**GROWING IN FAVOR.**—Amos Turner, the agent of the Pacific Northwest for that coffee which is attracting so much attention just now, the "Mokaska," is in the city again. Since last here, he has placed his goods among nearly all the grocers in Salem. These goods are controlled by Oilphant & Co., brokers of Portland, but can be had of all Jobbers, Mason, Ehrman & Co., having just purchased a car load. Our merchants here report that the coffee is growing in favor very rapidly with the local trade, and as the manufacturers guarantee it the best package coffee in the world, it will without doubt find a heavy sale in a very short time, as it supplies the place of a high priced coffee. It is generally conceded to be as good in flavor and otherwise as any Java and Mocha on the market.

**POPULAR LECTURES.**—Mrs. M. P. Sawtelle, M. D., will lecture to ladies only, at the Baptist church Friday and Saturday afternoons at 2:30. Friday's lecture will be free and she will talk on "Artistic Dress and Perfect Health for Women." Dr. Sawtelle's lectures have been listened to by large and enthusiastic audiences of ladies in every large town on this coast. The doctor has long made her subjects a study and gives invaluable instruction to women. She possesses the rare charm of a pleasing conversational style in her lectures. The lecturer will be assisted by her daughter who will sing, and will also give a few exercises for the development of the body, a popular fact among women interested in physical culture. No woman should miss these lectures.

**TO BE MARRIED AT WOODBURN.**—Cards are out announcing the marriage of Rev. Franklin L. Moore and Miss Mattie W. Layman. Rev. **"THE STOWAWAY."**  
This Popular New Play at Salem Next Week.

In the play named appears the greatest of all stage scenic and mechanical effects, the yacht "Success." There is a story connected with the appearance of the "Success" in "The Stowaway." When Thos. H. Davis went to London some seven years ago to look up a novelty for the stage, at the invitation of an old friend he joined a yachting party just forming for a two weeks' cruise.

"DICK'S DEAL" IS THE RESULT.

The party met with nothing out of the common for the first ten days, but on the 11th day, when off Coover, they were struck by a terrific squall, and the entire party were in danger of going to the bottom of the sea. The yacht was stripped of all the rigging, and for about ten hours every member of the party thought each moment would be the last; however, they weathered the storm, and, after it had subsided, were towed into Coover with little left of the yacht but her hull. Mr. Davis says, that when he set foot on terra firma he made a solemn vow never to set foot upon a sail boat again. And when he had read "The Stowaway," he asked the author to allow him to give the yacht in the play the name "Success," and he then secured the original specifications for the "Success" on which he had gone through such a thrilling experience, and had the yacht, used in the "The Stowaway," built an exact duplicate of it. The "Stowaway" will be presented at Reed's opera house, Salem, September 27th.

**THE EXCURSIONISTS.**  
About Six Hundred Odd Fellows Visit Oregon's Capital.

A train composed of ten coaches arrived in Salem this afternoon about 3 o'clock bearing about 600, more or less, of Eastern and California visiting members of the Sovereign Grand Lodge, now holding a session in Portland. The excursion left the metropolis this morning at 7:30 o'clock and proceeded up the West Side to Corvallis, thence across to Albany arriving about 1 o'clock. There lunch was served on board; the cook and waiters passed up on the 11:17 train through Salem to meet the excursionists at Albany. The train left that city at 2 o'clock and arrived here at about the hour mentioned above.

At the depot the visitors were greeted by members of the Salem lodges, and taken in the cars of the Capital City railway company to the end of their line at Odd Fellows' Rural cemetery. Here was in waiting every available carriage, public and private, in the city, ready to drive the guests out to S. A. Clarke's celebrated "Candelaria" fruit ranch. Here they were treated to a fine and delicious lot of fruit and a grand view of the capital of Oregon and the surrounding country. Leaving here at 4:15 the train may halt at Chemawa, the government Indian school, for a parade of the Indian boys and girls. Oregon City will be the next point of interest, the falls, the mills and the electric power plants. The train was to reach Portland by 6:30 p. m. in time for the cannon prize drill and the decoration of chivalry.

Special mention should be made of the cheap rate given the lodge by the liverrymen for the use of their carriages, hacks, etc.

**LARGELY ARTIFICIAL.**

The Original Portion of Him, However, Preserves His Cheerfulness.

The clerks of the Grand say that the most cheerful man they ever staid there was M. Dowling, of Minneapolis, and he had \$600 worth of wooden legs and wooden arms. He wore them all himself. Without them he would not, to all appearances, have made much of a showing.

Set up on his high cork legs, however, and with his arms pieced out with the same material, he would burst into the hotel like a ray of light on a dark, cloudy day. He was the victim of one of the playful blizzards of Minnesota. When it was over and he was gathered up from the snow it was difficult to tell what pieces would withstand the ailments of the graveyard.

