FIFTH ANNUAL MEETING.

Amateur Athletic Union of the United States.

NEW YORK, Oct. 1.—[Special]—The Amateur Athletic Union of the United States will this afternoon ho'd its fifth annual meeting for the decision of the field and track championships of America one Manhattan Field. This meeting is always the most important athletic event of the year. The championship programme includes seventeen events, as follows: One hundred and 220 yards dashes; quarter, halt one and five mile runs; one and three mile walks; 120 and 220 yards hurdle races over 3 ft 6 in and 2 ft 6 in hurdles respectively; two mile bicycle race; running broad and running high pumps; pole vaulting, pulling 16 pound shot and throwing 16 pound hammer and 56 pound weight. For the first time in years it is believed the championship will be wrested from New York clubs. Harry Jewett, of Detroit who is credited with running 100 yards at Cleveland in 9 4-5 seconds will probably beat the New York crack. Tommy Cawnell is looked upon generally as the winner of the one mile run. In the bicycle class Zimmermann the Eastern crack, will of course contest, but if Johnson, of Minneapolis, who made the flying start, in 1:56 at Independence, Ia., competes Zimmerman's laurels will be wrested from him. Philladelphia expects to capture the ormer events and Chicago athletes are looked upon as sure winners in the hurdle races. Two hundred athletic clubs of the country have representatives here and the hope of all now is that the weather this afternoon will clear off. The visiting athletes are guests at the New York and Manhattan athletic club houses.

The English Want Protection.

LONDON, Oct. 1.—The Times opened its columns to a controversy on the depression in wheat. M. J. Sutton, a noted agriculturist, furnished a letter in which he claims that if England makes a step towards free trade, agriculture, as the largest English industry, ought to be the first to be protected. Sutton contends that wheat growing in England cannot pay the farmer without protection. The radical politician, Walter Wren, contends that England now is unsuitable to growing wheat and potatoes on account of competition with more favored countries. He says the farmers should have recourse to dairy produce, fruit and vegetable produce. Wren quotes from the Times' statement that American wheat is of a better quality and brings a better price than English wheat.

Formally Opened in New York Tonight.

The exposition embraces everything fed to the human stomach, alcohol and medicines barred. The electric effects are superb. All the arches are outlined with colored electric lights, and in one of the booths five hudred electric globes change into every imaginable form moment to moment. Among the exhibitors is Vice President Morton, ten of whose prize Guernsey cattle are on view in the basement where the agricultural part of the great show is in progress. The music druing the continuance of the exposition will be by the great Seidl orchestra. Between times each afternoon Miss Parloa is to deliver lectures on healthful cooking. It is a veritable carnival of grub, for many of the two hundred exhibitors have spent as much as $5,000 on single displays. All told, fifty thousand electric globes illuminate the garden. A windmill with a great flash light will add to the brilliancy of the illumination. One portion of the hall will be devoted to growing food plants, showing processes of manufacture in each article. In the dairy department California has sent a rare display. Louisiana has a sugar cane exhibit and the product of every state in the Union finds some examplification here. The exposition is without a parallel.

The Train Robbers Seen.

STOCKTON, Cal., Oct. 1.—W. D. Wright, of Toulumne, was in town and claimed to have seen Evans and Sontag on Thursday. Wright claims to be a rancher on the road between Toulumne City and Grayson. He says: "Evans and Sontag came to my house yesterday morning about 10 o'clock. They were on horseback, and came from the south. The animals seemed blown, and had evidently had hard work. Evans approached me and asked if I could give them something to eat. He wore two revolvers in his belt, and had a pack slung over his back. Sontag was similarly accoutered, and had a cloth-covered canteen of water besides. In reply to their request for food, I invited them into the house and had my wife cook some breakfast. Before eating, Sontag took the horses into the barn and fed them. From their conversation it seemed that they are making for some pass in the Coast range and from there will go to San Francisco and leave the country by boat. The men made a hearty meal, and then asked for a bed. Evans kept watch while Sontag slept, and vice versa. They remained at my place for over two hours and seemed as unconcerned as possible, though always on the alert and watchful for an atack. When they left the house they forced me to take my wife and children to a room in the second story which has no window and lock them in. Then I was made to accompany them some few miles along the road to the Northwest. About three miles from my house they took me into a field and tied me to a tree, saying: 'We are sorry to do this, but doubtless you will be found in a few hours.' With that they left me and rode off. Evans had his left arm bound up with strips of his shirt at a point just below the shoulder He had seemingly been wounded in the last meeting at the cabin. It must have been another two hours before I could get loose, and I came at once to Stockton to notify Sheriff Cunningham."

Suicide at Jacksonville.

JACKSONVILLE, Or., Oct. 1.—S.E. Day, 13-year-old son of ex-County Judge Silas J. Day, of Jacksonville, committed suicide yesterday by blowing the top of his head off with an old musket, at Jacksonville. The boy had been attending school, and yesterday played truant and went to Central Point fair. His father had promised to allow him to attend the fair today with the family, but learning of his running away yesterday thought to punish him by compelling him to stay at home. The boy then wanted to go hunting, but his mother forbade, and gave him work to do at home. Soon the boy was missed, and search revealed him at the barn, near the house, dead, he having taken an old-fashioned musket, placed the muzzel near his head and discharged the weapon with his foot, literally blowing his head off.

Deafness Can't be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circular, free. F. J. Cheney & Co., Toledo, O. Sold by druggists, 75 cents.

Saved His Child's Life.

A. N. Dilferbough, York, Neb., says: "The other day I came home and found my little boy down with cholera morbus, my wife scared, not knowing what to do. I went straightway and got a 25 cent bottle of Chamberlain's colic, cholera and diarrhoea remedy, and gave it according to directions. You never saw such a change in a child. His limbs and body were cold. I rubbed his limbs and body with my hands, and after I had given him the second dose he went to sleep, as my wife says, "from a death bed he was up playing in three hours." It saved me a doctor bill of about three dollars, and what is better, it saved my child, I can recommend it with a clear conscience." For sale by Basket & VanSlype.
