boycott Carnegie products at present. The reason for this is because the firm is not turning out enough material to justify a boycott. Should such a course be necessary in future the board will not hesitate to order a boycott.

Switchmen Strike.

BUFFALO, Aug. 13.—Switchmen employed on New York, Erie and Western, Lehigh Valley and Buffalo Creek railroads are out on a strike to obtain higher wages. Ten hours a day being also involved.

WEAVER CONFIDENT.

The Republican Party is Eliminated From the Fight.

PORTLAND, Aug. 13.—Gen. James B. Weaver, the People's party nominee for president, arrived here yesterday, accompanied by a small party consisting of Mrs. Weaver, Mrs. Leass, V. O. Strickler and C. O. Strickler representing the national committee, Mrs. Strickler and C. A. Powers, of Terra Haute, Ind. The party took rooms at the Holton House, where temporary headquarters were opened in parlor No. 11.

When the general arrived, he was met by a large number of the People's party adherents, who thronged the headquarters till lunch hour. During that time, a general conference was held between the general and his Oregon managers, who informed him that this state would send People's party men to the electoral college beyond any doubt.

"I am sure of election," said General Weaver to a reporter, "and I will be elected, too, right in the electoral college. I do not think the election can possibly be thrown into the house. During the past two weeks a wonderful change has taken place in the political situation of this country. By virtue of this change, the Republican party has been eliminated from the race. That party stands not a shadow of a chance for success. The Home-ruled matter has caused a study of Republican principles and methods. Therefore, the battle lies between the People's party and the Democrats, and the former has every advantage.

"We will carry the solid South. We can do that easier than the Democrats can carry a single Southern state. The people of the South are taken with the Omaha platform. It suits them. The elimination of the Republicans has emancipated the South, and the colored and white people alike will vote their choice of tickets. We will carry the entire West solid. Our party will get the entire silver vote, since there is no choice on that line between Cleveland and Harrison. The Republicans lost nine states in 1890 which they held two years before. To win they must regain these states and carry all the silver states, and this they cannot do.

"The recent election in Alabama gave us half the legislature, and but for fraud perpetrated by the Democrats we would have carried everything. From 95,000 Jones fell to 7000 majority. During my campaign, which began in Indiana, I have seen wonderful demonstrations. Thousands have flocked to hear me speak wherever I stopped. No; there is no power on earth that can defeat us. Providence is behind this movement. It has been coming for years, and the people will no longer be oppressed. It is a fight between labor and capital, and labor is in the vast majority. I want to say that we have been asked to divide our electors with the Democrats, but we have refused. This is not a campaign to be dropped just before election. We are in it to win, and we will win or suffer defeat."

Mrs. Mary E. Lease, the "Kansas cyclone," who is with the party and has done much brilliant campaign speaking, is confident of the ultimate success of the People's party ticket. She was besieged by visitors with whom she pressed several hours in earnest conversation.

Along in a Great City.

NEW YORK, Aug. 13.—A strange story is told by Little Eisie Schur, aged 11, who arrived here last Wednesday in company with a man who registered at the Hoffman house as A. Nixon, but who is now in charge of the Gerry Society. Little Eisie says her mother sent her all alone from San Francisco to meet her father, supposed to be living on Eighty-sixth street. At the Hoffman house, where Nixon took the child, her poor apparel caused remark when contrasted with the faultless attire of Nixon. Some ladies connected with the hotel to-day questioned the child, who said her mother was formerly an opera-singer of some note, and lived at 1025 Clay street, San Francisco. An offer by the ladies to give her a bath and arrange her clothing met with a shower of tears and an appeal to be left alone when she disobeyed. Nixon who has since paid the bill and left the city, claims to have merely befriended the child, but the Gerry Society is suspicious that his attentions were not disinterested, and is investigating.

From China and Japan.

