H. Young, city of Salem, state of Oregon. Dated this 8th day of August, 1892. Administrator of the estate of Silas W. Hensley, deceased. F. R. SMITH, 8-8-92

PROTECTION LODGE NO. 1 A. O. U. W. - Meetings in their hall at 104 1/2 Commercial Building, every Wednesday evening. F. C. BARKER, Secy. J. A. REWOLD, Recy.

THE CAPITAL JOURNAL.

HOFER BROTHERS, - - - Editors. PUBLISHED DAILY, EXCEPT SUNDAY BY THE Capital Journal Publishing Company. (Incorporated.) Office, Commercial Street, in P. O. Building entered at the postoffice at Salem, Or., as second-class matter. SUGGESTED COMMENT. Hops are quoted 17 to 19 cts. at Seattle. The big Salem Scotch mills are running day and night. Lee Wann, Chinese, raised 15,000 pounds hops off 14 acres. The Josephine county hop crop reaches 50,000 pounds this year. The Grant's Pass public schools graduate a class of nineteen this year. A test of the Dallas new water works shows them to be a grand success. The district fair to be held at Independence this week promises to be a decided success. Miss Clara Condon, who was an assistant in Miss Ballou's Salem kindergarten last year, has opened a similar school at Eugene. Trout fishing in Rogue river is now at its best and many large fish from six to nine pounds are being taken, says an exchange. The fellow who "thought it was a deer" ought to get after the fellow who sets the mountain fires. He would render society a double service. The Salvation Army has "tackled" Tacoma again with a large force. They have never been able to gain a strong foothold in that wicked city. The relatives and friends of Rev. Jas. Kelsey, deceased, are raising a fund to erect him a monument. Send money to J. W. Craig or R. C. Craven, Dallas. The Eastern oyster is rapidly driving the small sweet blue succulent bivalve of the Pacific coast out of the trade altogether. Shoalwater bay shellfish will soon be a delicacy of the past. Young man, or young woman, get an education by all means. Make almost any sacrifice to do so. You will never be the loser nor regret it and your family and society will be the gainers. W. T. Elkins, a Dallas horticulturist, has issued a new pamphlet on "How to Grow Fruit." He has had forty years experience and gives some good advice. He is connected with the Oregon Wholesale nurseries of Wirt Bros., Salem. Insurance against loss by fire has become one of the modern necessities of the present age. No person engaged in business in any of the towns on the Pacific coast can safely conduct business without insurance. -Oregon Observer. Now for a fight between Corbett and Jackson. Corbett doesn't draw the color line, and Jackson's fight with Slavin makes him Corbett's only formidable antagonist. -Tacoma News. What's the use of any more fighting at all? Nearly everybody has whipped or been whipped. The soldiers and sailors reunion at Ashland Tuesday, Sept. 13, was a great success. A large crowd of veterans, and visitors had gathered from all parts of the state. The W. R. C. was well represented from many parts, and the Ashland corps showed them their hearty appreciation of their presence, by giving a banquet, in which more than two hundred visitors participated. Mrs. Harrison is a good woman and has made an excellent mistress of the White house. The news that she is improving will be received with quite as much joy among Democrats as Republicans, for party lines cannot wipe out the common feelings of sympathy which bind all men together. The first lady of the land we believe has many happy days before her. A man by the name of Salomonson was brought into St. Mary's hospital this morning from South Fork, having a serious wound in the shoulder caused by the accidental firing of a gun. He and a friend had started out hunting and got separated. He was sitting behind some brush watching, when his friend, suspecting him to be an elk, fired and shot him in the shoulder. He is in a rather critical condition, but has felt pretty good all afternoon. -Astoria Examiner. Yamhill Ledger: There seems not to be much sympathy for John L. Sullivan, nor should there be. After you heard of John L. Sullivan having the least sympathy for

