Destitution in Hamburg.

HAMBURG, Oct. 8 .- The police have refused to allow the keepers of small shops to hold a meeting to consider the precarious condition of their affairs. More than 3000 men had responded to the call. The city government fears that the bitterness and distress of the tradesmen will lead to violent scenes and perhaps riot, and is unwilling to risk the danger that the starving workmen might be aroused to action by the

example. Today there were 32 fresh cases of cholers, 11 deaths and 123 burials in the city. In the hospitals there are 761 patients. The number of burials in last August and September exceeds the number in August and September, 1891, by 10,505.

Mexico and United States United by Railroad.

Oxica, Mex., Oct. 8 .- The Mexian Southern railroad was opened up to this city yesterday, giving for the first time rapid and direct communication with the City of Mexico and the United States. The province of Mobica is the finest and most fertile agricultural district in the republic, and already many American firms have established agencies here. Work on the branch of the Mexican Southern from this city to Tehuantepec is being pushed rapidly and it will be opened within a few months, giving direct communication with the Pacific coast.
