JAPANESE WAR VESSEL SUNK

She Collided With an English Man of War—275 Lives Lost. LONDON, Nov. 30.—A dispatch from Nagasaki, says the Japanese war vessel Chishimaru, bound from France to Japan, sunk in a collision in the inland sea, with the British steamer Raranga. The latter was badly injured, and the passengers were transferred to the steamer Empress of Japan, bound for Shanghai. It is reported that the crew of the Japanese war vessel, numbering 275, were lost.

COM. RAUM'S REPORT.

More Statistics of Pensions and Pensioners.

WASHINGTON, D. C., Nov. 30.—The annual report of Commissioner of Pensions, Green B. Raum, shows there were on the pension rolls June 30, last, 876,069 pensioners; increase during the year 199,908, there were added to rolls during the year 222,937 new pensioners and 2477 pensioners previously dropped were restored to pension lists.

During the year 25,346 pensions were dropped from the rolls. The total amount expended for pensions during the year was \$139,035,612. For the present fiscal year \$144,956,000 is appropriated and the commissioner estimates a deficiency in appropriation of \$10,508,621 will be necessary to supply needed funds. An estimate of \$165,000,000 is submitted for the next fiscal year. The commissioner says, however, if as many pension allowances are made this year as last this will not be enough. Under dependent and disability acts 920,958 claims were filed, of which 403,859 have been allowed. Pension payments under the law, to September 30 amounted to \$76,494,443. The commissioner heartily commends the disability act.

THE SESSION OF CONGRESS.

President Harrison Preparing His Message—It Will Be Short.

WASHINGTON, D. C., Nov. 30.—President Harrison, in view of the exigency of a near approaching session of congress, called a special meeting of the cabinet today, to consider recommendations in his message. It is now his intention to merely touch on one or two points which he had in mind to elaborate, and to expect to have the document ready for presentation to congress Tuesday. The Behring sea case and the financial outlook was also considered at a cabinet meeting today.

There were 336 delegates when the convention was called to order. Oregon is represented by R. S. Howard and H. E. Dorch, both of Portland. The principal business of the morning is the appointment of a committee on credentials and a recess taken.

BOLD ROBBERY AND ARSON.

Store at Cornelius Broken into and Burned.

PORTLAND, Nov. 30.—News reached here that the general merchandise store of R. McNutt & Son at Cornelius, Oregon, was broken into early this morning by burglars, who after securing about \$150 in cash set fire to the store which was totally destroyed. The burglars were two in number. After setting fire to the store they mounted a hand car and rode to Beaverton where they took to the woods. They are being closely pursued. McNutt's loss is about \$10,000.

Is Jay Gould Dead?

NEW YORK, Nov. 30.—A report was started in Wall street this afternoon that Jay Gould, who has been ill at his residence, was dying. A subsequent rumor had it he was dead. The rumors are not generally credited and had little effect on the market.

Kolb's Nerve Fails Him.

MONTGOMERY, Ala., Nov. 30.—Alliance candidate for governor, Kolb, has decided not to attempt to be sworn in as governor tomorrow, therefore there will be nothing to disturb the inauguration of Governor Jones, Democrat.

THE HERESY TRIALS.

Proceedings in the Briggs and Smith Cases.

NEW YORK, Nov. 30.—The presbytery yesterday resumed the trial of Prof. Briggs. The floor was at once accorded to the prosecuting committee to state its position on Prof. Briggs' objections to the charges and demand that numbers 4 and 7 be stricken out. Col. McCook read an opinion of the committee on the motion, and urged that the two charges could not be dropped. In charge 7, Col. McCook said Briggs' answer was irrelevant, because, although he had affirmed before the professors of Union seminary that he believed that one who died impenitent was forever lost, he had since promulgated his theory of progressive sanctification in his inaugural address, and it was on this address that the charge was founded. The fourth charge could not be dropped, because Dr. Briggs' denial of the fulfillment of the details of prophecy was a denial of the truthfulness of the bible and impeachment of the omnipotence of God. After further discussion, a vote on Dr. Alexander's motion to strike out charge four was taken. The motion was carried by a decided vote, 70 to 49. The seventh charge suffered the same fate by about the same vote. Col. McCook asked that an exception to the court's action be tendered on the record in behalf of the prosecuting committee.