Highest of all in Leavening Power.—Latest U. S. Gov't Report. ABSOLUTELY PURE. any of his defeated and bleeding foes? They received about as much pity from him as they would from a stone fence or a hungry man-eating tiger. Computation or compassion formed no part of his cruel and relentless nature. He hated any man that had the temerity to meet him in the ring. He has fallen at the hands, it is to be hoped of a better man, if the word is at all applicable to a prize fighter. The annual meeting of the Northwest Y. M. C. A., will open session at Tacoma Wednesday of this week. The Daily News says: Arrangements have been nearly completed for the convention of the Young Men's Christian Association of the Pacific Northwest, which will begin in this city on Wednesday next. Representatives of a few associations have already arrived here and are taking in the city. Invitations have been extended to pastors of churches, delegates from evangelical churches in towns where no associations exist, and ladies representing Ladies' Auxiliaries. Delegates will be met at the depot and wharf by members of a reception committee and escorted to the rooms of the association on Pacific avenue. The coming convention of the Associations of the Pacific Northwest will bring to Tacoma a company of earnest, consecrated young men whose presence here will be of great benefit to this community and whose influence will be far-reaching. We already have the assurance of the presence of Mr. C. L. Gates, a secretary of the International committee, and of Mr. John D. Speares, general secretary of the Sacramento, Cal., Association, beside whom there will be the secretaries of the associations, pastors and representative business men from all parts of the Pacific Northwest. NORTHWEST NEWS. Clippings from Some of the Newspapers of This Section. Sodaville will soon have a newspaper. The water in the Willamette at Eugene is at extreme low water mark. The mail route from Crawfordville to Holly has been extended on to Sweet Home. A fruit grower at Zena, Polk county, cleared seventy-four dollars this season on four Royal Ann cherry trees. According to the survey of the S. P. extension from Lebanon to Sodaville, which has been made, the extension will miss Sodaville 1 1/2 miles. Here is a good idea. Tuesday, Sept. 27th, will be Fruit Growers' Day at the Central Point fair grounds, and will be a free day for all, no admission being charged to any part of the grounds. Roseburg's recently organized ladies' band is making life burdensome to the denizens of that place while they are industriously engaged in learning how to extract music from brass horns. Two loads of wool from Eastern Oregon passed through Lebanon Sunday. If the O. P. was only completed to that part of the country, how easy it would be to ship the wool by rail. Wm. Kineaid, of Newberg, is putting in a hydraulic ram to raise water to his residence. This method is cheap and in this country, so free from frost, and a very effective means of raising water to almost any height. A number of samples of corn from ten to twelve feet in height, have been brought to town this week. Mr. Scott brought in some from his place across the river measuring ten feet that was raised on prairie soil. -Eugene Register. It is very smoky on the upper Siwash. Forest fires are raging in the Coast mountains, and the trip from Eugene to Florence is an interesting one. Every few miles you pass through a burnt district, or one which is just burning. The Siwash stage manages to get through, but is more or less delayed each trip by fallen timber caused by the fire. The land department has given notice that it hopes to be able to alienate Oregon \$35,000 for surveys of public lands, and that directions have been sent to the surveyor-general of Oregon to complete the inspection of all surveys not yet inspected. The Condon Globe says the survey of the Oregon Pacific railroad crosses Bette creek a few miles east of Fossil, runs through Condon and

will intersect with the Union Pacific at Pendleton. The directors of the Harriburg Ditch Co., met at Harriburg on the 15th and let the contract for building the ditch there for \$8,500. The ditch will be two miles and 100 feet long, and will be completed in two months. Work will be begun in a few days. A hen pecked husband says: Our wife is falling into the fashion of wearing suspenders. That is right. She has worn the other things so long that we have often wondered why she had not thought of the suspenders before. The S. P. Co. has a full crew on making a survey of an extension of their branch from Lebanon to Sweet Home. The Express says: "This new line will give us cheaper lumber, develop the eastern part of the country, which has immense mineral wealth, and bring Lebanon in closer touch and stronger mutual ties with all parts of the country." This week Messrs. Sheldon and Bogley, civil engineers, of Portland, were in Prineville in the interest of the Siwash, Eugene & Eastern Railroad company. They were looking over the country to gather statistics and ascertain the amount of probable traffic the country would afford a railroad, and also to study the feasibility of a route across the Cascades into Eastern Oregon. -He-view. Mr. John Sloan, of Canyon Creek, sent to Mr. Muldrik last week a curiosity in the fruit line, which the News secured and has on exhibition. He garbed a wild gooseberry into a service berry bush, and berries, some of them are half service berry and half chestnut burr, some of them pure berries and some of them pure burrs, is the fruit of their union. That's what Grant county's native fruits can do towards furnishing exhibits worthy of a place in any world's fair. -Grant County News.

The Albany Democrat says: Six or seven old pioneers of Benton county will go to the world's fair in the style in which they came to Oregon years ago, without the Indians to molest them. Prior Scott will be commander of the squad. An exchange says: "They have already raised the funds necessary for the trip." Instead of the traditional sign, "To Oregon or bust," which decorated the wagons of the pioneer, they will replace it with, "From Oregon to the world's fair or bust." It has been suggested that the latter part of the inscription be changed to read, "To the world's fair on a bust," which would no doubt be more appropriate to the occasion.

Not a Miracle, Now. Until recently Consumption was considered incurable, but now people are beginning to realize that the disease is not incurable. The cure of Consumption is not a miracle, now. Dr. Pierce's Golden Medical Discovery will cure it, if taken in time and given a fair trial. This world-renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when other means have failed. Thousands gratefully testify to this. It is the most potent tonic, or strength-restorer, alternative, or blood-cleaner, and nutritive, or flesh-builder, known to medical science. For Weak Lungs, Spitting of Blood, "Liver Complaint," and Dyspepsia, or Indigestion, it is an unequalled remedy. Guard; Mrs Jennie Higgins, of Eugene; has been appointed a member of the Advisory Council, of the woman's branch of the World's Congress Auxiliary, on behalf of the universalist denomination. The Northern Pacific railroad company will extend their road from Gubis to Astoria, a distance of fifty-seven miles. Saved His Child's Life. A. N. Dillabough, York, Neb., says: "The other day I came home and found my little boy down with cholera morbus, my wife weeping, not knowing what to do. I went straightway and got a 25 cent bottle of Chamberlain's colic, cholera and diarrhea remedy, and gave it according to directions. You know how such a change in a child. My limbs and body were cold. I rubbed his limbs and body with my hands, and after I had given him the second dose he went to sleep. My wife says, 'from a death bed I was up playing in three hours. I saved my doctor bill of about three dollars, and what is better, I saved my child. I can recommend it with a clear conscience.' The boy is well now." -Berkett & VanStyke.
