

THE COLUMBIAN ORATION.

Delivered at the Dedication Ceremonies of the WORLD'S FAIR AT CHICAGO.

By Chaucey M. Depew.

CHICAGO, Oct. 21.—(By Associated Press.)—This day belongs not to America, but to the World. The results of the event it commemorates are the heritage of the peoples of every race and clime. We celebrate the emancipation of man. The preparation was the work of almost countless centuries, the realization was the revelation of one. The Cross on Calvary was hope; the cross raised on San Salvador was opportunity. But for the first, Columbus would never have sailed, but for the second, there would have been no place for the planting, the nurture and the expansion of civil and religious liberty. The spirit of the equality of all men before God and the law, moved westward from Calvary with its revolutionary influence upon old institutions, to the Atlantic ocean. Columbus carried it westward across the seas. The emigrants from England, Ireland, Scotland and Wales, from Germany and Holland, from Sweden and Denmark, from France and Italy, have, under its guidance and inspiration, moved west, and again west, building states and founding cities until the Pacific limited their march. The exhibition of arts and sciences, of education and civilization, which the Republic of the United States will here present, and to which, through its Chief Magistrate, it invites all nations, condenses and displays the flower and fruitage of this transcendent miracle. * * *

life. The tomb of the Saviour was a narrow and empty vault, precious only for its memories of the supreme tragedy of the centuries, but the new continent was to be the home and temple of the living God. The grandeur and beauty of this spectacle are the eloquent witnesses of peace and progress. The Parthenon and the cathedral exhausted the genius of the ancient, and the skill of the medieval architects, in hounding the statue or spirit of Deity. In their ruins or their antiquity they are mute protests against the merciless enmity of nations, which forced art to flee to the altar for protection. The United States welcome the sister republics of the Southern and Northern Continents, and the nations and peoples of Europe and Asia, of Africa and Australia, with the products of their lands, of their skill and of their industry to this city of yesterday, yet clothed with royal splendor as the Queen of the Great Lakes. The artists and architects of the country have been bidden to design and erect the buildings which shall fitly illustrate the height of our civilization and the breadth of our hospitality. The peace of the world permits and protects their efforts in utilizing their powers for man's temporal welfare. The result is this Park of Palaces. The originality and boldness of their conceptions, and the magnitude and harmony of their creations are the contributions of America to the oldest of the arts and the cordial bidding of America to the peoples of the earth to come and bring the fruitage of their age to the boundless opportunities of this unparalleled exhibition.

THE DEDICATION

Of the World's Fair Buildings.

Great Parade of National and State Troops.

CHICAGO, Oct. 21.—[Special.]—The quadricentennial anniversary day of America's discovery is ushered in with the booming of cannons, with the raising of flags and with all the ceremony due the great day. It is the second of Chicago's public holidays and the climax of its week's festivities. Never in the history of the Garden City has so great a throng been within its boundaries, and never has it sheltered so vast a host of prominent men, representing every state in the Union, the nation and every civilized country on the face of the globe. The civic parade of yesterday pales into insignificance beside the great pageant which is moving through the great thoroughfares of the world's fair buildings.

The one effort of the director-general and his aides has been directed to lessening the crowd which will throng into the Manufacturers' Building to listen to the services. If two thirds of the invitations are accepted, there will be over a hundred thousand there. To avoid this awful crush, all those not using their invitations will be given free admission on the opening day, in May. The crowd has, however, been streaming to the ground since an early hour this morning and as the train facilities are announced to be about 7,500 an hour at present, it will be seen that the visitors will not all get there till very late in the day. The troops taking part in the parade today were quartered during the night in the Electricity Building and in the annex to the Transportation Building.

This procession, escorted by the United States cavalry and light artillery, proceeded south on Michigan avenue to Twenty-ninth street, where it received the President of the United States, after which it proceeded south on Michigan avenue to Thirty-fifth street, thence east on Thirty-fifth street to Grand Boulevard, thence to Washington Park, where it formed in parallel lines on the west side of the parade grounds of the park.