REV. PRESERVED SMITH.

CINCINNATI, Nov. 30.—A vote was taken on the question of sustaining the sufficiency in form and legal effect of the third charge against Prof. Smith. It was sustained, 40 to 22, but the vote showed that two members of the court, Rev. Hugh Gilchrist and Rev. C. E. Walker, had come over to the side of the accused. Walker, in discussing the matter, said if all ministers holding Smith's views are to be subjected to trial, the presbytery will have enough heresy trials to keep it busy for three years. The court is now ready for the formal trial.

FINANCIAL NEWS.

Bimetallistic Plans—Rothschild's Wise Compromise.

BRUSSELS, Nov. 30.—Professor Soetber's plan is to establish one gramme as an international unit of value, and stop the minting of coins containing less than 5.8065 grammes of pure gold. The circulation of the coin of foreign countries of less than the new standard will be prohibited by the countries signing the agreement, and gold coin of inferior value will be withdrawn within five years. Private individuals will be allowed to coin gold upon payment of the required seigniorage. Gold certificates may be issued against the gold held in reserve. Soetber's plan also includes the coinage of silver in the proportion of 20 value units of that metal to one of gold, but private individuals will not be allowed the free coinage of silver.

An English View.

LONDON, Nov. 30.—Referring to the proceedings of the monetary conference, the Daily News says: "Rothschild's plan, which seems to have saved the conference from collapsing, turns out to be a mild palliative and in no wise heroic. Theoretically it would be best to let silver alone, but when we find Rothschild trying tooth and nail to prevent a collapse of the conference, it may be supposed that such a result would be disastrous. We cannot suppose it will be remotely suggested that 25 notes will be made redeemable in silver. The most striking part of the plan is the implied belief of first class financiers that unless something is done America will discontinue the purchase of silver. America is, perhaps, the richest country in the world and cannot be ignored. Were she to sell silver we might be compelled to close the Indian mints, and even then we might be terribly hampered if America raised a big gold loan. It is not to England's interest to precipitate a currency crisis in America. The disturbance of trade would amount to a catastrophe."

GLADSTONE'S PLAN.

LONDON Times Portrays the Inexpediencies of Home Rule. NEW YORK, Nov. 30.—The Times prints a complete outline of what purports to be the plan Mr. Gladstone proposes to offer to the British house of commons as a solution of the problem of Ireland's self-government, which has confronted the English government for so many

years. The details as they are presented, the Times says, may be accepted as authentic. They were published Monday in the Baltimore Sun as the "views of a leading thinker." The Times has received assurance that they are Mr. Gladstone's ideas and that he will submit them in the home-rule bill which he is now framing. This assurance comes through an autograph letter written by a gentleman who is very close to a prime minister. The plan and the arguments to sustain it are substantially as follows:

THE GREAT CANAL.

Government to Be Asked to Shoulder the Load.

NEW ORLEANS, Nov. 30.—The national convention in the interest of Nicaragua canal opens here today. The convention is the outgrowth of the movement inaugurated in the interest of the Pacific coast. The general idea is to induce congress to recognize the canal company by guaranteeing its paper and extending government protection over it to prevent any foreign interference in its management detrimental to American interests. This course urged is not at the instance of the canal company, which thinks it can raise the necessary amount for construction, \$100,000,000, but on the general ground that this country should control in its management. The bill to that end is now pending in congress.

A Double Killing—Several Shooting Affairs, Etc.

LOUISVILLE, Ky., Nov. 30.—Near Enterprise, Carl Burgham killed his wife by cutting her throat. He then blew out his own brains. KILLED AND WOUNDED. CALIENTE, Cal., Nov. 30.—News is received of a tragedy at Kernville, growing out of claims to a rich gold mine recently discovered there. The Gibson brothers, who discovered the mine, gave a half-interest therein to the Burton brothers on condition that the latter would develop the mine. It is claimed the Burton boys took out papers alleging sole ownership and took possession of the claim. On Sunday evening the Burtons were shot from ambush by unknown parties. Fletcher Burton was killed and his brother mortally wounded.

Shooting Scrape.