Some of him survived, however, and then he set about to see what he could do. Both legs were off close to the body. His left forearm was gone, and all he had remaining was the smallest stump of the thumb on the right hand. He practiced for awhile walking with the heavy leather boots which everybody has seen legless men wear. Finally he raised enough money to buy cork extremities.

Mr. Dowling likes a joke, and when stopped on the street here and impromptu for alms by men with one leg or arm, or both legs or arms gone, would immediately take them to restaurants and load them up with a big dinner, all the time listening to their tale of misfortune with the greatest interest.

When it was all over his face would lighten, and much to their astonishment he would begin shaking his legs and arms, exposing the hypercritical material of which they were made. At the same time he would tell how glad he would be if he was only as well supplied with legs and arms as they were. He would next tell them to brace up, take heart and begin to learn something useful to support themselves.

Mr. Dowling cannot use a cane because he cannot hold one. Therefore without aid he is forced to make his way. He has learned to do it so well that he can outrun any able-bodied man, however skillful he may be, who will hop while he runs. He has learned to grasp a pen or pencil with the small stump of a thumb, and he writes a beautiful hand very rapidly.—San Francisco Examiner.

**It Used Him Up.**  
The man of the house took to the sofa in the sitting room with a nervous prostration directly after breakfast, while his wife went on with the house-cleaning.

She was dismantling the front room, and while he pursued the sporting column she carried past him in turn seven chairs, three tables, a desk, four footstools, all of the pictures, a piano stool, a bookcase and the rest of the furniture.

Then she lugged in a pair of steps and a big pail of water and began to clean.

"Maria, do you want any assistance?" said the man just then, rising and folding his newspaper.

"Not just yet, dear," said Maria. "Well, then, I think I'll leave you," said he and he started for the office.

On the way down he told three men that if there was anything that wore him to the skin and bone it was that confounded house-cleaning. Said he, "We are in the midst of it now and I tell you I'm about used up."—St. Louis Post-Dispatch.

**What Occurred Does.**  
There is a general agreement as to the fact that for a large number of our people overwork is the bane of existence. It not only exhausts their vitality, prematurely cutting short their lives, but it seriously interferes with their success, renders their services less valuable and spoils the happiness of their lives. It does not even end here. It affects others also in proportion to their nearness, for the family and friends of an over-worked man always suffer. Jaded and worn he cannot fulfill his duties to them, nor afford them the comfort and happiness which he owes them and which they have a right to expect. He is, in truth, but half a man while he lives and is probably preparing to live out but half his days.—Philadelphia Ledger.

**The Hedgehog.**  
The hedgehog runs the roads in England freely. He is a quaint little fellow, our hedgehog, having more intelligence than people give him credit for. It is curious, as you stand perfectly still in the middle of the road, to see him come running along, then stopping to sniff and whine and examine the high, strange object that hardly breathes but he starts the little creature. Then with a gentle grunt he will pass you by. A very low yet decided grunt he gives, and he whines as well. Blackwood's Magazine.

**THE PUBLIC SCHOOLS.**

The attendance in the public schools of Salem is now up to the usual standard for the week following the state fair and Mrs. S. G. Grubbe, the city superintendent reports everything progressing nicely in and about the different school rooms. There is one room added to the grammar department at the East school which makes the number there seven, but this was done by reducing the primary grades to five rooms while heretofore there were six. The six buildings in the city are not so crowded as last year because of the additional rooms fitted up in the Park, Lincoln, and North school buildings. In the Park every desk is occupied and a portion of the pupils will have to be transferred to the East building. Preparations are being made for the observance of October 21st, the day fixed by the president to be observed by the public schools of America as "Columbus Day."

**A RUNAWAY.**—While driving along 14th street last evening the buggy horse, of Dr. Frank Griffith of the asylum, became frightened at a passing electric car, and started to run down Chemeketa street. The driver's sister, Miss Jennie, was with him but before the animal had gone far she managed to get out of the conveyance and escaped unhurt but terribly frightened. Frank held onto the lines while the horse ran at a fearful rate, kicking at every step. He did not go far when a line broke and the doctor then got out of the buggy in a hurry. He struck on his head but was only bruised slightly. After passing below 12th street the runaway was stopped. The vehicle was considerably damaged about the dashboard and running gear. The horse belongs to Jay C. Smith, the bookkeeper at the asylum.

**NOT THE MAN.**—Wm. Taylor, who at present is running the scavenger wagon, wants it known that he was not the fellow alluded to by the morning daily in the item headed "a good deal of nerve." See Mr. Taylor's advertisement elsewhere in the JOURNAL, and that is self-explanatory.

**THE OLD STORY.**—Day after day the crowd reaches the same place, and the people wonder what is the cause. You will ask, what place? and the answer is, Johnson & Louis. What is the cause? Why, those low prices on clothing.