When forming at the Auditorium, the troops acting as escorts to governors of states and territories, accompanied them from the Auditorium to Washington Park, and took their position in rear of the staff of the Governor whom they escorted, and when the line of march had been taken up, proceeded in their proper position. The national and state troops had formed in the meantime by brigades in the field at Washington Park. As the Vice-President approached the ground, the President's salute was fired, and on taking his position opposite the center of the line, the commands changed direction by the left flank, forming columns and passed in review in the usual order, except that the distance in column was in mass. The "present" by the command and the ride around the line was dispensed with, owing to the limited time. The troops having passed in review, were then the escort of honor for the entire procession, and continued the march via Fifty-seventh street, to the exposition grounds; thence to the manufacturers' and liberal arts building, where the troops took position assigned them, the officials occupying the platform prepared for them.

place at the Manufacturers' Building. At 12:30 o'clock in the afternoon the dedicatory exercises were conducted under the direction of the Director-General as master of ceremonies, according to the following programme:

The military procession formed near the Auditorium on Michigan avenue, and proceeded as follows:

Tender of the building on behalf of the World's Columbian Exposition, by the president thereof, to the president of the World's Columbian Commission.

PARADE IN CHICAGO.

CHICAGO, Oct. 21.—At four o'clock this morning, cannons out in the darkness on Lake Front were set booming. As dawn broke the skies cleared, and the sun broke bright and red over the eastern lake horizon, bringing assurance to the assembled thousands that we should see and hear and shout and go away rejoicing. Business houses closed, and everybody was about early to participate in the exercises. Soon after eight this morning, it was a clatter of hoofs and clank of side arms along Michigan avenue. Troops of United States cavalry, from military camp in Washington Park, were on their way to Auditorium to escort notable guests to dedicatory ceremonies at Jackson Park seven miles away. Behind, galloping troops came pounding along the great avenue, batteries of United States artillery. Taking position near Auditorium, these regulars awaited appearance of the notables upon whom they should attend. Shortly after, troops of beautifully mounted richly uniformed cavalry men from the state of New York clattered in from a side street took position as escort to governor Flower. These were followed in turn by state militia men from Pennsylvania and other states as escorts to their respective governors. At nine o'clock, distinguished men of the occasion entered carriages and started for the fair grounds. As federal representatives neared the park, presidential 21 guns were fired by the artillery, while troops stood at present arms. The military display was most imposing.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Dan'l. J. Fry's drug store, 225 Com'l. St.

Albany Democrat—A tall, keen witted son of Erin's Isle who lives in the foot hills stalked into the Democrat office a few days ago and in a very intense way asked: "Is that so about Pennoyer leaving the Democratic party?" We informed the impulsive Celt that it was so, but we said apologetically that the governor insists that he has not left the party, but that the party has left him. Quick as lightning the response came back: "Surely he is a mighty bad man if the whole democratic party deserted him." The Democrat man concluded that if any further remarks or apologies were needed the governor must supply them, himself.

at conclusions, are generally "off their base." Because there are numberless patent medicines of questionable value, it doesn't follow that they are worthless. Don't catch Dr. Sage's Catarrh Remedy with the usual run of such remedies. It is way above and beyond them! It is doing what others fail to do! It is curing the worst cases of Chronic Nasal Catarrh. If you doubt it, try it. If you make a thorough trial, you'll be cured. \$500 forfeit for an incurable case. This offer, by World's Dispensary Medical association, Buffalo, N. Y. At all druggists; 50 cents.

Keep off the Enemy.

A foe who lurks in ambush is a more dangerous antagonist than the one who attacks us in the open field, and for whose presence we are in a measure prepared. That dangerous enemy is health. Health must be encouraged fully, and its strength must be maintained, and it can only be guarded against with certainty by fortifying the system by a course of defensive medicine, the surest defense against chills and fever, biliousness, dizziness and ague, is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a powerful and reliable agent of the most ordinary specific, and the virus of which remains in the system even after the more violent symptoms are subdued. Constipation, liver complaints, dyspepsia and kidney troubles are always relieved by this gentle remedy.

SCROFULA.

It is that impurity of the blood which produces unsightly lumps or swellings on the glands of the neck; causes painful running sores on the arms, legs, or feet; develops ulcers in the eyes, ears, or nose, often ending in blindness or deafness; is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "Humors;" and fastening upon the lungs, causes consumption, and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can CURED It Be?

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of the cases are so really wonderful, if you suffer from scrofula or impure blood, be sure to try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with scrofula, causing breakings out on them in various places. My children, too, have been afflicted. My wife, a terrible sufferer. Last spring he was one mass of sores from head to feet. I was advised to use Hood's Sarsaparilla, and we have all taken it. The result is that all have been cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy." W. B. ATKINSON, Passaic City, N. J.

After search had been made for the body, but without success, the man's shirt, which he had laid aside when he went in to bathe, was spread out on the water and allowed to float away.