SAN FRANCISCO, Nov. 30.—James Fogarty, a gardener by occupation, fired two shots at George Sent last night, one of which took effect in the latter's left thigh. He then sent a bullet through his own head, inflicting a mortal wound. The shooting took place on the street and Sent was unaware of his danger. Fogarty left a letter addressed to the public press, charging William Sent, father of the injured man, with having led him (Fogarty) into a speculation in mining stocks whereby he lost \$2400. Fogarty some years ago was in the employ of Sent, who at that time was president of the Bodie Mining company. Sent denied that he induced Fogarty to purchase stock, or that he ever had any of the latter's stock in his keeping.

Coleman Assaulted.

TACOMA, Nov. 30.—Thomas Coleman alias Thos. Geoghegan, who at one time was suspected of the murder of Dr. Cronin, at Chicago, came here Sunday night en route East. When the train arrived, brakeman Guy struck Coleman over the head with a lantern because he wouldn't wake up, inflicting a scalp wound an inch and a half wide. Coleman rushed from the car as the train drew in the station with blood streaming from the wound. Yesterday he called on a prominent legal firm in Seattle, and asked them to bring suit against the Northern Pacific for damages. He says the brakeman knew his identity and wanted to kill him. He was badly scared, and seemed to be expecting another assault. The brakeman was discharged.

Long Island Buried.

LONG ISLAND CITY, Nov. 30.—There has been the heaviest snow storm on Long Island since the blizzard of 1888. The fall being 18 inches to two feet. Heavy drifts in many places impede travel. All trains are delayed or snowed in. Those from Sag Harbor, are missing. Nothing can be heard from them, as the wires are all down, over the entire island. Drifts are packed hard by the terrible winds.

Mrs. Mary E. O'Fallon of Piqua, O., says the Physicians are Astonished, and look at her like one

Raised from the Dead

Long and Terrible Illness from Blood Poisoning

Completely Cured by Hood's Sarsaparilla. Mrs. Mary O'Fallon, a very intelligent lady of Piqua, Ohio, was poisoned while assisting physicians at an autopsy 5 years ago, and soon terrible ulcers broke out on her head, arms, tongue and throat. Her hair all came out. She weighed but 78 lbs., and saw no prospect of help. At last she began to take Hood's Sarsaparilla and at once improved; could soon get out of bed and walk. She says: "I became perfectly cured by Hood's Sarsaparilla and am now a well woman. I weigh 128 lbs., eat well and do the work for a large family. My case seems a wonderful recovery, and physicians look at me in astonishment, as almost like one raised from the dead." Be sure to get Hood's.

DUMMIES FOR DRESSES.

Figures of Zinc That Enable Women to Become Their Own Dressmakers. Half a dozen ladies were standing outside of a doorway on a down town business block. Two or three of them were rather slenderly built, while the others were inclined to stoutness. Although they remained there together for several hours, none of them said anything. This was probably because they had no heads. In fact they were made of zinc as far down as just below the hips, while beneath there was nothing at all except an iron stick for each one, with a base to stand upon. It was evident that they were dressmakers' dummies.

Deafness Can't be Cured.

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circular, free, F. J. Cheney & Toledo, O. American Cholera.

From the Daily Revue, Whatcom, Washington: "T. C. Burnett, the Democratic candidate for sheriff, was taken violently ill at Clearbrook. He had all the symptoms of Asiatic cholera, and for an hour or two it was feared he would die. They finally gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which revived him until a physician arrived." That is precisely what the manufacturers of that medicine recommend for cholera. Send for a physician, but give their medicine until the physician arrives. If cholera becomes prevalent in this country next summer this preparation will be in great demand because it can always be depended upon. For sale by Baskett & Van Slype.

A Tremendous Rumpus

In the system is produced by a disorderly liver. Bile gets into the blood and gives a ruffian look to the countenance and excitable, sick headache ensues, the digestive organs are thrown out of gear, the bowels become constipated, there are pains through the right side and shoulder blade, the breath grows sour and the tongue furred, dizziness is frequent, especially on rising suddenly. This state of affairs could not exist unless the disturbance were a serious one. Yet it is easily remediable with Hostetter's Stomach Bitters, which relieves every symptom of biliousness and indigestion, promotes a regular action of the bowels, and is auxiliary of appetite and debility. A wineglass full three times a day.