SAN FRANCISCO, Aug. 13.—The steamship City of Rio Janeiro has arrived, 12 days from Hong Kong and 14 days from Yokohama, and brought the following news:

The Inua copper mine at Akita Ken, Japan, was inundated July 4th by a sudden overflow of the river Giuzaru. Nearly all the buildings near the mine were washed away, and according to some accounts nine miners were drowned.

Lieutenant Arthur Cawston committed suicide July 3d by shooting himself through the head on board H. M. S. Pegulu at Shanghai.

News was received in Yokohama just before the City of Rio Janeiro left, of the total loss of the American ship North America, Captain Creelman, 25th channel. The vessel came to Yokohama in March with a cargo of oil, and was dispatched in May for New York via Kobe, sailing from the latter port on July

29th with a cargo of rags and camphor.

The steamer Inagawa Maru was wrecked off Shozushima island July 28th, and from 50 to 60 lives lost. The vessel was en route from Hyogo to Tamashima and encountered a typhoon in the Harima sea and foundered in 20 fathoms of water. One seaman and a passenger reached the shore.

Report of damage done by storms and inundations have been received at Yokohama from Okayama, To-kushima, Yamashiro, Gumma, Chiba and Hyogo. Of these Okayama seems to have suffered the most, as the rain began falling on the evening of the 26th and was followed by a terrific typhoon on the 29th. The Aahigawa rose 21 feet, causing embankments to give way in several places. Over 5000 houses were submerged, and about 100 persons drowned, in addition to which 500 houses were entirely demolished, 600 others partially, and 800 swept away, while over 10,000 acres of cultivated land were laid waste.

"Thick and Glossy."

THE PRODUCTION of an abundant growth of hair, of a silk-like texture and of the original color, often results from the use, by those who have become bald or gray, of Ayer's Hair Vigor:

"I was rapidly becoming gray and bald; but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy, and the original color was restored."—M. Aldrich, Canaan Centre, N. H.

"A trial of Ayer's Hair Vigor has convinced me of its merits. Its use has not only caused the hair of my wife and daughter to be abundant and glossy, but it has given my rather stunted mustache a respectable length and appearance."—R. Britton, Oakland, Ohio.

"I have used Ayer's Hair Vigor for the past four or five years and find it most satisfactory in its results. It is all that I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair easy to arrange."—Mrs. M. A. Bailey, 9 Charles st., Haverhill, Mass.

Ayer's Hair Vigor, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists and Perfumers.

COLUMBUS DAY.

The President, complying with an act of congress has issued a proclamation making Friday, Oct. 21, a general holiday. It is also stated in the act of congress and proclamation that the purpose is to make the day an educational event and he recommends to the people the observance in all their localities of the 400th anniversary of the discovery of America, on October 21, 1492, by public demonstration and by suitable exercises in their schools and other places of assembly; as THE JOURNAL has been appointed by the national educational association to bring this matter before the people of this state it takes great pleasure in urging such observance of the day at Salem and elsewhere.

The Salem schools especially should lead in this movement and impress upon the thousands of youth the lessons connected with that memorable date Oct. 21, 1492, the 400th anniversary of the discovery of America by Columbus. We must quote one passage in the President's message:

Columbus stood in his age as the pioneer of progress and enlightenment. The system of universal education is in our age the most prominent and salutary feature of the spirit of enlightenment, and it is peculiarly appropriate that the schools be made by the people the center of the day's demonstration. Let the national flag float over every school-house in the country, and the exercises be such as shall impress upon our youth the patriotic duties of American citizenship.

The Salem schools and Salem people should be prepared to make a great day of Oct. 21.

WAR.

The people easily forget the horrors of war. Oh all hands we see military preparations in this fair land of peace and about the last country any nation would go to war with. In New York and Brooklyn three armories have just been built costing nearly a million dollars. Cruiser after cruiser is launched and it is proposed to expend \$100,000,000 for coast defenses. In every state a National guard is being raised and equipped at expense of the state. We do not oppose any of these movements as such, but we are opposed to the principle of war. It is the lowest lust of nations accept in times of great danger.
