NEW MINING MACHINERY

P. J. Foster, who resides about three miles west of Salem in Polk county, has invented a machine for mining gold, which is especially adapted to saving fine gold, and works any piacer material from the black sand to gravel, in fact anything that can be showeled. The machine is made of iron and steel and weight only 45 pounds complete. It is run by the force of a 1½ inch pipe of waler with a head of four feef. It will work from a tolktons of black sand, or, from 15 to 25 tons of gravel in a day, and save every thing in the shape of gold that will amalgamate. The machine has been tested and is guaranteed to do the work claimed. Machines will be furnished in running order before any pay is demanded. Price complete \$150. Call on or address P. J. SUGAR AND FREE TRADE. Henry Watterson, who is certainly entitled to speak significantly on the subject, especially since the Chicago convention, says

Just as soon as the Democrats get the power they will wipe out the arrocious Republican sugar bounty system and restore the sugar duties. Instead of paying millions of bounty out of the treasury to sugar planters, we will re-establish the revenue tariff on sugar, yielding annually about \$50,000,000 to the treasury.

THE CURRENCY.

the first fiscal year of Harrison's administration, the public debt bearing Interest was \$820,853,990,and the annual interest was \$33,752,354 60.

Three years afterward, on July 1 891, the interest-bearing debt was \$610,529,120, and the annual interest \$23,615,735.80-a reduction of \$210,-224,870 in the principal and of \$10,-136,618.80 in interest.

On July 1, 1889, the non-interestbearing debt-that is, legal-tender notes, gold, silver and currency certificates-was \$787,287,446.97. On the 1st of July, 1891, the non-interestbearing debt was \$933,852,766.35-an increase of \$146,565,319.38. In other words, there was an increase of currency in those three years of a Republican administration of \$146,565,-319,38, and a decrease of the bonded debt of \$210,224,870.

Compare this with the first three years of Cleveland's administration. The bonded debt July 1, 1885, was \$1,196,150,950, and on July 1, 1888, three years later, was \$950,522,500-a decrease of \$245,528,450. But the currency, or non-interest-bearing debt, in 1885 was \$663,712,927.88, and three years later was only \$789,840,-389.32-an increase of only \$76,127,-461.44, and this increase was all made in the last year under consideration,

The Rich Man's Son.

The rich man's son inherits lands, And piles of brick and stones and gold. And he inherits soft white hands, And tender flesh that fears the cold.

Like soft hands, and tender flesh, many diseases are inherited; especially tendencies to Asthma, Consumption, Bronchitis, and Stomach and Live troubles; but there is a remedy, known as the "Golden Medical Discovery," which overcomes these diseases, and cuts off all tendencies toward a fatal result. Dr. Pierce of Buffalo, has put this remedy within the reach of all, so that even the poor as well as the rich, can obtain it. It is worth more to you thau "piles of brick and stone and gold." ask your druggist for it, It's guaranteed to benefit or cure in every case, or money paid for it will be refunded.

A Wonder Work'r.

Frank Hoffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for consumption, coughs and colds and at that time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better; he continued to use it and is today enjoylog good health. If you have any throat, lung or chest trouble try it. We guarantee satisfaction. Trial bottle free at Fry's drug store.

Herbert Spencer declares that com-plete truthfulness is the rarest of virnes, and King David declared in his haste that all men were liars. Bob Ingersoll adds that if David had lived in The Canadian railways are taking the first steps to establish low rates to the world's fair.

Chicago he might have said it at his leisure. Seriously, however, the witticism as to Chicago is a witticism only, for the exaggerating habit is prevalent in America, and if it shows out strongest at Chicago, why that is only because that city is so ardently and progressively American.

Some one has said that each nation has its national vice, as vanity among the French, treachery among the people of southeastern Europe and drunken-ness among Britons, and that lying is the national vice of Americans. There is just enough truth in this to make it sting. We are a terribly careless people in our general habits of expression. Fortunately we know it and do not believe each other to any dangerous extent. No one dreams of accepting the statements in an advertisement as literal facts. "Let the buyer beware" is not only a law maxim, but it is everyday, common sense among us.

The effects are both ludicrous and suggestive. A few years ago an old New Yorker of more than average intelligence read Parton's "Life of Andrew Jackson" for the first time, and was so amazed that he hunted up the author and asked:

"Did you really get proof that General Jackson had all those quarrels and fights?"

"Certainly I did-had you never heard

"Oh, yes," was the cool and candid response; "I read all about them in 1832, but thought of course they were cam-

paign lies." Citizens of New York who travel out west in the rural regions are often startled and sometimes enraged at the views they hear about their city. The plain truth that there is no more crime in proportion than in most other com-munities, that taxes are not very high J. J. MUTTON,

The same press is very silent about the greatest labor rebellion in our speaks good English is looked on with undisguised astonishment in some east-

ern communities. Herbert Spencer concludes that long continued oppression will turn a whole race into organic Mars, and there is painful evidence of its truth. Conversely, long continued freedom ought to make a people truthful, but it seems to have failed in at least a few cases that might be mentioned.

All womanly women will be glad to hear of the vindication of Helene Vacaresco, who was torn from the side of her betrothed, Prince Ferdinand of Roumania, "for reasons of state." She was not titled, and he, it was declared, must wed with the scion of a royal family. After his engagement to a daughter of the Duke of Edinburgh, it was said that Mile. Vacaresco had sent the letters received by her from the prince to his new fiancee. This of course was attributed to disappointment and maliciousness, but now the Rome correspondent of a leading Paris paper declares that "I must say that I know per sonally and positively that Mile. Helene Vacaresco has been calumniated by those who say that she has made unfair use of the letters from her ex-fiance, the crown prince of Roumania. It is false that she ever sent, or even intended to send, any of the letters to the Duke of Edinburgh. and she would consider it cowardice to do such a thing." Mile. Vacaresco is a very beautiful and talented young woman, and as before intimated, it is pl ant to learn that she didn't make a fool

A Wyoming man, writing a long letter to an eastern paper in explanation of the rustler troubles, says the rich cattle barons have had free occupancy of the government lands for so many years that they now look on them as their own and are unwilling to give them for settlement to actual homestead although the government opened them to the acttlers. The war attempted by the cattle barons was, he says, a war to drive the homesteaders off the lands they had taken under government guar-antee. In any case it is probably true that the days of the great cattle ray are numbered and that cattle will = and more be raised by farmers in a er "bunches."
